It is known that Mr. Mason, our Minister to France, is desirous of retaining his position, more on account of his family's preference to remain abroad than his own, and that his resignation would long ago have been acceptable to the President. The rumor, however, that Senator Slidell will be his successor, is generally credited, although the truth of the report is not placed beyond doubt.

FROM UTAH.—The San Francisco papers have substantially the same news from Utah that have been received at St. Louis. The following letter to the Alta California, is dated Salt Lake City, May 10:

"Great excitement exists in this city, and a collision is anticipated. The Mormons have been drilling for weeks, and have got bodies of armed men out in various directions through the country; the mountain heights are prepared with signal fires, to telegraph at any moment. The Governor, yesterday, issued a proclamation for them to disperse, and in case they should not do it, the troops will doubtless have work to do.

LATE FROM KANSAS.—Advices from Kansas say Douglas county elected seven Republican delegates to the Constitutional Convention; Bourbon and Lykins each one Republican and one Democrat; Atchison and Riley have each small Republican majorities; Johnson and Wyandotte small Republican majorities; Lawrence 400 Republican majority.

☞ The Emperor of Russia has presented to Mrs. Hudson, wife of Com. H., a magnificent diamond cluster brooch, valued at $5000, as an acknowledgment of the courtesies extended by Capt. Hudson, when in command of the Niagara, to several Russian officers, who were on board the ship when she was engaged in laying the Atlantic Cable.

☞ The Portland Advertiser states that a grand Musical Convention, to be composed of the first musical talent of Maine, is to be held in Portland some time during the summer.

☞ The butchers of New Orleans pay to the city $250,000 in market fees every year.

Oleine Diamond Oil.
GREATEST ILLUMINATOR OF THE AGE.

This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.
It burns in the common oil lamp, with or without a chimney.
The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this Oil:
1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, hence it is portable.
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.
Price $1.25 per gallon.

THE
GROVER & BAKER
SEWING MACHINE COMPANY,
No. 18 Summer Street, Boston,
Having greatly increased their facilities for manufacturing their
CELEBRATED FAMILY MACHINES,
with all the recent improvements, have reduced their prices, and offer for sale
A NEW STYE MACHINE,
PRICE FIFTY DOLLARS.
MACHINES FROM $50 TO $125.
HEMMERS, $5 EXTRA.
It is no longer questioned that these Machines are the best in use for family sewing. They
HEM, FELL, GATHER, AND STITCH
in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which
A CHILD OF TEN YEARS
may readily learn how to use them, and keep them in order. They make upwards of
FIFTEEN HUNDRED STITCHES A MINUTE,
and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of
ONE CENT AN HOUR!
Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.
We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.
FRANK W. MILLER.

PORTSMOUTH, April 12, 1859
Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."

Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."

Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."

GOOD FOR KIDNEY AND BLADDER COMPLAINTS,
and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spirituous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.
Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is floooded with them.

TO THE PUBLIC.
I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world.*
UDOLPHO WOLFE.
CHEMICAL TESTIMONY.
D. Jose Luis Casaseca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, and of Physic and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M.'s Director of the Institute of Chemical Investigation, &c., &c.
Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—
Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balsium maria, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 90 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not mill the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.
From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Deetjen (of Bremen), as residuum after evaporation by steam, a substance almost insipid and very trifingly aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior." Messrs. Tracner have furnished me with a very small quantity of a greenish substance, of harsh metallic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.
I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. JOSE LUIS CASASECA.

Morning Chronicle.

☞ On the 27th ult., Madame Frezzolini was in London en route for the United States. The Spectator says that the great cantatrice has refused the most liberal offers at Paris, at St. Petersburg, and at Rio Janeiro, preferring a more independent and less laborious career in America. She has been singing in Paris the past season with what the Musical Journal of France calls a "desperate perfection," and in all the elements of a great artiste La Frezzolini is still unrivalled. Her Leonore, in the Trovatore, in the opinion of Verdi, has never been approached by any other artiste.

A CRACKED COMMANDMENT.—We heard a suggestive expression related the other day of a very little girl, who was taken by her mother into a shop, where a tempting basket of oranges stood exposed for sale. While her mother was engaged in another part of the room, the little one feasted her eyes on the fruit, and nursed the temptation in her heart, till it grew too strong to be resisted, and she hid one of the oranges under her apron, and walked quickly away. But conscience remonstrated so strongly, that after a little reflection she walked as quickly back, and as slyly replaced the orange in the basket. Again the forbidden fruit out of her possession, presented its tempting side, and again she yielded. After a sharper conflict than before, conscience gained a second victory, and the almost stolen orange was again taken and finally restored. With a saddened countenance she walked home with her mother, and when they were alone, burst into tears, exclaiming, "Oh, mother, I cracked one of the commandments! I didn't break it—Indeed, I didn't break it, mother—quite—but I'm sure I cracked it."

We shall never again see a piece of doubtful conduct, without thinking there's a commandment cracked.

☞ It is stated that Byers, who was executed at Welland, last week, a few days previous to his execution offered a physician the privilege of taking his body after death, for the sum of ten dollars. The offer was accepted. The money was remitted to his wife, but the poor woman refused to receive it.

The Arizonians threaten to dissolve the Union. We hope they'll take time, and think the matter over, before proceeding to extremities; not that they have anything to fear, but for pity of the rest of the country. The silver territory ought to recollect that if words are silvern, silence is golden.

☞ The Journal of Commerce is decidedly of the opinion that neither Mr. Seymour nor Mr. Dickinson is seeking the democratic Presidential nomination, and says that the New York democracy will have no candidates before the Charleston Convention. The contrary impression, however, appears to prevail extensively.

A man was cured of hydrophobia in Italy lately, by swallowing vinegar by mistake for a medical potion. A physician at Pauda heard of this and tried the remedy on a patient; he gave him a pint of vinegar in the morning, another at noon, and a third at sunset, which cured him.

☞ The Slaveholders' Convention in Baltimore, so called, was really a convention to regulate the free negro population in the State. The city and county of Baltimore, in which a large proportion of the free colored population reside, refused to be represented in the convention.

☞ The Austrian General Benedeck, who was wounded in the thigh, near Casale, and was obliged to have his leg amputated, has died of the operation. It was whilst superintending one of the unsuccessful attempts to cross the Po at Frasinetto that he was wounded.

☞ The Louisville Journal says that on Monday evening a terrific descent of gnats was made on that city. Places of amusement were rendered unbearable. Gnats were showered on the hotel tables till the lights in the chandeliers had to be extinguished. Eyes, ears and mouths, were exposed to the annoyance.

☞ The Washington Constitution denies that there is any truth in the report, circulated by a New York paper, of frauds in the Post Office Department by the use of counterfeit stamps. Such a fraud, to any extent, is an impossibility.

☞ The New Orleans Picayune thinks the new issue of the re-opening of the slave trade, introduced by the late Vicksburg Convention, is destined to divide the South unless it be speedily put to rest.

☞ A correspondent of the Boston Traveller asserts that out of 600 signatures to the petition that obtained the appointment of the Salem Postmaster, from four to five hundred were actual forgeries.

☞ A fellow living near Evansville, Ind., killed himself, a few days since, by drinking forty-five glasses of lager beer in quick succession.

☞ Persons at work in the Vermont gold mines are said to be making from $2 to $3 per day. One man found a "lump" worth $62.

☞ At a large fire in Rivingston street, New York, Friday night, a steam fire engine belonging to Manhattan Company No. 8 was present and did good service.

☞ It snowed in Alleghany county, New York, on the 4th inst. That is in the latitude of Cape Cod.

HYPOPHOSPHITES

OF LIME, SODA AND POTASH,

Originally discovered and prescribed by him as a Specific Remedy for

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENT VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America, and established the claim of the discoverer, that they are a SUE PREVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In *most instances* the benefit derived from it FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * Out of twenty-two cases *in the third or last stage*, treated at my Dispensary during the past year, EIGHT HAVE completely recovered, eight have died, and six are still under treatment. AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, under the act of 1837.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to act as Agent in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and Papers of Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents throughout the world, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as a GOOD ASSORTMENT OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate, or the immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him, he believes, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON, Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to secure their patents, and to be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, as agent of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his FAVOR, by the Commissioner of Patents. R. H. EDDY.

The Liver Invigorator.

PREPERED BY DR. SANFORD,

COMPOUNDED ENTIRELY FROM GUMS, and the most PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

Only one dose taken is needed to throw out of the system the effects of drinking after a long sickness.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

One bottle taken removes all sallowness and unnatural color from the skin.

Only one dose taken at night, loosens the bowels gently and cures CONSTIPATION.

One dose taken before each meal will cure DYSPEPSIA.

One dose taken at night, and a few doses after, will cure SICK HEADACHE.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose taken before each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the refinement to make known their positions, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are described persons he holds as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictious remedies, at the expense of destroying what is the great pillar of life, a healthy constitution.

The medicine can only be obtained at the office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by unprincipled pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country by directions. Remember the number—13 Howard street, Boston.

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; stops the hair from falling, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fail or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all nostrums and patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without proof, may be deterred from trying it aside, are willing to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color, and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 15, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when a child, and quite gray. I have used two bottles of Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. BIDDLECOMB.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving it beneath. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

R. E. THOMAS, M. D.,

No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the last holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

YOU HAD BETTER TRY

MY MOTHER'S SALVE

This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for the GREAT CURES it performs, properties, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.

"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.

"My Mother's Salve" in a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.

"My Mother's Salve" is worthy of confidence, and thousands having used it, can recommended it to their friends is a test of its worth.

Directions for using **"My Mother's Salve"** are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other severe pains, rub the parts nearest with Salve. In cases of Cough, tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A.M.Beck.

SARZA.—We have long supposed this celebrated drug, had come to be an exploded humbug, but we are assured by those skilled in the healing art, that not the Sarsaparilla itself is to be blamed for this conclusion, but the miserable worthless preparations of it, that have been palmed off upon the community—preparations which contains about as much of its virtues as they do of gold dust. It is a commercial fact that almost all of the Sarsaparilla gathered in the world, is consumed in the old countries of Europe, where the science of medicine has reached its highest perfection, and where they know the best what to employ for the mastery of disease. Hence we are glad to find that we are now to have a compound of this excellent alterative, which can be relied on, and our community will not need be assured, that any thing DOCT. AYER makes, is worthy of their confidence. He has been for years engaged in eliminating this remedy (see adv'g cols.) designing to make it his "*chef d'oeuvre*' which should add the crowning glory to his enviable reputation.—*American Cell, New York.*

☞ The use of coal to propel locomotives on railroads, has become a "fixed fact." It is only a few years since it was first tried on the Boston and Providence road, and it has been found to cost less than half as much as wood, and to have other advantages also. There are said to be 150 locomotives in the country now using coal; and the economy will lead to its use over the whole country.

Barnum's creditors don't appear to think that great "failure" of his was total, so to speak, when they refuse 75 per cent. on unsecured paper to the amount of $23,000; or else they have pretty strong confidence in his future prospects. Which is it? Perhaps both.—*Post.*

☞ A letter from London says—"Money is a drug." No objection to taking a little, if it be.

The Liver Invigorator.
PREPERED BY DR. SANFORD.
COMPOUNDED CHEMICALLY FROM GUMS, is one of the best PURGATIVE and LIVER MEDICINES now before the public.
These GUMS remove One dose often repeated, a cure for all morbid or bad matter from the system, supplying to their place a CHOLERA MORBUS, and healthy flow of bile, invigorating the stomach, a preventive of CHOLERA. causing food to digest, Only one bottle is needed to throw out of the system the effects of a WEEK'S DRINKING, removing the medicine after a long cause of the disease—of sickness. feeling a radical cure. One bottle taken for BILIOUS ATTACKS are JAUNDICE removes all cured, and, what is better, sallowness or unnatural prevented by the occasional use of the Liver color from the skin. Invigorator. One dose taken a short time before eating gives vigor to the appetite and makes the food digest well. One dose taken at night, loosens the bowels gently and cures CONSTIPATION. One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose. A few bottles will cure DROPSY by exciting the absorbents. We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS character. It operates with certainty, and thousands are willing to testify to its wonderful virtues. One dose taken after each meal will cure DYSPEPSIA. One dose of two teaspoonfuls will always relieve SICK HEADACHE. Only one dose immediately relieves COLIC. All who use it are giving their unanimous testimony in its favor. Mix water in the mouth with the Invigorator, and swallow both together.
PRICE, ONE DOLLAR PER BOTTLE.

KANSAS CORRESPONDENCE.

LEAVENWORTH, K. T., June 6.

The Pike's Peak delusion is over at last. Not one emigrant is starting from this point for that region; and thousands are hurrying back through the gauntlet of famine and sickness, intent on reaching the abodes of civilized men. Mules and wagons are lying abandoned along the road, or selling at merely nominal prices; the high-sounding "cities" that arose in the new El Dorado are almost deserted; plundering parties of half-starved men attack the more fortunate emigrant whose stock of provision was large, with as much fierceness as was displayed in the history of the Siege of Jerusalem. At least one hundred and fifty of these hapless persons have died of exposure and starvation. You have already heard of that horrible feast which the body of one brother furnished to two others, and how the third one made his double and concentrated meal upon the dead body of the second brother, who with him had received the substance of the first into his veins.

One honest looking fellow, with a disconsolate look came along and asked for work of any kind, if so he might obtain the wherewithal to reach home. He had left a family and a farm in Michigan, with the expectation of doing something brilliant at digging gold. In his pocket-book he had a few of the brass-filings that were found on a villain just beyond Fort Kearney. This fellow had offered to bet there was gold at the Peak, that he had seen it, &c. On producing his fifteen pounds of brass in the presence of old Californians, he was seized, tied, dragged behind a wagon for several days, then slung up under it, and had but a narrow escape from the unpleasant fate of hanging. Among his other tricks was one of 'salting' claims with this trash—sprinkling these filings over the land so as to persuade the credulous emigrant that on buying this claim he would have Ophir, Mexico and California all under his feet. I saw a very intelligent man from the Gold Region who said he worked twenty-seven days and earned only fifty cents a day; the largest 'nugget' he had seen there was twenty-five cents. *Ab uno disco omnes.*

There has been from the first an evident lack of sincerity in the statements of the newspapers and their correspondents at the mines. That there was some gold around Pike's Peak was known. But that it existed in sufficient abundance to warrant such a tumultuous migration has never been proved. This essential point has been studiously ignored, and vague accounts of the "immense rush," the "building of Denver City," the printing of the first paper, or the call for a meeting to initiate a Territorial government, have been flaunted before the public. It has been on the part of certain speculators, traders, and editors, a disgraceful, inhuman traffic in human life and domestic happiness that might make a wrecker blush.

Eager to devour every crumb of comfort, a Celebration was got up on the arrival of the first of Jones and Russell's coaches from Denver City. It brought out all the horses in town, and perhaps some animals of a more ignoble species. It is difficult to say what the celebration was about, for the Express brought in only fifteen hundred dollars in dust. It is asserted here that this express line to Pike's Peak was originated by a New York company, with the idea of preparing a path for the Pacific Railroad, and that Messrs. Jones & Russell are only small stockholders and Superintendents of the same.

Horace Greeley has been among us. After the Republican Convention at Ossawatomie adjourned, he returned to this city and delivered a lecture for the benefit of the Young Men's Christian Association. A large and intelligent audience assembled. The subject was "Great Men," and was treated with great ability. Wide reach of thought and keen analysis marked it throughout.

The canvass for the coming Constitutional Convention has been extremely animated. Leavenworth county is entitled to one-fifth of the whole number of delegates. Here is the Fort with its immense government patronage. Here is the festering head of the Democracy of Kansas. Twenty thousand dollars have been expended in this city alone in behalf of the Democratic ticket. A Missourian who was a captain in the invasion and sack of Lawrence is on that ticket as delegate. Saturday evening a debate was held between the parties Mark Parrott our Delegate to Congress, and Thomas Ewing, Jr., were the Republican advocates. They met the champions of the blood-stained Pro-Slavery Democracy of Kansas in a most crushing and triumphant style. The Democratic spokesmen evidently quailed under their stunning blows.—Monday evening Gen. Lane made a great speech before the Republican masses; and after other speakers had appeared, the Marsellaise was sung with tremendous effect by some French Republicans.

The Democratic victory in this county and city, unfortunately for the hitherto stainless name of that organization, is gained by the aid of fraudulent votes to the number of hundreds. This is not merely surmised, but is perfectly well understood.—Double voting by the Irish and illegal voting by Government employees has overthrown the will of the people of Leavenworth. Many villains were detected in the attempt. One is now in the calaboose for perjury. Some Missourians even came across and voted. And this is a government founded on the will of the people!

Next July the Registry Law goes into operation. Adieu then to Democratic victories in Leavenworth.

PORTSMOUTH ABROAD.

THE WAR IN EUROPE.

The Europa, at Halifax, from Liverpool June 4, with three days later news, brings intelligence of two battles, in both of which the Austrians were defeated. At Palestro they lost a thousand prisoners, and sustained a severe loss in killed and wounded. The King, Victor Emanuel, led the allied forces, and the Zouaves fought furiously.—A second battle occurred at Sesto Calendre, in which the Austrians were again defeated. The Austrians have evacuated Bebbio, carrying with them a thousand of their wounded. In the battle at Palestro four hundred Austrians were drowned in a canal. There had been reports of Garibaldi having met with reverses and being compelled to retreat, but later dispatches seem to indicate his continued successes. The Austrians were retreating across the Ticino, and were driven out of Novara, which was entered by Gen. Niel, and the Emperor Louis Napoleon had followed him and was at Novara. The insurrection in Lombardy was on the increase. The general tenor of the whole news was favorable to the success of the Sardinian forces. The English Parliament had not yet commenced business, but it was expected that on the occasion of the Queen's speech there would be a sharp contest between the Ministerial and the Liberal or Reform parties.

Breadstuffs have declined, and cotton advanced 1-4, firm and steady.

The race for the Derby was won by Sir Jos. Hawley's "Musjid." The value of the stakes was nearly £7000. It is rumored that Hawley wins about £100,000.

It was stated that the Prospectus of a company would be issued in a few days for laying the Telegraph cables from Cornwall, England, to Canada, direct, and that the proposed capital would be half a million sterling.

A great explosion of saltpetre occurred on board the troop ship Eastern Monarch, from Kurrachee, while anchored at Spithead. She had nearly five hundred soldiers and their families on board, returning from India. The ship was soon enveloped in flames, but prompt action rescued all but seven persons, including five children, who were killed by the explosion.

The Bank of England has reduced its rate of discount from 4 1-2 to 3 1-2 per cent.

The French squadron in the Adriatic had captured thirty-five Austrian vessels, the estimated value of which was four million of francs.

VERY LATEST. — The London Daily News of Saturday has a special dispatch dated Turin, Friday night, saying that the Austrians, in full retreat, were re-crossing the Ticino. Garibaldi had gained a new victory. The insurrection in Lombardy is spreading.

EXCELSIOR.—The American Excelsior Co. of Boston, has a branch manufactory in Manchester, N. H., for the manufacture of what is termed "excelsior," for filling mattresses. It is made of poplar wood. This manufactory employs eight men, and makes a ton of "excelsior" a day, requiring a cord of wood, which is furnished from the town of Hill. It is split by machines run by water power, packed in bales of 150 or 175 pounds and sent to Boston. The fine retails for three cents and the coarse for two cents per pound.

A CONTRAST.—The Washington Republic calls attention to the fact that the terms of the preamble of Dr. Patton's resolution offered at the Tract Society meeting, in condemnation of the African slave trade, are precisely the same as the one offered in Congress by Mr. Etheridge two years before. The House refused to lay it on the table by a vote of 72 to 137. The American Tract Society laid Dr. Patton's upon the table by an immense majority. The House is composed of professed politicians; the Tract Society is composed of professed Christians.

ALL AMERICAN PAPER PAID.—A correspondent of the New York Express, who recently paid a visit to the Bank of England, says;

"There was one item which I learned from the Bank, decidedly gratifying to my national pride. It was this: Not a single piece of American paper which laid over during the late panic now remains unpaid. This, says Mr. Elsey, the Governor, cannot be said of any other nation on the earth! Let the 'Bears' on American securities put this in their pipe and smoke it."

☞ On Monday morning a child in New York, while at play in a kitchen, put its head into a boiler filled with water, and was smothered before assistance reached it.

FROM PIKE'S PEAK. — *St. Louis, June 14.*—Mr. Swinburne arrived here to-day, from Leavenworth, with $600 worth of gold from Pike's Peak. He says a much larger amount might have been got, but the miners were asking $20 per ounce, which price purchasers thought too high.

The Leavenworth Times says the accounts from the mines continue encouraging. Claims which four weeks ago were considered worthless, are now commanding from $5000 to $21,000. Several other claims in the same lead had changed hands at prices ranging from $700 to $7000.

The snow had disappeared from the mountains, and prospecting was being vigorously conducted. New rich leads were being constantly discovered. At Gregory's diggings miners were making $25 each day. Arrivals of emigrants from the States continue large, and all rush immediately for the mountains. The health of the mining region was excellent.

Horace Greeley was expected at Denver City the day after the date of our advices.

The above dispatch contains news from the Peak some days later than that in our Leavenworth letter: the *very* favorable account of $25 per day contrasts *strongly* with the other statements,—and on the whole sounds *tough*.

☞ A Yankee who had seen Powers' "Greek Slave" and who was asked if he was not in raptures with it, replied, "Well, to tell the truth, I don't care much about them stone gals."

CORDIAL OF DANDELION,
SPIKENARD & BONESET,

A remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and Pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.

Hundreds of testimonials might be added, proving the many cures by this pleasant and effectual medicine, especially of people advanced in life, whose debilitated constitutions have been gradually recruited by it. A trial of it is warranted to well pay the aged and dyspeptic. Price 75 cents.

[From Mrs. Ira Burnham, Exeter, N. H.]

I have suffered many years from the liver and heart complaint. By these distressing diseases I was reduced so low, some two years since, that I could not sit up more than ten or fifteen minutes at a time, when I began to take Dr. Swett's Cordial of Dandelion, Spikenard and Boneset, which has so fully restored my health that I now daily labor and attend to the business of my large boarding house. ELIZABETH BURNHAM.

Exeter, June 1, 1859.

This testimony of my wife is correct.

IRA BURNHAM.

[From Mrs. Ebenezer Blazo.]

GREENLAND, Nov. 20, 1858.

DR. SWETT—Dear Sir:—The distressing disease called the heart complaint, which has so long afflicted me, and which has baffled the skill of all my former physicians, has been fully cured by the two bottles of your Cordial which I had of you last spring. Yours with respect,

SALLY BLAZO.

This unequalled medicine, together with others carefully prepared by Dr. SIMEON SWETT, from innocent but effectual vegetables, are for sale by him at No. 12 CABOT ST., Portsmouth, N. H.

Nature is the Great Physician.

This is now admitted by the medical profession, as a fundamental principle of healing science. It is wisely provided in the laws of economy, that whenever anything is wrong in the physical system, the natural forces of the body are brought to bear to expel the disease. The great aim, therefore, is to strengthen the natural powers. This has been kept in view by the skillful compounders of Dr. J. HOSTETTER'S BITTERS, which operate to give fresh vitality to all the organs of the body. The effects of this medicine upon the stomach, the liver and the kidneys, are prompt and decisive. The patient who is wise enough to quit drugging, and try the BITTERS, soon feels as he if he had taken a new lease of life, and as he continues the use of the article he is enjoyed to find the stream of health coursing through his frame. Let all from whose cheek the bloom has departed, give Dr. J. Hostetter's Celebrated Bitters a trial.

SPECIAL NOTICES.

Dr. Wistar's Balsam of Wild Cherry.

The editor of the "Flag of our Union" says in his paper of July 17, 1858:—"The memory of Dr. Wistar is embalmed in the hearts of thousands who have experienced entire cure from *Coughs, Colds, Consumption and Pulmonary Disease* generally by the use of his *Balsam*. The invalid need not fear to give this preparation a careful trial, as we speak from experience. More than ten years since the editor of this paper tested its excellence by individual trial in his family, with the most surprising result, as a curative for pulmonary disease."

CASES OF CONSUMPTION AND WHOOPING COUGH CURED.

The following from a highly respectable gentleman, speaks for itself;

KEYPORT, N. J., May 20, 1858.

S. W FOWLE & CO.,—*Gentlemen*:—This certifies that I was for many years grievously afflicted with a disease of the lungs, until I became so weak, that it was with difficulty I could walk. My cough during this was very severe, causing me frequently to raise great quantities of blood, attended with profuse night sweats.

After using various remedies to no purpose, I was advised to try *Wistar's Balsam of Wild Cherry*. I did so, and before using the first bottle I was entirely restored to perfect health and strength.

I would also mention that this Balsam cured a little girl of mine of a severe attack of Whooping Cough, when her life was given over by the physician and all other remedies had failed.

Now is the time to use the great Spring and Summer Medicine.

Dr. Langley's Root and Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all so compounded as to act in concert with Nature, and their effect is truly *wonderful*. They absolutely cure

LIVER COMPLAINT,	INDIGESTION,
COSTIVENESS,	DIZZINESS,
HEADACHE,	HEARTBURN,
PILES,	FLATULENCY,
WEAKNESS,	LOSS OF APPETITE

All kinds of Humors, and every other affliction from a disordered Stomach, or bad Blood. If taken in large doses, Fever and Ague may be broken up and cured at once.

This has become a standard Medicine, and is decidedly *the Best in the World*. Try it once, and you will be sure to do so again. The price is cheap—only 25 cents for a pint, and 37½ cents for a large Bottle. You can't get a bottle too quick, for the time is fast approaching when you will have all sorts of bad feelings if you don't take the Root and Herbs and drive them away. Sold by all Medicine Dealers everywhere.

Orders addressed to J. O. LANGLEY, or to GEO. C. GOODWIN & CO., 11 & 12 Marshall St. Boston, wholesale Dealers in Family Medicines of every description. They invite Apothecaries and Merchants generally to examine their stock. m13

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior like ness is taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumnos.

R. R. R.

A young lady at Stephentown, New York, in the month of June, 1853, caught a bad cold. On the 21st of August, she had an attack of hemorrhage from the lungs. She bled three times in one night. She took Radway's Renovating Resolvent, and

HAS NOT BLED SINCE.

In all cases, where persons are afflicted with Bleeding at the Lungs, take the Resolvent, in table-spoon doses, three times per day. Also, take Internally, one tea-spoonful of Radway's Ready Relief, in a little water, and it will instantly stop the most severe attacks. Keep the system regular, by taking one of Radway's Regulators per day. *As a cipatic*, Radway's Ready Relief is superior to all styptics in use. We have seen it stop violent bleeding of the nose, when all other means that were tried, failed. Bad Coughs, Colds, Consumption, in the earlier stages, the R R. R. Remedies will positively cure.

N B.—For all acute Pains, use Radway's Ready Relief. It will relieve the most excruciating pain in a few minutes.

R. R. R. is sold by Druggists everywhere.

R. R. R. Office, 162 Fulton street, New York.

R. R. R. For Purifying the Blood, Cure of Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

TO THE CITIZENS OF NEW HAMPSHIRE

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with the juice of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most enlisent men, the purest and safest stimulant or diretic tonic in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find in its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles's London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS genuine.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Packer, 20 Elm st.; J. Moran, 136 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. LOCAL.

☞ We understand that a contract has been entered into for plastering the new Post Office, Custom House, &c., by a mechanic of Boston. The amount of this work for the building will be about 5000 yards; and it is to be commenced speedily. The last but one of the highly ornamental chimney tops is now going up; and the building itself looks very finely, much better than the plan did on paper.

☞ A young son of Benj. Cheever, Esq., while playing with the hoist rope in the store of Mr. G. L. Treadwell, a day or two since, twisted one of his arms so as to break both bones at the wrist.

Messrs. Editors:—I see in giving my communication, on Monday, a place in your paper, either you or one of your "devils," designedly or by accident, have "village *simplicity*" printed "*semi felicity*."—Have you good and substantial reasons for that change? GRANITE.

☞ Ship Colorado (of Portsmouth) Ricker, before reported wrecked at Ceylon, April 24th, was valued at $60,000, and her freight at $30,000. There is insurance in Boston as follows: Washington $10,000, National $15,000, Neptune $5,000, Boylston $10,000, Mercantile $10,000, Boston $10,000, American $5000, Alliance $10,000. Total $75,000. The Merchants' office in Providence has $3000 on the Colorado.

TEMPERANCE IN ROCKINGHAM COUNTY.—The Rockingham Conference of (orthodox congregational) Churches, held their annual meeting at Derry, last week. A clergyman who was present states that the cause of temperance in the county, as a whole, is gaining strength. This, of course, relates to the actual condition and habits of the people, rather than to more or less execution of law, or fear of it. No other body of men in the county have the means of knowing the condition of it, any better than these ministers and delegates. And this statement is qualified, but not destroyed or contradicted, by the sad facts that in certain towns and villages there are dreadful dens of drunkenness, and scores of young sots who will never live to be old.

RAILROAD COMPROMISES.—The combined Railroads in New Hampshire have closed their controversy with the Massachusetts Roads, by a compromise.

A similar peace was made, signed and sealed in New York city last Saturday morning between the New York Central, Erie, Pennsylvania Central, and the other two leading Railroad Companies, arranging a common tariff of charges. The consequence is an advance in all the tariffs, and the late abatement by some of the companies is withdrawn.

The new bargain raises passenger fares to the rates current on the 1st of April last—the *highest* which have been in force for some years—the advance being in some cases 60, in others 80, in others 100, in others 110 per cent. Freights are advanced, on the average, 60 per cent. The old cattle rates which were in force before the late breach between the roads, are restored.

It is estimated that the advance in the cattle rates alone will be worth $1000 a day to the New York Central, and as much to the Erie, while $25,000 a day would inadequately represent the actual gain to the various roads concerned by the advance of passenger rates.

This great advance in fares must tend to make cattle cheaper at the upper end of the roads, and dearer at the lower end—also to diminish both travel and business all along the lines. Perhaps the railroad corporations may take as much money as before, and make more profits out of the reduced business but increased compensation.

☞ Hon. Joseph T. Nye of Saco, Me., died at a railroad depot in Lexington, on Tuesday. He had been for several years in failing health, and was on his way to the residence of a brother in Lexington. Having ridden in the cars a hundred miles from Saco, on reaching Lexington, he was so exhausted that it was possible only to remove him from the cars to the platform. A physician was called, a rocking chair procured, and restoratives administered without avail. His spirit fled while he sat in the chair.—Judge Nye's remains were conveyed to Saco Wednesday afternoon.

☞ On Sunday night, a detachment of forty policemen under the command of Captain Williamson, made a descent upon eight disorderly houses in Howard street, New York, and arrested about one hundred men and women whom they found there.

The "committee of one hundred" on Powers' statue of Webster have voted not to allow it to be placed on the Masachusetts State House grounds. Mr. Everett opposed this action, praised the statue as a work of art, and said it faithfully represented Webster at the age of 40 or 45. People generally do not think so, and will be glad that the State House yard is not to be disfigured by it.

☞ The twin daughters of Abraham Guise of Gettysburg, Pennsylvania, died there recently at the age of forty-four years. "They were born and raised together; never separated for a single night during there lives; took the same disease (measles); died within a few hours of each other, and were buried side by side in the same grave. They traveled life's path hand in hand, and in death they were not parted."

NAHANT, June 15.—The Nahant Hotel was opened to-day for the season by the Messrs. Rand. Dispatches can be sent to or from the house to all parts of the United States by telegraph.

☞ New Bedford, Cambridge, Salem, Lynn, Roxbury and Gloucester are all moving for the introduction of steam fire engines. Portsmouth and Dover, Concord and Manchester, had better be moving in the same direction.

A fatalist should logically be the most contented of sectarians; but creeds do not change human nature. "Though whatever is, was to be, yet nothing is as it should be," said Sadi, the philosopher—a manifest impeachment of the Ruler of the universe, uttered by many a grumbler of the present day.

Oleine Diamond Oil.
GREATEST ILLUMINATOR OF THE AGE.

This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.

It burns in the common oil lamp, with or without a chimney.

The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this Oil:

1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, hence it is portable.
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.

Price $1.25 per gallon.

THE
GROVER & BAKER
SEWING MACHINE COMPANY,
No. 18 Summer Street, Boston,

Having greatly increased their facilities for manufacturing their

CELEBRATED FAMILY MACHINES,

with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE,
PRICE FIFTY DOLLARS.

MACHINES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR!

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.

FRANK W. MILLER.

PORTSMOUTH, April 12, 1859

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."

Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."

Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."

and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.

M.'s Director of the Institute of Chemical Investigation, &c., &c.
Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—
Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a bebaium maria, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 40 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.
From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Deetjen (of Bremen,) as residum after evaporation by steam, a substance almost insipid and very trifling aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior." Messrs. Tracner have furnished me with a very small quantity of a greenish substance, of harsh metallic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.
I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. IMMORTELLES.

LIBERTY.

Eternal spirit of the chainless mind!
Brightest in dungeons, Liberty, thou art,
For there thy habitation is the heart—
The heart which love of thee alone can bind;
And when thy sons to fetters are consigned—
To fetters, and the damp vaults' dayless gloom—
Their country conquers with their martyrdom,
And Freedom's fame finds wings on every wind.
—Byron.

PRAYER.

He prayeth best who loveth best
All things, both great and small;
For the dear God who loveth us,
He made and loveth all.
—Coleridge.

FLOWERS.

Who shall say that flowers
Dress not heaven's own bowers?
Who its loves, without them, can fancy—or sweet floor?
Who shall even dare
To say they sprang not there—
And came not down, that Love might bring one piece of Heaven the more?
O, pray believe that angels
From those blue dominions
Brought them in their white laps down, 'twixt their golden pinions.
—Leigh Hunt.

LIFE.

Like to the falling of a star,
Or as the flights of eagles are,
Or like the fresh spring's gaudy hue,
Or silver drops of morning dew,
Or like a wind that chafes the flood,
Or bubbles which on water stood—
E'en such is man, whose borrowed light
Is straight called in, and paid to night.
The wind blows out, the bubble dies,
The spring entombed in autumn lies,
The dew dries up, the star is shot,
The flight is past—and man forgot.
—Henry King.

NIGHT.

Stringing the stars at random round her head,
Like a pearl network, there she sits—bright night!
I love night more than day—she is so lovely.
—Fostus.

A MARTYR.—Last October, says the Boston Journal, complaints were entered against Thos. McGovern of Tewksbury, for selling liquor, and a Sheriff went to serve warrants. Arriving at McGovern's house about 10 o'clock at night, he stationed a man at the back door, and himself knocked at the front. McGovern, who suspected the character of his guest and the nature of his visit, jumped out of a side window, and with no clothing but shirt and drawers, ran for the woods, and concealed himself until the coast was clear.

In December, the Sheriff, with a large posse, again went to Tewksbury. This time it was arranged that as soon as their horse reached the yard they were to surround the house and prevent an escape. They were not soon enough, however, for hardly had they got to the yard before Tom jumped out of the window and ran. The thermometer was 13 degrees above zero, and there was about six inches of snow on the ground, slightly crusted. He had *nothing on but his shirt*, in which garment he ran through the woods for a mile, and then took the road, which was full of frozen hubbles. He was out in this condition one hour, his pursuers failing to overtake him. The next morning he went to New Hampshire, where he remained till last week, when the Sheriff hearing of his return, went again to Tewksbury, and not finding him at home, concealed himself in the woods by the house to await his return. He also sent a man into the house to assist, if necessary. On the appearance of McGovern he was arrested, ironed, examined, and sentenced on each complaint to pay a fine of $10 and serve 30 days in the House of Correction. His legs are badly scarred from his run last winter; at that time he ran a splinter into his leg at the ankle, which came out just below the knee.

WASHINGTON GOSSIP.—Perley, of the Boston Journal, serves up the following dish.

The only time that General Jackson ever failed to carry his point, and to make his partisan followers execute the edicts of his iron will, was when he undertook to make the wives of his Secretaries visit Mrs. General Eaton. Scandal had whispered hard things about the marriage of Gen. Eaton, then Secretary of War, to Mrs. Timberlake, widow of Purser Timberlake, and *society* turned its back on her. Old Hickory espoused her cause, and had her stand at his side at an evening reception, that he might "present" her to the elevated decimals of the metropolis. But the wives of the other Secretaries obstinately refused to recognize her, and a crinoline quarrel ensued, which absolutely broke up the Cabinet.

Mrs. Eaton, since the death of her husband, has resided in the First Ward here, visiting in a *demimonde*, and pointed at when she went abroad as the lady that broke up Jackson's Cabinet, in spite of all he could do. She is an active little lady, some sixty years of age, and last Sunday she was married for the third time to an Italian dancing master and musician, who is about twenty-two, thereby causing much scandal. *"I told you so!"* say all the dames who refused to visit her in 1829.

☞ John A. Wellies of Detroit, sent last Wednesday, to the Episcopal Convention in session in that city, the sum of $1000, the income of which is to be given to the present Bishop of the diocese and his wife during their natural lives, and after that one-half to domestic missions and the other half towards the support of superannuated and infirm clergymen, and the widows and minor heirs of deceased clergymen of the church. He intends to increase the sum to $5000.

☞ The wit of the Boston Post gives, poetically, the difference between Saratoga and Newport:

At the one, you go into the water;
At the other, it goes into you!

AYER'S SARSAPARILLA,

A compound remedy in which we have labored to produce the most effectual alterative that could be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASES, ERYSIPELAS, ACNE OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many raging disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the encurance of foul eruptions and ulcerous sores, through which the system will strive to free itself of corrupt humors. It not unusual to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated humors whenever you find its impurities bursting through the skin in pimples, eruptions or sores; cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even before any particular disorder is felt, people enjoy better health and live live longer, for cleansing the blood. It keeps the whole body healthy; but with all this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been shamefully deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.

During late years the public have been misled by bottles, pretending to give a dollar's worth of extract of Sarparilla for one dollar. Most of these have been frauds upon the sick, for they not only contained little, if any, Sarsaparilla, but were as curative properties whatever. Aence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, and the name itself is so badly exploded, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to apply such a remedy as shall recuse the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues in the disease is irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Ayer's Cherry Pectoral

Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the Blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price, 25 cents per box; five boxes for $1.

Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The agent below named furnishes gratis our American Almanac, in which they are given; with also full descriptions of the complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand AYER'S, and take no other. The cure was the best aid there is for them, and they should have it.

All our remedies are for sale by W. R. Preston, Portsmouth, and by all druggists and merchants in the civilized world. 6m—je14

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, who rendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are those who have been to him before.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious nostrums at the expense of destroying what is the great pillar of life, a healthy constitution.

Dr. Hughes's Medicines can be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by unprincipled persons who are entirely ignorant of the efficacy of medicine.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on the bald heads; cures all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headaches, and may be relied upon as the best diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week' it will never fall of a covered head; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and about three months ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to myself as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they see further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to you for further proof, who am an out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance—is very wavy, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having tried all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself valuable to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well stocked with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,

No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds quart, or more than more in proportion, and retails for $3 a bottle.

The Liver Invigorator.
PREPARED BY DR. SANFORD,
COMPOUNDED ENTIRELY OF GUMS,
Is one of the best PURGATIVE and LIVER MEDICINES now before the public.
These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.
BILIOUS ATTACKS are cured, and, what is better, prevented by these casional use of the Liver Invigorator.
One dose taken after eating is sufficient to relieve the stomach and prevent the food from rising and souring.
Only one dose taken before retiring, prevents NIGHTMARE.
Only one dose taken at night, loosens the bowels gently and cures CONSTIPATION.
One dose taken after each meal will cure DYSPEPSIA.
One dose of two teaspoonfuls will always relieve SICK HEADACHE.
Only one dose immediately relieves COLIC.
One dose taken at bed-time, prevents the Cholera Morbus, and is a preventive of CHOLERA.
Only one bottle is needed to throw out of the system the effects of mercury, medicine after a long sickness.
One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.
One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.
One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.
A few bottles will cure DROPSY by exciting the absorbents.
We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS type. It operates with certainty, and thousands are willing to testify to its wonderful virtues.
All who use it are giving their unanimous testimony in its favor.
Mix water in the mouth with the Invigorator, and swallow both together.
PRICE, ONE DOLLAR PER BOTTLE.
Dr. SANFORD, Proprietor, 345 Broadway, N. Y.
Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. aug1 ly

NEW BOOKS.

ESCHATOLOGY; or the Scripture Doctrine of the Coming of the Lord, the Judgment, and the Resurrection. By Samuel Lee. "Let God be true, but every man a liar."—*Paul.* 12 mo. pp. 257. Boston: J. E. Tilton & Company.

Rev. Samuel Lee is the pastor of the First Congregational (Orthodox) Church in New Ipswich, which office he has held for more than twenty years: and by his sterling qualities as a man and a minister, he has a large influence among his brethren in the ministry, church, and community, by many of whom he is regarded with great favor.

Whether he will be able to retain this favor, after the publication of this book, we cannot say; but after reading it carefully; through, and consulting all his scripture references, we say with confidence that his general influence will be increased by it: and his reputation, among scholars, must be high, for careful analysis, full and fair quotation, and clear statement of his own views. In these respects, we have rarely found his equal.

Eschatology signifies the doctrine or talk about the final things, as death, and the future state, &c. Mr. Lee's doctrine of death, judgment, resurrection, and the future life, differs widely from the common views expressed by the creeds, confessions, and schools of theology with which he has been, and still is connected.

Mr. Lee says,—"This is a day unlike any other, of independent thinking. And the cry of heresy will not deter those who are *of the day*, from this duty and privilege.—The formularies do not satisfy the common mind of the church, and it is asking for light," &c.

The conclusions he comes to are that "the Coming of the Son of Man" refers to his coming as a man to introduce and take upon himself the administration of the kingdom of God; but "the Coming of the Lord" is at each individual's death; and the judgment is contemporaneous with this, and equivalent with Government in all its functions. The resurrection is synonymous with a future life. There is no intermediate state. The Bible teaches no end of the world, but only of the age. The future history of man will be natural development, quite in accordance with the laws of nature, and not a constant succession of miracles, as the common theory requires. The author thinks his views "not only more philosophical, but immeasurably superior in ethical import and as a system of motive, to the scenic displays of one great distant day of judgment in which Orthodox pulpits revel."

Mr. Lee does not profess to have departed from standard orthodoxy: he only throws doubts over the question *what is* orthodoxy on these subjects.

He disclaims universalism, not in terms, but substantially; yet a comparison of his exegesis with that of Paige, or Cobb, shows many points of similarity.

An extract or two will show the author's style and manner.

"If the 'end of the world' is not taught in 2 Pet. iii, it is not taught in the Bible." So said a distinguished living theologian to the writer. With great veneration for the many good men who have taught us a different doctrine, we respectfully submit that it is not taught here. The Bible is entirely silent in regard to the future geological history of the globe we inhabit, as also any astronomical changes. While we have great reverence for MAN as made in the image of God, and as capable of such an amazing future of expansion and glory, we are yet to be persuaded that any great changes in the stellary world are to attend upon any changes in his condition. It is a dream—that the sun and the moon and the stars shall make obeisance to man.

A benevolent God has implanted in our nature no desires that may not and will not, in the appropriate time, have their gratification. He who made us with longings after knowledge, and the knowledge of all things, will gratify those longings. When we look out upon the stars of heaven, and ask ourselves, How has God wrought there, what the methods of his skill? we cannot doubt that we shall one day see and know.

Death will doubtless invest us with such new powers of perception and investigation, that this world will be to us "new heavens and a new earth;" and new and many will be the lessons we shall take, and long the study of things here. This will be true of the physical natures and relations, and still more of the moral interests that are here. Christ and the glory of his kingdom will then "appear," and be invested, to the intellect and the heart, with new interest—in a length and breadth, and depth and height, which have not now "entered into the heart of man."

But this world, with all its past and future history, material and mental, will be but a point in comparison with all the works of God. And when earth and its realities shall have been learned and enjoyed in themselves and as exhibitions of God, so far from having exhausted and destroyed, it will but have developed a greater vigor the susceptibilities that have been addressed and blessed. And to know and enjoy God and his works elsewhere and without a limit, will be a want of the expanded and growing spirit, not to gratify which, would be starvation and death. It will be gratified. And heaven, that begins on earth, will spread itself out over the Universe of God. "Great and marvellous are thy works, Lord God Almighty." "Show us thy Glory." "Thou wilt make *all* thy goodness to pass before us, and proclaim to us in every method of utterance the name and glory of Jehovah.

The work will excite attention, wake up thought on these great subjects, and promote a more thorough study of the scriptures, whence more truth, to use the words of Robinson, will yet break out.

GODEY FOR JULY, contains the great "Widow Bedott" Story, on Missions. In his circular, Godey says:—

This, the best story ever written by this celebrated authoress, is now for the first time given to the public. We have had it on hand nine years, but for sufficient reasons have forborne to publish it until now. Jeff figures largely in it. Those who have laughed over the Book will again have their risibles excited. In a letter now before us, from the lamented authoress, dated May 8, 1850, she says: "Perhaps you may think I have chosen a queer subject, but I have not. I assure you it is founded on fact," &c.

PETERSON'S LADY'S MAGAZINE, for the month of July, 1859, begins a new volume. Frontispiece, Grandmother's Darling. Chas. J. Peterson, publisher, Philadelphia.

THE BROAD CHURCH PULPIT, No. 2, contains a sermon on the Broad Church, by E. H. Chapin, D. D. O. Hutchinson, publisher, New York.

CAUSE OF THE FIRE.—Speaking of the Sunday night fire in Concord, the Patriot says:—

The fire caught in an old shed used as a drinking booth, where it is said some godless persons had been drinking and playing cards in the evening, and where they kept liquor covered up in shavings which probably served to kindle it.

We have seen some complaining in the papers, that the liquor law, when enforced, had been applied only to some poor foreigner or good democrat, while black republican sinners of the same sort had been suffered to go unpunished. Uncle Toby says he hopes the American Republicans, black or white, who kept this incendiary shanty of rum and gambling, will be taken up and dealt with as the law directs,—and that other like offenders may be visited in the penal way, as fast as they are found out.

Since writing the above, we observe in the Concord correspondence of the Manchester Mirror, the following item.

Several Irish women were dragged from the house whence the fire originated, in a helpless state of intoxication, and when out of danger, instead of thanking their benefactors they began *damning* them in an awful manner.

Immediately following this, is the following, in singular juxtaposition.

The Legislature convened at 3 o'clock P. M., on Monday. Mr. Briggs, of Hillsborough, gave notice that he should soon introduce a bill for the repeal of the Liquor Law.

Just as these drunken wretches had set the town on fire, a member of the legislature proposes to repeal the "act for the suppression of intemperance."

GENERAL COURT.

On Tuesday, June 14, the House voted to loan the Representative's Hall to the South Church in Concord, for public worship on Sundays,—no fire nor lights to be used.

A bill was introduced by Mr. Greenleaf, of Portsmouth, to repeal sundry acts, relating to hawkers and peddlers. He said he believed *all* the acts, the repeal of which was contemplated by the bill, though differing in their provisions, were objectionable on the same constitutional grounds. He believed this matter belonged to Congress, to whom the Constitution gave power, not only to "regulate commerce with foreign nations," but "among the States and Indian tribes." He went on to argue the case at some length,—and condemned not only the black republican pedler law, but all the large family of white democratic pedler laws also,—and his bill is intended to repeal the whole tribe.

The bill offered by Mr. Greenleaf was referred to the Judiciary Committee.

Introduced by the same gentleman—a bill to repeal certain acts relating to naturalization. Read twice, and referred to the Committe on the Judiciary.

Notice was given by Mr. Spalding, of Portsmouth, of a bill relating to the Police Court of the city of Portsmouth.

Introduced on Wednesday, are referred to the Portsmouth delegation.

By Mr. Baker of Claremont, of a Bill in amendment and addition to chap. 185 C. S., in relation to Police Courts giving trial by jury.

☞ James Crawford, Esq., of Flintstone, Md., lost a young horse, valued at $1,000, a few days since, by a singular mishap. When turned in a field he ran at a headlong gait, and pitched against a snag, fatally wounding himself. He was of the Vermont Black Hawk stock, and it is said a noble looking animal.

☞ Ex-President Pierce and wife were at Vienna 21st ult. There was no permanent improvement in the lady's health, but the General is reported to be looking finely.

LETTER FROM TEXAS.

GALVESTON, TEX., June 5.

Dear Chronicle:—The traveller will see a melancholy sight while descending the Mississippi from Memphis,—on both sides of the river until he reaches the vicinity of New Orleans, the country is inundated.—The lower portion of Vicksburg and "Natchez under the Hill" have not escaped the general fate, and towns of considerable size are not exempt—the churches being all turned to bethels and the land to "waterlots."

New Orleans still presents the appearance of a thriving city, but her streets are thinly peopled compared with January. A few cases of yellow fever have occurred outside of quarantine, but their existence has been kept quiet.

The Opelousas railroad, which has been stopped by the crevasse of Bayou Lafourche, has again commenced running, though for several miles the passengers are conveyed on hand-cars. A trip over this road, at present, affords to a Northerner a fine opportunity to see such specimens of natural history as alligators and snakes. Passing through the rank vegetation of the swamps, the ungainly alligator is seen, sunning himself on the banks, or waddling through the rushes and cane-brakes, while underneath the dark green leaves of the spotless pond-lily, lurks the deadly water-moccasin.

The monopoly of soap in Spain has been severely commented on in this country, but we have one in our midst that is scarcely exceeded by it; I refer to the Southern Steamship Company, who control the lines from New Orleans to Texas, and charge more to carry a sheep from New Orleans to Indianola than is charged from Boston to the same place, while from New Orleans to Galveston, a distance of 200 miles by steamer and 85 by rail, the fare is only $15!—Some time since, Com. Vanderbilt ran an opposition line, when the rate of fare was a fair price—$5—but the agents of the S. S. Co. offered him so much to discontinue his line that he could not afford to run it.

A shocking occurrence took place on board the steamship Matagorda, of this line, last night, while on her way from Indianola to this place. A gentleman by the name of Lyons, from New York, was murdered and his body thrown overboard. Mr. Hill, also from New York, and a travelling companion of Mr. Lyons, has been arrested for the crime, and an examination takes place this afternoon.

From appearances, it seems that Lyons was asleep on a settee on the promenade deck, that he was struck on the head with a heavy instrument, then either stabbed or his throat cut, and his body thrown over the rail. In Hill's valise a hammer was found, and blood on his garments. It is supposed he murdered Lyons for his money.

But a more pleasing feature in the place is the vast quantity of oleanders, of a size not equalled in the north, which line the streets, in full bloom, loading the air with fragrance.

To walk around the streets of this pleasant little city, no one would imagine that sickness was to be apprehended, but the yellow fever here assumes its most malignant type, so the place will soon be vacated by ION.

For the Chronicle.

To the General Court of New Hampshire:—The constitution of New Hampshire provides that "no Governor or Judge of the Supreme Judicial Court, shall hold any office or place under the authority of this State, except such as by this Constitution they are admitted to hold, saving that the judges of said court may hold the offices of justices of the peace throughout the State."

The above provision of the constitution has not always been regarded by former legislatures of this State in the arrangements of our judicial courts. How far the decisions of such unconstitutional courts may have been affected thereby, not being the "expounder of the constitution," I pretend not to say; but *caution* on the part of those who enact our laws, may at the present moment be especially salutary.

WEBSTER.

A SHOT IN THE FLOCK.—We wonder if the following Paixhan shot, from the "Notes from the Plymouth Pulpit," by Henry Ward Beecher, hits anybody in all this region round about? We hope not. Mr. Beecher said:—

"There is sitting before me in this congregation now two hundred men, who stuff their Sundays full of what they call religion, and then go out on Mondays to catch their brother by the throat, saying: 'Pay me what thou owest; it's Monday now, and you needn't think that because we sat crying together yesterday, over our Saviour's sufferings and love, that I am going to let you off from that debt, if it does ruin you to pay it now.'"

NAVAL.—*Washington, June* 15.—The Levant, Wyoming and Lancaster, which are to compose part of the Pacific squadron, will visit Chile in view of our unsettled affairs with that country, and the recent outrages on our citizens. It is known that instructions have already been forwarded to our minister there to demand reparation for the wrongs committed.

There is no probability that the naval force in the Mediterranean will be increased.

☞ Butter is selling for 13 cents a pound cash at Hillsboro' Bridge.

☞ At the Slaveholders' Convention in Baltimore, Senator Pearce stated that there are now 20,000 free negroes in the city of Baltimore, yet their labor did not now compete with the whites, and he had been told that the citizens of Baltimore did not look with a jealous eye to the fact. Many of the free negroes were occupying positions of usefulness to the citizens, who did not wish to have the present relations altered or destroyed.

These statements, which we presume are perfectly authentic and reliable, show two things, very plainly. First, that *all* the negroes when emancipated, do not rush to the north, as the croakers used to tell us they would. And second, that many white people at the south are neither afraid of free negroes nor burdened by them, and moreover do not believe slavery to be a blessing and freedom a curse, but the contrary.

The existence of these *twenty thousand* free negroes in Baltimore, and the testimony of their being so orderly and useful that the city don't wish them disturbed, may stand in the place of 20,000 arguments for *free labor.*

At this convention, the business committee presented two reports for consideration. That of the minority, offering free negroes the alternative of banishment or re-enslavement, was rejected by a large majority, and a proposition declaring the gradual extradition of free negroes advisable, as the policy of the State, was rejected by a vote of 33 to 39. The majority report, which embodied the sentiments of the conservative portion of the convention, declared the removal of free negroes to be inexpedient and impolitic, but recommended the adoption of proper regulations to make them useful. This view the convention endorsed by adopting the report.

☞ The Wellsburg (Va.) Herald, quoting the remark of the Wheeling Times that the defeat of Mr. Goggin is owing to the apathy or opposition of what it calls the Republican sentiment in North-western Virginia," adds, "we have no doubt that the Times is measurably correct. The indication is, that this sentiment is now the balance of power, and that it will go on to increase until it becomes a power in the State. Ruffner Black Republicanism elected Letcher."

THE DILEMMA: AN EPIGRAM.

"Whenever I marry," says masculine *Ann*,
"I must really insist upon wedding a *man!*"
But what if the man (for men are but human)
Should be equally nice about wedding a *woman?* —*Boston Post.*

If you can't avoid drinking with young men in saloons, you can at least avoid going in with them. A person who knows that he is temptable, should know enough to avoid placing himself where he can be tempted; otherwise he is a party with the tempter.—*N. Y. Ledger.*

CORDIAL OF DANDELION,

SPIKENARD & BONESET,

A remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and Pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.

Hundreds of testimonials might be added, proving the many cures by this pleasant and effectual medicine, especially of people advanced in life, whose debilitated constitutions have been gradually recruited by it. A trial of it is warranted to well pay the aged and dyspeptic. Price 75 cents.

[From Mrs. Ira Burnham, Exeter, N. H.]

I have suffered many years from the liver and heart complaint. By these distressing diseases I was reduced so low, some two years since, that I could not sit up more than ten or fifteen minutes at a time, when I began to take Dr. Swett's Cordial of Dandelion, Spikenard and Boneset, which has so fully restored my health that I now daily labor and attend to the business of my large boarding house. ELIZABETH BURNHAM.

Exeter, June 1, 1859.

This testimony of my wife is correct.

IRA BURNHAM.

[From Mrs. Ebenezer Blake.]

GREENLAND, Nov. 20, 1858.

DR. SWETT—Dear Sir:—The distressing disease called the heart complaint, which has so long afflicted me, and which has baffled the skill of all my former physicians, has been fully cured by the two bottles of your Cordial which I had of you last spring. Yours with respect,

SALLY BLAZO.

This unequalled medicine, together with others carefully prepared by Dr. SIMEON SWETT, from innocent but effectual vegetables, are for sale by him at No. 12 CABOT ST., Portsmouth, N. H.

Nature is the Great Physician.

This is now admitted by the medical profession, as a fundamental principle in healing; and it is wisely provided by the human economy, that whenever anything is wrong in the physical system, the natural forces of the body are brought to expel the disease. The BITTERS, therefore, is to strengthen the natural powers. This has been kept in view by the skillful compounders of Dr. J. HOSTETTER'S BITTERS, which operate to give fresh vitality to all the organs of the body. The effects of this medicine upon the stomach, the liver and the kidneys, are prompt and decisive. The patient who is wise enough to quit drugging, and try the BITTERS, soon feels as he if he had taken a new lease of life, and as he continues the use of the article he is overjoyed to find the stream of health coursing through his frame. Let all from whose cheek the bloom has departed, give Dr. Hostetter's Celebrated Bitters a trial.

Sold by druggists and dealers generally, everywhere.

HARRY HAZEL

IN THE

NEW YORK WEEKLY!

The publishers take pleasure in announcing to the reading world that they have secured the exclusive services of HARRY HAZEL for the NEW YORK WEEKLY, and that his first story will appear in the number for July 2d, which will be out and for sale by all News Agents throughout the United States about 18th of June.

This THRILLING AND INTERESTING INDIAN ROMANCE is entitled

THE MUTE SPY;

A STORY OF

KING PHILLIP'S WAR.

BY

HARRY HAZEL.

"West Point Cadet;" "Big Dick;" "Middy of the Macedonian," "Gallant Tom," "Yankee Jack," "Flying Yankee," "Red King," "Rebel Bride," "Harry Tempest," "Rival Chieftains," "The Smuggler King," "Sylvia Seabury; or, Yankees in Japan," "Rival Sisters," "Null of St. Mark's," &c., &c.

It is a remarkable fact, that among the thirty millions of people of this mighty Republic of the New World, there are but few, and those mostly among the most intelligent, who are in any great degree familiar with the history of the wars of the great Wampanong Chieftain, KING PHILIP, against the colonies of New England, and their Indian allies, the Mohawks. Of this sanguinary struggle, many scenes were enacted of the most startling and thrilling description, and many adventures made, by both the Indians and the white men, almost too wonderful to be believed. Little, indeed, is known, of the savage and merciless scenes enacted at Plymouth, Taunton, Dartmouth, Swanzey, Brookfield, Lancaster, Deerfield, Hadley, and other towns of the Colony; and less, much less, is known of the "Massacre of Bloody Brook," an event which struck terror to the hearts of the Colonists, and gave the Indians more courage and confidence than any event of the war. On the field of Bloody Brook, the Flower of Essex, a band of nearly a hundred young, enterprising, adventurous men, were attacked by a powerful band of savages, who had been lying in ambush, and indiscriminately butchered before they had an opportunity to make a defence. Eight only escaped to relate the fate of their comrades. All the rest perished on that bloody plain by the rifles, tomahawks, war-clubs and scalping knives of a thousand infuriated savages.

The most remarkable scenes and adventures of this most savage war form the basis of the new Indian Romance, by HARRY HAZEL.

The character portrayed in this work are the men and women of those rude semi-barbarous days; and in no war embraced in the whole history of the Anglo-Saxon or Algonquin races, was there ever more heroism, more devotion, more sacrifices, more hardships, more hellish intrigue, more inhuman deeds, more subtlety and treachery, than during the terrible struggle which began in 1661 and ended in 1677, commonly known as "King Philip's War."

The author has selected the most thrilling and interesting events of that sanguinary period, at the same time those only which serve to develope a most ingeniously-contrived and mysterious plot, one that cannot fail to arrest the reader's attention until its full and final development.

Those who have read the previous productions from the pen of HARRY HAZEL, need require to be told that there is no man now living who can compete with him in a story of this character. He stands unrivalled in this class of literature. As one of the leading contributors to the Flag of Our Union, Star Spangled Banner, Yankee Privateer, and other leading publications of the day, for a number of years, he has acquired a popularity that places him in the front rank of American story-writers.

☞ Those who desire to secure this great story by HARRY HAZEL, complete, should send in their orders at once, to enable us to make arrangements to promptly supply them all. Wherever there is a News Agent, order through him; if not, order direct from the WEEKLY to out-of-the-way places, where there is no News Dealer. When sent by mail, the terms are $2 a year, or two copies for $3. Six months subscription, $1. All orders by mail must be addressed to

STREET & SMITH, Proprietors,
No. 22 Beekman street, New York.

N. B.—News Agents should send in their orders at once to the wholesale dealers, so as to prevent disappointment.

SPECIAL NOTICES.

Dr. Wistar's Balsam of Wild Cherry.

The editor of the "Flag of our Union" says in his paper of July 17, 1858:—"The memory of Dr. Wistar is embalmed in the hearts of thousands who have experienced entire cure from *Coughs, Colds, Consumption and Pulmonary Disease* generally by the use of his *Balsam. The* invalid need not fear to give this preparation a careful trial, as we speak from experience. More than ten years since the editor of this paper tested its excellence by individual trial in his family, with the most surprising result, as a curative for pulmonary disease."

CASES OF CONSUMPTION AND WHOOPING COUGH RELIEVED.

The following from a highly respectable gentleman, speaks for itself;

KEYPORT, N. J., May 20, 1858.

S. W. FOWLE & CO.—*Gentlemen:*—This certifies that I was for many years afflicted with a disease of the lungs, until I became so weak, that it was with difficulty I could walk. My cough during this was very severe, causing me frequently to raise great quantities of blood, attended with profuse night sweats.

After using various remedies to no purpose, I was advised to try *Wistar's Balsam of Wild Cherry.* I did so, and before using the first bottle I was entirely restored to perfect health and strength.

I would also mention that this Balsam cured a little girl of mine of a severe attack of Whooping Cough, when her life was given over by the physician and all other remedies had failed.

Prepared by S. W. FOWLE & CO., Boston, and for sale by Wm. R. Preston, Daniel Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchins, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spnpr 1 swdkw

LOSS OF CONSTITUTIONAL VIGOR.—After a life of gaiety and sensual pleasure, comes the never failing premature loss of manly vigor, with its gray hair, trembling limbs, and general lassitude. If anything can re-kindle the nearly extinguished fire, and bring back the system to vigorous health, it is the Protoxide of Iron in the form of PERUVIAN SYRUP.

"BUY ME AND I'LL DO YOU GOOD."

Now is the time to use the great Spring and Summer Medicine.

Dr. Langley's Root and Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all so compounded as to act in concert with Nature, and their effect is truly *wonderful.* They absolutely cure

LIVER COMPLAINT,	INDIGESTION,
COSTIVENESS,	DIZZINESS,
HEADACHE,	HEARTBURN,
PILES,	FLATULENCY,
WEAKNESS,	LOSS OF APPETITE.

All kinds of Humors, and every disease arising from a disordered Stomach, or bad Blood. If taken in large doses, Fever and Ague may be broken up and cured at once.

This has become a standard Medicine, and is decidedly *the Best in the World.* Try it once, and you will be sure to do so again. The price is cheap—only 25 cents for a pint, and 37½ cents for a large Bottle. You can't get a bottle too quick, for the time is fast approaching when you will have all sorts of bad Blood, if you don't take the Root and Herbs and drive them away. Sold by all Medicine Dealers everywhere.

Orders can be left at DR. LANGLEY'S, or to GEO. C. GOODWIN & CO., 31 & 12 Marshall St., Boston, wholesale Dealers in Family Medicines of every description. They invite Apothecaries and Merchants generally to examine their stock. m12

A young lady at Stratstown, New York, in the month of June, 1853, caught a bad cold. On the 21st of August, she had an attack of hemorrhage from the lungs. She bled three times in one night. She took Radway's Ready Relief, and

HAS NOT BLED SINCE.

In all cases, where persons are afflicted with Bleeding at the Lungs, take the Resolvent, in table-spoon doses, three times per day. Also, take internally one teaspoonful of Radway's Ready Relief, in some water. It will instantly stop the most severe attacks. Keep the system regular, by taking one or two of Radway's Regulators per day. *As a styptic*, Radway's Ready Relief is superior to all styptics in use. We have seen it stop violent bleeding of the nose, when all other means that were tried, failed. Bad Colds, Bad Coughs, Consumption, in the earlier stages, the R. R. R. Remedies will positively cure.

R. R.—For all acute Pains, use Radway's Ready Relief. It will relieve the most excruciating pain in a few minutes.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it the most wholesome and eminent, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find in its adoption a safeguard from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at one dollar per dozen, and in pints thirty-eight cents, by all grocers, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Foster, 30 Elm st.; J. Moran, 17½ Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. LOSS OF THE COLORADO.

The following letter from the American Consul, at Galle, gives all the particulars we have, of the loss of this ship, and the death of the captain and his wife.

GALLE, May 2, 1859.

J. M. Tredick, Esq., Portsmouth, N. H.

Dear Sir:—It is my painful duty to inform you that the "Colorado," which left this port on the 17th ult. for Tondimonar, Point Pedro, where she arrived on the 22d, was wrecked on the 24th, during a terrific gale which commenced on the evening of the 23d. The Captain, Mrs. Ricker, one boy, and one Lascar were drowned; the second officer, Captain's son, and thirteen seamen were landed here this morning from the Ceylon government steamer Pearl, which fortunately touched at Point Pedro, on the 27th. The chief officer and seven men remain in charge of the wreck until I can procure a vessel to go round, which I hope to do in a few days, to realize what has been saved. The vessel went to pieces within twenty minutes after striking. Mrs. Ricker was struck by a spar and washed overboard; Captain Ricker sprang after her, and in his endeavors to rescue his estimable wife he was drowned. We feel their loss as personal friends, having found them both so truly estimable. Their little boy is in excellent health and spirits; he will be treated as one of my own family until an opportunity offers of sending him home in charge of some American friends. I will provide funds for his passage, and advise you by next mail what has been done with the property saved.

In haste, to save the mail.

I am, dear sir, yours respectfully,

JOHN BLACK.

☞ It has now got to be so late, and no funds appropriated or subscribed, that probably no public celebration of Independence will be had in this city, other than the salutes, bell ringing, and perhaps some music from the Cornet Band in the evening. Perhaps, after all, this may fairly express the real independence of the mass, all things considered.

We hear that Mr. Diman, of Highland Cottage, Stratham, is contemplating a public Strawberry Picnic, on the Fourth of July, in a beautiful oak grove at the foot of Stratham Hill.

☞ Rev. John G. Adams is to preach at the Universalist Church in this city, next Sunday—and at the Old Meeting House in Newington at 5 o'clock P. M. the same day.

☞ Rev. A. J. Patterson of this city, is to preach at East Kingston, next Sunday.

☞ Local items are scarce. We sent our reporter out for a batch, yesterday afternoon; but we haven't seen him or heard a word from him since. Probably he's melted down.

☞ If you want a Refrigerator of any kind, go to Stevens's, Market street. He sells all kinds—so his advertisement says, which we can't get in this morning.

From the Ballot.

LEGISLATIVE VISIT.—The legislative committee on railroads, having under consideration the subject of continuing the Concord and Portsmouth railroad to tide-water, visited this city on Tuesday afternoon to examine the premises and proposed route. The result of their investigations will doubtless transpire in their future action upon the subject.

THE FISHING FLEET.—About two-thirds of the cod fishing fleet of Newcastle, we understand, have arrived from their first cruise for the season, and generally with good fares. The fish are generally large, and prices being high, our hardy friends are likely to do a good season's business. Serves them right.

☞ The closing lecture of the course now being delivered before the Young Men's Christian Association will be delivered on next Sunday evening, by Rev. Dr. Burroughs, at the North Church.

KEEP DOING SO.

As long as they continue to select such *handsome colors* of that fine *waterproof* cloth for Capes, and manufacture them in the same faithful manner, and cut them in styles to suit every customer, as they now do at Allen & Paine's, just so long will all who have a garment to buy, go to them for it.

WASHINGTON, June 16.—The views of the administration as to the rights of naturalized citizens who may return to Europe, and showing how far they are entitled to the protection of this government, were yesterday promulgated by Gen. Cass, in a letter from the State Department. The Secretary states that this government will not interfere in cases where individuals voluntarily return to countries to which they owed military service at the period of their departure for the United States.

Two large cases of silks were received by the State Department yesterday as presents from the Emperor of Japan, accompanied by a letter from the Emperor.

CARPETS AT LOW PRICES.—Those who are about redecorating or furnishing their dwellings with carpets, should read the advertisement in our paper, of the New England Carpet Company of Boston.

THE KANSAS ELECTION.—Our correspondent at Leavenworth says that the Democrats succeeded in carrying Leavenworth on the 7th inst. by the votes of 650 Irish and others, from Weston, Platte City and other Missouri towns, and have thus chosen ten delegates to the Constitutional Convention. The total vote in Leavenworth was 2450. The writer thinks that the Democrats may possibly carry five other delegates out of the fifty-two delegates of which the Convention is composed, giving the Republicans a majority of 22.—*Traveller.*

☞ A correspondent of the Statesman writes from Derry, that a lady teacher engaged to instruct one of the district schools in that town, repaired in good season, on the appointed morning, to the school-house, which was found locked, and the key no where to be had. She procured an iron bar, wrenched open the door, and has set the school in motion at a successful rate.—There will doubtless be good order under her energetic rule.

☞ It is reported that a young lady in Washington county, Va., lately died from the excessive use of snuff.

If the Austrians only had a General *Taylor* what a *patch* he could place upon the *seat* of war.

For the Chronicle.

THE NEW YORK WEEKLY.—We perceive that Messrs. Street & Smith, the new proprietors of the above truly excellent story paper, have entered into an engagement with the renowned romancist, Harry Hazel, whereby they have secured the exclusive services of that gentleman. This movement on the part of Messrs. Street & Smith shows their good taste and their correct appreciation of what will suit the public. Harry Hazel, from his connection as a writer of stirring romances, with *The Flag of Our Union*, *The Star Spangled Banner*, and *The Yankee Privateer*, has made for himself a world-wide reputation; and there can be no doubt that his first story for the WEEKLY, which is to be entitled "THE MITE SPY; OR THE MASSACRE OF BLOODY BROOK," and the first portion of which is to appear in the WEEKLY of July 2d, will double the number of readers of that already widely circulated journal.

Another horse has been found to contend with Flora Temple, even since she beat Ethan Allen in the astounding time of 2:25 to wagons. Two matches have been made between Flora and the mare Princess, the latter having recently returned from California, covered with turf honors. The matches are both to wagons, one three miles and repeat. The time for these interesting trials has not been fixed upon, but they will take place at an early day. Princess was formerly owned at Chicago.—Her original name was Topsy. She won $36,000 for her owners at her last race in California.

On the Mount Vernon purchase another instalment of ten thousand dollars has been paid over by Mr. Riggs, the Treasurer, to Mr Washington. Out of $200,000 purchase money, only about $30,000 now remains to be paid.

and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.

Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is flooded with them

TO THE PUBLIC.

I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world.*

UDOLPHO WOLFE.

CHEMICAL TESTIMONY.

D. Jose Luis Casaseca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, and of Physics and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M.'s Director of the Institute of Chemical Investigation, &c., &c.

Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—

Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balsium maria, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 90 degress in Cartier's alcohol weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.

From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Deetjen (of Bremen,) a residuum after evaporation by steam, a substance almost insipid and very trifilngly aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior," Messrs. Trauner have furnished me with a very small quantity of a greenish substance, of harsh metallic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.

I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. JOSE LUIS CASASECA.

Oleine Diamond Oil.
GREATEST ILLUMINATOR OF THE AGE.
This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.
It burns in the common oil lamp, with or without a chimney.
The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this Oil:
1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, hence it is portable.
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.
Price $1.25 per gallon.

THE
GROVER & BAKER
SEWING MACHINE COMPANY,
No. 18 Summer Street, Boston,

Having greatly increased their facilities for manufacturing their

CELEBRATED FAMILY MACHINES,

with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYE MACHINE,

PRICE FIFTY DOLLARS.

MACHINES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR!

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.
We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, may, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.
FRANK W. MILLER.

PORTSMOUTH, April 12, 1859
Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Englans, we unhesitatingly recommend the Grover & Baker, as far superior to all others.
ALLEN & PAINE.

Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, it gives pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."

Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."

Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."

DR. J. B. HUGHES,
Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who will suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.
Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.
DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empirics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.
Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.
Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.
This medicine can only be obtained at the Office of Dr. HUGHES, 12 Howard street, Boston.
DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.
The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been put up by miserable pretenders who are entirely ignorant of the efficacy of medicines.
All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.
These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.
P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j3 diy

HOME AND EUROPEAN DEMAND.
The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:
NEW YORK, Jan. 8, 1858.
MESSRS. O. J. WOOD & CO.
Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudice which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.
The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being accurate demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.
My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.
Cor. Columbia and Carroll Sts., Brooklyn.
JACKSONVILLE, Ala., Feb. 14, 1858.
PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.
You can publish this if you think proper.
Yours, &c. S. W. MIDDLETON.
PHILADELPHIA, Sept. 9, 1857.
PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,
D. R. THOMAS, M. D.,
No. 464 Vine Street.
The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

CONSUMPTION IS CURABLE!
BY THE USE OF
Winchester's Genuine Preparation of Dr. J. F Churchill's Compound of the
HYPOPHOSPHITES
OF LIME, SODA AND POTASH,
Originally discovered and prescribed by him as a Specific Remedy for
CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENT VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SUE PRE-VENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In *most instances* the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * Out of twenty-two cases in the *third or last stage*, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

BE SURE TO PURCHASE WINCHESTER'S GENUINE PREPARATION,
which is certified by Dr. James R. Chilton to be "PROPERLY MADE and *chemically pure*. My *facsimile* signature is upon every bottle.

☞ Price $2 per bottle, or three bottles for $5, with full directions for use. Write for Circulars, which will give RELIABLE INFORMATION, and save from all possibility of deception. AMERICAN & FOREIGN PATENTS.
R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington, under the act of 1837.
78 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions.—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications for patent, of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on the part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made 93 TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in its FAVOR, by the Commissioner of Patents.

Oleine Diamond Oil.
GREATEST ILLUMINATOR OF THE AGE.
This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or smoke.
It burns in the common oil lamp, with or without a chimney.
The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this Oil:
1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, hence it is economical.
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.
Price $1.25 per gallon.
For sale, wholesale and retail, at
96 Market Street, Portsmouth,
where the public are invited to call and examine for themselves.
JOSEPH HARVEY & SON.

Dr. B. S. Goodwin, Indian Physician,
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN. Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Fevers of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters!
Our philosophy of practice is founded on the laws of Nature; our theory of disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858.

FRENCH
Steam Scouring and Fancy Dyeing,
IN BOSTON.
A. LEWANDO pledges himself, from long study and practical experience in his native country and throughout Europe, in the art of Chemistry and coloring, that he can produce superior dye colors, and his mode of preparing goods for coloring is such that the fabric will retain its former strength and lively virtue, and in no instance assume that dull, decayed look, unavoidably produced by dyers in this country.
Particular attention given to Dyeing and Refinishing, in a new and very superior style Silks, Satin, Velvet, Merino, Thibets and Cashmere Shawls, Canton and Italian Crapes, Gimps, Fringes, Curtains, Piano and Table Covers, Hosiery, &c. Feathers colored and curled—by a newly discovered process, far surpassing anything yet offered to the public. He is prepared to dye and cleanse every kind of Ladies and Children's Dresses, Silk, Velvet or Wool, plain or embroidered, without removing the trimmings, or taking to pieces.—Spots taken out without fading or changing color.
Silks, Silk Dresses and Ribbons watered.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, JUNE 18, 1859.

SONS OF TEMPERANCE.

The net increase of this order is said to be 10,000 within the last year.

The National Division, of North America, held their sixteenth annual session in Philadelphia June 1st, through the week.—Twenty-five Grand Divisions were represented from the States and British Provinces, by one hundred and nine delegates.—The cause is making rapid advances in some of the States and in the British Provinces.

The next session will be held at Portland, Me., the first Thursday in June, 1860.

The evening of the first day's session, by invitation of Ark of Safety Division, in Kingston, the National Division in a body visited that Division. The second day of the session, in the afternoon, an invitation was extended to the representatives in the city, by the Superintendent of the Germantown & Norristown Railroad, to visit the battle ground of the Revolution in Germantown, and an extra train of cars furnished for their accommodation.

In the evening, the National Division moved in a body to the Academy of Music, by invitation of the Pennsylvania State Temperance Society. Five thousand persons were present. The Mayor of Philadelphia, in a neat and chaste speech, welcomed the Division to the Quaker City; and was eloquently responded to by M. W. P. Townsend, of South Carolina.

Hon. S. L. Tilley, of New Brunswick, one of Queen Victoria's public officers, and Hon. Samuel F. Cary, of Ohio, in terms of thrilling power addressed the multitude assembled.

Rev. Dr. Chapin, of New York, for about an hour enchained the attention of all by his striking appeal to all present, and to the city authorities, to suppress the tremendous evil resulting from the liquor traffic.

☞ The enterprising publisher of the Christian Era, a very able Baptist paper in Boston, has made arrangements for receiving direct from London, Spurgeon's Sermons, as soon as they are delivered, and publishing them in the Christian Era. The announcement of his plan has called forth very decided and general approval, in his circle of readers. Sermons from the Boston ministers will also appear alternately with Spurgeon's, as soon as arrangements already in progress shall have been consummated.

The Era ot June 17, contains a sermon of Mr. Spurgeon, entitled Holy Violence.

☞ Dickens declined longer to edit "Household Words," and did all in his power to ruin the publication, because Bradbury & Evans, the publishers, didn't espouse his cause warmly enough, in his foolish and suicidal quarrel with his wife. So *they* say. Dickens has a new weekly, just like the old, which he calls "All the Year Round."—Bradbury & Evans also have a new one—Household Words being discontinued—and the title is "Once a Week;" and they mean to do something with it too—they pay Thackeray $12,000 a year to edit it, and have hired John Leech to illustrate it, and altogether mean to push Dickens pretty hard. The Boston Post thinks he is enough for 'em.

☞ The twenty-eighth number of the Journal of Agriculture is received, and we are glad to learn that its circulation has reached the sum of two thousand copies.—It is devoted to the personal interests of New Hampshire farmers; is conducted by a practical farmer, and deserves a wide circulation. Specimen copies will be sent free. Messrs. Gilman & Martin, of Manchester, are publishers. Subscription price $1.50, in advance.

☞ The Manchester American says, "the Firemen of Manchester are determined to get up a celebration, if the people generally *are* indifferent. We understand it is proposed to offer prizes to all the Fire Companies in the State, as was done by the people of Worcester last year, at the muster held in that city." The City Government have appointed a committee to confer with the Firemen's committee, in regard to the matter.

☞ The house of Mr. Philbrook, in Tamworth, N. H., was struck by lightning on the 3d inst., and all the family except Mr. Philbrook were prostrated. A daughter, nine years of age, was struck, and fell apparently lifeless, while her clothes were set on fire. Before the clothes could be taken off, the child was so badly burned that it is feared she will not survive. A boy was also considerably injured.

☞ Wm. Loofborrow and Thos. J. Miller, conductors on one of the Brooklyn city railroads, have been arrested for passing counterfeit ten cent pieces in large numbers. The bogus coin was manufactured by James Young, who was also arrested. The evidence against each is conclusive.

☞ Bishop Purcell, of Cincinnati, publishes a letter calling attention to the encyclical letter of the Pope, ordering prayers throughout the Catholic world "to avert the scandal of three Catholic nations, armed with all the murderous appliances of modern warfare for mutual destruction." The Bishop expresses the opinion that there will be no necessity for the flight of the Pope. Of Louis Napoleon he says:

"Aware as we are of the antecedents of the present Napoleon, and of his uncle, we share not the disquietude of many Catholic minds, that the present apparent dictator of the destinies of Europe entertains any ideas that are hostile to the integrity of the States of the Church. He should, indeed, be demented not to see in history the point at which the downfall of the first Napoleon began, or fail to perceive that a similar policy would be fatal to himself."

Church "sewing circles" are pronounced and spelt, by a victim, "sew-sigh-eat-ease." Etymology, with a vengeance.

Travellers on railroads, who use the sleeping cars, are certainly a *bed-ridden* set.

Well named.—Considering that St. Luke was a doctor, a "St. Luke's Drug Store," in Hudson street, New York, is appropriately named.

Women's Rights females should issue their proclamations in the form of "maled sirkillers." A "bad spell" that.

What a horrible creature! A bachelor says he dislikes young married couples "because they are so apt to give themselves *heirs!*"—*Post.*

NEW YORK, June 16.—James Glass, who was yesterday convicted of manslaughter in the first degree, was to-day sentenced to imprisonment for life.

Judge Roosevelt to-day granted an order of arrest against Edward Belknap, who is accused of defrauding the Union Bank out of $160,000. His bail is fixed at $30,000.

Flora Temple beat Princess in two straight three mile heats, on the Eclipse Course, to-day. Time—First heat 7:54; second 7:59 1-2.

☞ A wag thus concentrates his description of a visit to the White Mountains:—

"Nine weary up hill miles we sped
The setting sun to see;
Sulky and grim he went to bed,
Sulky and grim went we.
Seven sleepless hours we tossed, and then—
The rising sun to see—
Sulky and grim we rose again,
Sulky and grim rose he."

GOOD AND BAD LUCK are much more intimately connected with character than is generally acknowledged. H. W. Beecher in a recent lecture says:—

"There are men who, supposing Providence to have an implacable spite against them, bemoan in poverty of a wretched old age, the misfortune of their lives. Luck forever runs against them and for others.—A man never has good luck who has a bad wife. I never knew an early rising, hard working, prudent man, careful of his earnings and strictly honest, who complained of bad luck. A good character, good habits, and iron industry, are impregnable to the assaults of all the ill luck that fools ever dream of. The worst of all luck is to be a sluggard, a knave, or a tippler."

☞ The Boston Traveller looks gloomily at the business prospects of that city, for the coming season. It says—

Nothing but the most carful and sagacious management of our great system of credit and banking, will hinder us from another panic, even so close upon the heels of the last.

There are said to be not less than 10,000 Chinamen now on their passage to California, where their presence will be likely to cause some trouble among the miners.

Why trouble?—Are Chinamen any more troublesome than Irishmen?

At Lockport there is a person seven feet five and three-fourth inches in height, who claims to be a descendant of the huge Philistine, and says his name is Doctor Goshen, from Charen, Isthmus of Suez, and that he is an Arabian of high rank. He is described as of good proportions and pleasant countenance.

☞ The City Marshal of Bangor on Tuesday, seized ninety gallons of various kinds of liquors in the shop of Daniel O' Brien, and arrested the proprietor as a common seller.

NAHANT.—Two hundred and thirty years ago, the historian informs us, the whole promontory of Nahant was purchased by a Lynn farmer for a suit of clothes. At that period in its history, Nahant was not the fashionable watering place of the present day, for we read that wolves abounded, and the deer which came there for food were driven by them into the sea. Now, the wolves, if there are any, appear in sheep's clothing, and the *dear* in crinoline and costly silks.

As was announced by telegraph all over the country, on the 15th June, the celebrated "Nahant House" was opened by Messrs. Thomas Rand & Sons, on that day, for the season. This popular establishment, containing accommodations for nearly 1000 guests, is conducted on a liberal scale in all respects—combining the luxury of a sumptuous entertainment with the genial comforts of a quiet home—ample facilities for every desirable recreation and amusement. Gilmore's Band is engaged to furnish the music the present season.

Mr. Sinclar, the Scotch Temperance Lecturer, stated in one of his lectures that when a boy he saw a man's head chopped off in Glasgow, by the public executioner, and the head held up by the hair and pronounced that of a traitor, because he was engaged in stirring up the people to demand an extension of their privileges, and an increased liberality in the laws. Ten years afterwards the very privileges for which he contended were granted, the very laws which he demanded were enacted, and at the present day in Glasgow, in Edinburgh, in Manchester and in London may be seen monuments erected to perpetuate his memory. Thus the living are crucified that the dead may be glorified. —*Bath Times.*

CORDIAL OF DANDELION,
SPIKENARD & BONESET,
A remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and Pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.
Hundreds of testimonials might be added, proving the many cures by this pleasant and effectual medicine, especially of people who used to live, whose debilitated constitutions have been gradually recruited by it. A trial of it is warranted to well pay the aged and dyspeptic. Price 75 cents.
[From Mrs. Ira Burnham, Exeter, N. H.]
I have suffered many years from the liver and heart complaint. By these distressing diseases I was reduced so low, some two years since, that I could not sit up more than ten or fifteen minutes at a time, when I began to take Dr. Swett's Cordial of Dandelion, Spikenard and Boneset, which has so fully restored my health that I now daily labor and attend to the business of my large boarding house. Nature is the Great Physician.

This is now admitted by the medical profession, as a fundamental principle of healing science. It is wisely provided by the human economy, that whenever anything is wrong in the physical system, the natural forces of the body are brought to bear to expel the disease. The great aim, therefore, is to strengthen the natural powers. This has been kept in view by the skillful compounders of Dr. J. HOSTETTER'S BITTERS, which operate to give fresh vitality to all the organs of the body. The effects of this medicine upon the stomach, the liver and the kidneys, are prompt and decisive. The patient who is wise enough to quit drugging, and try the BITTERS, soon feels as he if he had taken a new lease of life, and as he continues the use of the article he is overjoyed to find the stream of health coursing through his frame. Let all from whose cheek the bloom has departed, give Dr. J. Hostetter's Celebrated Bitters a trial.

SPECIAL NOTICES.

Dr. Wistar's Balsam of Wild Cherry.

The editor of the "Flag of our Union" says in his paper of July 17, 1858:—"The memory of Dr. Wistar is embalmed in the hearts of thousands who have experienced entire cure from *Coughs, Colds, Consumption and Pulmonary Disease* generally by the use of his *Balsam*. The invalid need not fear to give this preparation a careful trial, as we speak from experience. More than ten years since the editor of this paper tested its excellence by individual trial in his family, with the most surprising result, as a curative for pulmonary disease."

CASES OF CONSUMPTION AND WHOOPING COUGH CURED.

The following from a highly respectable gentleman, speaks for itself:

ROCHESTER, N. J., May 20, 1858.

S. W FOWLE & CO.—*Gentlemen*:—This certifies that I was for many years afflicted with a disease of the lungs, until I became so weak, that it was with difficulty I could walk. My cough during this was very severe, causing me frequently to raise great quantities of blood, attended with profuse night sweats.

After using various remedies to no purpose, I was advised to try *Wistar's Balsam of Wild Cherry*. I did so, and before using the first bottle I was entirely restored to perfect health and strength.

I would also mention that this Balsam cured a little girl of mine of a severe attack of Whooping Cough, when her life was given over by the physician and all other remedies had failed.

LOSS OF CONSTITUTIONAL VIGOR.—After a life of gaiety and sensual pleasure, comes the never failing premature loss of manly vigor, with its gray hair, trembling limbs, and general lassitude. If anything can rekindle the nearly extinguished fire, and bring back the system to vigorous health, it is the Protoxide of Iron in the form of PERUVIAN SYRUP.

"BUY ME AND I'LL DO YOU GOOD."

Now is the time to use the great Spring and Summer Medicine.

Dr. Langley's Root and Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all so compounded as to act in concert with Nature, and their effect is truly *wonderful*. They absolutely cure

LIVER COMPLAINT, INDIGESTION,
COSTIVENESS, DIZZINESS,
HEADACHE, HEARTBURN,
PILES, FLATULENCY,
WEAKNESS, LOSS OF APPETITE.

All kinds of Humors, and every disease arising from a disordered Stomach, or bad Blood. If taken in large doses, Fever and Ague may be broken up and cured at once.

This has become a standard Medicine, and is decidedly *the Best in the World*. Try it once, and you will be sure to do so again. The price is cheap—only 25 cents for a pint, and 37½ cents for a large Bottle. You can't get a bottle too quick, for the time is fast approaching when you will have all sorts of bad feelings if you don't take the Root and Herbs and drive them away. Sold by all Medicine Dealers everywhere.

Orders addressed to J. O. LANGLEY, or to GEO. C. GOODWIN & CO., 11 & 12 Marshall St., Boston, wholesale Dealers in Family Medicines of every description. They invite Apothecaries and Merchants generally to examine their stock. m13

A young lady at Stephentown, New York, in the month of June, 1858, caught a bad cold. On the 21st of August, she had an attack of hemorrhage from the lungs. She bled three times in one night. She took Radway's Renovating Resolvent, and

HAS NOT BLED SINCE.

In all cases, where persons are afflicted with Bleeding at the Lungs, take the Resolvent, in table-spoonfull doses, three times per day. Also, take internally, one tea-spoonful of Radway's Ready Relief, in some water. It will instantly stop the most severe attacks. Keep the system regulated by taking one of Radway's Regulators per day. As a *styptic*, Radway's Ready Relief is superior to all styptics in use. We have seen it stop violent bleeding of the nose, when all other means failed to stop it. Bad Coughs, Colds, Consumption, in the earlier stages, the R R. R. Remedies will positively cure.

N. B.—For all acute Pains, use Radway's Ready Relief. It will relieve the most excruciating pain in a few minutes.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound barley, under the surveillance of a British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restorative of vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Wholesale Agents, Bay only CHARLES'.—NONE OTHER IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; R. S. Burr & Co., 1 Cornhill; E. Packer, 20 Elm st.; J. Moran, 110 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. CITY COUNCIL.—The joint finance committee of the City Council, recommended the appropriation of $150 for the "Celebration of Independence." This the Common Council voted, a week since, to increase to $500; but on Thursday evening last, they rescinded this vote, and voted to make no appropriation at all for the purpose. The matter gave rise to some little debate. The general appropriation bill was under consideration.

Mr. Kimball stated that it had been said that the Common Council would not appropriate money to feed the poor, but wanted to spend it in public frolicing and celebrations—that to have a creditable celebration, at least $1000 was necessary, and the citizens ought to subscribe $500 if the city appropriated that sum, which he felt sure the people would not do, even were there now time to get up a display. He would therefore suggest that, as it seemed desirable to add $500 to the $4000 recommended by the finance committee to build a school-house in Cabot street; that this Fourth of July appropriation be reduced to $50 or less.

Mr. Miller, who at the previous meeting moved to appropriate $500 for the Fourth of July, now made a motion to reconsider the vote—stating that there was not time to prepare a creditable display, and favoring the expenditure of $150 in firing salutes, (though he had no great regard for cannon firing, anywhere) ringing bells, and a concert by the Portsmouth Cornet Band, on the Square in the evening. The motion was carried, and the $500 vote rescinded.

Mr. Miller then moved that $150 be appropriated for celebrating the Fourth of July. Negatived.

Mr. Kimball moved that 50 cents be appropriated. Voted No.

Mr. Snow moved that no appropriation be made for this purpose. Carried.

Mr. C. H. Hayes called for the yeas and nays—which were recorded as follows:—

Yeas (to make *no* appropriation)—Messrs. Clark, Fisher, Marden, Turner, Kimball, Hayes, Sides, T. P. Dennett, Snow, Gardner—10.

Nays (in favor of appropriating something)—Messrs. W. H. Dennett, Todd, Sheldon, Miller, Broughton, Upham, Dodge—7.

Mr. T. J. Sheldon moved, (for the purpose of completing the Appropriation Bill and getting it before the Aldermen,) that the item recommending $4000 for the new school-house in District No. 2, be stricken out. Negatived unanimously.

Mr. Kimball warmly urged the immediate necessity of a new school-house in Cabot street, and recommended that a suitable house be built and paid for this year,—the entire cost not to exceed $4500. Voted.

On motion of Mr. Kimball, the $75 for further repairs of Court House, was stricken out.

The sum of $450 for pay of Assistant Marshals and police was adopted.

☞ It isn't always your nearest relations who are most mindful of you, after all. Here *Uncle* Sam has put up a splendid stone edifice for our accommodation, and the delight of all good taste; but our City *Fathers* allow that miserable old abortion of a building on Market Square, which disgraces the name of Jefferson, to remain, year after year, in the place and stead of a good City Building. We wish we might never pass that old hulk again—it is a standing shame to modesty, a burlesque on good taste, and a reproach to enterprise and public spirit. Why not down with it, now as well as any time? Such a work as building a new City Hall, &c. can *never* be done without exertion and sacrifice—why not make it *this* year as well as any other?

We have published the beautiful plan for a City Building, drawn by Mr. S. S. Woodcock, of Boston, the architect of the Rockingham Bank, the improvements in the Stone Church, &c. Who among us isn't willing to pay his share towards this or some other?

☞ Speaking of the shoe manufactories in New Hampshire, the old establishment of Mr. Thomas S. Nowell, in Dover street in this city, is worthy of mention, among the rest. About 1200 pairs of shoes a week are manufactured by 150 workmen here and in the neighboring towns; and about 50 women and girls find good employment in stitching, &c.

THE NEW SCHOOL HOUSE.—The Common Council have voted $4500 for a new School House in Cabot Street—and are desirous that it be built this present year.—The sooner the better.

☞ Rev. John G. Adams is to preach at the Universalist Church in this city, tomorrow—and at the Old Meeting House in Newington at 5 o'clock P. M.

☞ The closing lecture of the course now being delivered before the Young Men's Christian Association will be delivered on next Sunday evening, by Rev. Dr. Burroughs, at the North Church.

FOURTH OF JULY.—It will be seen that the Common Council have voted not to *have* any Fourth of July this year. It remains to be seen whether the Aldermen will concur.

SINGING SCHOOL.—It will be noticed that Mr. Pearson's Juvenile Singing School will commence this (Saturday) afternoon, at his hall in Exchange Block. This offers a good opportunity for parents to have their children instructed in what will add much to their happiness now and in coming years; and by furnishing pleasant recreation, tend to the preservation of morals. Every child should be taught to sing; and they may be taught as soon as they can articulate, and much better when young than in after life.

ATTEMPTED SUICIDE.—On Wednesday afternoon Miss Ellen Blake, aged 16 years, belonging in Kittery, who has been stopping at the house of a married sister living in Newburyport, took two ounces of opium, with the intention of ending her days.—Some two months ago she was engaged to marry a young man, clerk of the marines at the Navy Yard in Kittery, who was at that date found drowned in the dock.—Since that she has mourned herself to insanity, and has several times attempted her life. This time she took an over dose and vomited the poison—to the saving of her life. The utmost attention was demanded till midnight to prevent her falling into that sleep that knows no waking. When she came to herself she much regretted that they had interfered with her purpose, and threatened to repeat the effort at a future time.—*Newburyport Herald.*

DAN RICE'S "GREAT SHOW."—This great institution, *sui generis*, will shortly be here, with its myriad of novel attractions.—The Great Show was always acceptable, but this season we anticipate its out-Heroding Herod. A huge black Rhinoceros, just from the jungles of Africa, has been so effectually trained by Dan Rice, that he enters the arena, and performs a series of novel tricks. The Elephant Lalla Rookh is announced *to walk a tight rope*, a novelty unparalleled, and seemingly impossible.—Still a gentleman assures us that he saw her do it a few days ago.

Dan Rice has more performing horses and ponies, more rare animals—better and more performers than any concern ever organized in the world.

☞ There is the usual amount of business before our legislature; and something more than the usual promptness in taking hold of it. The principal subjects are the Courts and the Railroads; but as yet no decisive action has been taken on either of them. The legislature have propounded important questions to the State Supreme Court to ascertain if the General Court can pass laws allowing juries of less than twelve men to sit on a panel, and also to authorize verdicts by a majority of the jury, instead of requiring unanimity. The judicial reply is to be given to the next legislature.

WINSHIP'S

Patent Self-Ventilating Refrigerator.

It is now conceded by physicians that provisions are rendered very unwholesome by being confined in a Refrigerator in which the air is not constantly and effectually changed; and that the health of many families has suffered in consequence. The musty and sour smell common to most ice chests is a sure indication of this poisonous and offensive tendency.

This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Silliman has introduced a description of it in his new work on natural philosophy as the best illustration ever practically tested of perfect ventilation.

The temperature is always uniform. The air never becomes stagnant. There is no waste of ice. The warm air cannot enter on opening the doors. Access to the ice is had without disturbing the provision chamber. Articles of different flavors cannot impregnate each other. Milk, delicate fruits and meats can be preserved much longer than in any other Refrigerator.

The air is admitted by Register C into the Ice Chamber A, where it is cooled and purified by contact with the ice; falls by its own weight through apertures DD directly into the Provision Chamber B, penetrating every part, and securing a *uniform* temperature throughout; is then forced, by still descending bodies of cold air, through apertures EE, and being purified by contact with the thin sides of the outer case, rises and passes out at Registers FF.

All who value health and pure food are advised to give this article a trial. The cost is about the same as the common ice chests, and they are made with panel sides and top, and tastefully grained.

All sizes of these celebrated Refrigerators for sale at the Stove and Furnishing Warehouse of the subscriber, No. 46 Market street.

Also, an assortment of Ice Chests.

and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spirituous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.

Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is flooded with them

TO THE PUBLIC.

I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world.*

UDOLPHO WOLFE.

CHEMICAL TESTIMONY.

D. Jose Luis Casaseca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, and of Physics and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M.'s Director of the Institute of Chemical Investigations, &c. &c.

Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—

Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balnium maria, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreable aroma completely colorless and transparent, which marked 90 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.

From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island, which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Deetjen (of Bremen,) as residum after evaporation by steam, a substance almost insipid and very trifling aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior," Messrs. Tracner have furnished me with a very small quantity of a greenish substance, of harsh metalic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.

I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so.

Morning Chronicle.

☞ "The New England Yearly Meeting Boarding School for Friends" at Providence, an institution at which many of the members of the Society of Friends have had their academical education, held a "reunion" at Newport on Monday, to celebrate the 40th anniversary of the institution.—The Friends "yearly meeting" is now in session at Newport, and the locality was chosen for that reason.

☞ Miss Harriet Lane, the charming lady of the White House, went on an excursion as far as West Point, one day last week, in the revenue steamer bearing her fair name. She was accompanied by Gen. Ward, of the city of New York, Col. Hardee, of the army, and a large party of ladies and gentlemen. Salutes welcomed the arrival of the steamer with its precious freight.

☞ The largest and oldest apple tree in Essex County was lately blown down in a gale of wind. It stood on the land of Moses Pickard, in Rowley. It measured over sixteen feet around its trunk some three feet from the ground, and was sixty feet from one extreme of its branches to the other. It was supposed to be from two to three hundred years old.

☞ Paran Stevens has just imported from Paris the largest mirror ever brought to this country. It is to be placed in the dining room of his new hotel in New York. It measures 66 by 188 inches, and cost, exclusive of frame, about $1500.

☞ A man named Atkinson and his wife, were recently killed by lightning, near Hickory Grove, Iowa. They were sitting at the breakfast table, with a laborer in company, when struck with lightning.—Both remained sitting in their chairs, dead. The laborer was not seriously hurt, and the house but little injured.

☞ At the yearly meeting of the New England Quakers, now in session at Newport; Robert and Sarah Lindsey of England, and J. G. Whittier, the poet, who are eminent members of the sect, are in attendance. The gathering this year is said to be unusually large.

A ROMAN NOBLE OF TWENTY-FIVE.—At that age an American has practised ten trades, made four fortunes, one failure, and two campaigns—has conducted a lawsuit, preached a religion, killed six men with a revolver, emancipated a negress, and annexed an island. An Englishman has written two themes, followed an embassy, found a bank, converted a catholic, travelled round the world, and read the collected works of Sir Walter Scott. A Frenchman has written two tragedy, contributed to two newspapers, received three sword-cuts, made two attempts at suicide, persecuted four husbands, and undergone nineteen changes of political opinion. A German has wounded fourteen of his intimate friends, has swallowed sixty cask-falls of beer (besides the philosophy of Hegel) has sung eleven thousand songs, compromised one young lady, smoked a million pipes and dipped himself into two revolutions. But the Roman prince has done nothing, seen nothing, learned nothing, loved nothing, suffered nothing. Open the grated door of a cloister, and a young girl appears quite as experienced as he.—*M. About's Roman Question.*

The way the body of the railroad conductor, drowned in Shrewksbury pond, Vermont, some days ago, was found, was thus: some quicksilver was put into a loaf of brown bread, and the latter placed in the water; immediately it started off like a wild animal against a strong current of wind and wave, and went as fast as some men who followed it could row a boat, till it came to where the body was found, which was sixty feet under water, and there stopped.

So says the item, in the papers,—but it sounds like a tough story.

We do not believe that "our forefathers," as a general thing, were any more virtuous or patriotic than the generation now on the scene of life. The early elections, for example, were characterized by as much violence and falsehood as those of the present day. If you doubt it, go up to the library of the New York Historical Society, and read the newspapers of 1796, 1797, 1798, and so till 1830. You will come away thinking somewhat less of the superior purity of our forefathers.

"Shorten thy sleep and lengthen thy knowledge," says an Arabic proverb; but if shortening one's sleep should happen to shorten his life as well, what becomes of knowledge then? It is the opinion of a distinguished physician that half the insanity in this world could be prevented by sufficient sleep. Early rising is a good thing for people who go to bed betimes; and a bad thing for those who don't. Length your nights or shorten your days—take your choice.

The German Church Friend, a Philadelphia paper, attacks severely that portion of Germans who patronise lager beer houses, make Sunday excursions, &c. Speaking of the lager beer trade, it says that if anything is a disgrace to the German name, the numberless German beer houses are such. Their keepers deport themselves as arrogantly as if they were privileged to scorn publicly all order, morals, or reverence for that which is holy.

AYER'S SARSAPARILLA,

A compound remedy in which we have labored to produce the most effectual alterative that can be made, and to this end combine with the Iodide of Potassium, so combined with other substances of still greater alterative power as to afford an effectual antidote for the diseases Sarsaparilla is reputed to cure. It is believed that there is a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immediate benefit to the great class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIVE AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA, OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of these many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the enormous debt of complaints and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do it through its natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it whenever it is found to be obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, you will enjoy better health, and live live longer, for cleansing it well. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health, and the machinery of life must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these results, but the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be the concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.

During many years, frauds have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been put upon the sick, for they not only contain little, if any, Sarsaparilla, but no curative properties whatever. Acnce bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla, which flood the market, until the name itself is justly cspised, and has become synonymous with imposition and humbug. We call this compound Sarsaparilla, and intend to supply such a remedy as will produce the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are more valuable by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be perseviously taken according to directions on the bottle.

DR. J. C. AYER & CO.,

LOWELL, MASS.

PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

Ayer's Cherry Pectoral

Has won for itself such a renown for the cure of coughs, colds, of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner pill, and for Purifying the blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price, 25 cents per box; five boxes for $1.

Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their names to certify the unparalleled usefulness of these preparations. We have room here to not permit the insertion of them. The Agent below named furnishes gratis our American Almanac, in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand AYER'S, and take no other. The sick wan the best aid there is for them, and they should have it.

All our remedies are for sale by W. R. Preston, Portsmouth, and by all druggists and merchants in the civilized world. 6m—jel4

COMPOUNDED ENTIRELY FROM GAINS.

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These pills remove One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA, in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow together.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrounded by the ills of life, and suffering under of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter post and directed to

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empirics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spontaneous or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently, after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy, and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudice which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write to you this letter, to be at your show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, ALA., Feb. 14, 1858.

PROF. WOOD—DEAR SIR: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 8, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used only half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also showing its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,

No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

CONSUMPTION IS CURABLE!
BY THE USE OF
Winchester's Genuine Preparation of Dr. J. F Churchill's Compound of the
HYPOPHOSPHITES
OF LIME, SODA AND POTASH,
Originally discovered and prescribed by him as a Specific Remedy for
CONSUMPTION!
The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENT VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SUE PREVENTATIVE, and a
SPECIFIC REMEDY FOR CONSUMPTION.
Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In *most instances* the benefit derived from it has FAR EXCEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * Out of twenty-*two cases in the third or last stage*, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."
BE SURE TO PURCHASE WINCHESTER'S GENUINE PREPARATION,
which is certified by Dr. James R. Chilton to be "PROPERLY MADE and *chemically pure*. My *facsimile* signature is upon every bottle.
☞ Price $2 per bottle, or three bottles for $5, with full directions for use. Write for circulars, which will give RELIABLE INFORMATION, and save from all possibility of deception. Sold wholesale, at the lowest discount for cash, at the Sole General Depot in the United States, by J. WINCHESTER, American and Foreign Agency, 49 John street, New York.
Also, of P. H. NILES, No. 3 Arch street, Boston, Mass., Agent for the States of Mass., N. H., and Vt., to whom all orders must be addressed.

AMERICAN & FOREIGN PATENTS.
R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington, under date of 1837.
76 STATE, OPPOSITE KILBY ST, BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL with THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him t.. accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, put him in a position, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
BOSTON, February 8, 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

GREELEY'S PATENT ELASTIC
BACK AND CENTRE
SUSPENSION PANTALOONS.
Patented June 29, 1858.
J. E. HAM & CO.,
Have purchased the right to manufacture the above named Pantaloons. The advantages of this invention over the usual method of making Pants is: they may be made snug to the person, and still be as easy as though they were uncommonly large. Pants that are easy to stand in are easy to sit or stoop in.
Also for sale, GREELEY'S BRACE SUSPENDER—a superior Suspender for Skirts or Pants, and far superior to any other BRACE in the market. may25

Oleine Diamond Oil.
GREATEST ILLUMINATOR OF THE AGE.
This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.
It burns in the common oil lamp, with or without a chimney.
The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attend a gas light, and is cheaper. We claim for this Oil:
1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, hence it is portable.
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.
Price $1.25 per gallon.
For sale, wholesale and retail, at
96 Market Street, Portsmouth,
where the public are invited to call and examine for themselves.

HOUSE OF REFORMATION.—The Committee of the Legislature on the House of Reformation, consisting of Asa McFarland of Concord, John F. Adams of Greenland, Wm. P. Newell of Manchester, Alvin Comings of Cornish, Charles Horton of Dover, Daniel E. Palmer of Milton, Elisha Hayes of New Durham, John A. Prescott of Jaffrey, Gilman Burley of Dorchester, and George R. Hodgdon of Randolph, went down in the 11 o'clock train, to Manchester on Thursday, and visited the Institution, remaining till the 2 o'clock train ran up.—Hon. Frederick Smyth, Gen. J. C. Abbott and J. G. Cilley, Esq., of Manchester, were also present. They looked over the farm, the buildings, talked with the boys and girls, made remarks to them, and took dinner.—They seemed pleased with what they saw and heard.

At 4 o'clock, four of the Council went down, took tea, and examined the condition of the Institution, returning in the 7 o'clock train. They seemed favorably impressed, so we are told, says the Mirror, which then remarks:—

What the Committee will report, it is not for us to say; but we wish to record what we consider the general impression of this city upon the subject.

Manchester was much pleased that the Institution should be located here, by far the largest place in the State, and, on that account, entitled to some consideration. In addition, the main business of the Institution, Mr. Wilkins, lived here. The Stark Farm of 100 acres, rich in historical associations, finely located for the purpose, was bought for half of what it is now worth, and an appropriate, handsome main building was erected, finished and dedicated with the co-operation of prominent men in all parties, for the most part.

It was opened, and the Superintendence of it entrusted to Brooks Shattuck, Esq., a man in many respects admirably qualified for the position. Since then he has struggled along, without money sufficient to enrich the farm, without a barn or out-buildings, without a workshop, without a library, except a begged one, without a proper change of clothing for the boys and girls there. Everything bought for it has been of the cheapest character, so stingy and mean is the State in its appropriations toward it. The farming tools are not so good as are used by common farmers, because the State is so poor.

Manchester begins to look at the treatment received as rather personal. If the Institution had been located at Concord, there would not have been a question as to the amount of appropriations to be made, any more than there is about those for the Insane Asylum. This year $8,000 should be appropriated for enriching and stocking the farm, building a barn and workshop, and putting the place in a position to be a matter of State pride. We have yet to find the man of any importance in this State, who questions the importance of such an Institution, or objects to its being supported in a proper manner.

All the above, from the Mirror, we suppose to be strictly true. Yet the editor must know, that this Institution was held up in the Patriot and its echoes, all over the State, as a bugbear, to frighten the people away from voting the black republican ticket,—and that newspapers and handbills were distributed all around, pledging the *democratic party*, if they prevailed, to *sell the farm and buildings at auction.*

☞ Downing thus speaks of "the blunders committed by many persons in furnishing a house. We mean the blunders o confounding *fashion* with *taste*; of supposing that whatever the cabinet makers and upholsters turn out as the latest fashion, must necessarily be the only things worth having and of a total ignorance of the fact, that the most fashionable furniture may be in the worst taste, while furniture in the most correct taste is not always such as is easily obtained in the cabinet warehouses; and again the great advantage which furniture in correct taste has over merely fashionable furniture is, that the latter is no sooner out of fashion—which may happen in a twelve-month—than lo! its whole charm and power of pleasing is lost to its possessor. It must therefore be sent to auction, or consigned to the upper story, and more of the latest mode put in its place—while furniture in correct taste, depending on its excellence, and the adaptation of its forms and lines to the apartments of whose architecture it is an echo, never loses its power of pleasing, but only grows clearer to us by age and association."

☞ Dr. George B. Windship, in accordance with many solicitations, repeated his eloquent and instructive lecture on "Physical Culture" with illustrations, at the Boston Hall, Saturday evening. The Boston Medical Journal had an extended notice of Dr. Windship's first lecture, not only on account of its subject, but that a record might be made of the "remarkable fact of the lecturer's enormous strength."

DIVORCES.—The late term of the Supreme Court at Manchester unyoked a dozen couples upon whom the matrimonial yoke sat unpleasantly. In nine of them the action was brought by the wife.

☞ John G. Saxe, the candidate for Governor of Vermont, is well known, not only as a poet, but as a genial wit and something of a wag. In accepting the nomination, at the Democratic Mass Convention, he is reported as making the following humorous remarks:—

He believed he might say he had been a faithful member of the Democratic party for about twenty-two years; and beyond this assurance he supposed he should be excused from placing himself on *any* party platform, on this occaison. Anything farther, that might be necessary and proper for him to say on this point, would be fully set forth in his *first message*, in the best English that he could produce. (Great laughter.)

He was aware that the Republicans, equally with the Democrats, considered it a great joke to presume that a Democratic Governor might be elected in this State.—The speaker trusted that he was not altogether insensible to facetiousness, but this large and respectable Convention did indeed seem to be an earnest of something more substantial than the annual farce heretofore enacted. If this Convention did not so look upon it, there were many intelligent Republicans in the State (intelligent as Republicans could be) who looked upon it differently, and who well knew that truth was always in a minority at first. He did not flatter himself that success would be easy, but he hoped that this Convention would so inspirit the Democracy of Vermont, that they would hereafter show more political zeal.

A series of resolutions was passed, one "embodying the only sound and safe solution of the slavery question—*non-interference by Congress with slavery in State or Territory, or in the District of Columbia.*" Another, resolving, "that the administration of James Buchanan is entitled to the confidence and approval of the Democracy of Vermont"—and a third, "that the Democracy of Vermont have abiding confidence in the principles of the Democratic party, and though sometimes wanting in votes, are never wanting in courage."

In the course of the reading of the resolutions, three cheers were given for Popular Sovereignty, three for Old Buck, and three for Douglas.

CASE OF SLAVER ORION.—The preliminary examination in the case of the slaver Orion has been begun in New York, and the testimony of Lieuts. Dallas and Campbell taken.

Lieut. D. stated that Capt. Hanna admitted to him that he (Hanna) was employed to take the vessel to the Coast of Africa, where he was to transfer the charge of the vessel, which was thereafter to be employed in the slave trade.

The persons under examination were Daniel Morgan, 1st mate, and 12 of the crew. The evidence as to the character of the vessel was pretty minute, but the commissioner held that it was insufficient to hold the accused, and they were accordingly discharged.

THE THORNDIKE WILL CASE.—This case came up again before Judge Ames, in the Suffolk County Probate Court, in Boston, on Wednesday, according to postponement. B. R. Curtis and T. K. Lothrop appeared for the contestants, and Ex-Judge B. F. Thomas for the Will. The case is to be determined upon the briefs of the counsel, without any further hearing; and Judge Ames said he should take time for his decision, if there was no exigency requiring haste. The case was accordingly postponed.

THE ST. LOUIS BREACH OF PROMISE CASE.—Moritz Steinback, one of the jurors in the celebrated Carstang breach of promise case at St. Louis, has made affidavit that before being empannelled on the jury, he stated that he did not understand English sufficiently to try the matter; that he never agreed to the verdict giving the plaintiff $100,000, but thought that the majority ruled, and consequently did not object; and that he now belives that the verdict was unjust and the damages excessive. The conduct of several of the jurors in this case, in impeaching the justice of their own verdict since the trial, raises the suspicion that they have been tampered with by the wealthy defendant, to enable him to secure a new trial and a reduction of the heavy fine.

☞ A despatch received in Bath, 16th inst., from Machiasport, states that ship Bolton was a total wreck on Cross Island, and all hands were lost except the second mate and two seamen. The Bolton was commanded by Captain Cotter, and was fully insured. She was from Philadelphia for St. John for a cargo of deals. Cross Island lies just outside of Machias bay. The captain, his daughter, and thirteen of his crew, were drowned.

☞ Mme. Lorini, (Miss Virginia Whiting) a Boston girl, has had a distinct success in Italy in the leading characters of opera, as Norma, etc. Her voice, method, style and action are all praised.

☞ Madame Biscaccianti, with her surpassingly sweet notes, at last accounts was turning the heads of our Blue Nose neighbors with her captivating songs.

☞ Dr. Franklin, talking of a friend of his who had been a Manchester dealer, said, "he never sold a piece of tape narrower than his own mind."

A WHOPPER.—The following paragraph is going the rounds:—

A Big Butterfly.—Prof. Agassiz has received from Brazil a butterfly that measures ten feet from the tip of one wing to the other.

The Boston Advertiser clips the wings of this formidable insect thus:

"The butterfly was a large one, but this exaggeration is larger. The butterfly was in fact smaller than is here stated by nine feet and two inches;" i. e. the butterfly spread himself 10 *inches*, but the newspapers spread him 10 *feet*.

☞ A thousand feet os cable have been ordered to enable Mons. Blondin to perform the feat of walking across Niagara river on a tight rope. The cable will be put across about half way between the Falls and Suspension Bridge. Mons. Blondin's friends have no doubt of his ability to accomplish the remarkable performance.

☞ The Circuit Court of New York has decided that a wife has a pecuniary value. A man sued the Hudson River Railroad for $5000 for the loss of his wife, who was killed by an accident on that road. The defense set up was that no *pecuniary* damage had been sustained, but the jury tho't otherwise, and decreed the bereaved husband $2000.

☞ A new Museum of Comparative Zoology is to be erected in Cambridge.—The ground was broken the 14th. Prof. Agassiz made an address, Gov. Banks cut the first sod, and *Mrs.* Agassiz placed it upon the wheelbarrow, and thus the farce is made to procede rather than second the more substantial play.

☞ N. B. Corning who is building a hotel at East Jaffrey, which will cost $5,000, has been presented with $1,500 to aid him in that enterprise.

☞ Last week an elderly man was brought as a convict to the Kentucky State penitentiary, whose six sons were already in that institution as convicts.

☞ A German writer observes that in the United States there is such a scarcity of thieves they are obliged to offer a reward for their discovery.

☞ Rev. O. D. Miller, pastor of the Universalist Society, Nashua, has resigned his pastorship.

Woman has this great advantage over man—she proves her will in her life-time, whilst man is obliged to wait till he is dead.

Most men look upon old age as timid spinsters look upon matrimony—desire it, and dread it.

☞ A bull fight was announced to come off in New York, on Wednesday evening.

WINSHIP'S

Patent Self-Ventilating Refrigerator.

It is now conceded by physicians that provisions are rendered very unwholesome by being confined in a Refrigerator in which the air is not constantly and effectually changed; and that the health of many families has suffered in consequence. The musty and sour smell common to most ice chests is a sure indication of this poisonous and offensive tendency.

This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Silliman has introduced a description of it in his new work on natural philosophy as the best illustration ever practically tested of perfect ventilation.

The temperature is always uniform. The air never becomes stagnant. There is no waste of ice. The warm air cannot enter on opening the doors. Access to the ice is had without disturbing the provision chamber. Articles of different flavors cannot impregnate each other. Milk, delicate fruits and meats can be preserved much longer than in any other Refrigerator.

The air is admitted by Register C into the Ice Chamber A, where it is cooled and purified by contact with the ice; falls by its own weight through apertures DD directly into the Provision Chamber B, penetrating every part, and securing a uniform temperature throughout; is then forced, by still descending bodies of cold air, through apertures EE, and being rarified by contact with the thin sides of the outer case, rises and passes out at Registers FF.

All who value health and pure food are advised to give this article a trial. The cost is about the same as the common ice chests, and they are made with panel sides and top, and tastefully grained.

All sizes of these celebrated Refrigerators for sale at the Stove and Furnishing Warehouse of the subscriber, No. 46 Market street.

Also, an assortment of Ice Chests.

CORDIAL OF DANDELION,

SPIKENARD & BONESET.

A remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and Pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.

Hundreds of testimonials might be added, proving the many cures by this pleasant and effectual medicine, especially of people advanced in life, whose debilitated constitutions have been gradually recruited by it. A trial of it is warranted to well pay the aged and dyspeptic. Price 75 cents.

[From Mrs. Ira Burnham, Exeter, N. H.]

I have suffered many years from the liver and heart complaint. By these distressing diseases I was reduced so low, some two years since, that I could not sit up more than ten or fifteen minutes at a time, when I began to take Dr. Swett's Cordial of Dandelion, Spikenard and Boneset, which has so fully restored my health that I now daily labor and attend to the business of my large boarding house. ELIZABETH BURNHAM.

Exeter, June 1, 1859.

This testimony of my wife is correct.

IRA BURNHAM.

[From Mrs. Ebenezer Blazo.]

GREENLAND, Nov. 20, 1858.

DR. SWETT—Dear Sir:—The distressing disease called the heart complaint, which has so long afflicted me, and which has baffled the skill of all my former physicians, has been fully cured by the two bottles of your Cordial which I had of you last spring. Yours with respect,

SALLY BLAZO.

This unequalled medicine, together with others carefully prepared by Dr. SIMEON SWETT, from innocent but effectual vegetables, are for sale by him at No. 12 CABOT ST., Portsmouth, N. H.

Nature is the Great Physician.

This is now admitted by the medical profession, as a fundamental principle of healing science. It is wisely provided by the human economy, that whenever anything disturbs the physical system, the natural forces of the body are brought to bear to expel the disease. The great aim, therefore, is to strengthen the natural powers. This has been kept in view by the skillful compounders of Dr. J. HOSTETTER'S BITTERS, which operate to give fresh vitality to those organs of the body. The effects of this medicine upon the stomach, the liver and the kidneys, are prompt and decisive. The patient who is wise enough to quit drugging, and try the BITTERS, soon feels as he if he had taken a new lease of life, and as he continues the use of the article he is overjoyed to find the stream of health coursing through his frame. Let all from whose cheek the bloom has departed give Dr. J. Hostetter's Celebrated Bitters a trial.

Sold by druggists and dealers generally, everywhere.

Dr. Wistar's Balsam of Wild Cherry.

The editor of the "Flag of our Union" says in his paper of July 17, 1858:—"The memory of Dr. Wistar is embalmed in the hearts of thousands who have experienced entire cure from *Coughs, Colds, Consumption and Pulmonary Disease* generally by the use of his *Balsam*. The invalid need not fear to give this preparation a careful trial, as we speak from experience. More than ten years since the editor of this paper tested its excellence by individual trial in his family, with the most surprising result, as a curative for pulmonary disease."

CASES OF CONSUMPTION AND WHOOPING COUGH CURED.

The following from a highly respectable gentleman, speaks for itself:

KEYPORT, N. J., May 20, 1858.

S. W FOWLE & CO.,—*Gentlemen*:—This certifies that I was for many years afflicted with a disease of the lungs, until I became so weak, that it was with difficulty I could walk. My cough during this was very severe, causing me frequently to raise great quantities of blood, attended with profuse night sweats.

After using various remedies to no purpose, I was advised to try *Wistar's Balsam of Wild Cherry*. I did so, and before using the first bottle I was entirely restored to perfect health and strength.

I would also mention that this Balsam cured a little girl of mine of a severe attack of Whooping Cough, when her life was given over by the physician and all other remedies had failed.

HEADACHE, HEARTBURN,
PILES, FLATULENCY,
WEAKNESS, LOSS OF APPETITE.

All kinds of Humors, and every disease arising from a disordered Stomach, or bad Blood. If taken in large doses, Fever and Ague may be broken up and cured at once.

This has become a standard Medicine, and is decidedly *the Best in the World*. Try it once, and you will be sure to do so again. The price is cheap—only 25 cents for a pint, and 37½ cents for a large Bottle. You can't get a bottle too quick, for the time is fast approaching when you will have all sorts of bad feelings if you don't take the Root and Herbs and drive them away. Sold by all Medicine Dealers everywhere.

Orders addressed to J. G. LANGLEY, or to GEO. C. GOODWIN & CO., 11 & 12 Marshall St., Boston, Wholesale Dealers in Family Medicines of every description. They invite Apothecaries and Merchants generally to examine their stock. m13

A young lady at Stephentown, New York, in the month of June, 1858, caught a bad cold. On the 23d of August, she had an attack of hemorrhage from the lungs. She bled three times in one night. She took Radway's Renovating Resolvent, and

HAS NOT BLED SINCE.

In all cases, where persons are afflicted with Bleeding at the Lungs, take the Resolvent, in tablespoon doses, three times per day. Also, take internally, one tea-spoonful of Radway's Ready Relief, in some water. It will instantly stop the most severe attacks. Keep the system regular, by taking one of Radway's Regulators per day. *As a stypric*, Radway's Ready Relief is superior to all stypics in use. We have seen it stop violent bleeding of the nose, when all other means that were tried, failed. Bad Coughs, Colds, Consumption, in the earlier stages, the R. R. R. Remedies will positively cure.

N. B.—For all acute Pains, use Radway's Ready Relief. It will relieve the most excruciating pain in a few minutes.

R. R. R. is sold by Druggists everywhere.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in Holland, from sound Barley, under the surveilance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable properties of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a diuretic, of a soft and delicate character, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and climate.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, traverns and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; H. LOCAL.

CITY COUNCIL.

In Board of Aldermen, Thursday Evening, the Committee on the Firemen's Association Fund asked to have their note renewed with interest added. Agreed to.

The subject of draining the water from State above Middle Street, was referred to Ald. Treadwell.

A communication was received from the Chief Engineer, accompanied with a Lantern for Assistant Engineers, and a bill for nine amounting to $20.

On a petition of E. F. Sise and others, for a side-walk on the west side of Fleet street, across Congress street,—it was voted that a crossing be laid, two rows of flagging, paved in the centre and on the sides.

The Committee to whom was referred the subject of the additions to Engine House No. 1, reported adversely—accepted. Ditto on the subject of Tower for said House, which would cost $55.

The Appropriation Ordinance was received from the Common Council, and read twice.

The New Hampshire people will beat us in military matters, if we do not look out sharp. Mr. Bell has given notice in the Legislature of a bill to incorporate the "Governor's Horse Guard," the headquarters of which are to be in Concord, but whose members may reside in any portion of the State. The design is now to form a squadron of horsemen to peform escort duty to the Governor, and if the design is carried out it will be one of the finest military associations in New England.—*Post.*

The Eastern Railroad.—The Boston Traveller, that has the best means of information, speaks favorably of this road, which it says, is gradually working out of its difficulties, and will before many years have elapsed be in a condition to resume the payments of dividends. It stock at present rates is said to be the cheapest in the market.

Our accomplished soprano, Mrs. J. H. Long, has received an offer of $1000 salary to sing at Trinity Church in Chicago. Our readers will be glad to learn that she does not accept.—*Boston Musical Journal.*

And yet, this same lady, one of the best vocalists in the country, failed to draw a house in Portsmouth, at the Musical Convention conducted by Prof. Baker a few years ago. How fond and appreciative of good music some folks are—to judge from their *talk.*

THE LEGISLATURE.

No business out of the usual course took place on Friday. The report of the Committee on the Division of Towns—being a bill to sunder Boscawen, and constitute the towns of *Boscawen* and *West Boscawen*—was postponed to the next session; a committee, in the mean time, to make examination for the best dividing line.

The effort to hold a session on Saturday proved unavailing—the question being taken on a call of the yeas and nays. Saturday is *not* a legislative day, according to the judgment and the action of men of both parties, for at least fifteen immediately preceding years.

The Legislature has been in session seventeen days, and there never was, (says the Daily Statesman,) a more pacific state of affairs. Whether the session will close on the day previously fixed—the 25th inst.—seemed to be a matter of much doubt at the adjournment on Friday. If extended to the 2d of July, the session would be protracted to no longer period than was common when the interests of the State were not half so multifarious as now.

A Concord correspondent of the Atlas says:—

The Legislature seems to have nearly run out of business. The railroad controversy is referred out; the union of the Manchester & Lawrence and the Concord Roads, will not be pressed, as the present arrangement between the two roads, (a lease sanctioned by the Governor and Council) works well enough, and has yet two years and a half to run; and there is apparently no opposition to the Candia Branch. There is left the proposed reform of the Judiciary, some propositions to divide towns, from which may arise acrimonious disputes, and the rest is small material, which annually goes down on the current of legislation.

4 DAYS LATER FROM EUROPE.

Great Battle near Milan.—The steamship Anglo-Saxon, Capt. Borland, from Liverpool, Wednesday, 8th inst., passed Farther Point on the 18th, at 9 o'clock A. M., on her way to Quebec. Her advices did not reach the telegraph station until after 11 o'clock. From a hasty glance they seem to be of the highest importance.

A great battle is reported to have occurred near Milan, in which the French claim a decisive victory, giving the loss of the Austrians at 20,000 put *hors du combat.* The French loss is reported as 12,000 men.

The Austrians had evacuated Milan.

The Queen of England had delivered her speech to Parliament. The document possesses no important points.

☞ A constable of Dalton, Mass., has been prosecuted for not killing dogs, as the statute requires. The defence he sets up is inability to hit a mark so small as a common sized dog.

Washington, June 17.—The ordering of a more efficient naval force to the African coast was not in consequence of any late complaint by the British Government. It was long ago contemplated, but until recently there were no vessels which could be used for that purpose.

As far as our government is aware, no new orders have been issued since 1812 by the British in connection with the treaty stipulations for the suppression of the slave trade on the coast of Africa.

There is nothing in recently received letters to distinguished gentlemen in Washington which affords any ground for belief that England will become involved in the present war in Europe.

It is understood that the Cabinet to-day finally acted upon the document they have for several weeks had under consideration, expressive of the views of the administration on neutral rights. It will probably be transmitted to Mr. Dallas by the next steamer.

St. Catharines, C. W., June 17.—The embankments between locks on the Welland Canal were washed away yesterday by the overwhelming force of the water, suddenly precipitated upon them by the breaking of the locks at Thorwold.

Ten or twelve days will be required to repair the breaks. About 20 vessels are detained in the canal.

☞ A young man in New Haven went into a rum hole on Sunday night, and imbibed some bad liquor, and, when he awoke from his slumbers on Monday morning, he found himself in the piazza of the Union House, minus pants, coat, hat, patent leather boots, and $50 in money.

"Yes," said a kind mother of one of our city churches, helping her little son learn his Sunday school lesson, "Cain was a fugitive and vagabond in the earth; he was so bad that he thought every man would slay him. Where could wicked Cain go?"—"Why, mother," replied thoughtful Johnnie, "Cain could have gone to New York."—*Springfield Republican.*

☞ Some hackmen at San Francisco held umbrellas about the door of a theatre, as the crowd were coming out, while one of them showered water from a window above. The trick would have succeeded in filling their vehicles if the police had not exposed it.

A Curiosity.—*A Lamb that is a Biped.* Mr. Nathan Steward of Bloomfied has a lamb that walks and runs about on two legs. He had his two hind legs frozen off last winter, and now runs about on his front feet with as much ease and precision as the other lambs of the flock on all four. He is fat and in nice condition, and his body is thrown forward so as to balance.—*Somerset Telegraph.*

Tornado at Embden, Me.—A terrible tornado passed over Embden on Wednesday last, prostrating houses, barns, trees, orchards, and everything in its course. It was first seen near the middle of the pond, whirling the water in a terrific column several hundred feet into the air. Four barns were demolished, and several persons injured. Portions of the demolished buildings were carried two miles.

New York, June 18.—The running match for $5000, three mile heats, came off yesterday, on the Fashion Course, between Tar River and Bill Cheatham. Tar River won in two straight heats. Time—6:12 1-2; 6:17 1-4.

A dispatch from Washington to the Tribune says that government has determined, if the next advices from Texas contain a confirmation of the report of continued hostilities with the Indians, to remove them to the reservation of the West Choctaw settlement. The outrages on the Indians have been committed by an organized band of white outlaws who desire their lands.

Liberal.—We are glad to learn that the Congregational Church and Society of Claremont, N. H., have voted to add another hundred dollars to the annual salary of their faithful minister, the Rev. Mr. Lawrence.

Rum as a Fertilizer.—A Matanzas (Cuba) paper has seen some gigantic specimens of early sugar cane, the growth of which, it says, was quickened by using *rum,* which article it claims to be a better fertilizer than the guano itself. We think no one will dispute that rum is well adapted to "raise Cain," for of this we have sufficient evidence in our own country, without going to Matanzas for proof.—*Journal of Commerce.*

☞ A lad in Troy, N. Y., was leading a cow by a rope, one end of which he had tied round his body, when the cow became frightened and ran; the boy fell, and was dragged until his brains were dashed out.

Helping Those who Help Themselves.—The Worcester city government appropriates $500 towards a fourth of July celebration, provided the citizens raise a like sum. Why don't they adjust the official salaries on the same plan—half from the treasury, provided the individual will raise the other half.—*Lowell News.*

and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spirituous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.

Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is flooded with them

TO THE PUBLIC.

I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world.*

UDOLPHO WOLFE.

CHEMICAL TESTIMONY.

D. Jose Luis Casaseca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, and of Physics and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M.'s Director of the Institute of Chemical Investigation, &c. &c.

Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—

Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balnium maria, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 60 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.

From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's Aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Deetjen (of Bremen,) as residum after evaporation by steam, a substance almost insipid and very trifingly aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior," Messrs. Tranner have Schiedam with a very small quantity of a greenish substance, of harsh metallic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.

I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. JOSE LUIS CASASECA.

TUESDAY, JUNE 21, 1859.

THE BIBLE IN SCHOOLS.

There has been an excited discussion in New York City, of the question, Shall the Bible be read in the Common Schools. It has finally been settled that they shall be. Burleigh, of the Boston Journal gives the following clear and interesting view of the struggle and the event.

The great question of the Bible in the common schools, and shall the Board of Education enforce the reading under a penalty came up by assignment on Wednesday.—The case is a queer one. It defies all political and theological laws and boundaries. The leader of the party opposed to enforcing the reading of the Bible in the schools is Mr. Benedict, member of the Reformed Dutch Collegiate Church. The most earnest advocate of the rule to have the Bible read at all, he said, is Mr. Warren, the President of the Board, and a staunch Unitarian. Out of the six lawyers in the Board, only two are in favor of the rule, and one of the two is a leading Universalist. One of the Catholics is in favor of the rule, and enforces it in his district. Among the members who are opposed to the rule is Mr. Lee, a member of a Presbyterian Church; Judge Waterbury, the District Attorney, a member of St. Peter's Episcopal Church; Mr. Eager, a Methodist; Mr. Tucker, a Baptist. Among the lawyers in the Board are Mr. Greene, the President of the Central Park Commissioners, a Baptist, Mr. Waterbury, Episcopalian; Mr. Benedict, Reformed Dutch Church; Mr. Adams, a Universalist; Mr. Strafford, Episcopalian. The so-called Orthodox oppose the rule. The so-called Liberal men and the Catholics are in favor. The reason that inclines the lawyers and the other men to oppose the rule is this; they contend that as a Board they have no such power conferred on them. On the abstract question only twelve out of the forty-four would consent to have the Bible removed from the public schools; but on the right of the Board to compel its reading, good men divide. Your readers, from the state of the case, will be able to see the position of affairs. After an exciting discussion, the Board, by a vote of twenty-five to sixteen, adopted the report of the committee. All the public schools must now be opened by reading the holy scriptures, and any teacher, wilfully violating the rule, will be removed and not be eligible to the position till the forfeiture is removed by the Board. The provision takes effect after the August vacation. The decision created much excitement.

☞ Mr. G. W. Kendall has been named for the post of Governor of Texas. He has now a high reputation as a journalist, a writer and a farmer, and we hope he will not be so foolish as to peril that reputation, and sacrifice his comfort, by getting into that most disagreeable of messes, party politics. It is all very well for your mere professional politician, to allow himself to be bemirched; —that's his business; but a respectable, decent citizen, who fears God and loves his neighbor, has no call to make himself wretched in that way. So says the Boston Traveller.

But then, query, Must we have none but scoundrels for Governors or rulers? Decent citizens who fear God and love their neighbors, should engage in politics, says Uncle Toby; and they need not be *wretched*, even though they are chosen Governors, or if they are defeated. We should have had no governor in New Hampshire to-day, if all respectable men here were afraid of printer's ink.

☞ When it blows out West, it "blows." Mr. C. Durham and party of Marion county, Iowa, were recently struck by a tornado on the plains near Fort Kearney, which smashed three wagons to atoms, whirled Mr. Durham's trunk off beyond recovery, took an ox across a creek, carried the entire company from 50 to 150 yards, and uprooted a tree ten inches n diameter and carried it seven miles! Fine country, that!

☞ The French papers relate the following:—A corporal jumped into a hackney coach on the boulevards. "Where to?" said the coachman, "To glory," was the answer. The coachman scratched his head and looked puzzled. "Ass that you are," said the son of Mars, "don't you know the Lyons railway station?"

☞ Going into battle by rail is one of the peculiarities of the present war. At the battle of Montebello the allied supports came into the field under the lead of locomotives, rapidly succeeding trains each bringing up a brigade.

☞ U. S. store ship Release, Lieut. Commanding W. A. Parker, from Montevideo, arrived at New York on Monday last. She brings the crew of the bark Austin, sent home charged with setting that vessel on fire.

BATTLE OF MAGENTA.

By the Anglo Saxon we have four days later news from Europe.

Another great battle was fought on the 4th, at the Bridge of Magenta. According to the French accounts, 7,000 prisoners were taken by the allies, and 15,000 of the Austrians were killed and wounded. On the 5th, cannon were fired at Paris in honor of the victory, and the city was brilliantly illuminated.

Milan is in a state of insurrection. The Austrians have evacuated the town and castle, leaving in their precipitation their cannon and treasure behind them. A despatch from Paris to the London Post, says that the municipality of Milan have proclaimed for King VictorEmanuel, and have presented an address to him in the presence of the Emperor. The King is about to make an entry into Milan. There is a report that General Canrobert is mortally wounded.

The Austrian account is quite contradictory to the above. A despatch from Vienna states that a desperate combat took place on the 4th, and that the Austrians were victorious, driving the French back over the Ticino. The London Times publishes a summary of official news received at Vienna up to midnight of the 6th, which states that the battle was not decisive, and that the loss on both sides was very heavy. The Austrians lost four generals, and five staff officers were wounded. The London Advertiser says there is a rumor that the British government had received a despatch from the British Minister at Vienna announcing an Austrian victory.

Garibaldi had quitted Lecco and Gen. Durban had retreated to Mousa. It is supposed that Garibaldi was directing his march against Durban.

The Queen delivered her opening speech to the Parliament on the 7th. She regrets the existence of the war, and declares a strict and impartial neutrality. She recommends the re-opening of diplomatic intercourse with Naples. A warm discussion has taken place in the House of Commons in relation to the action of the government on the reform question, which was adjourned to the 11th.

Kossuth was to leave England on the 7th, with 300 Hungarians.

The Presidents of both branches of the Legislature of Germany have declared in favor of making war against Napoleon. A circular from Prince Gortschakoff to the envoys of Russia at the general courts of Germany, declares that if Germany aids Austria, the political equilibrium resulting from treaties by which the German confederation is constituted, will be destroyed.

☞ In the Manchester Police Court, on Saturday, Joseph Warren and Francena Nute of Goffstown, who eloped a little while ago, plead guilty to the charge of lewdness. Warren was ordered to recognize in the sum of $200, and his paramour Nute in the sum of $100, for their appearance to the higher court. She denies that she is a single woman; she has been married two years. Her parents live in Bow, and her husband in Goffstown. Warren in default of bonds was sent to jail. Their crime is adultery.

☞ A gentleman in Cleveland, Ohio, writes to a friend in New York, saying:

"I happened in at the jail, last evening, just as the Oberlin prisoners were at worship. It was a spectacle for this boasted Republic! Christian men are earnestly supplicating God on their knees in prison to give them strength to bear patiently the oppressor's wrong and to forgive their enemies. I listened, marveled, and wished myself one of them in deed and in spirit. Their heroism is nobler than facing the Austrian cannon's mouth."

THE FEELING IN GERMANY.—In a letter from Germany we find the following statements:—

"The public spirit of Germany is somewhat modified. The minor Powers have consented that Prussia shall take the initiative in whatever is to be done in respect of the war. Now as the Prussian *Government* is inclined towards neutrality, and as the British Government is notoriously similarly disposed, it is possible that Austria will be left to fight alone, and if so, to succumb."

HUNGARY.—A Munich correspondent of the New York Times writes—

"I have just read a letter in a Hamburg paper from one who professes to write of things which he knows, to the effect that revolution will soon break out in Hungary; that it waits only for the signal, and also that the *Revolution*, and *not* France and Sardinia, will control the shape of things in Italy.

☞ For a "bluff" of $30, two young ladies of Cleveland, Ohio, a few days since, walked to Unionville, a distance of forty-five miles, occupying two days in getting there. The feet of one of the pedestrienne were somewhat blistered, but the other was perfectly well.

The young man who "cast" his eyes on a young lady coming out of church, has had them replaced by going to the altar with her, and now sees as well as ever.

☞ The man who got the last word in disputing with a woman, has advertised to whistle on a wager against a locomotive.

CRANE'S PATENT
METALLIC BURIAL CASKET.

A newly invented Burial Case, fashioned to screw with the flanged rim of the body, and yet retaining all the requisites of an appropriate receptacle for the dead. There is no reason why such an article should be made to create, by its appearance, unpleasant sensations. Under such bereavements whatever tends to soften or make less keen the poignancy of our grief, commends itself to our consideration. Under such impulsive has been discarded in the arrangement and SHAPE of this Case, that its name, the "*Casket Burial Case*," is an involuntary suggestion.—We, therefore, do not hesitate to aver that there has never been in use anything so entirely chaste, appropriate, and withal, convenient, as this invention.

The Case permits a view of the entire body after it is enclosed, the top being composed of beautiful French plate glass, which is divided into three sections, between two of which is inserted the name-plate. For each of these sections of glass there is an elaborately ornamented cap.

The Subscribers being sole agents for this vicinity, have always onhand every size of the above, from 2 ft. 5 inches to 6 ft. 4 inches.

Also, *FLEIG'S METALLIC BURIAL CASES*; Walnut, and Imitation Rosewood COFFINS, of superior finish.

All orders will receive our *personal attention*, and may be supplied at one hour's notice at

WINSHIP'S

Patent Self-Ventilating Refrigerator.

It is now conceded by physicians that provisions are rendered very unwholesome by being confined in a Refrigerator in which the air is not constantly and effectually changed; and that the health of many families has suffered in consequence. The musty and sour smell common to most ice chests is a sure indication of this poisonous and offensive tendency.

This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Silliman has introduced a description of it in his new work on natural philosophy as the best illustration ever practically tested of perfect ventilation.

The temperature is always uniform. The air never becomes stagnant. There is no waste of ice. The warm air cannot enter on opening the doors. Access to the ice is had without disturbing the provision chamber. Articles of different flavors cannot impregnate each other. Milk, delicate fruits and meats can be preserved much longer than in any other Refrigerator.

The air is admitted by Register C into the Ice Chamber A, where it is cooled and purified by contact with the ice; falls by its own weight through apertures DD directly into the Provision Chamber B, penetrating every part, and securing a *uniform* temperature throughout; is then forced, by still descending bodies of cold air, through apertures EE, and being rarified by contact with the thin sides of the outer case, rises and passes out at Registers FF.

All who value health and pure food are advised to give this article a trial. The cost is about the same as the common ice chests, and they are made with panel sides and top, and tastefully grained.

All sizes of these celebrated Refrigerators for sale at the Stove and Furnishing Warehouse of the subscriber, No. 46 Market street.

CORDIAL OF DANDELION,

SPIKENARD & BONESET,

A remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and Pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.

Hundreds of testimonials might be added, proving the many cures by this pleasant and effectual medicine, especially of people advanced in life, whose debilitated constitutions have been gradually recruited by it. A trial of it is warranted to well pay the aged and dyspeptic. Price 75 cents.

[From Mrs. Ira Burnham, Exeter, N. H.]

I have suffered many years from the liver and heart complaint. By these distressing diseases I was reduced so low, some two years since, that I could not sit up more than ten or fifteen minutes at a time, when I began to take Dr. Swett's Cordial of Dandelion, Spikenard and Boneset, which has so fully restored my health that I now daily labor and attend to the business of my large boarding house. ELIZABETH BURNHAM.

Exeter, June 1, 1859.

This testimony of my wife is correct.

IRA BURNHAM.

[From Mrs. Ebenezer Blazo.]

GREENLAND, Nov. 20, 1858.

DR. SWETT—Dear Sir:—The distressing disease called the heart complaint, with has so long afflicted me, and which has baffled the skill of all my former physicians, has been fully cured by the two bottles of your Cordial which I had of you last spring. Yours with respect,

SALLY BLAZO.

This unequalled medicine, together with others carefully prepared by Dr. SIMEON SWETT, from innocent but effectual vegetables, are for sale by him at No. 12 CABOT ST., Portsmouth, N. H.

Nature is the Great Physician.

This is now admitted by the medical profession, as a fundamental principle of healing science. It is wisely provided by the human economy, that whenever anything is wrong in the physical system, the natural forces of the body are brought to bear to expel the disease. The great aim, therefore, is to strengthen the natural powers. This has been kept in view by the skillful compounders of Dr. J. HOSTETTER'S BITTERS, which operate to give fresh vitality to all the organs of the body. The effects of this medicine upon the stomach, the liver and the kidneys, are prompt and decisive. The patient who is wise enough to quit drugging, and try the BITTERS, soon feels as he if he had taken a new lease of life, and as he continues the use of the article he is overjoyed to find the stream of health coursing through his frame. Let all from whose cheek the bloom has departed, give Dr. J. Hostetter's Celebrated Bitters a trial.

SPECIAL NOTICES.

Dr. Wistar's Balsam of Wild Cherry.

The editor of the "Flag of our Union" says in his paper of July 17, 1858:—"The memory of Dr. Wistar is embalmed in the hearts of thousands who have experienced entire cure from *Coughs, Colds, Consumption and Pulmonary Disease* generally by the use of his *Balsam*. The invalid need not fear to give this preparation a careful trial, as we speak from experience. More than ten years since the editor of this paper tested its excellence by individual trial in his family, with the most surprising result, as a curative for pulmonary disease."

CASES OF CONSUMTION AND WHOOPING COUGH CURED.

The following from a highly respectable gentlemen, speaks for itself:

KEYPORT, N. J., May 20, 1858.

S. W FOWLE & Co.,—*Gentlemen*:—This certifies that I was for many years afflicted with a disease of the lungs, until I became so weak, that it was with difficulty I could walk. My cough during this was very severe, causing me frequently to raise great quantities of blood, attended with profuse night sweats.

After using various remedies to no purpose, I was advised to try *Wistar's Balsam of Wild Cherry*. I did so, and before using the first bottle I was entirely restored to perfect health and strength.

I would also mention that this Balsam cured a little girl of mine of a severe attack of Whooping Cough, when her life was given over by the physician and all other remedies had failed.

LOSS OF CONSTITUTIONAL VIGOR.—After a life of gaiety and sensual pleasure, comes the never failing premature loss of manly vigor, with its gray hair, trembling limbs, and general lassitude. If anything can re-kindle the nearly extinguished fire, and bring back the system to vigorous health, it is the Protoxide of Iron in the form of PERUVIAN SYRUP.

"BUY ME AND I'LL DO YOU GOOD."

Now is the time to use the great Spring and Summer Medicine.

Dr. Langley's Root and Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., so happily compounded as to act in concert with Nature, and their effect is truly *wonderful*. They absolutely cure

LIVER COMPLAINT, DYSPEPSIA,
COSTIVENESS, DIZZINESS,
HEADACHE, HEARTBURN,
PILES, FLATULENCY,
WEAKNESS, LOSS OF APPETITE.

All kinds of Humors, and every disease arising from a disordered Stomach, or bad Blood. If taken in large doses, Fever and Ague may be broken up and cured at once.

This has become a standard Medicine, and is decidedly *the Best in the World*. Try it once, and you will be sure to do so again. The price is cheap—only 25 cents for a pint, and 37½ cents for a large Bottle. You can't get a bottle too quick, for the time is fast approaching when you will have all sorts of bad feelings. Do not take the Root and Herbs and drive them away. Sold by all Medicine Dealers everywhere.

Wholesale Depots, 138 Fulton st. N. LANGLEY, or to GEO. C. GOODWIN & CO., 11 & 12 Marshall St., Boston, wholesale Dealers in Family Medicines of the Celebration. They invite Apothecaries and Merchants generally to examine their stock. m12

R. R. R.

A young lady at Stephentown, New York, in the month of June, 1858, caught a bad cold. On the 21st of August, she had an attack of hemorrhage from the lungs, and bled three times in one night. She took Radway's Renovating Resolvent, and HAS NOT BLED SINCE.

In all cases, where persons are afflicted with Bleeding at the Lungs, take the Resolvent, in a table-spoon doses, three times per day. Also, take internally, one tea-spoonful of Radway's Ready Relief, in some water. It will instantly stop the most severe attacks. Keep the system regular, by taking one of Radway's Regulators every day. *As a stypric*, Radway's Ready Relief is superior to all stypics in use. We have seen it stop violent bleedings in a few minutes, when all other means that were tried, failed. Bad Coughs, Colds, Consumption, in the earlier stages, the R R R. Remedies will positively cure.

N. B.—For all acute Pains, use Radway's Ready Relief. It will relieve the most excruciating pain in a few minutes.

R. R. R. is sold by Druggists everywhere.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the supervision of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it the choicest cordial for invalids, gentlemen, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, by which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Pocker, 20 Elm st.; J. Morrill, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. LOCAL.

☞ One of our city traders, who is prompt to collect as well as pay his bills, wishes us to remind our readers that the first of July is at hand—the time fixed last year for semi-annual settlement of all accounts. So post up the books, and have the bills made out. "Short payments make long accounts."

The Chronicle bills have mostly been made out as often as half yearly, and many of them quarterly or monthly—and, thanks to the promptness of our patrons, have always been settled, too. So we have got to turn over no new leaf in this respect.

☞ The stone work of the new Post Office and Custom House is about done. The height from the ground to the top of the chimnies is 71 feet. The building is by far the finest structure in New Hampshire—and we are much obliged to Uncle Sam and all concerned, for placing it directly in front of the Chronicle office.

☞ Don't fail to read our new advertisements this morning. Mr. Bennett advertises a new stock of watches and jewetry. He has fitted up about the neatest little store in the city.—Persons wishing nice washing and ironing done, will read the notice of laundry.—E. M. Brown & Co. advertise a new and neat burial case.

Interest and Security.—It is impossible to combine cheapness and goodness.—The Duke of Wellington, in addressing the non-commissioned officers of his army, at the close of the war of 1815, on the investment of their savings, said: "Remember, 6 per cent. interest is only another name for bad security."

☞ A dispatch from Washington states, on probable authority, that Mr. McLane has negotiated a treaty with Juarez, ceding to the United States the states of Sonora, Chihuahua, and a part of Tamaulipas, the United States engaging to assist the liberal party, and to pay the claims within limited amount, to be ascertained by a Mexican Commissioner. The treaty is expected within a month.

The Household Monthly is the title of a Boston monthly magazine that has been published by N. F. Bryant, for some eight months, with much success, both in the character of the work and in the circulation it has obtained. The first volume of six numbers evidence its many merits as a household magazine. It has been the boast of the New York and Philadelphia publishers that they could supply New England with periodical literature to the exclusion of our own, and until recently the field has been entirely theirs. The Atlantic Monthly however, has become a "fixed fact," much to their amazement; and this Household Monthly, differing from the Atlantic in being of a more domestic character, with reading suited to the heads of families and also to the youth, the Herald says, is destined to become equally fixed in the affections of the people. Each number is illustrated by a steel engraving, and a colored picture for the youth's department. The reading matter is mostly original, or selected from foreign publications not circulated in this country. A gentleman acting as agent is now in town, and will be happy to take the names of all wishing to take "the best household monthly in the country."

☞ At Detroit, recently, an ox was killed because he could not understand the French language. The team, consisting of one English and one French ox, drawing a heavy load and driven by a French driver, was crossing the track when the express train made its appearance. The driver, in great excitement immediately ordered his oxen to *chuch* (the French word for 'hew.') The French ox understoood him, and turning off the track saved himself, but the English ox never having studied the language, pressed further on and was instantly killed.

☞ A singular duel took place in Montreal last week. One of the City Councillors was accosted in the street by a stranger, who told him he was no gentleman.—The Councillor offered to prove that he was at ten paces. The stranger had weapons, they got into a carriage, rode to a suitable spot, and the stranger was wounded. The Councillor had to use his spectacles, being a man of advanced age. and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.

Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is dooeded with them

TO THE PUBLIC.

I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world.*

UDOLPHO WOLFE.

CHEMICAL TESTIMONY.

D. Jose Luis Casaseca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, and of Physics and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M.'s Director of the Institute of Chemical Investigation, &c., &c.

Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—

Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balsium maris, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 90 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 67 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.

From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, I should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Deetjen (of Bremen,) as residum after evaporation by steam, a substance almost insipid and very trifingly aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior." Messrs. Tractor have furnished me with a very small quantity of a greenish substance, of harsh metallic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.

I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. JOSE LUIS CASASECA.

RAMBLES ABOUT PORTSMOUTH.

We might give a column of the complimentary notices we have received of the Rambles—but as the demand for the book has taken up a large part of the edition, and the balance is rapidly selling, we need no effort in this way to bring it into notice. We will take this opportunity to say that for the exterior finish of the Rambles, which appears in so neat a dress, Messrs. Lemon, Fields & Co. of Cambridgeport, are entitled to credit as excellent bookbinders.

The following is an extract from a personal letter received this week from Col. George W. Boyd, at Portland, the last descendent bearing the name of the Boyd family which stands so conspicuous in the Rambles. He is there called *Capt.* Boyd, it should have been *Col.* He gives an amusing local anecdote:

To the Editor of the Portsmouth Journal:

I have been on the point of expressing to you my acknowledgements for the pleasure, as well as the information, I have derived from the perusal of your interesting "Rambles." They have elicited much research, and the sons and daughters of old "Strawberry Bank," in and out of the venerable homestead of their youth, owe to you a debt of gratitude for your "Old Mortality" developments of other days.

Among the old negroes of sixty years ago, most of whom, from my advanced age, I personally remember, there were some odd specimens of the *genus homo*, under an ebony envelope. There was *Jock Odiorne*, in whose organization and *physique* it would be difficult to draw the line of demarcation between him and a well developed *ourang outang*. These negroes were, in those days, when hearses were not in vogue, employed as *under-bearers* at funerals. It was then the custom to present to each of these a pair of gloves. On one occasion, it seems, this usage was dispensed with, either by accident or design. The procession began to move; but Jock's indignation at first uttered itself in reproachful mutterings, which, as they proceeded, began to *boil over*. He abruptly questioned his fellow bearers as well as fellow sufferers, audibly, in this wise: "Cesar, you got 'ee grub?" No. "Cuffee, you got 'ee grub?" No. "Pompee, you got 'ee grub?" No. Jock, in a burst of Congo temper and rage, then vociferated—"Den sct ee down, and let 'ee go hesell!!"

This anecdote I had from my uncle, Hon. Joseph Pierce, and it is an amusing instance of the laxity of the *stare cole* in those days of our privilege under colonial government, when the *unruly member* of the poor blacks could thus fearlessly express their sense of wrong. God grant that such, in due time, may be the fact throughout the wide domain of the *stavocracy*.

I am, respectfully, your friend and servant,

GEO. WM. BOYD.

COURT PLASTER.—How frequently a thing sustains a reputation by its name. While "a rose by any other name would smell as sweet," yet that other name would take away very much of the charm of *the rose*. This idea well applies to the subject of this article. The *Court* plaster, which derives it name from royal use, is a word which cannot be republicanized without losing its reputation—although but very little of the *royal* plaster finds its way across the Atlantic.

It is a fact not generally known even here, that most of the Court Plaster used in the United States and in Canada is prepared in this city, at Mr. J. H. Thatcher's chemical and apothecary establishment, for James Dickman of Boston,—the gentleman who some thirty-five years ago commenced the publication of the Dover Gazette. In the last six months Mr. Thacher has prepared for Mr. Dickman one thousand yards of silk, which will soon be cut into small sheets, put into neat packages, and find its way into every town in the country, a place at every toilet, and in every provident person's pocket. This article of various colors has now been in use several years; and the high reputation of "*Dickman's Arnica Court Plaster*" has nearly banished "Prout's" from the market. "A thousand yards" to be cut in short-sized pieces of a hundred to the inch! How many cut fingers, and scraped chins, and pimples fall to the lot of humanity in the course of a year, to require this thousand millions of Portsmouth patches to cover them!

MARKET STREET CHANGES.—Messrs. Jones & Mendum have purchased the opening formerly called Lunt's court, and will close it up with a brick building, which, in connection with the store now occupied by D. Knight & Co. thrown in common, will be their new locality. By this new arrangement Messrs. Hill & Carr will be permitted to retain their old stand. Messrs. Jones & Mendum have well sustained in their business operations and careful selection of stock the well earned reputation of their predecessor, Wm. Jones, Esq. This new store promises to them an excellent stand for the display of their goods. While in a transition state, they offer their goods at a low rate. Only call and ask the prices.

SHOE BUSINESS.—Mr. Thomas S. Nowell, of this city, has extended his business, and now manufactures 1200 pairs of shoes on an average weekly, giving employment to about 130 hands. It is by enterprises of this kind that the public are most directly benefited. One thousand dollars thus invested, bringing in the funds of other places to pay for home labor, is of more real benefit to our city than a hundred thousand invested in goods for which laborers in other places must be paid.

CARVING.—It is gratifying to find any sort of respectable business introduced among us,—especially if that business is a display of skill and good taste. We have been gratified in the examination of some specimens of wood carving executed by Mr. John H. BELLAMY, ship, furniture, sign and frame carver, at his rooms No. 17 Daniel street. The heads of the Indian and of the ox are well executed,—but the best of a female is a superior specimen of good workmanship, which would do credit to any artist. Look into his room.

TO CLEAN KNIVES.—The most simple and best way, is to rub the brick dust on them with half of a raw potato. These appears to be some virtue in the juice of the potato which aids in cleaning the steel. A friend of humanity and a lover of bright knives asks us to give this valuable recipe a place.

☞ We learn from the Manchester Mirror that the Supreme Judicial Court, in session at Manchester, last week, have decided that if the Hooksett bridge was burned by a spark from any locomotive of the Concord Railroad, then that road must make compensation to the town. The question for the jury now to determine is, whether it was so destroyed?

AYER'S SARSAPARILLA,

A compound remedy in which we have labored to produce the most efficient alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effectual remedy for the diseases for which Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and one which will prove a great benefit to them must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by extensive trials of it in the most distressed cases to be found in the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIVE DISEASES, ULCERS AND ULCERATION, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR THE DOULOUREUX, LIVER COMPLAINT, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which lurk in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes may, by the aid of this, escape many sore visitations from the encurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this from the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Eyes will sparkle, countenances will be clear, complexion will be healthy, and live long, for cleansing the blood. Keep the blood healthy, and all is well; but with the vitiated life is disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has long and deserver much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue claimed for it, but more because mere by preparations, pretending to be concentrated extracts of it' contain but little of the virtue of Sarsaparilla in any form.

Dating late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar, which have been found, when analyzed, to be, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Acres bitter and painful Medicines have been sold under the fair sounding extracts of Sarsaparilla which flood the market, until the name itself is justly cspised, and has become synonymous with impostorism and cheat. Still we offer this compound Sarsaparilla, and intend to supply such a remedy as shall reduce the name from the load of obloquy which rests upon it. And we shall do this from the fact of believing it has virtues which are irrosistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete effects on from the system, the remedy should be judiciously taken according to directions on the bottle.

Ayer's Cherry Pectoral

Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion, Sick Headache, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the most agreeable to the world for all the purposes of a family physic.

Price, 25 cents per box; five boxes for $1.

Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their names to certify the virtues of these, and of other remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our American Almanac, in which these and other remedies are described, of the above complaints, and the treatment that should be followed for their cure.

Do not be persuaded by unprincipled dealers with other preparations they make more profit on.—Demand AYER'S, and take no other. The sick want the best aid there is for them, and they should have it.

All our remedies are for sale by W. R. Preston, Portsmouth, and by all druggists and merchants in the civilized world. 8m—jel4

The Liver Invigorator.

PREPERED BY DR. SANFORD,

COMPOUNDED ENTIRELY FROM GUMS,

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

It will cure Costiveness, remove a disease often mistaken for a sure cure for all morbid or bad matter from the system, supplying a powerful purgative, and a preventive of CHOLERA MORBUS, and CHOLERA.

Only one bottle is needed to prevent the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all other forms of a BILIOUS TYPE. It operates with certainty and thousands are willing to testify to its wonderful virtues.

Only one dose taken, and it will cure DYSPEPSIA.

One dose of two teaspoonfuls, taken as directed, will relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

All who use it are giving their unanimous testimony in its favor.

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the case description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been imperfectly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

The reason why, is that the Nature's own process it restores the natural color permanently after the hair has become gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nervous system, and cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes the hair grow, glossy and beautiful*, and if used by the young two or three times a week' it will never fall or become gray; then, reader, read the following and judge for yourselves!

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all patent and secret medicines, and a short time ago I commenced using your articles, to test it for myself.

My hair has been so much improved by that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudices will cut my money for entirely liable, am willing to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, and you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, very respectfully, Your obt. Servt.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having said bald without any hair for years. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used half a bottle of your Restorative, and now the top of my head is well studded with a promising crop of young hair; and the front is also receiving the benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,

No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

YOU HAD BETTER TRY

MY MOTHER'S SALVE

This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for curing CHRONIC DISEASES OF THE PARTICITES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, and can be safely used by all, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.

"My Mother's Salve" is a sure cure for Piles, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.

"My Mother's Salve" is a BURN OF SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.

"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.

Directions for using "My Mother's Salve" are simple: Every mother and nurse knows how to apply Salve or Ointment; and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts affected with Salve; in cases of Cough, tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. Beck.

VOL. 14. PORTSMOUTH, N. H. WEDNESDAY, JUNE 22, 1859. NO. 121.

ITALY, AS SEEN BY AN AMERICAN.—The New Haven Journal has a letter from a correspondent who has been lately travelling through Italy, in which he speaks of that beautiful country and its inhabitants as follows:

I have had a grand opportunity to observe the Italians during the six months spent in their States; and as I wrote you last November, Sardinia is worthy of all praise. Why? It is not so much in the mere fact that Victor Emmanuel has given them a constitution, but because he is an enlightened monarch, has driven out the Jesuits, restricted the prerogatives of the priests, and opened the door wide to Protestants, from his own funds assisting them in building churches, &c., thereby bringing into Sardinia some of the best blood of Italy. In this lies the secret.

The bane of Italy is not secular or political oppression—it is priestly oppression.—Get rid of the latter, and the people would be prosperous, and the streets would not, as now, throng with beggars. Next to Sardinia, Tuscany is prosperous; it is rarely you will find a happier people.

Next to her is Naples, bad enough to be sure, but infinitely better than the Roman states. In those States the Romish Church works its most baneful influence: the people are without wealth or comfort, and manliness is sunk to its lowest ebb in all Italy.—Probably in this struggle the Pope will lose his temporal power, and the people will rise, but not to as high a level as the places named.

RIVER PO.—From the following description it would appear that the Po beats the Mississippi "out of sight" in the way of levees:—

"The Po presents a very singular spectacle—the vegetable earth and sand brought down by the torrents which come down from the mountains, constantly fill up its bed and threaten surrounding county with inundation. In order to guard against that danger, the people of the banks have everywhere raised embankments, which are increased as the river rises, so that in some places the waters of the Po run as high as the tops of the neighboring steeples. It is everywhere bordered by lateral canals, and the water which filters through the embankments renders the country very near marshy. The importance of this river for the belligerent armies may be well understood."

Oleine Diamond Oil.

GREATEST ILLUMINATOR OF THE AGE.
This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.
It burns in the common oil lamp, with or without a chimney.
The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this Oil:
1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, hence it is portable.
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.
Price $1.25 per gallon.

WEDNESDAY, JUNE 22, 1859.

RIGHTS—AND POWERS.

"The Supreme Court of Michigan has affirmed the decision of an inferior Court, that a woman has a *right* to control in all respects all property acquired by her before or after marriage, that belongs to her, independent of her husband."

Perhaps it is too late in the day, to restrict words to their proper meaning, or to prevent a confusion of the terms Right, Power, and Privilege.

Nevertheless we will try the experiment, on the above paragraph.

The Michigan Courts mean, in the above decision, to say, that by the Statutes of that State, women have the *legal power* to control their property there.

They have not so much *power* as that, in New Hampshire, at the present time; and a few years ago they had scarcely any power at all in respect to property after marriage.

Yet as to a matter of *right*,—the woman of New Hampshire ought to control her property as well and as fully as her sister in Michigan; and if it were *right* for the husband in New Hampshire twenty years ago to control his wife's property as his own, it cannot be *wrong* for the husband of today to do the same.

The human statute has changed, and in that change has taken away some *power* from the husband and given it to the wife, thus cutting off a *privilege* in one direction, and extending it in another,—but all the *right* and *wrong* in the case, remain exactly as they were before, being immutable.

These distinctions may be applied to other subjects. For example, we have in New Hampshire, no political *power* to meddle with the institution of serf-dom in Russia, of tyranny in Austria or France, of hierarchy in Rome, or of slavery in the States of Carolina; but it does not follow that we have no *right* to condemn any one or all of them. Again, the Czar and the Emperors, the priesthood and the masters, possess and exert their several *powers*, to hold their fellow men in their several sorts of bondage. But these powers are not *rights*. For Might is not always Right.

The complaint which the Abolitionists make against the Republican party is not that it does not vote to abolish slavery in Missouri or in any other slave State, (which they readily admit it cannot do,) but that it intelligently, deliberately and purposely sanctions and sustains slavery—i. e. the chattelizing of *four million* of men, women and children—in fifteen slave States, equally with the Democratic party, and like the Democratic party is for carrying out all the pro-slavery guaranties of the United States Constitution to the very letter—the horrible Fugitive Slave Law included, as witness the recent unblushing and inexorable decision of the *Republican* Supreme Court of Ohio in the Oberlin rescue case.—*Boston Liberator.*

"Mulatto" Republicans will not answer—none but the real "Blacks" are to be tolerated in the next contest.—*Boston Post.*

We were not aware that the Liberator and the Post were oracles or organs for the Republican party: and we have the notion even now, that they may look elsewhere for their political cue.

For the Chronicle.

WHO MAKE THE DRUNKARDS?—Keep it before the people; hold it firmly upon every conscience; that the housewives who make their hop-beer, ginger-beer, spruce beer, and all kinds of small beer, during the summer; and currant wine, raspberry wine, and other wines in the fall, do much, very much, toward supplying with recruits, the places of the thirty thousand drunkards who go annually to their premature and dishonored graves. He who drinks a glass of ale or small beer, drinks one or two teaspoons-full of pure alcohol; and he who drinks a glass of currant wine, drinks eight or ten tea-spoonsfuls of the same.

Remember, *wherever there is fermentation there is alcohol.* Reader, make not, vend not, touch not, taste not, handle not, the accursed stuff. When shall we all learn that the best remedy for thirst is pure water, moderately cool? H.

We are aware that another view is taken of this matter, viz. that these lower grade stimulants, which contain a small *per centage* of alcohol, are a sort of *preventive* against the more mischievous use of stronger liquors. Observation, however, shows rather that the weaker prepares for the stronger, as H. suggests.

JUNE RAINS.—More than three inches of rain fell in this vicinity on Friday last. The average fall of rain in June is less than two inches and three quarters, so that more rain fell during the last storm, than the usual average for the whole month.

So say the Monday papers; and then another liberal supply of water from the clouds came on Monday and Tuesday, swelling the streams and flooding the meadows in many places.

AGRICULTURAL.—It is exceedingly bad husbandry to harrow up the feelings of your wife, to rake up old quarrels, to hoe a grudge, and to sow discord.

THE KNITTING WORK.

Mrs. Partington is coming out with a new volume, which she has christened "Knitting-work, a web of many textures." It is humorous and genial, like its author.

At the risk of being charged with telling tales out of school, we venture to give publicity to the following conversation about the volume, between the dame and a prying neighbor, who is, perhaps a little jealous of our friend's success.

"So you are coming before the public again," said the inquisitor, looking into Mrs. Partington's little low window, at which the dame was knitting. She pondered his words a moment before replying. "I am not a publican," she said at length; "and though Heaven knows we are none of us not too good, the publicans are best, and that's gospel truth." "I mean," said the querist, "that you have a new work on the carpet." "Not on the carpet exactly," replied she, "but something that's cognac to it—knitting-work!" "Crewel?" he persisted in inquiring. "No," was the response; "there isn't nothing cruel in it, like a satyr, to wrangle like a barbed arrow; it will be pleasant to take, like a incubration for a parched tongue, and will make people happy. But there's no knowing who will be governor till after election, and whether a book goes well or not depends upon the number that buys it." The inquisitor moved along, and M s. P. kept on with her knitting.

LEGISLATION.—The Concord reporter for the Atlas says;—Mr. Smith of Manchester, to whom the Judiciary Committee delegated the drafting of amendments to the peddler law of last session, has prepared some amendments, which are substantially: the prohibition is removed from 'fish, fruit, vegetables, provisions, fuel, patented articles, carriages and farming utensils, wherever raised or manufactured,' and any citizen of this State is permitted to sell without license 'any other articles lawfully raised or manufactured in this State;' —and also any maimed, disabled or invalid person, or any one unable to support himself by manual labor in consequence of impaired health, is exempted from the provisions of the act.—The prices of the license are graded as follows: to citizens of this State—foot peddlers, $20; peddlers with one horse, $35; peddlers with two or more horses, $50;—to citizens of other States—foot peddlers, $100; peddlers with one horse, $150; peddlers with two or more horses, $200.

☞ We published, a few days since, a capital descriptive verse, which is going the rounds of the papers, commencing "Nine weary miles up hill we sped"—said to have been written by a wag at the White Mountains. A friend who has travelled writes us:

The "wag" who perpetrated that verse on "the summit of Mount Washington," was more of a thief than a wag. Whoever will take the trouble to go to the top of the Rigi, one of the mountains of Switzerland, often ascended for the purpose of witnessing a sunset and sunrise, will find these same lines, except the change of a few words, in the book there kept for the registry of traveller's names. It was written there several years since by a disappointed traveller.

ONE WHO HAS BEEN THERE.

☞ The Sabbath School connected with Rev. Mr. Beecher's Church at Brooklyn had a strawberry festival on Thursday at David's Island, in the Sound. Besides the usual amusements of singing, dancing and eating, there was an extensive game of quoits, at which Mr. Beecher beat the best players present.

☞ The Manchester Mirror disapproves the bill now before our Legislature, which diminishes the power of the Mayor of that city, transfering the appointing power to the Aldermen, with only a casting vote by a Mayor.

FROM CALIFORNIA—OVERLAND.—*St. Louis, June 20.*—The overland mail of the 27th ult. arrived last night.

The report of an attack on Lieut. Beale's party by the Mohaves was incorrect. The Indians were peaceable.

The Utah mail of the 24th has arrived. Portions of Salt Lake Valley were inundated, in consequence of the swollen condition of the streams. The northern portion of Salt Lake City was in danger of being flooded. Ogden city was in danger of being swept away by the floods in Ogden River.

The officers of the steamer Skylark report the reception at Leavenworth, of $4000 in gold from Pike's Peak.

☞ The Richmond Enquirer gives the following as the official vote of Virginia for Governor, as far as returns have been received:

For Letcher (in 142 counties)	75,454
For Goggin (in 142 counties)	70,255
Letcher's majority	5,199

Nine counties are yet to be heard from officially. These counties give a reported majority for Mr. Letcher of 303, which, if true, would give him a majority in the State of 5502 over Mr. Goggin.

☞ Longfellow says "the talent of success is nothing more than doing what you can do well."

An old sailor at a theatre said he supposed the dancing girls wore their dresses at half mast as a mark of respect to their departed modesty.

☞ The Beloit (Wisconsin) Herald and Times has a Democratic and a Republican department, under the control of two editors of opposite political proclivities.

Martin Cogger, an Irishman, was drowned on Sunday evening, while bathing in the river at Newburyport.

The best way to discipline one's heart against scandal, is to believe all stories to be false, which ought not to be true.

Hurry and Cunning are two apprentices of Dispatch and Skill; but neither of them ever learnt their masters' trade.

☞ One of the London papers says:—"Here in England we used to have an established church, and we have it still in name; but every year's legislation is tending to Americanize the English religion."

CRANE'S PATENT

METALLIC BURIAL CASKET.

A newly invented Burial Case, fashioned to accord with the feelings of the bereaved, and yet retaining all the requisites of an appropriate receptacle for the dead. There is no reason why such an article should be made to create, by its appearance, disagreeable sensations. Under such bereavements whatever tends to soften or make less keen the poignancy of our grief, commends itself to our consideration. So much that is repulsive has been discarded in the arrangement and SHAPE of this Case, that its name, the "*Casket Burial Case*," is an involuntary suggestion.—We, therefore, do not hesitate to aver that there has never been in use anything so entirely chaste, appropriate, and withal, convenient, as this invention.

The Case permits a view of the entire body after it is enclosed, the top being composed of beautiful French plate glass, which is divided into three sections, between two of which is inserted the name-plate. For each of these sections of glass there is an elaborately ornamented cap.

The Subscribers being sole Agents for this vicinity, have always onhand every size of the above, from 2 ft. to 6 ft. 4 inches.

Also, *FISKE'S METALLIC BURIAL CASES*; Walnut, and Imitation Rosewood COFFINS, of superior finish.

All orders will receive our *personal attention*, and may be supplied at one hour's notice at

WINSHIP'S

Patent Self-Ventilating Refrigerator.

It is now conceded by physicians that provisions are rendered very unwholesome by being confined in a Refrigerator in which the air is not constantly and effectually changed; and that the health of many families has suffered in consequence. The musty and sour smell common to most ice chests is a sure indication of this poisonous and offensive tendency.

This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Silliman has introduced a description of it in his new work on natural philosophy as the best illustration ever practically tested of perfect ventilation.

CORDIAL OF DANDELION,

SPIKENARD & BONESET,

A remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and Pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.

Hundreds of testimonials might be added, proving the many cures by this pleasant and effectual medicine, especially of people advanced in life, whose debilitated constitutions have been greatly recruited by it. A trial of it is warranted to well pay the aged and dyspeptic. Price 75 cents.

[From Mrs. Ira Burnham, Exeter, N. H.]

I have suffered many years from the liver and heart complaint. By these distressing diseases I was reduced so low, some two years since, that I could not sit up more than ten or fifteen minutes at a time, when I began to take Dr. Swett's Cordial of Dandelion, Spikenard and Boneset, which has so fully restored my health that I now daily labor and attend to the business of my large boarding house. ELIZABETH BURNHAM.

Exeter, June 1, 1859.

This testimony of my wife is correct.

IRA BURNHAM.

[From Mrs. Ebenezer Blazo.]

GREENLAND, NOV. 20, 1858.

DR. SWETT—Dear Sir:—The distressing disease called the heart complaint, which has so long afflicted me, and which has baffled the skill of all my former physicians, has been fully cured by the two bottles of your Cordial which I had of you last spring. Yours with respect,

SALLY BLAZO.

This unequalled medicine, together with others carefully prepared by Dr. SIMEON SWETT, from innocent but effectual vegetables, are for sale by him at No. 12 CABOT ST., Portsmouth, N. H.

Nature is the Great Physician.

This is now admitted by the medical profession, as a fundamental principle of healing science. It is wisely provided by the human economy, that whenever anything is wrong in the physical system, the natural forces of the body are brought to bear to expel the disease. The great aim, therefore, is to strengthen the natural powers. This has been kept in view in the compounding of Dr. J. HOSTETTER'S BITTERS, which operate to give fresh vitality to all the organs of the body. The effects of this medicine upon the stomach, the liver and the kidneys are prompt and decisive. The patient who is wise enough to quit drugging, and try the BITTERS, soon feels as he if he had taken a new lease of life, and as he continues the use of the article he is overjoyed to find the stream of health coursing through his frame, and all from whose cheek the bloom has departed, give Dr. J. Hostetter's Celebrated Bitters a trial.

SPECIAL NOTICES.

DIABETES.—By this term is meant that mysterious affection of the kidneys, originating in a perversion of the nutritive powers, by which the strength is gradually drained away by the excessive secretion of urine. Remedies are usually merely palliative, but the PERUVIAN SYRUP, by its iron element, introduces a vitalizing influence into the most secret chambers of nature's laboratory, and presides over the composition of the vital fluids.

SCROFULA CURED IN TWENTY DAYS.

William Miles, aged 37, had been afflicted with Scrofula for 11 years. On the 1st of August, by the advice of Dr. William Root, of Marietta, Ga., he commenced the use of RADWAY'S REGULATING RESOLVENT. In 6 hours he felt a change for the better; in 12 hours small pustules were seen covering the whole surface of the body; in 24 hours they were covered with discharging sores. He still took the Resolvent freely, but finding his bowels very costive, he took six of RADWAY'S REGULATORS. They operated powerfully and pleasantly. He afterwards took one Regulator at night. The sores caused him some irritation, which he allayed by bathing them with the Resolvent. The fourth day the sores all healed up. He continued the Resolvent and the Regulators for 20 days. Since the last day, which was on the night of the 20th day, he has not experienced any returning symptoms or uneasiness. His blood is pure, skin clear, and bowels regular.

R. R. R. is sold by Druggists everywhere.

Dr. Wistar's Balsam of Wild Cherry.

The editor of the "Flag of our Union" says in his paper of July 17, 1858:—"The memory of Dr. Wistar is embalmed in the hearts of thousands who have experienced entire cure from *Coughs, Colds, Consumption and Pulmonary Disease* generally by the use of his *Balsam*. The invalid need not fear to give this preperation a careful trial, as we speak from experience. More than ten years since the editor of this paper tested its excellence by individual trial in his family, with the most surprising result, as a curative for pulmonary disease."

CASES OF CONSUMPTION AND WHOOPING COUGH CURED.

The following from a highly respectable gentlemen, speaks for itself;

KEYPORT, N. J., May 20, 1858.

S. W FOWLE & Co.—*Gentlemen*—This certifies that I was for many years afflicted with a disease of the lungs, until I became so weak, that it was with difficulty I could walk. My cough during this was very severe, causing me frequently to raise great quantities of blood, attended with profuse night sweats.

After using various remedies to no purpose, I was advised to try *Wistar's Balsam of Wild Cherry*. I did so, and before using the first bottle I was entirely restored to perfect health and strength.

I would also mention that this Balsam cured a little girl of mine of a severe attack of Whooping Cough, when her life was given over by the physician and all other remedies had failed.

Prepared by S. W. FOWLE & CO., BOSTON, and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchins, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spnot twd&w

"BUY ME AND I'LL DO YOU GOOD."

Now is the time to use the great Spring and Summer Medicine.

Dr. Langley's Root and Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all so compounded as to act in concert with the utmost ease, and their effect is truly *wonderful*. They absolutely cure

LIVER COMPLAINT, INDIGESTION,
COSTIVENESS, DIZZINESS,
HEADACHE, HEARTBURN,
PILES, FLATULENCY,
WEAKNESS, LOSS OF APPETITE.

All kinds of Humors, and every disease arising from a disordered Stomach, or bad Blood. If taken in large doses, Fever and Ague may be bro ken up and cured at once.

This has become a standard Medicine, and is decidedly *the Best in the World*. Try it once, and you will be sure to do so again. The price is cheap—only 50 cents for a small bottle and $1 cents for a large Bottle. You can't get a bottle too quick, for the time is fast approaching when you will have all enough of bad feelings if you don't take the Root and Herbs and drive them away. Sold by all Medicine Dealers everywhere.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveilance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh acrid taste, which render the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find it by its stimulant effect, free from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Tucker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. LOCAL.

☞ In the midst of the Rain Storm on Tuesday, with the wind N. E. we had in this city at a quarter past 4 P. M. three or four smart claps of thunder. The lightning struck the Bartlett School building, on School Street, tearing away the slate on the north west part of the house, from the ridge-pole to the eave, and doing a little injury to the chimney top on the south end of the house. The fluid descended from the chimney into both the school rooms, and ran along the stove pipes. From Mr. J. P. Payson's school in the chamber, it passed out through the open door into the entry, and stove the porch to pieces, above and below, smashing glass, ripping off boards and making them into kindling stuff.

Prank Fernald, a boy about 15 years of age, one of Mr. Payson's scholars, has an imprint of a tree on his shoulder, caused by the lightning during the shower. It is a singular sight.

In the lower school kept by Miss Simes, the fluid passed from one foot of a stove to the floor, tearing the floor boards a little, and escaped to the ground.

In the lower school, two girls were stunned and shocked;—and in both, the scholars, over 100 in number, had a very narrow escape.

The house of Mr. Daniel Littlefield, in Russell Street, was also struck, and the interior considerably torn. No one was injured.

The house of Mr. Jonathan Roberts, Christian Shore, was also struck, and one chimney much damaged.

☞ To any citizens in want of Strawberries, we would recommend a call on Mr. Joshua B. Johnson, at his residence on Wibird's Hill, Middle Street, opposite Cass Street. There may be had, delivered to order, Strawberries of the largest size and most delicious flavor—fresh and direct from the vines, without being jolted to a jelly by carrying a distance, or rendered stale by long keeping. We never saw richer berries than those from Mr. Johnson's vines, and they may be had at a reasonable rate—25 cents per box.

☞ Dan Rice's Great Show will be exhibited in Portsmouth on Wednesday, June 29th.

Nixon & Co.'s Mammoth Circus will perform here on Friday, July 8th.

One Day Later from Europe.—News from the seat of war is to the 6th.—Though but very scanty details, the intelligence is very important. The substantial triumph of the French at Magenta is confirmed by the fact that the Emperor Louis Napoleon and King Victor Emmanuel entered Milan, the capital of Austrian Italy, on the 8th inst., amid the great acclamations of the citizens. The moral effect of this demonstration throughout Italy cannot be over-estimated.

The second important announcement is, that the Austrians have evacuated the stronghold of Pavia. This fortress is on the left bank of the Ticino, and has been the centre of the Austrian operations in the south-west of Lombardy. The evacuation is either for the purpose of withdrawing to the more strongly fortified districts to the north-east, or else it is to throw the whole disposable Austrian force immediately upon the allies.

At the battle of Magenta, Marshal Canrobert has died of his wounds. Gen. LeClerc was killed by the side of the Emperor.

The latter is said to have been in the middle of the Imperial Guard when it bore the brunt of the battle, and it is reported that the Austrians knew the fact. The combatants are estimated to have been of about equal strength, having 150,000 men each, although other accounts say that the French had but 120,000 men.

Garibaldi's success continues. He had arrived at Monza, which is but half a dozen miles from Milan. The forces of D'Urban, his antagonist, have dispersed, and most of them have been made prisoners.

Desperation.—John Wilson, a convict in the Massachusetts State Prison, who is working for the State under three separate life sentences for burglary committed in Springfield, deliberately cut off all the fingers of his left hand, by means of a machine used for cutting metal in the whip room, where he worked. He had no hope of escape, and had been subject to fits of deep depression of spirits; in one of which he committed the deed.

Bread Riots in Virginia.—The flour panic among the farmers in this section bids fair to carry many persons into all sorts of wild extravagances. We learn from a gentleman just arrived from Washington county of a reckless thing which took place there on Saturday, and which goes to show the state of feeling existing in that neck of woods. A speculator by the name of Patterson has a large lot of flour at Post's Mill, which he is holding for an advance, in view of the recent damaging frosts. On Saturday some dozen or more farmers living in the vicinity, repaired to the mill, broke down the door, and each took a barrel of flour and left eight dollars in the mill for every barrel thus removed—all considering that a fair price for an article which they could not buy with the consent of the owner.—*Wheeling Intelligencer, June 16th.*

Sentenced.—In the Supreme Court at East Cambridge, Monday morning, Miria Y. Heath, was brought up for sentence. It will be remembered that she with her brother, were convicted in June last of murder in the second degree, having killed their father, Joshua Heath, at Dracut, in January, 1858. She was sentenced to imprisonment for life in the House of Correction.

This sentence is just right. The woman and her brother were a couple of demented mortals, "possessed with a devil."

Health Regulations.

The Board of Health of the City of Portsmouth call the attention of the public to the following sections of City Ordinance No. 4, and invite all interested in the preservation of Health in the city to aid them in the execution of their duty.

Sec. 3.—All waste water of houses, yards, cellars, sinks, pumps, &c. shall be conveyed by their owners or occupiers to the common sewers, or to such places as the Health Officers may direct.

Sec. 4.—No person shall be allowed to throw any vegetable or dead animal substances, or any other matter capable of producing infection, into any street, lane, alley or dock, or upon any wharf, but shall bury them or throw them into the river below low-water mark.

Sec. 5.—The contents of vaults and privies shall not be permitted to rise within one foot of the surface of the earth. And all owners or occupiers of buildings having such vaults or privies as may require it, shall cause them to be emptied within ten days from the promulgation of this ordinance, and in future on or before the first day of May in each year. And any such owner or occupier neglecting so to do, shall forfeit and pay for every such neglect a sum not less than three nor more than twenty dollars, and a like sum for every week's neglect after the time above specified.

Sec. 11.—The health officers may give written notice to the owner or occupier of any building, vessel or enclosure, to remove or destroy any nuisance or other thing deemed by them, on examination, to be injurious to the public health, within a certain time limited therein; and in case such owner or occupier—the said notice having been given to him, or left at his usual place of abode—shall neglect to comply therewith, the said health officers may, by direction of the mayor and accompanied by the city marshal, forcibly enter such building, vessel, or enclosure, and cause the said nuisance or other thing aforesaid to be removed or destroyed.

Sec. 14.—The owner or occupier of any building, vessel or enclosure shall be liable to pay the expense of the removal or destruction of any such nuisance or other thing, as aforesaid, including fees of the health officers who order or cause the same to be removed; and the same may be recovered by action to be brought in the name of the city.

Sec. 16.—And whenever any person or persons shall violate any rule or regulation, or commit any act forbidden in any section of this ordinance, to which no special penalty is annexed, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars, to be recovered by complaint before the police court of this city.

It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.
Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is floooded with them

TO THE PUBLIC.
I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world.*
UDOLPHO WOLFE.
CHEMICAL TESTIMONY.
D. Juse Luis Casaseca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, and of Physic and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M.'s Director of the Institute of Chemical Investigation, &c., &c.
Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—
Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balaium maria, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 90 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.
From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and an extractive bitter and aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Berlin and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Doetjen (of Hoorn,) as residuum after evaporation by steam, a substance almost insipid and very trifilingly aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic substance, of that of Udolpho Wolfe; and, on account of that labelled "Genuine Samaritan," "Extra Superior." Messrs. Tranner have furnished me with a very small quantity of a certain substance, of harsh metallic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.
I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest, to do so. JOSE LUIS CASASECA.

"Douglas Democrat."

When the Nebraska Bill, embracing the doctrine of Popular Sovereignty, was first brought forward, it is well enough known that a portion of the Northern Democracy openly bolted and went over to the opposition. Others, though feeling the principle right, still doubted the policy of its enunciation, at that time, and still another class, while claiming to remain in the Democratic party, openly denounced the Administration of Gen. Pierce, and joined the opposition in the most virulent abuse of Judge Douglas and the Nebraska measure. Comparatively but few "took the bull by the horns," and declaring, that what was right could as well be settled one time as another, bravely breasted the tempest and made a straight, square fight for the Administration and the Nebraska Bill.

The class who, although claiming to be Democrats, allied themselves with Know Nothingism and Republicanism, and by every means, sought to disgrace the Administration and reduce the party, and who, though apparently supporting Mr. Buchanan, were evidently disposed to feel amazingly resigned if he was beaten, made all the real trouble the party had to meet in '54. Such *Democrats* as Burke of New Hampshire, Wiggin of Maine, and to come down a step, S. B. Colby and his associate Cow Boys in Vermont, were horrified at the Nebraska Act, although it embraced nothing farther than the old State rights doctrines that had been part and parcel of the creed since Jefferson's day. There was no measure of abuse these traitorous devils did not heap upon Pierce and Douglas.—They left no stone unturned to distract and divide the party, and they succeeded in throwing the New England Democratic States into the hands of the enemy and reducing the party in Vermont to a mere handful. With the hope of a new deal of the offices under Buchanan, some of them supported him, while others, laid low, pretending to be heartily in the work, but doing nothing, saying nothing, contributing nothing to the result.

They held this attitude, cross, sullen, and surly, until the Lecompton matter came up. Seeing in the feeling manifested by the President toward the position of Douglas, an opportunity for plunder and spoils, and a chance to gratify their old hatred of Douglas and his friends, they rose suddenly into life, renewed by expectant revenge and the excitement of a rush for office. They were, once more in their element, and seizing upon the anxiety of the President to maintain his position, they surrounded him day and night; magnified mole-hills of embarrassment into mountains of difficulty; persuaded him that hesitancy in policy, was difference in principle, and in every council of safety, pretended to see open treason and bloody rebellion. The friends of Pierce and Douglas, and the Nebraska Act, who had held the Cincinnati Convention in check *until the doctrine of Popular Sovereignty was fully settled in its resolutions*, and that too, BEYOND A CHANCE FOR YOUR BURKES AND YOUR COLBYS, and your Cow Boys, generally, to SKULK, REPUDIATE OR DENY, as they had done all along in '54, and then went heartily for Mr. Buchanan; with Douglas at their head, were represented to the fears of the President as marshalling for treason to the party and destruction to the Administration. Cow Boys to the rescue! Nothing but that almighty host could save the Administration from the thunders of the "Little Giant," and the machinations of the men who, through all the Nebraska contest, believed a principle involved, and who had steadily defended and advocated it until its triumph by the verdict of the people in favor of Mr. Buchanan!

To screen the old Nebraska Guard from the base insinuation of defection to principle and treason to Democracy, it was not enough that the record showed them the authors, founders, and finishers of a policy, that beyond all denial or cavil, secured to the Democracy the election of '56. Not enough that, periling personal popularity, disregarding the vilest abuse and scorning all opposition they had fought the battle through to the end, contending for the very principle which the Administration had been elected to carry out and which they were accused of deserting! They had waded in blood to their arm-pits. They had canvassed night and day. They had fought with open enemies and treacherous friends. They had spent their time, they had paid their money. They had thrown their expectations of preferment, their hopes of popularity, their sagacity as politicians, their fame as statesmen, their all, into the breach, and fighting to end, unbuckled their armor, only when by the triumphant election of Mr. Buchanan, the people pronounced a verdict in their favor.

This was not enough. A mere difference of opinion as to policy, between the creator and the creature of the great movement—for, but for Mr. Douglas, Mr. Buchanan would never have seen his name enrolled among the list of Democratic Presidents—was seized upon by the venal and traitorous crew, who had repudiated the movement and traduced its authors, hoping by playing upon the groundless and idle fears of the creature, to annihilate the creator and fill their pockets with the spoils of a battle the necessity for which they had denied, the principle of which they had repudiated and the leaders of which they had followed with racks, thumb-screws, effigies and crucifixions.

Mr. Buchanan took the stream with the current. He was in no way connected with the perils of the first movement. His name was in no way identified with the struggle. He was put forward by the Convention to carry out what the party had decreed, and sought to perfect. He was of no service in the contest. He could, from his position, do nothing if he would, and he did nothing if he could.*

* We don't quite agree with this. Mr. Buchanan did do this service to the party: in his letter accepting the nomination, he defined his understanding of Popular Sovereignty. Speaking of the Kansas Nebraska Act he said:

"This legislation is founded upon principles as ancient as government itself, and in accordance with them has simply declared that the **PEOPLE OF A TERRITORY**, *like those of a State, shall decide for themselves whether slavery shall or shall not exist within their limits.*"

This was too clear an endorsement of Popular Sovereignty to admit of question, and during the canvass not even the Black Republicans ventured to assert that Buchanan would be false to that principle.

Even his worst enemies were charitable enough to credit him with common honesty and a decent regard for truth

in his declarations of political faith. Buchanan thus secured for the party the vote of every Popular Sovereignty man in the Union.

By this service he saved himself and the party from defeat, and had he remained faithful to the doctrine, would have averted the dangers which have since beset the Democracy and the personal disgrace of the position he occupies in the eyes of all who are not blinded with his partisanship.—*Ed Gazette.*

He was elected by the Nebraska Democrats. The Democrats who had opposed that measure, though some of them tried to help him, were as powerless before the people as babies. He was elected by the original, Nebraska Democrats; by the time, the influence and the money of the Democrats who, like our fathers of the Revolution had fought for principle with scythes, pitch forks, and stones, and guns where they could find them, and had stood about the Administration of Gen. Pierce, tireless, sleepless, impregnable; who had seen the effigies of Douglas swinging in the wind, with the Republicans and Cow Boys shouting and grinning around them; who had repelled the infamous indignities heaped upon Gen. Pierce, and amid the hisses of "tools of the South!" "slavery propagandists," and "traitors to the constitution," had never yielded an inch, never hesitated a breath, never faltered a moment. *These* were the Democrats who elected James Buchanan. Men whom it would *seem*, had won some right to be consulted, some claim to confidence, some right to an opinion of policy, some claim to consideration; at least, immunity from insult and abuse. But in an evil hour for the coun-

in an evil hour for the party, and in an evil hour for himself, the President allowed traitors to the great principle, to excite his fears, rouse his jealousies, and cloud his judgment, and to go forth to the people clothed in the badge of his authority, to create dissension and division, to embarrass the party and disgrace him, and to hawk and pick at the brave old Barons whose halberts won the fight and whose hand placed the crown upon his head.

The mischief of the Locompton matter, not to say whether Douglas or the President was right, could easily have been healed, but for the selfish plunderers that crawled all over the common sense, the better nature, the judgment and the temper of the President, as the lice crawled all over the palace of Pharaoh, and there seems to have been no sacred corner in all the land where the people of God were safe from the vermin. Lice! lice! nothing *but* lice! Lice here, lice there, lice everywhere! Not seeking by any word or act, to allay the irritation, seeking rather sedulously to increase it, an unprincipled set have spared no time, omitted no occasion to instil into the minds of the people, that to be a Democrat acceptable to the Administration, it is necessary to curse Pierce, damn Douglas and repudiate Popular Sovereignty; and it is allowed to be understood, that the men who have influence at Washington, are the very men who did curse Pierce, damn Douglas and repudiate Popular Sovereignty when the embodiment of that doctrine, the Nebraska Bill, was first broached, and who have never ceased to do it since. Now, then, these men who give out these edicts either lie, or—what? or the President, himself, repudiates the very doctrine upon which he was elected and which, if elected, he pledged himself solemnly to maintain!—There is no dodging *this*. Has Douglas abandoned the doctrines of the Nebraska Bill? Has he not, in the Senate, in Illinois, in New Orleans, everywhere, maintained the same ground he assumed at the outset—the same ground taken by the Convention at Cincinnati, the same ground taken by the President in his letter of acceptance, the same ground upon which the election was fought and carried in '56? Why, then, this howling about "*Douglas* Democrats!" Why this running to Washington, this getting up papers, this mutilating newspaper files to show that this or that Democrat is a "*Douglas* Democrat?" What does it mean? What is its significance? Is it to be understood that the Administration has abandoned the doctrine of Popular Sovereignty, and is seeking by the aid of Cow Boys and Black Republicans to break it down, and that, to stand upon the Cincinnati platform, to sustain the deliberate judgment of the party, the declarations of Mr. Buchanan, himself, and the voice of the Democracy of every State in the Union, in 1856, is to be a "*Douglas* Democrat?" *Is that* it? *If* so—so be it! *If* so, then we know what is meant by a "*Douglas* Democrat." It *not* so, then, it is high time some organ of the President set the matter right. The people care nothing about *personal quarrels* with Douglas, or Forney, or anybody else. It is of no use to pettifog about

It is of no use to flourish about Reeder. It is of no use to buncomb about Lecompton. It is of no use to spread eagle about Cuba. It is of use, only, and it only is of use, to declare, openly, fairly and so plainly, that the bark peelers of Vermont can understand it without counsel—whether the Cow Boys repudiate and deny the doctrines of Popular Sovereignty, or whether they do *not*? It is time this matter were understood. It is time to know who are for the doctrines of the party. It is time for the people to see that no traitors creep into the Charleston Convention to distract and divide by attempting to repudiate the Cincinnati platform. It is time to look about and see that men who have spit upon the doctrine of Popular Sovereignty from the outset, are given no opportunity to repudiate it, in our name. It is time to guard against the knavery of men to whom knavery is a virtue and cheating a trade. It is time, in short, to know, *if* to be in favor of Popular Sovereignty, is to be a "*Douglas* Democrat," who *are* Douglas Democrats and who are Cow Boys, for *parle vous*, as much about it as you will, there is just where the thing must end.—*Vermont Patriot.*

PEOPLE'S PRESS.—A new paper with the above title has been started at Columbus, Ohio, J. Birney Marshall, Editor. It is a large and handsome sheet, and goes it strong for Popular Sovereignty and Stephen A. Douglas. It is ably conducted, and will do much service in the good cause. If any of our friends want an Ohio paper with the ring of true metal about it, they can have one by sending for the People's Press.

THE
GROVER & BAKER
SEWING MACHINE COMPANY,
No. 18 Summer Street, Boston,

Having greatly increased their facilities for manufacturing their
CELEBRATED FAMILY MACHINES,
with all the recent improvements, have reduced their prices, and offer for sale
A NEW STYE MACHINE,
PRICE FIFTY DOLLARS.
MACHINES FROM $50 TO $125.
HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They
HEM, FELL, GATHER, AND STITCH
in the most superior manner, and are simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which
A CHILD OF TEN YEARS
may readily learn how to use them, and keep them in order. They make upwards of
FIFTEEN HUNDRED STITCHES A MINUTE,
and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of
ONE CENT AN HOUR!

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.
We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.
FRANK W. MILLER.

PORTSMOUTH, April 12, 1859
Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others.
ALLEN & PAINE.

Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."

Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."

Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."

COMPOUNDED ENTIRELY FROM GUMS.
Is one of the best PURGATIVE and LIVER MEDICINES now before the public.
These GUMS remove almost every ill humor from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of dyspepsia, and affecting a radical cure.
BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.
One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.
Only one dose taken before retiring, prevents Nightmare.
Only one dose taken at night, loosens the bowels gently and cures Costiveness.
One dose taken after each meal will cure DYSPEPSIA.
One dose of two teaspoonfuls will always relieve SICK HEADACHE.
Only one dose immediately relieves COLIC.
One dose taken for the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empirics, have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.
Patients treated by letter by addressing Dr. Hughes, post paid, stating symptoms, with price of the country, carefully concealed from scrutinizing friends.
Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.
This medicine can only be obtained at the Office of Dr. HUGHES, 12 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.
The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicine.
All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.
These pills can be sent to any part of the country with directions. Remember the number—12 Howard street, Boston.
P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 tf

PREMIUM FIRE WORKS!
At Wholesale and Retail. Fourth of July Committees, and others, supplied with the cheapest and best fireworks are warranted to be of the largest sizes, the safest to fire, the lowest priced, and the best quality.—For distant transportation, convenience in packing, and saving of freight, we would recommend our New Portable Fire Works. Also, Torpedoes and Chinese Pistol Crackers, in the largest quantities and at the lowest prices, together with all the other varieties of large and small fire works by the dozen or gross. Gold Medal awarded to this firm by the Massachusetts Charitable Mechanic Association, "For best Fire Works" exhibited on Boston Common.
The large and brilliant display of Fireworks at Concord on the Fourth of July last, was from our Laboratory.

THE ONLY ARTICLE
UNRIVALLED IN THE MARKET,
WITH IMMENSE
HOME AND EUROPEAN DEMAND.
The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and humors from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:
NEW YORK, Jan. 8, 1858.
MESSRS. O. J. WOOD & CO.,
Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I make it my business to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to see if it would do any good.
The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and to be proof being occasion for ostentation, I write you this letter, which you may show to any such, and also direct them to me for further proof, which is as good as out of the N. Y. Wire Railing establishment every day.
My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much healthy looking. I remain, yours respectfully, HENRY JENKINS.
Cor. Columbia and Carroll Sts., Brooklyn.
LIVINGSTON, Ala., Feb. 14, 1858.
PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.
You can publish this if you think proper.
Yours, &c. S. W. MIDDLETON.
PHILADELPHIA, Sept. 9, 1857.
PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,
D. R. THOMAS, M. D.,
No. 404 Vine Street.
The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

YOU HAD BETTER TRY
MY MOTHER'S SALVE
This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.
"**My Mother's Salve**" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.
"**My Mother's Salve**" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and all kindred diseases, will find in its use great relief, and in most cases a Permanent Cure.
"**My Mother's Salve**" in a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.
"**My Mother's Salve**" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.
Directions for using "**My Mother's Salve**" are simple. Everyone mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A.M.Beck.

☞ Mr. Simeon Marshall, of Gloucester, is 92 years of age. The other day he started alone in a dory, rowed three miles, procured bait, then rowed four miles more and went to fishing. He caught a barrel of fish, and then rowed home. After dressing his fish, he wheeled them to his home, about a quarter of a mile distant. If this can be beaten, the News wants to know it.

The Kansas Constitutional Convention will contain a large Republican majority, though its whole number of delegates is but 52. The democrats would not have had above half a dozen members had it not been for the false votes of several hundred Irish, who went into the territory from Missouri. There is a statement that the Republican majority is but three.

What is home without a wife? She is the lamp that destroys darkness—the angel putting loneliness to flight; and is, or may be, the dispenser of every blessing the mind of man can conceive, or the soul sigh for. Home with out a wife is a "strange land"—a head without brains—a heart without conscience—a ship without sails—an ocean without waves—a world without religion—a heaven without God.

☞ Mathew McHugh, an Irishman, died at Newton, Mass., on Sunday morning, by poison, having drunk a glass of alcohol and corrosive sublimate, mixed to kill bugs.—His friend, who gave it to him, mistook the bottle for a rum-bottle, though it was labelled *poison.*

Oleine Diamond Oil.
GREATEST ILLUMINATOR OF THE AGE.
This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.
It burns in the common oil lamp, with or without a chimney.
The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this Oil:
1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, hence it is portable.
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.
Price $1.25 per gallon.
For sale, wholesale and retail, at
96 Market Street, Portsmouth,
where the public are invited to call and examine for themselves.
JOSEPH HARVEY & SON.

Dr. B. S. Goodwin, Indian Physician,
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN. Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters!
Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience; our Medicines, the art of Chemistry and boundless Forest. Portsmouth, Oct. 14, 1858.

Rice's Bakery, Daniel Street.

FRENCH
Steam Scouring and Fancy Dyeing,
IN BOSTON
A. LEWANDO pledges himself, from long study and practical experience in his native country and throughout Europe, in the art of Chemistry and coloring, that he can produce superior fast colors, and his mode of preparing goods for coloring is such that the fabric will retain its former strength and lively virtue, and in no instance become that dull, decayed look, unavoidably produced by dyers in this country.
Particular attention given to Dyeing and Refinishing, in a NEW and VERY SUPERIOR STYLE Silks, Satin, Velvet, Merino, Thibets and Cashmere Shawls, Canton and Italian Crapes, Gauze, Fringes, Curtains, Piano and Table Covers, Hosiery, &c. Feathers colored and curled—by a newly discovered process, far surpassing anything yet offered to the public. He is prepared to dye and cleanse every kind of Ladies' and Children's Dresses, Silk, Velvet or Wool, plain or embroidered, without removing the trimming, or taking to pieces.—Spots taken out without fading or changing color.
Silks, Silk Dresses and Ribbons watered.

THURSDAY, JUNE 23, 1859.

BIBLICAL KNOWLEDGE.

We are more and more satisfied, from several samples of Bible reading which have come under our observation, that our public characters, especially politicians, ought to be careful how they meddle with Scripture.

Governor Wise, of Virginia, in his recent letter to Hon. David Hubbard, says: "The Reubens have tried to sell me into Egypt for my dreamings." Whereupon the New York Express says: "The Governor has reference, doubtless, to the story of Joseph being sold into Egypt—but, unfortunately, he has got it all wrong. Reuben, it so happens, was the only one of the brothers who did not want to sell him.—The Governor should join a Bible class right off and let Goggin go."

A member of Congress from Illinois, a few years ago, (Mr. Hodge) is reported as quoting in debate the following lines, as coming from the Bible:—

"While the lamp holds out to burn,
The vilest sinner may return."

This *Scripture* quotation of Mr. Hodge brings to mind an anecdote related to us by a clergyman, as occurring within his knowledge. A good woman (the 'weaker vessel,' very likely, of the two,) had lost her husband by death—and receiving a visit of condolence from the minister, she entered pretty freely into a narrative of her feelings of loneliness and grief, in her widowed condition. She said she found herself going back and forth, wandering about the house all day long from garret to cellar—now looking into the room where her poor husband died, then trying to divert her mind by doing chores about the house, and then, again, going to the good book for consolation. She was, she said, a poor lone woman—and she couldn't help thinking all day long of that very touching passage of Scripture—in the Book of Lamentations, she believed it was—which hit her case exactly: "*Goosey, Goosey, Gander, where will you wander?*"

Col. Benton, in the United States Senate, is reported as speaking of our Saviour having cast seven devils out of a certain man; and Waddy Thompson, a former member of Congress and Minister to Mexico, in his "Recollections" of that country, speaking of the Hospital of Lazarus, says: "The inmates would have rivalled, in sores and rags, the *brother of Mary and Martha.*"

It is recorded that two members of a certain State Legislature, at the close of the session, addressed a circular to their constituents, in which they said: "We hope the course we have pursued, and the votes we have given, will meet your approbation. We hope you will say to us, as Nathan said to David, 'Well done, good and faithful servants.'"

Another member, earnestly opposing a measure before the House, said: "Mr. Speaker, it was not *Abraham* who made the golden calf, it was *Nebuchadnezzar.*"

That "great men are not always wise," is still further exemplified in an anecdote of a distinguished English Judge. Lord Keyon, who understood law better than the gospel, closed one of his charges to a jury, as follows: "Finally, gentlemen, I would call your attention to the example of the Roman Emperor Julian, who was so distinguished for every Christian virtue, that he was called Julian the *Apostle.*"

"That editors should occasionally be at fault in the Scriptures, is not, perhaps, very strange. We have room for only one example. In giving an obituary notice of a worthy man, it was remarked: "We may say of him, as the Holy Scriptures have so beautifully expressed it, 'An earnest man is the noblest work of God;' and in regard to the afflicted family, convey to them the consoling assurance from the same blessed source, that 'God tempers the wind to the shorn lamb.—*Bangor Whig and Courier.*

Hon. Rufus Choate, in his speech at the ovation to Rev. Dr. Adams, quotes the tremendous saying, 'The *salvation* of the soul is precious, and it seaseth forever,' as a scripture sentence, which he said was often in the mouths of ministers 'whatever it means in the *original.*'

Mr. Choate doubtless supposed it was scripture, which it certainly is not; and he also supposed he had heard ministers use it. We never did; and doubt if he has,—unless his own preacher has used it;—but tho' his speech has been much copied, we have never seen this error noticed.

It may not be out of place here to say that we regard Mr. Choate's speech on this occasion as a document remarkable only for eloquent weakness.

LEGISLATURE.—On Tuesday, in the House, the bill to deprive the mayor of Manchester of the power of nominating city officers, and giving such power to the Board of Aldermen, was defeated. It excited great local interest.

Mr. Cragin's Judiciary bill was reported and read twice: it makes great changes.

The Statesman of Wednesday says the bill, with some amendments, will undoubtedly pass in the House.

The bill appropriating $1500 for a *safe* for the State Records was rejected. [When the Records get burnt up in some grand conflagration—*then* the next legislature will have a fire proof safe. Rockingham County has one now.

☞ A dispatch from Washington says the entire amount necessary for the purchase of Mt. Vernon has been subscribed, but the association will not close the subscription lists until a sufficient sum shall be in hand to improve the property, which is now in the most neglected condition.

FROM EUROPE.

By the steamer Anglo-Saxon, at Quebec, we have English papers to the 8th inst., while the Kangaroo arrived at New York, with advices by telegraph to Queenstown, Ireland, to the 9th.

A vote of want of confidence in the new British Ministry has been carried in the House of Commons by vote of 323 to 310. The Ministry were expected to resign.

At Marignano, a battle had been fought lasting nine hours, The Austrians lost 4500 killed and 1200 taken prisoners.—There are no details. The Austrians have evacuated Laveno.

We have some details of the battle of Magenta. The official Austrian report states that they have lost in killed and wounded 4000 to 5000 men and the enemy at least half as much again.

It is reported that the Prussian army is to be mobilized and that Prussia will soon take part in the contest on the side of Austria.

The Austrians are at Lodi, upon which point the allies are advancing. Both parties were making preparations for another conflict.

A Paris letter says that 4000 prisoners taken by the allies are Italians, who gave themselves up at the earliest opportunity. Many of them have offered to join the allies.

The Swiss government have ordered the fortification of their Austrian frontiers.

The Duchess of Parma has left her dominions and released her troops from their allegiance. Victor Emanuel had been invited to accept the government.

It is announced on the authority of despatches both from Vienna and Paris, that the Austrians have evacuated Milan and Pavia, and that on Wednesday the 8th, the allied sovereigns entered the capital of Lombardy in triumph.

The Boston Advertiser sums up the matter as follows:

The event settles the question as to which party gained the substantial victory at Magenta. That battle may have been contested hotly enough, and the result may have wavered long as the opposing armies were strengthened by fresh arrivals, but the fact that it resulted not only in the French maintaining their footing in Lombardy, but even in their entering the capital, and in a general retreat of the Austrians from the line of the Ticino and Po, sufficiently determines to which party the real victory belonged.

The first great battle of the campaign has therefore been fought. The affair at Montebello was but a preliminary skirmish; the desperate encounter at Palestro was hardly more, and Magenta is the first decisive action. The tide of war has now retreated from Piedmont, and is rolling on towards the centre of Lombardy. With the evacuation of Milan and Pavia, the renewed success of Garibaldi in the north and the excitement among the Lombards themselves, the foothold of the allies in Lombardy is secure.

A despatch from Berne (via France) dated June 7, says:—

A detachment of Gen. Garibaldi's corps has sailed along the shores of the Lago Maggiore in several barques, disarmed the Austrian Customs guards, and everywhere carried off the public treasure.

The following is an official bulletin published at Turin on the 7th:—

The allies took in the battle of Magenta four pieces of cannon, two flags, 7000 Austrians prisoners, and 20,000 put hors du combat, out of 120,000 engaged. The loss of the French was about 5000 killed and wounded. Among the former are Gens. Espinasse and Clerc.

Milan has been barricaded and defended by 6000 National Guards.

☞ The ship "Bolton," Capt. Wm. Cotter, 986 tons burthen, of Bath, from Philadelphia for St. John, went ashore at Cross Island about 4 1-2 o'clock on the morning of the 15th inst., at the mouth of Machias Bay, about six miles from East Machias, during thick weather, and became a total wreck. The "Bolton" had a crew of eighteen persons, fifteen of whom were lost, and among the lost was Capt. Cotter. The three saved are the second mate, one man and a boy. The ship went to pieces in ten minutes after she struck—a very heavy sea running at the time. One of her chronometers was picked up on the 17th inst., nearly ten miles from where she struck, and when picked up was running as if nothing unusual had happened.

CALIFORNIA AND OREGON.—*St. Louis, June* 22.—The overland mail arrived last evening with California dates of 30th ult.

Business at San Francisco was dull, with no prospect of a speedy revival, owing to the large stock of merchandise on hand.—Eastern shippers are cautioned against further shipments.

The Legislature of Oregon met at Salem May 16th.

The news from Frazer river is still of a discouraging nature, and the shipments of gold are very small.

Gov. Douglass has issued a decree providing for the naturalization of aliens after a three years' residence in the Territory.

LITTELL'S LIVING AGE.

This most valuable periodical commences A NEW VOLUME with the next number (No. 788) making a convenient time for persons to become subscribers. The following extract from an article by Rev. Henry Ward Beecher is but one among a multitude of testimonials to its worth from the highest sources:

"It was a happy thought to select from the wide range of the English and American periodicals the best articles in every department, and by bringing them together in a new work to give for a very moderate sum the cream of a hundred different, inaccessible or expensive magazines and papers. But this Mr Littell has done, and done so well as to have deserved and earned for himself the thanks and esteem of all grateful readers. Week by week THE LIVING AGE is a series of stereoscopic views of the learned and literary doings of the world. It comes every week with a new set of pictures, reflecting every side of the writing world; scientific, philosophical, historic, didactic, critical, statistical, poetic, narrative, stories—in short, everything except stupid goodness and smart insipidity."

CRANE'S PATENT
METALLIC BURIAL CASKET.

A newly invented Burial Case, fashioned to accord with the feelings of the bereaved, and yet retaining all the requisites of an appropriate receptacle for the dead. There is no reason why such an article should be made to create, by its appearance, disagreeable sensations. Under such bereavements whatever tends to soften or make less keen the poignancy of our grief, commends itself to our consideration. So much that is repulsive has been discarded in the arrangement and style of this Case, that its name, the "*Casket Burial Case,*" is an involuntary suggestion.—We, therefore, do not hesitate to aver that there has never been in use anything so entirely chaste, appropriate, and withal, convenient, as this invention.

The Case permits a view of the entire body after it is enclosed, the top being composed of beautiful French plate glass, which is divided into three sections, between two of which is inserted the name-plate. For each of these sections of glass there is a elaborately ornamented cap.

The Subscribers being sole Agents for this vicinity, have always on hand every size of the above, from 2 ft. to 6 ft. 4 inches.

Also, *FLOKES METALLIC BURIAL CASES*, Walnut, and Imitation Rosewood COFFINS, of superior finish.

BY THE USE OF
Winchester's Genuine Preparation of Dr. J. F Churchill's Compound of the
HYPOPHOSPHITES,
OF LIME, SODA AND POTASH,
Originally discovered and prescribed by him as a Specific Remedy for
CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Chronic Diarrhœa, and all other diseases depending upon a DEFICIENT VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SUE PREVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In *most instances* the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * Out of twenty-two cases in the *third or last stage*, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

CORDIAL OF DANDELION,
SPIKENARD & BONESET,

A remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and Pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.

Hundreds of testimonials might be added, proving the many cures by this pleasant and effectual medicine, especially of people advanced in life, whose debilitated constitutions have been greatly recruited by it. A trial of it is warranted to well pay the aged and dyspeptic. Price 75 cents.

[From Mrs. Ira Burnham, Exeter, N. H.]

I have suffered many years from the liver and heart complaint. By these distressing diseases I was reduced so low, some two years since, that I could not sit up more than ten or fifteen minutes at a time, when I began to take Dr. Swett's Cordial of Dandelion, Spikenard and Boneset, which has so fully restored my health that I now daily labor and attend to the business of my large boarding house. Nature is the Great Physician.

This is now admitted by the medical profession, as a fundamental principle of healing science. It is wisely provided by the human economy, that whenever anything is wrong in the physical system, the natural forces of the body are brought to bear to expel the disease. The great aim, therefore, is to strengthen the natural powers. This has been kept in view by the skillful compounders of Dr. J. HOSTETTER'S BITTERS, which operate to give fresh vitality to all the organs of the body. The effects of this medicine upon the stomach, the liver and the kidneys, are prompt and decisive. The patient who is wise enough to quit drugging, and try the BITTERS, soon feels as he if he had taken a new lease of life, and as he continues the use of the article he is overjoyed to find the stream of health coursing through his frame. Let all from whose cheek the bloom has departed, give Dr. J. Hostetter's Celebrated Bitters a trial.

SPECIAL NOTICES.

DIABETES.—By this term is meant that mysterious affection of the kidneys, originating in a perversion of the nutritive powers, in which the strength is gradually drained away by the excessive secretion of urine. Remedies are usually merely palliative, but the PERUVIAN SYRUP by its iron element, introduces a vitalizing influence into the most secret chambers of nature's laboratory, and presides over the composition of the vital fluids.

SCROFULA CURED IN TWENTY DAYS.

William Miles, aged 37, had been afflicted with Scrofula for 11 years. On the 1st of August, by the advice of Dr. William Root, of Marietta, Ga., he commenced the use of RADWAY'S RENOVATING RESOLVENT. In 6 hours he felt a change for the better; in 12 hours small pustules were seen covering the whole surface of the body; in 24 hours he was covered with discharging sores. He still took the Resolvent freely, but finding his bowels very costive, he took six of RADWAY'S REGULATORS. They operated powerfully and pleasantly. He afterward took one Regulator at night. The sores caused him some irritation, which he allayed by bathing them with the Resolvent. The fourth day the sores all healed up. He continued the Resolvent and the Regulators for 20 days. Since the last day, which was on the night of the 20th day, he has not experienced any returning symptoms or uneasiness. His blood is pure, skin clear, and he now feels regular.

Dr. Wistar's Balsam of Wild Cherry.

The editor of the "Flag of our Union" says in his paper of July 17, 1858:—"The memory of Dr. Wistar is embalmed in the hearts of thousands who have experienced entire cure from *Coughs, Colds, Consumption* and *Pulmonary Disease* generally by the use of Wistar's *Balsam.* The invalid need not fear to give this preparation a careful trial, as we speak from experience. More than ten years since the editor of this paper tested its excellence by individual trial in his family, with the most surprising result, as a curative for pulmonary disease."

CASES OF CONSUMTION AND WHOOPING COUGH CURED.

The following from a highly respectable gentleman, speaks for itself:

KEYPORT, N. J., May 20, 1858.

S. W FOWLE & CO.,—*Gentlemen*:—This certifies that I was for many years afflicted with a disease of the lungs, until I became so weak, that it was with difficulty I could walk. My cough during this was very severe, causing me frequently to raise great quantities of blood, attended with profuse night sweats.

After using various remedies to no purpose, I was advised to try *Wistar's Balsam of Wild Cherry.* I did so, and before using the first bottle I was entirely restored to perfect health and strength.

I would also mention that this Balsam cured a little girl of mine of a severe attack of Whooping Cough, when her life was given over by the physician and all other remedies had failed.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and one of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use. It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, GENERAL DEBILITY and NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing complaints which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin; "not only superior to many other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, and to the Sea travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. LOCAL.

☞ In the thunderstorm of Tuesday P. M. more buildings were struck, besides those which we mentioned on Wednesday: among them these were the house of Mr. J. B. Upham on Middle street, and the old Jackson house (with the extra steep roof) on Christian Shore. In these, the damage was not great.

The house of Mr. Jonathan Roberts which was struck, was the old Dennett mansion, of ante-revolutionary celebrity, situated *in* the angle of North School and Prospect Streets. A chimney in the north east part of the house was burst open by lightning, which scattered bricks, mortar and woodwork over the chamber floor, and disarranged the funnel below, shocking Mrs. R. and doing other damage. It was found necessary to take the chimney down.

A man employed at the North Mill, Mr. Smith Chapman, happened to be passing through School Street, and was opposite the gateway of the Bartlett School just as the building was struck. He was stunned and thrown on his back, in the street. but revived by the heavy rain almost instantly. He says he saw nothing and heard nothing of lightning or thunder at that time, but everything looked blue, as he regained consciousness. He complained of head ache through the night and Wednesday.

Repairs have already commenced on the Bartlett School.

☞ During the shower on Tuesday afternoon, the lightning struck a tree on Badger's Island, and passed down into the trunk, which was hollow, setting it on fire. Some persons tried to extinguish it, but were unsuccessful, and the tree was burning nearly all night. A man who was sitting at an open window in a house near by, smoking a pipe, was surprised by a stroke of lightning which severed the bowl of the pipe from the stem, without injuring the man. This seems rather strange and doubtful, but our informant states it as a fact.

☞ Mr. Wm. C. Merrill, a well known boat builder and sailer of this city, has just launched a pleasure yacht to go to Newburyport. She is called the "Shelley," and is owned by Edmund Bartlett, Esq. and other gentlemen at Newburyport. She is 32 feet long, and 14 feet beam, and has fine accommodations for about forty persons.—Like all the Merrimack river craft, she is fitted with a centre-board; and judging from her model and her movements in the river, she must prove a fleet sailer.

Portsmouth Boats appear to be getting as celebrated as her Ships, and in good demand abroad. Mr. John Townsend has recently sold his yacht "Defiance" to go to Newburyport; and Mr. Wm. Martin, jr., has also disposed of his famous boat "White Squall," to go to the same place.

HONOR TO WHOM HONOR IS DUE.—*Messrs. Editors:*—I was very glad to see, as I did, by an article in your paper, some days ago, that the rum hole under Congress Block was closed,—to the joy of all decent people who pass by that way in the evening, to the betterment of all respectable business in or near that block.

I wish now to say, in justice to Misses Loud & Pray, milliners, who occupy the store above the entrance to the pit, that they have closed it by the payment of a $50 rent to get rid of such a nuisance. I feel somewhat ashamed that such a good work was left to be performed by two women. new comers—but glad also, that somebody understands business well enough to do it,—and believe the enterprising ladies will not lose by it in the end, but gain as they certainly deserve to do. JUSTITIA.

☞ The old Fleet street nuisance has broken out anew, and the drainings of the stable "waste their sweetness on the ——air" of Fleet, Hanover and Vaughan streets, to the annoyance of all passengers who do not take snuff. A visiter in the city says it would not be suffered in his residence—and we do not think it would be in any other city in New England, except Portsmouth.

☞ In all this section of country we know of no place so tastefully fitted up as Diman's Highland Cottage, at Stratham.—It is a luxury to roam through his beautiful grounds, or take a view from the cupola of his house—not to mention the delicious Strawberries he is now serving up. That Strawberry Pic-Nic of his at Stratham Hill, on the Fourth of July, will be a grand affair—so we hear. Strawberries, music, dancing, &c.

We understand that the Portsmouth Cornet Band have been invited to visit the Cottage, and will probably do so some evening next week—when will be a good opportunity for others to call.

☞ Housewives having silver, plated, tin, glass or other ware to clean, will find the Silver Soap an invaluable aid. For sale at Preston's—and only costs a trifle.

☞ See Auction column for sale of Carriages, Furniture, Carpets, &c., in Daniel street this forenoon.

☞ The *only* (honest) way to get the Daily Chronicle, is to subscribe for it, and pay in advance—$4 per year. Lots of people were disappointed in not getting copies on Wednesday, containing the account of the damage by lightning. We of course cannot tell just when an extra demand is coming—and we only print about enough for our regular demand. Besides, we really don't feel very anxious to furnish occasional copies of a paper to those citizens who are not sufficiently enterprising and public-spirited to do what they can for the encouragement of an enterprise, which, if worthy of support at all, should have the countenance and regular patronage of every person able to contribute to its prosperity.

MRS. PARTINGTON'S KNITTING WORK. This new exhibition of the old lady's industry, skill, and genial humor, is to be published in a few weeks by Messrs. Brown, Taggard & Chase of Boston, who will issue it in a very attractive form. It will be handsomely illustrated by Hoppin, who has caught the spirit of the work, and represented both Mrs. Partington and Ike in many of their peculiarities, with unusual felicity. It will be a wonderfully popular volume for railroad, seaside and fireside reading—and will sell in every place where humor is a currency, or wit can be appreciated.

TO MARRIED LADIES.
The "*Indian Emmenagogue*" is a new and elegant medicine, designed *expressly for females*. It is prepared from an Indian plant, which from time immemorial has rendered *parturition* among the natives so easy, and is now for the first time offered to the public. The name and virtues of this wondrous plant was recently obtained from *Skenan-doah*, an Oneida Chief, now residing at Syracuse, N. Y. It is neatly put up in two ounce bottles, with full directions for using, and is warranted to cure any case of female obstruction in *twenty-four hours*. This may seem incredible, but if it fails in any case, the price will be refunded.—Purely vegetable and perfectly safe at all times.
☞ *Remember! This is the only medicine of the kind that is warranted in all cases; none other is worthy of confidence.* Sent by express to all parts of the country. Sold only at the *Medical Institute*, No. 12 Suffolk Place, Boston.
Circulars and references with pamphlet on diseases of women and private maladies generally—Sent free on receipt of stamp—addressed to Remedial Institute, No. 12 Suffolk Place, Boston, Mass.

WINSHIP'S
Patent Self-Ventilating Refrigerator.
It is now conceded by physicians that provisions are rendered very unwholesome by being confined in a Refrigerator in which the air is not constantly and effectually changed; and that the health of many families has suffered in consequence. The musty and sour smell common to most ice chests is a sure indication of this poisonous and offensive tendency.
This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Silliman has introduced a description of it in his new work on natural philosophy as the best illustration ever practically tested of perfect ventilation.
All sizes of these celebrated Refrigerators for sale at the Stove and Furnishing Warehouse of the subscriber, No. 46 Market street.

GOOD FOR KIDNEY AND BLADDER COMPLAINTS,
and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his establishment. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.
Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is flooded with them

TO THE PUBLIC.
I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world*.
UDOLPHO WOLFE.

CHEMICAL TESTIMONY.
D. Jose Luis Casaseca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, and of Physic and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M.'s Director of the Institute of Chemical Investigation, &c., &c.
Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—
Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balsium maria, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 90 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.
From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Doetjen (of Bremen,) as residum after evaporation by steam, a substance almost insipid and very trifingly aromatic, with flavor of vanilla, but in no wise with the delicious bitter aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior." Messrs. Tracher have furnished me with a very small quantity of a greenish substance, of harsh metallic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.
I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. JOSE LUIS CASASECA.

Morning Chronicle.

TWO DAUGHTERS EMANCIPATED BY THEIR FATHER.—The Cleveland (Ohio) Leader gives an interesting account of the efforts of a Mississippi planter to liberate his two daughters, who were also his slaves. We published some statements of the matter at the time the first effort was made, nearly two years ago, and now we record the final success.

James Oldham, the planter in question, left his estate in Coahoma county, Miss., in the summer of 1857, with the two girls, for Oberlin, Ohio, where he proposed to educate as well as emancipate them. At Memphis, the younger and pet daughter, Cyrena, preferring the ease of her sunny home to the dreaded restraints of school life, begged to be permitted to return to the plantation, which the indulgent father consented to, and continued on his journey, arriving at Oberlin in August. The next day after arriving, Mr. Oldham was taken with typhoid dysentery, and, after lingering three weeks, died.

When he became convinced that he must die, his concern for the freedom of his youngest daughter was intense. Lingering among the loved scenes of her childhood, she was liable to be inventoried with the other chattels of the estate, and sold at a high price, because of her light complexion, beautiful ringlets and graceful form. Fully conscious of this, his anguish was keen. He knew, too, that the laws of Mississippi forbid emancipation within her borders, and further, that he could not by his will make her free to be sent out of the State, nor could he will her in trust to another for the purpose of making her free, neither yet could he sell her to any one for that purpose.—Thus he was beleaguered on every hand.

At length by advice of a lawyer, a will was executed, by the terms of which the daughters were made free, and the sum of four thousand dollars bequeathed for their support and education, and Dr. Rea, his physician, appointed executor. It was also provided that the whole of the above sum should be expended, if necessary, to secure the freedom of the youngest girl (the eldest being already free) should an attempt to prevent it be made by the heirs.

The darling wish of the father was at last accomplished; but not until after a severe struggle, every point being warmly contested between greedy heirs and cruel laws on one side, and Dr. Rea and humanity on the other. For a time it seemed as if the poor girl was doomed, and the money, as well as her liberty, would be lost.

At length a point was decided by the Supreme Court of Mississippi, in a case involving some important ones in this, and the controversy was brought to a close by a compromise, in which the Doctor secured the girl and three thousand dollars of the money. A few days ago the Doctor had the pleasure of seeing the two sisters, now twelve and fifteen years, respectively, reunited at Oberlin, in accordance with the wishes of their father.

Messrs. Editors:—In passing through a town in New Hampshire called "Sodom," about the time of the annual town meeting, I heard that, by a vote of the town, the selectmen were instructed to prosecute all those who retailed ardent spirits in the town during the present year, and thought it spoke well for the morals of the place; but on passing through the same place this week, I noticed eight different men enter a place in a sly manner, between 6 and 6 1-2 in the evening, and on enquiring the character of the place, I found that although it was part of a public house of great pretensions in the town, that it was an open rumhole, and that notwithstanding several different men, who had been imprisoned for getting drunk and disturbing the peace on the Sabbath day, had sworn on the stand that they obtained their liquor at the rummery aforesaid, the selectmen made no effort to prevent a recurrence of such disgraceful proceedings. Now let me hear no more boasting of the morals of your place, ye men of "Sodom." TRAVELLER.

SICKLES, *his picture as drawn by Burleigh.*—The names of Daniel E. Sickles and wife, figure in the papers in all parts of the land. One of the latest statements is that he has taken rooms at Niagara. It is probably fabulous. Rumor says that she is fitting for the stage to gain her bread. It also asserts that the application for divorce will be resisted; that the confession will be withdrawn, as made under duress and fear, and that the only inducement to make it was to avoid the exact tragedy that attended it. Almost any day that is pleasant the form of Mr. Sickles may be seen on horseback in the upper part of the city.—But all who knew him one year ago—saw his full and genteel appearance, the care of his costume and the haughtiness of his air—exclaim as they behold him: "what a change!" He is quite thin, stoops as he rides; a restless movement marks his appearance, and he appears like one on whom a heavy burden weighs down. It may be the deed of blood on his hands: it may be the desolation of his home, and the public shame.

THE

GROVER & BAKER

SEWING MACHINE COMPANY,

No. 18 Summer Street, Boston,

Having greatly increased their facilities for manufacturing their

CELEBRATED FAMILY MACHINES,

with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYE MACHINE,

PRICE FIFTY DOLLARS.

MACHINES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR!

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.

FRANK W. MILLER.

PORTSMOUTH, April 12, 1859

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."

Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."

Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."

UNRIVALLED IN THE MARKET,

WITH IMMENSE

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, cleans and heal from the scalp, allays and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudice which is in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further information, if they call out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

TUSCALOOSA, ALA., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 494 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $5 a bottle.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, I would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are described upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments upon him, and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely unlike any other, put up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston, where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 ly

AMERICAN & FOREIGN PATENTS.
R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington, under the act of 1837.
76 STATE, OPPOSITE KILBY ST., BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered elsewhere. The testimonials below plainly prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him, beyond question, the most competent and reliable agent to secure patents, or offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents.
BOSTON, February 8, 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN HAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE REJECTED applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.
Boston, Jan. 1, 1859. R. H. EDDY.

LOTTERIES.
THE LOTTERIES OF
WOOD, EDDY & CO.,
Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of
WOOD, EDDY & CO.,
are authorized by the Legislature of either State.
A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga. All orders received being filled in the drawing next to take place after same comes to hand.
Whole tickets are $10; halves, $5; and quarters, $2.50.
No ticket sent unless the money accompanies the order. Prizes vary from $20 to $50,000.
Every prize is drawn, and the result of drawing forwarded to all purchasers.
☞ A circular showing the plan of receiving it. All communications strictly confidential.
Write your address plainly, and direct to
WOOD, EDDY & CO.,
Wilmington, Delaware.
Or to WOOD, EDDY & CO.,
Augusta, Georgia.
☞ All letters to our address will be promptly acknowledged—and prizes cashed without delay.
NOTICE TO CORRESPONDENTS.
Those who prefer not sending money by mail, can use the "ADAMS EXPRESS COMPANY," whereby money for tickets, in sums of ten dollars, and upwards, can be sent us
AT OUR RISK AND EXPENSE,
from any city or town where they have an office. The money and order must be enclosed in a "GOVERNMENT POST OFFICE STAMPED ENVELOPE," or the Express Company cannot receive them.

GREELEY'S PATENT ELASTIC
BACK AND CENTRE
SUSPENSION PANTALOONS.
Patented June 29, 1858.
J. E. HAM & CO.,
Have purchased the right to manufacture the above named Pantaloons. The advantages of this invention over the usual method of making Pants is: they may be made snug to the person, and still be as easy as though they were uncommonly large. Pants that are easy to stand in are easy to sit or stoop in.
Also for sale, GREELEY'S BRACE SUSPENDER,—a superior Suspender for Skirts or Pants, and far superior to any other BRACE in the market. may25

CURRANTS AND DATES.
3000 LBS. for sale low by the package or pound, by HENRY F. GERRISH,
jg 15 Daniel Street.

Oleine Diamond Oil.
GREATEST ILLUMINATOR OF THE AGE.
This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.
It burns in the common oil lamp, with or without a chimney.
The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this Oil:
1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, hence it is portable.
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.
Price $1.25 per gallon.
For sale, wholesale and retail, at
96 Market Street, Portsmouth,
where the public are invited to call and examine for themselves.

Dr. B. S. Goodwin, Indian Physician,
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN.
Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Fever and Ague, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters!
Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858.

FRENCH
Steam Scouring and Fancy Dyeing,
IN BOSTON
A. LEWANDO pledges himself, from long study and practical experience in his native country and throughout Europe, in the art of Chemistry and coloring, that he can produce more fast colors, and his mode of preparing goods for coloring is such that the fabric will retain its former strength and lively virtue, and in no instance assume that dull, decayed look, unavoidably produced by dyers in this country.
Particular attention given to Dyeing and Refinishing, in a new and very superior style, Silks, Satin, Velvet, Merino, Thibets and Cashmere Shawls, Canton and Italian Crapes, Gimps, Fringes, Curtains, Piano and Table Covers, Hosiery, &c. Feathers colored and curled—by a newly discovered process, far surpassing anything yet offered to the public. He is prepared to dye and cleanse every Kind of Ladies' and Children's Dresses, Silk, Velvet or Wool, plain or embroidered, without removing the trimmings, or taking to pieces.—Spots taken out without fading or changing color.
Silks, Silk Dresses and Ribbons watered.

FRIDAY, JUNE 24, 1859.

NOT AN EXPERIMENT.—A writer in the Portland Argus says:

Allow me sufficient space to appraise father and mothers in Portland that a project is in process of maturity to bring the boys' and girls' high schools of this city together, and of uniting them under certain restrictions. Without expressing any opinion on the merits of such an experiment, it is believed to be a matter of too much moment to be thought of only within the precincts of the School Committee room.

Mixed schools of both sexes, public and private, have been common in this country for many years. Much the largest school in this city, Mr. Hoyt's, at the Haven School-house, is and has been for these seven years and more, a mixed school—without, so far as we know, a word of complaint from anybody, parent, teacher or committee.

Our two High Schools for boys and girls are in separate rooms, for no reason that we know of, except that it *has been* so, and therefore it is.

Hundreds of academies, all over the country, are mixed—while others are exclusively male or female—but neither course is now an *experiment*.

The general opinion of the present day is in favor of the mixed schools, and this view gains upon the other.

A very intelligent government official in this neighborhood says he has been a democrat some twenty years, and he can't tell what all the talk about popular sovereignty and the integrity of principle, means. We don't think he can.—*Bath Times.*

Exactly so.—Thomas Jefferson thought the Sovereign People of the United States had power to shut slavery out of the Territories by law,—and they enacted such a law by their Representatives in Congress assembled.

But the *modern* doctrine of popular sovereignty seems to be, that slavery is sovereign to go every where, while freedom is sovereign only to go where it can,—and that Congress can do nothing about it,—while the executive and the supreme court can aid slavery by all the means within their power.

THE SHOE BUSINESS IN DOVER.—The Dover Gazette says that in that place they have twelve first-class establishments, to say nothing of the smaller ones, which "manufacture from the raw material of leather about 75,000 pairs of shoes per month, or 900,000 pairs per year. The cutting, stitching, pegging, finishing and boxing for the market, are all done complete, employing hundreds of men and women, who receive in monthly payments regularly about $25,600. This business is constantly increasing. Several new concerns are now in progress, and if the business continues to be as good for six months to come as for the few months past, the end of the present year will see 100,000 pairs made per month, and nearly $350,000 paid out to the industrious workmen for every month's labor.

"I hose not informed will probably be surprised when we tell them that about $5000 more is paid out every month to the shoemakers, than for all the labor of the Cocheeho Manufacturing Company."

In Milford, Worcester county, Mass, business is very brisk now, and it is thought that the manufacture of boots, the principal trade of the town, will far exceed that of last year, which is said to have exceeded $2,700,000. Buildings are being erected in every direction, and the population, during the last two years, has considerably increased.

☞ The jury in the case of Capt. Pendleton, indicted in the United States Court at San Francisco for cruel and unusual punishment of William Johnson, have returned the following verdict:—"Beating and maiming Wm. Johnson, guilty; whipping Wm. Johnson, guilty; false imprisonment of do., guilty; insufficient food, semi-starving, not guilty; cruel and unusual punishment, not guilty. The jury recommend the prisoner to the mercy of the Court."

☞ The San Diego Herald says that Gen. William Walker has resigned filibustering, and that he intends to unite his destinies with a lady of Lower California, who once saved his life. She is said to be abundantly rich, but objected to the alliance in consequence of a difference of religion.—That has been obviated by the ceremony at Mobile—he embracing Catholicism.

☞ Among the articles worn by the 'old folks' at the Hadley bi-centennial celebration, was a red coat over two hundred years old, having been worn by the ancestors of the Williams family of Deerfield; also a white wig and queue over a hundred years old; a red cloak one hundred and seventy years old, and a silk dress one hundred years old."

☞ Mark Newman, Esq., for many years Preceptor of Phillips Academy, Andover, died in that town on the 15th inst., at the advanced age of 86 years and nine months.

TOO LATE TO MARRY.—There is a smart old gentleman, a native of Newburyport, now a little rising four score years of age, who resides not a thousand miles from Portland, Me. For several long and weary years he has trodden the journey of life alone, the partner of his younger days having preceded him to that happy world to which he is hastening. Himself not having reached that spiritual sphere where there is no marrying or giving in marriage, thought it would not be unfitting to find some one to smooth the decline of life; and accordingly in a happy frame of mind, he left his eastern friends, without announcing his intention, but showing plainly in the renewed fire of his eye and the increased elasticity of his step that something gladsome occupied his mind, and went to Newburyport. Here made some enquiries about a lady whom he had not seen for nearly sixty years. No one could give him any information, however, for she had passed out of the memory of this generation. To his mind's eye she was a fresh fair damsel of eighteen, with glossy ringlets and bright blue eyes, and as he was gazed upon the tablet whereon she was daguerrotyped, he was living over the days just turning twenty-five.

Failing to learn what he desired, he took the cars for Rowley, and footed it almost two miles from the depot to the house where he had often seen her and loved to dream in the glance of her eye. Stepping up to the door, thump, thump, thump went the ivory head of his cane; and soon an aged person appeared. Does Miss —— live here, asked our hero of more than four score. "Live here!" said the surprised inmate, as she drew her hand over her brow, as if to awaken reason—"live here! she has been dead thirty-three years!" The old man leaned against the door post and drew a deep sigh that moved his frame to the very soles of his boots. The spell was broken; he awoke to the perception of his increased years, which had carried him past most of those who were young with him; and turning mournfully away, he tarried not this side of the State of Maine, concluding that he must end life in the loneliness that was upon him.—*Herald.*

We don't *know* who the old gent above-named is, in whom "the hey-day in the blood" is yet so warm—but it seems to us to point to one who long resided in Portsmouth, but who for the last few years has lived in Portland—of whom it may truly be said: (varying slightly from the old poet)

To meet her, my Hart,
Bound ye light as the roe.

EASTMAN'S WHITE MOUNTAIN GUIDE. When the sun shines (as doubtless it will shine again when the storm is over,) people will go, probably in great numbers, to the White Mountains, from various parts of the country.

They can find out how to go, what is to be seen, and how to see it best, by purchasing the White Mountain Guide Book, Second Edition, just published by Edson C. Eastman, Concord, and for sale by J. H. Foster, in this city. The book is also a very readable description of the Mountain Scenery of New Hampshire, for those who cannot go.

THE DRUNKARD'S PROGRESS.—Mr. Peter Sinclair, the celebrated temperance lecturer, having secured Andrieu's celebrated paintings of The Drunkard's Progress! will open them at the Temple in this city, on Thursday evening, July 7, where they will be exhibited also on Friday and Saturday evenings, July 8 and 9, and on Saturday afternoon, for School Children.

FAILURE OF A NEW YORK PROVISION DEALER.—The Journal of Commerce says that a leading speculator in the provision trade, in that city, well known as one of the largest and boldest operators in the country, has given notice that he will be unable to receive any more pork upon contract, although he proposes, as we understand, to pay all of his business paper. He was bound to receive on Saturday, it is said, a large quantity of pork, chiefly prime, at about $2 per barrel above current rates.—His assets, as generally computed, show a surplus, inependent of these contracts, of about $80,000.

☞ In the Portland Municipal Court, June 21, Thomas Collins pleaded *nolo contendere* to a complaint charging him with keeping intoxicating liquors for sale. He was fined $20 and costs.

Michael Key and Daniel Green, for keeping their shops open on the Lord's Day, were fined six dollars and costs each. Of course they were grog shops.

☞ The two days' battle of Magenta swept from existence, and placed *hors du combat* more than twice the standing army of the United States. The whole regular army of the Union numbered, on the first of January last, 12,943 men, of all ranks, from general officers down to privates.—Making every allowance for exaggeration, the losses on both sides must have been between twenty-five and thirty thousand.

☞ John Augustus, a well known philanthropist, died in Boston this week, at the age of 74. Mr. Augustus has performed a world of good deeds during the last twenty years, and his death will be mourned by many whom his kindness has cheered and his purse helped.

A Western editor thinks Hiram Powers is a swindler, because he chiselled a Greek girl out of a block of marble.

CAMP MEETING.—The annual camp meeting of the Methodist denomination will be held this year at Hamilton, Mass., instead of Eastham, as heretofore. The committee who have had the business in charge, have bought ten acres of land, including a pine grove, about a mile from the depot, for the sum of $600; and have leased ten acres more, for ten or twenty years as they may desire. The Eastern Railroad agree to carry their baggage, committee, and ministers free, and others attending at half price. They give $100 per year for police service; and $300 the first year towards preparing the grounds. The camp meeting will be held in August,—and it will commence on Monday and close on Saturday of the same week. This course has been adopted to avoid disturbance by the disorderly persons that have attended on the Sabbath.

☞ On Saturday, as they were preparing to launch a ship in the yard of Mr. John Carrier, at Newburyport, Mr. George W. Jackman was employed under the ship in pouring oil upon the ways, when, as they were drawing the bilge ways under with a yoke of oxen, somehow he had his head caught between the bilge ways and the ship and was badly crushed.

☞ Leander Mead, Esq., many years a dry goods merchant of New York, was suddenly killed on Sunday morning, at North Greenwich, Conn. His horse became restless, his wagon turned over, and Mr. Mead was thrown upon a stone, striking his head. He expired instantly. He was 76 years of age.

☞ The North Bend (Indiana) Register, said to be edited by Collax, a prominent member of Congress, contains an elaborate article, in which he assumes that the Democracy will be united, and that the opposition must unite, if they desire success in 1860.

☞ At Woonsocket, R. I., on Friday, Dr. Tyler died suddenly, and an examination discloses a large quantity of arsenic in his stomach. His wife and one of his sons were similarly attacked, but recovered. How the poison was administered is a mystery, but it is supposed to have been accidental.

☞ The San Francisco Herald states that the present stock of California vines now under cultivation will yield $50,000,000 of wines and brandies in twenty years from the present day. And it might be added, yield a large crop of miserable sots and drunkards.

Juries seem determined, all over the country, to make masculine flirters and jilters suffer terribly in the pocket nerve. At Baltimore, last week, the jury in the case of Miss Annie B. Herring against James Banhen, for breach of promise, rendered a verdict of $3500 damages for the plaintiff.

☞ Punch thinks if the marauding exploits that are reported of the Austrians in Lombardy be true—paying for nothing, and helping themselves to everything—that Austria can boast of the largest rifle corps in the world.

☞ On Monday evening, in New York, an intoxicated deaf and dumb man attempted to climb to the mast-head of a vessel; he reached the fore yard, then lost his hold, fell into the water, and was drowned.

☞ The anthracite coal trade shows a gain of 109,310 tons, as compared with last year. It is supposed that the increase will reach one million of tons, before the end of the season.

On the night of the 10th June, a farmer of the town of Fabius, in Onondaga county, N. Y., had a flock of 120 sheep stolen from him. They were driven to Syracuse and sold. Two men named Garvey and Hichcock were subsequently arrested as the thieves.

It is very indiscreet and troublesome ambition which cares so much about fame; about what the world thinks of us; to be always looking in the face of others for approval; to be always anxious about the effect of what we do or say; to be always shouting to hear the echoes of our own voices—*Longfellow.*

The story is foolishly told that Mr. Douglas will no be candidate at Charleston and that he will turn his friends over to Mr. Guthrie. Democrats will scarcely allow Mr. Douglas or any other man to "turn them over," like stocks by a broker.—*Bath Times.*

☞ The Charleston News declares that if the Convention hesitates about a slave code, and especially if Douglas is in danger of nomination, that the Southern members will secede and nominate for themselves.

☞ Mrs. Partington desires to know why the captain of a vessel can't keep a memorandum of the weight of his anchor, instead of weighing it every time he leaves port.

☞ Dr. Bailey, editor of the National Era, died on board the steamer Arago, on the 5th.

THE DIFFERENCE.—We praise men for fighting, and punish children for doing the same thing

CORDIAL OF DANDELION,
SPIKENARD & BONESET,
A remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and Pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.
Hundreds of testimonials might be added, proving the many cures by this pleasant and effectual medicine, especially of people advanced in life, whose debilitated constitutions have been greatly recruited by it. A trial of it is warranted to well pay the aged and dyspeptic. Price 75 cents.

[From Mrs. Ira Burnham, Exeter, N. H.]
I have suffered many years from the liver and heart complaint. By these distressing diseases I was reduced so low, some two years since, that I could not sit up more than ten or fifteen minutes at a time, when I began to take Dr. Swett's Cordial of Dandelion, Spikenard and Boneset, which has so fully restored my health that I now daily labor and attend to the business of my large boarding house. ELIZABETH BURNHAM.
Exeter, June 1, 1859.
This testimony of my wife is correct.
IRA BURNHAM.

[From Mrs. Ebenezer Blazo.]
GREENLAND, Nov. 20, 1858.
DR. SWETT—Dear Sir:—The distressing disease called the heart complaint, which has so long afflicted me, and which has baffled the skill of the former physicians, has been fully cured by the two bottles of your Cordial which I had of you last spring. Yours with respect,
SALLY BLAZO.

This unequalled medicine, together with others carefully prepared by Dr. SIMEON SWETT, from innocent but effectual vegetables, are for sale by him at No. 13 CABOT ST., Portsmouth, N. H.

Nature is the Great Physician.
This is now admitted by the medical profession, as a fundamental principle of healing science. It is wisely provided by the human economy, that whenever anything is wrong in the physical system, the natural forces of the body are brought to bear to expel the disease. The great aim, therefore, is to strengthen the natural powers. This has been kept in view by the skillful compounders of Dr. J. HOSTETTER'S BITTERS, which operate to give fresh vitality to all the organs of the body. The effects of this medicine upon the stomach, the liver and the kidneys are prompt and decisive. The patient who is wise enough to quit drugging, and try the BITTERS, soon feels as he if he had taken a new lease of life, and as he continues the use of the article he is overjoyed to find the stream of health coursing through his frame. Let all from whose cheek the bloom has departed, give Dr. J. Hostetter's Celebrated Bitters a trial.
Sold by druggists and dealers generally, everywhere.

SPECIAL NOTICES.

DIABETES.—By this term is meant that mysterious affection of the kidneys, originating in a perversion of the nutritive powers, in which the strength is gradually drained away by the excessive secretion of urine. Remedies are usually merely palliative, but the PERUVIAN SYRUP by its iron element, introduces a vitalizing influence into the most secret chambers of nature's laboratory, and predisposes over the composition of the vital fluids. SCROFULA CURED IN TWENTY DAYS.—William Miles, aged 37, had been afflicted with Scrofula for 11 years. On the 1st of August, by the advice of Dr. William Root, of Marietta, Ga., he commenced the use of RADWAY'S REGULATING RESOLVENT. In 6 hours he felt a change for the better; in 12 hours small pustules were seen covering the whole surface of the body; in 24 hours he was covered with discharging sores. He still took the Resolvent freely, but finding his bowels very costive, he took six or RADWAY'S REGULATORS. They operated powerfully and pleasantly. He afterwards took a Regulator at night. The sores caused him some irritation, which he allayed by bathing them with the Resolvent. The Scrofulous Syphilis Remedy completed the cure. He continued the Resolvent and the Regulators for 20 days. Since the last day, which was on the night of the 20th day, he has not experienced any returning symptoms of uncleanliness. His blood is pure, skin clear, and bowels regular.

R. R. R. is sold by Druggists everywhere.

Dr. Wistar's Balsam of Wild Cherry.
The editor of the "Flag of our Union" says in his paper of July 17, 1858:—"The memory of Dr. Wistar is embalmed in the hearts of thousands who have experienced entire cure from *Coughs, Colds, Consumption and Pulmonary Disease* generally by the use of his *Balsam*. The invalid need not fear to give this preparation a careful trial, as we speak from experience. More than ten years since the editor of this paper tested its excellence by individual trial in his family, with the most surprising result, as a curative for pulmonary disease."
CASES OF CONSUMPTION AND WHOOPING COUGH

The following from a highly respectable gentleman, speaks for itself:

KEYPORT, N. J., May 20, 1858.

S. W FOWLE & Co.—*Gentlemen*:—This certifies that I was for many years afflicted with a disease of the lungs, until I became so weak, that it was with difficulty I could walk. My disease during this was very severe, causing me frequently to raise great quantities of blood, attended with profuse night sweats.

After using various remedies to no purpose, I was advised to try *Wistar's Balsam of Wild Cherry*. I did so, and before using the first bottle I was entirely restored to perfect health and strength.

I would also mention that this Balsam cured a little girl of mine of a severe attack of Whooping Cough, when her life was given over by the physician and all other remedies had failed.

TO THE CITIZENS OF NEW HAMPSHIRE

Charles's London Cordial Gin.
THE ORIGINAL AND ONLY LONDON GIN IMPORTED.
This Gin, distilled in London, from sound Barley, under the warrant of the Hon. Excise Board, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent physicians, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing quite from the ordinary Gins, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, CHOLERA MORBUS, GRAVEL, CHOLIC, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., while the weakly will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin "not only superior to any other, but the best article of the kind he has seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of Imitations. Buy only CHARLES'.—NONE OTHER IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Parker, 20 Elm st.; J. Morgan, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. CITY COUNCIL.

At a special meeting of the Common Council, Tuesday evening, the amendments of the Aldermen to the Appropriation Bill were non-concurred in. The sum of $150, was reported by the Aldermen—which was increased to $300 by the Com. Council.

Another plan for the school-house in Dist. No. 2 was received from the Aldermen—estimated to cost $5600. Laid on the table.

At another special meeting of the Com. Council, called by the Mayor on Wednesday evening, information was received that the Aldermen adhered to their amendments of the Appropriations, and asked a Com. of Conference. Ald. Webster, Scriggins and Kenney, and Com. Councilmen Upham, Todd, Clark, Miller and Marden, were appointed that committee.

Mr. Kimball read a communication from the School Committee of District No. 2, asking for a neat, plain *one-story* School House, of wood, in Cabot Street; and he offered a resolution in accordance with this request. Referred to a special committee, consisting of Messrs. Kimball, Sheldon and Dennett

On Thursday evening, the joint committee of conference reported in each board in favor of appropriating $300 for the celebration of Independence; and also recommended other amendments to the appropriation bill—which was passed as printed below.

ORDINANCE No. 64.

An Ordinance fixing and determining the details and amount of the sums necessary to be raised and appropriated to defray the current expenses and pay debts for the year 1859.

Be it ordained by the City Council of the City of Portsmouth—

There shall be raised on the polls and estates of the inhabitants of this city and non-residents to pay the current expenses of the city for the fiscal year, ending December 31st, 1859, and pay such debts of the City as are required to be paid the current year, the sum of fifty-five thousand five hundred and forty dollars and eight cents, to be appropriated as follows:

		$55,540,08

The following joint committee were appointed to make arrangements for the celebration of the Fourth of July: Aldermen Webster, Kenney and Marden; Common Councilmen Moses, Sheldon and Miller.

FOURTH OF JULY.—It will be seen that the City Council have appropriated $300 for the Celebration of Independence. We understand that it is designed to fire three salutes of 33 guns each, ring the bells; and have music by the Band, and Fireworks, in the evening. We hear that the sum to invest in fireworks will be increased by private subscription.

☞ We are glad to notice the movements to keep down the stories, in re-building the Cabot Street School House, as well as the expenses. There is certainly no need of a costly house there; and if anybody can see any benefit in having one of the schools over the head of the other, we can't.

☞ An Agent of Sargent & Co., Boston, is now in this city, introducing their patent Magic Soap— which is highly recommended for washing clothes without boiling, fulling, or shrinking; also for cleansing paint without water, polishing jewelry, &c.; also for the skin, teeth, &c. It is white, about as soft as lard, and comes in neat, wooden boxes of 10 lbs., at 50 cents.; one of which we have furnished the best woman in town to try—pending whose decision, we will just say, that the gentlemanly agent, with a little of this soap on a sponge, instantly removed from our white counting-room door all traces of marks left there by those who persist in putting their fingers where the knob is not.

ATTEMPT AT SUICIDE.—On the Eastern Railroad evening train for Portland Wednesday, a young man, apparently a sailor, attempted to take his life by stabbing himself with a pocket lancet, at Beverly. He was suffering from an attack of delirium tremens.

Rev. John Lawrence, late of Carlisle, Ms., has removed to Salem this State, where he has engaged as a stated supply of the Congregational church.

N. H. LEGISLATURE.

In the House, on Wednesday June 22,—it was decided not to repeal nor amend the act for the suppression of intemperance.—A joint resolution passed the House, appropriating $300 for indigent idiotic youth.

Mr. Falkner, of Keene, from the Committee on Railroads, reported in a new draft, bill to authorize the extension of the Concord and Portsmouth Railroad to tide water in Portsmouth. Ordered to a third reading.

Mr. Rand, of Portsmouth, from the Committee on Education, reported a bill in relation to scholars in the District Schools.—Ordered to a second reading.

Mr. Pattee, of Austin, from the delegation from Hillsborough County, to whom was referred a bill in relation to the New Hampshire Central Railroad, reported the bill in a new draft, providing that the previous acts chartering other roads, &c., shall be so construed as not to authorize or permit any parties to remove the rails on the line of road between Manchester and North Weare. The bill was ordered to a second reading.

Mr. Baker, of Claremont, from the Committee on the Judiciary, reported in a new draft, bill in relation to hawkers and peddlers.

On motion of Mr. Pray, of Dover, the bill was laid on the table and ordered to be printed for the use of the House.

Mr. Greenleaf, of Portsmouth, reported from the Portsmouth delegation, the bill in relation to the Police Court in Portsmouth. Ordered to a third reading.

Mr. Wallace, of Concord, gave notice that he would move to reconsider the vote by which the bill in amendment of the city charter of Manchester was indefinitely postponed.

On Thursday morning, in the House of Representatives, a stringent bill in relation to the rendition of alleged fugitive slaves was reported by the Judiciary Committee.

The bill provides that any person who shall aid or abet in any rendition or attempted rendition of a person claimed as a slave, shall be punished for the first offense by five years' imprisonment, and for the second by imprisonment for life. The bill passed its first stage by a vote of 134 to 101.

The various petitions for new banks of discount have all been rejected.

[We give the report of the non-rendition bill as we find it: there is propably some exception, as to U. S. Marshals, &c.]

☞ Parts 17 and 18 of "The New American Cyclopedia, a Popular Dictionary of Useful Knowledge," are received by J. H. Foster, agent in this city. E. C. Eastman, of Concord, is general agent for this State. These Numbers close Volume 6th, and bring down the alphabet to Ed.

This entire work is as nearly perfect as it is possible to bring a book of such magnitude, and it is difficult to think upon any thing within the range of human knowledge that has not a place in its pages. Every subject is treated with a degree of fullness that renders it thorough as an instructor. There are no loose ends about it—no haste—but each matter is presented in the most careful manner, and every point of interest given with a minuteness that renders it delightful to study.

☞ The Lowell Market House was damaged by fire to the amount of $5000, on Wednesday evening.—The fire was in the upper stories, used as armories by the four military companies of Lowell. The Mechanic Phalanx lost their muskets, tents, &c. —about $1000. The other companies lost $300 to $500 each. The fire was set by an incendiary in a closet of the attic, filled with the camp equipage of the Phalanx.—Several firemen were injured by the falling of the heavy slates from the roof.

FUGITIVE REMANDED.—*Washington, June* 22.—Judge Merrick, to-day remanded to Hagerstown, Maryland, a colored man who has been residing here twelve years, and who was claimed under the fugitive slave law.

The Court having no power to pass upon the question of his freedom, it must be decided in Maryland. There was a large number of colored persons about the Judge's chamber, who manifested much interest in the progress of the case.

☞ The New York Times of Thursday contains an Address from Kossuth to Hungarians in America, in which, referring to the state of European affairs, he warns his fellow-countrymen that it is not yet time for them to move.

He that takes away reason to make way or revelation, puts out the light of both, and is as if he would persuade a man to put out his eyes the better to receive the remote light of an invisible star by telescope—*Locke.*

Many women prefer the shallowest praise to the deepest affection. Lord Peterborough said to Pope, "I have more than once seen a woman turn from a lover to a flatterer." Ah, my lord, but that was a good many years ago. "*Tempora mutantur, &c.*"

Much smoking kills live men and cures dead swine.

It is less pain to learn in youth than to be ignorant in old age.

Never employ yourself to discover the faults of others—look to your own.

☞ Household Words, everywhere, and all day long—'Lift up; you're on my dress.'

Unthankfulness is the cause of earth's unfruitfulness.

☞ New York city means to spend $3600 in fire-works on the glorious 4th.

☞ The Coroner's inquest into the death of Mrs. Cole, in Sussex county, N. J., has resulted in a verdict of wilful murder against Dr. Wickham and her husband, Solomon Cole. Wickham has not yet been arrested. [This woman was, in her confinement, poisoned by her scoundrel husband and demon doctor, that the former might recover a large sum which he had insured on her life. Of course he will never get the money—but he may get a halter.]

☞ On Wednesday evening, in Brooklyn, Thomas Mackey, a boy six years old killed his brother, aged ten years. The boys were quarrelling about the possession of a Sunday school excursion ticket, when Thomas stepped back, and drawing a penknife, threw it at his brother. The blade penetrated through the ribs, causing death in fifteen minutes.

☞ On the 22d, in the Eastern District of Rhode Island, at an election for Representative to Congress, Christopher Robbins, the American-republican candidate was elected. He received about 3200 votes.—Thomas Davis, the straight republican, and supported by a portion of the democrats, received about 2500 votes.

CRANE'S PATENT

METALLIC BURIAL CASKET.

A newly invented Burial Case, fashioned to accord with the feelings of the bereaved, and yet retaining all the requisites of an appropriate receptacle for the dead. There is no reason why such an article should be made to create, by its appearance, disagreeable sensations. Under such bereavements whatever tends to soften or make less keen the poignancy of our grief, commends itself to our consideration. So much that is repulsive has been discarded in the arrangement and shape of this Case, that its name, the "*Casket Burial Case,*" is an involuntary suggestion.—We, therefore, do not hesitate to aver that there has never been in any thing so entirely chaste, appropriate, and withal, convenient, as this invention.

The Case permits a view of the entire body after it is enclosed, the top being composed of beautiful French plate glass, which is divided into three sections, between two of which is inserted the name-plate. For each of these sections of glass there is an elaborately ornamented cap.

The Subscribers being sole Agents for this vicinity, have always onhand every size of the above, from 2 ft. to 6 ft. 4 inches.

Also, *FISKE'S METALLIC BURIAL CASES*; Walnut, and Imitation Rosewood COFFINS, of superior finish.

LITTELL'S LIVING AGE.

This most valuable periodical commences A NEW VOLUME with the next number (No. 785) making a convenient time for persons to become subscribers. The following extract from an article by Rev. Henry Ward Beecher is but one among a multitude of testimonials to its worth from the highest sources:

"It was a happy thought to select from the wide range of English and American periodicals the best articles in every department, and by bringing them together in a new work to give for a very moderate sum the cream of a hundred different, inaccessible or expensive magazines and papers. But this Mr Littell has done, and done so well as to have deserved and earned for himself the thanks and esteem of all grateful readers. * * * His LIVING AGE is a series of stereoscopic views of the learned and literary doings of the world. It comes every week with a new set of pictures, reflecting every side of the writing world; scientific, philosophical, historic, didactic, critical, statistical, poetic, narrative, stories—in short, everything except stupid goodness and smart immorality."

and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose mere vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.

Put up in quarts and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is flooded with them

TO THE PUBLIC.

I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world.*

UDOLPHO WOLFE.

CHEMICAL TESTIMONY.

D. Jose Luis Casaberm, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate, in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, and of Physics and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M's Director of the Institute of Chemical Investigation, &c., &c.

Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—

Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish grey; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balnium maris, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 30 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.

From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt results from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found on this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Deetjen (of Bremen) a residum after evaporation by steam, a substance almost insipid and very trifling aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior," Messrs. Tracher have furnished me with a very small quantity of a greenish substance, of harsh metalic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.

I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. Morning Chronicle.

☞ George Terry, of Leeds, Eng., who, in 1839, became Grand Master of the Odd Fellows, and Treasurer for fifty Lodges in the Leeds District, and Chairman and Treasurer of the Widows and Orphans, has absconded lately, having become a defaulter to the amount of from twenty to twenty-five thousand dollars. Mr. Terry was not an extravagant man, and possessed a flourishing business; so that the discovery is a matter of great surprise. Some years since he was held in such high esteem that his portrait was engraved at the expense of the order, and now many of these are distributed to police as a guide to his apprehension.

Haytl.—The Haytien Secretary of State has lately reported the public debt to amount to two millions of dollars, in paper, the real value in coin being $149,000. An order had been passed that all payments of duties and taxes must be made one-fourth in foreign coin and three-fourths in the national currency. The financial affairs of the country are in a disordered condition, as usual, but there is an appearance of tranquility among the people. Strangers are dropping in, and Italian teachers of music and professors of other accomplishments are beginning to locate themselves at Port au Prince.

☞ In New York city, Quimbo Appo, the Chinaman sentenced to be hung for murder, has been reprieved for four months on the intercession of leading citizens and merchants. This is as it should be—as Appo, though he killed a woman, did it in self-defence, being surrounded, as he was, with female furies, who were maddened with drink—who were striking at him with various weapons, and who would not let him get out. The verdict ought to have been justifiable homicide, or manslaughter in some low degree—and his punishment ought to be commuted to some term of imprisonment.

Starving Them Out.—There is a good story told of old Meolraj, the native East India General. His followers took from the English a lot of hermetically sealed provisions in tin cases, and not having seen anything of the kind before, he mistook them for canister shot, and fired nothing from his guns for three days, but fresh lobsters, pickled salmon, and other delicacies, supplying the British camp, which he was trying to starve into a surrender, with a shower of the freshest English provisions.

Divine Right of Kings and Popes. The Emperor of Austria has issued a proclamation to his subjects in Tyrol and Zoralberg, calling them to arms to "defend the most righteous cause for which sword was ever drawn"—and confiding to them the task of defending the frontiers against the enemy who has made himself the ally of revolt against the legitimate dominion established by God.

☞ Ezekiel T. Cox of Zanesville, Ohio, U. S. Deputy Marshal, has been excommunicated from the Market Street Baptist Church, in Zanesville, of which he has been a member for twenty years, for being concerned in an official capacity in the recent arrest of a fugitive slave.

☞ The story printed in most of the papers about an immense aerolite which fell near Oswego, N. Y., on Wednesday last, "covering half an acre of land," "rising sixty or eighty feet in height," and "imbedded in the earth as many feet," is reported to be entirely destitute of foundation.

☞ The Pittsfield Eagle says that a youth of seventeen, living in Otis, recently lost his reason from grief at the death of his mother, and committed suicide by shooting himself through the heart. Mother and son were buried in one grave.

☞ In San Francisco they have a society styled the "Dashaways," whose object is to induce hard drinkers to "hold up" for a stated period—six months. The total number of members now is about 400, which, guaged at ten drinks per diem, would consume in six months 728,000 "toddies," costing at one bit each $91,000.

☞ President Buchanan, with the approval of his entire Cabinet, has declined to interpose executive clemency and spare the life of Plumer the pirate, by commuting him to imprisonment for life. But he is reprieved for a fortnight to "prepare to meet his fate."

Poverty is misfortune only when wishes keep the purse-strings. Poverty is the normal condition of man; neither banks, stocks, dividends, houses, or rents were dreamed of in Eden. Adam was happy and never saw a check-book in his life.

CELEBRATED FAMILY MACHINES,

with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYE MACHINE,

PRICE FIFTY DOLLARS.

MACHINES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR!

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

TESTIMONIALS.

Portsmouth, April 12, 1859.

We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.

Frank W. Miller.

Portsmouth, April 12, 1859

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others.

Allen & Paine.

Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."

Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."

Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."

The Liver Invigorator.

PREPERED BY DR SANFORD,

COMPOUNDED ENTIRELY FROM GUMS,

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These Gums remove all morbid or bad matter from the stomach, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a perfect cure. Bilious Attacks are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating, is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents Nightmare.

One dose taken at night, loosens the bowels gently and cures Costiveness.

One dose taken after each meal will cure Dyspepsia.

One dose of two teaspoonfuls will always relieve Sick Headache.

Only one dose immediately relieves Colic.

One dose taken after each meal will effectually cure Bilious Attacks.

One dose taken short time before eating gives vigor to the appetite and makes the food digest well.

Six doses, often repeated, cures Chronic Diarrhœa in its worst form, while Summer & Bowel Complaints yield almost to the first dose.

A few bottles will cure Dropsy by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for Fever and Ague, Chill Fever, and all Fevers of a Bilious type. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural buoyancy, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

New York, Jan. 8, 1858.

Messrs. O. J. Wood & Co.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice with out my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for farther proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JERKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

Livingston, Ala., Feb. 14, 1858.

Prof. Wood—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

Philadelphia, Sept. 9, 1857.

Prof. Wood—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact as bald as a billiard ball, but now plat bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, suffering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the nature and location of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing observation.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and pretended remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 12 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless. Ladies can get up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jl2 dly

AYER'S SARSAPARILLA,
A compound remedy in which we have labored to produce the most efficacious alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is related to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will eradicate their ills must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment more of the worst cases to be found in the following complaints:—
SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIVE AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUMA, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TOOTHACHE, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.
This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can by the aid of this remedy, spare themselves from the encurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with the pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.
Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.
During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly cspised, and made to be synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

DR. J. C. AYER & CO.,
LOWELL, MASS.
PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

Ayer's Cherry Pectoral
Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its wonderful power which has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,
FOR THE CURE OF
Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Fever, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.
They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.
Price, 25 cents per box; five boxes for $1.

Great numbers of Clergymen, Physicians, Statesmen, and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our American Almanac, in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.
Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand Ayer's, and take no other. The sick was the best aid there is for them, and they should have it.
All our remedies are for sale by W. R. Preston, Portsmouth, and by all druggists and merchants in the civilized world. 6m—je14

Oleine Diamond Oil.
GREATEST ILLUMINATOR OF THE AGE.
This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.
It burns in the common oil lamp, with or without a chimney.
The light is far more pleasant than gas, as it is free from the disagreeable flickering—always attending a gas light, and is cheaper. We claim for this Oil:
1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, heavy or portable lamp.
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.
Price $1.25 per gallon.

Morning Chronicle.

Portsmouth, N. H.

MONDAY, JUNE 27, 1859.

MR. DROWN'S FOLLOWERS.

We have read with some interest, a Biography of Elder Benjamin Randall, the founder of the denomination called Free-will Baptists, which biography is published in chapters, in the Morning Star.

In chap. 4, printed in the Morning Star of June 22, it is said that Mr. Randall, who lived at New Castle, when he became a religious man, "found some living Christians in Portsmouth, but they were of a sect not fellowshipped, but despised and persecuted, by that with which he was connected." * *

The great Bishop of souls had another allotment for him, a more glorious course for him to fulfil, than he could have realized as a Sandemanian. Such we suppose these people to have been, although Elder Buzzell, in his Life of Randall mentions them as "Mr. Drown's followers." Within the five years previous to this time, Sandeman had gathered a society in Portsmouth, as he had in Boston and other places, and died early in the following year (April, 1771) at Danbury, Conn. Notwithstanding their spirituality, their strictness of discipline, the excellence of their sentiments and usages in some respects, there was a Divine Spirit and Providence guiding Benjamin Randall to a destiny greatly different from membership in a sect whose more peculiarly distinguishing tenet is said to be expressed in the epitaph on Sandeman's tombstone—"That the bare work of Jesus Christ, without a deed or thought on the part of man, is sufficient to present the chief of sinners spotless before God."

We have the means of correcting some errors in this statements. Elder Buzzell is right, and the new biographer is wrong, as to the living christians in Portsmouth, with whom Mr. Randall associated.

They were not Sandemanians,—for with them and their peculiarities he would hold himself a barbarian to them, and they barbarians to him. Besides we have never heard or seen a suggestion that the Sandemanians here, were ever persecuted.

The "living christians—Mr. Drown's followers," were the Independent church and society, known in later days, and remembered to this day, as Father Walton's Society.

These *were* a persecuted and despised people, they were seceders, (in 1761,) from the North and South Congregational Churches, who formed into a new church, "to be regulated by the Cambridge platform in *discipline;* and in doctrines, by the New England confession of faith."

They were really a most devoted and self-denying band of brethren, "of whom the world was not worthy," with peculiarities enough to provoke a smile, and with earnestness enough in aggressions on wickedness, to create enmity, and provoke persecution.

They were censured by at least one of the churches they left, and were also under some civil disabilities, as a Governor of the province allowed all ministers to solemnize marriage, "except one Drowne."

There need be no hesitation in saying that Mr. Randall found the "living christians" with whom he associated, in the Independent Church, among "Mr. Drowne's followers,—and not among the Sandemanians.

The latter would not have favored Whitefield nor any of his adherents who inculcated his doctrines.

LEGISLATURE.—On Friday, June 24, in the House, the stringent Personal Liberty Bill was indefinitely postponed, by a vote of 277 to 14. It was a draft furnished by Parker Pillsbury.

The proposition to dispense with the Board of School Commissioners, was defeated.

A resolution passed the House, appropriating $10,000 for the shop at the State Prison. An appropriation of $6000 was also passed for the House of Reformation.

The bill amending the charter of Manchester was passed in the House, 170 to 119.

That to divide the town of Gilmanton passed, 173 to 99.

☞ The Maine State Conference of Congregational Churches, at their late meeting in Portland, took decided action on the American Tract Society, thus:

Whereas, The American Tract Society of New York, having heretofore failed to make its influence felt in behalf of the oppressed in our land, now hesitates, as we understand its position and policy, to exert its influence against even that most wicked commerce, the slave trade,

Resolved, That we regard the recent course and present attitude of that Society in this matter with deep disapprobation and sorrow.

Resolved, that the present position on this subject of the American Tract Society, Boston, commands our hearty approval, and that we bespeak for it an earnest co-operation.

TRUE PIETY.—The piety which is faithful in that which is least, is really a more difficult piety than that which triumphs and glares on high occasions. It requires less piety to be a martyr for Christ, than it does to look upon the success of a rival without envy, or even to maintain a perfect and guiltless integrity in the common transactions of life.—*Bushnell.*

BOSTON GYMNASIUM.—Prof. Stewart is about to remove his gymnasium from its present location over the market in Boylston street, to the fine building lately occupied as the Post Office, on the corner of Summer and Chauncy streets. It is pleasing to see that physical training is coming more and more into practice, and when we consider the vast need there exists for such cultivation, surely the gymnasium should meet with every encouragement.

☞ Andy Gaffny, of McGregor, Iowa, can lift twelve hundred pounds, without any straps, machinery or other advantages.

The engineer on one of the merchandise trains running on the Providence and Worcester Railroad, frequently amuses himself by taking under each arm, from the floor, a barrel of flour, and thus ballasted, walks off very comfortably for exercise.

A POLITICAL PROPHECY.—The New York correspondent of the Saturday Evening Gazette, in his last letter to that paper, makes the following prophecy of the result of the next Presidential election:

"William H. Seward will be nominated and elected to the next Presidency, if Stephen A. Douglas is not nominated at the Charleston Convention. Conceding Pennsylvania is sure for the republican candidate, New York will be the battle ground in 1860; and Douglas is the only man that can beat Seward. Mr. Douglas is at present in Chicago, and will arrive here about the 24th inst."

FATAL ACCIDENT.—On Thursday evening the nine o'clock horse car from Boston to Bright ran over a man lying upon the track, who was instantly killed. The man was intoxicated, and proves to be an Irishman named Michael Conrey, of Watertown. Deceased was formerly employed as gate tender and switchman on the Watertown Branch Railroad, and leaves a wife and six children in destitute circumstances. He had visited some acquaintances in Brighton, and imbibed freely of liquor. A jury of inquest returned a verdict in accordance with the facts, and exonerating the corporation.

☞ What the world calls avarice is oftentimes no more than compulsory and commendable economy; and even a wilful penuriousness is better than a wasteful extravagance. A just man, being reproached with parsimony, said that he would rather enrich his enemies after his death, than borrow of his friends in his life-time.

☞ John Grant, of Dover, N. H., and Joseph A. Young of Rochester, N. H., both smart and active appearing young men, the Herald says, who had been sojourning in Newburyport but a few days, got drunk on Thursday evening, and assaulted a man in the street, and were each fined $3 and costs, taxed at $9 78, or County House for two months; and they stand committed in execution of sentence. A "good time," that.

☞ In South Reading, Mass., on Thursday, Stephen Sweetser, proprietor of the Quannapowitt House, who has been complained of between thirty and forty times, was again on trial, on the charge of being a common seller. He was stoutly defended, but the evidence placed the case beyond a doubt. He was fined and ordered to the House of Correction on each complaint.

LAGER BEER ADULTERATIONS.—Hunt's Merchant's Magazine enumerates no less than thirty-eight substances which are employed in giving potency, flavor, consistence, and other desirable qualities to this detestible form of grog. Among them are chalk, marble dust, opium, tobacco, henbane, oil of vitrol, coperas, alum, strychnine, and other deadly drugs.

☞ The Emperor of Austria is one of the best linguists in the empire. It is said that he speaks thirteen languages perfectly, and that he is in the Imperial Council the only man who understands all the languages of his vast domains.

FATAL ACCIDENT.—At Quincy, Mass., Alexis W. More, while working in a slate quarry on the estate of Mr. Josiah Quincy, and in the act of removing stone from the bottom of the quarry, a large mass of the slate fell upon him, mangling his body, and causing instant death. Mr. Moore was about 45 years of age, a native of Canterburry, N. H. He leaves a wife and three children.

☞ The Vicksburg Sun of the 15th, referring to the fall of the Mississippi, says:—Dry land is now visible on the Louisiana side, and although there has been much damage done to the buildings and drowning of stock, yet there have been many farms made rich by the deposits, and in some places the land is nearly a foot higher than before the overflow.

☞ The Machias, Me., Union of the 21st says, "the grass crop never looked more prosperous at the present time of the year than now. Like good accounts of this crop reach us from all parts of New England."

A baby was taken to church to be baptized, and on following Sunday, his little brother asked, if it was to be done again.

"Why no!" said his mother; "don't you know, my son, people are not baptized twice?"

"What!" returned the young reasoner, with the utmost astonishment in his earnest face, "not if it *don't take* the first time?"

A lady asked a little two-year old, "Who gives you your daily bread?" "Dod!" replied the child, "but uncle Peter puts the sugar on."

MARRIED.

In this city, June 22d, by Rev. W. A. Hitchcock, Mr. Andrew R. Bayne to Miss Sarah Jane Clash, both of this city.

In Amesbury, Mr. Josiah L. Pike to Miss Harriet M. Burnham, both of Newburyport.

DIED.

WINSHIP'S
Patent Self-Ventilating Refrigerator.

It is now conceded by physicians that provisions are rendered very unwholesome by being confined in a Refrigerator in which the air is not constantly and effectually changed; and that the health of many families has suffered in consequence. The musty and sour smell common to most ice chests is a sure indication of this poisonous and offensive tendency.

This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Silliman has introduced a description of it in his new work on natural philosophy as the best illustration ever practically tested of perfect ventilation.

All sizes of these celebrated Refrigerators for sale at the Stove and Furnishing Warehouse of the subscriber, No. 46 Market street.

Also, an assortment of Ice Chests.

CORDIAL OF DANDELION,
SPIKENARD & BONESET,

A remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and Pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.

Hundreds of testimonials might be added, proving the many cures by this pleasant and effectual medicine, especially of people advanced in life, whose debilitated constitutions have been greatly recruited by it. A trial of it is warranted to well pay the aged and debilitated. Price 75 cents.

[From Mrs. Ira Burnham, Exeter, N. H.]

I have suffered many years from the liver and heart complaint. By these distressing diseases I was reduced so low, some two years since, that I could not sit up more than ten or fifteen minutes at a time, when I began to take Dr. Swett's Cordial of Dandelion, Spikenard and Boneset, which has so fully restored my health that I now daily labor and attend to the business of my large boarding house. ELIZABETH BURNHAM.

Exeter, June 1, 1859.

This testimony of my wife is correct.

IRA BURNHAM.

[From Mrs. Ebenezer Blazo.]

GREENLAND, Nov. 20, 1858.

DR. SWETT—Dear Sir:—The distressing disease called the heart complaint, which has so long afflicted me, and which has baffled the skill of all my former physicians, has been fully cured by the two bottles of your Cordial which I had of you last spring. Yours with respect,

SALLY BLAZO.

This unequalled medicine, together with others carefully prepared by Dr. SIMEON SWETT, from innocent but effectual vegetables, are for sale by him at No. 12 CABOT ST., Portsmouth, N. H.

Nature is the Great Physician.

This is now admitted by the medical profession, as a fundamental principle in medical science. It is wisely provided by the human economy, that whenever anything is wrong in the physical system, the natural forces of the body are brought to bear to expel the disease. The great aim, therefore, is to strengthen the natural powers. This has been kept in view by the skillful compounders of Dr. J. HOSTETTER'S BITTERS, which operate to give fresh vitality to all the organs of the body. The effects of this medicine upon the stomach, the liver and the kidneys, are prompt and decisive. The patient who is wise enough to quit drugging, and try the BITTERS, soon feels as he if he had taken a new lease of life, and as he continues the use of the article he is overjoyed to find the stream of health coursing through his frame. Let all from whose cheek the bloom has departed, give Dr. J. Hostetter's Celebrated Bitters a trial.

Sold by druggists and dealers generally, everywhere.

SPECIAL NOTICES.

DIABETES.—By this term is meant that mysterious affection of the kidneys, originating in perversion of the nutritive powers, in which strength is gradually drained away by the excessive secretion of urine. Remedies are usually merely palliative, but the PERUVIAN SYRUP, by its iron element, introduces a vitalizing influence into the most secret chambers of nature, invigorates and presides over the composition of the vital fluids.

SCROFULA CURED IN TWENTY DAYS.—William Miles, aged 37, had been afflicted with Scrofula for 11 years. On the 1st of August, by the advice of Dr. William Root, of Marietta, O., he commenced the use of RADWAY'S REGULATING RESOLVENT. In 6 hours he felt a change for the better; in 12 hours small pustules were seen covering the whole surface of the body; in 24 hours he was covered with discharging sores. He still took the Resolvent freely, but finding his bowels very costive, he took six of RADWAY'S REGULATORS. They operated powerfully—yet pleasantly. He afterward took one Regulator every night. The sores caused him some irritation, which he allayed by bathing them with the Resolvent. The fourth day the sores all healed. He continued the Resolvent and the Regulators for 20 days. Since the last day, which was on the night of the 20th day, he has not experienced a returning symptoms or uneasiness. His blood is pure, skin clear, and bowels regular.

R. R. R. is sold by Druggists everywhere.

Dr. Wistar's Balsam of Wild Cherry.

The editor of the "Flag of our Union" says, in his paper of July 17, 1858:—"The memory of Dr. Wistar is embalmed in the hearts of thousands who have experienced entire cure from *Coughs, Colds, Consumption and Pulmonary Disease* generally by the use of his *Balsam*. The invalid need fear to give this preparation a careful trial, as we speak from experience. More than ten years since the editor of this paper tested its excellence by individual trial in his family, with the most astonishing result, as a curative for pulmonary disease."

CASES OF CONSUMPTION AND WHOOPING COUGH CURED.

The following from a highly respectable gentleman, speaks for itself:

KEYPORT, N. J., May 20, 1858.

S. W FOWLE & CO.,—*Gentlemen*:—This certifies that I was for many years afflicted with a cough of the lungs, until I became so weak, that I was with difficulty I could walk. My cough during this was very severe, causing me frequently to raise great quantities of blood, attended with profuse night sweats.

After using various remedies to no purpose I was advised to try *Wistar's Balsam of Wild Cherry*. I did so, and the result being that I feel now entirely restored to perfect health and strength.

I would also mention that this Balsam cured little girl of mine of a severe attack of Whooping Cough, when her life was given over by the physician and all other remedies had failed.

TO THE CITIZENS OF NEW HAMPSHIRE

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent medical purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and is void of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, LOW SPIRITS, RHEUMATISM, GOUT, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., while the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and climate.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'—NORWOYAN or IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. HORSE FOR SALE.

An excellent Family or Work Horse, dark bay color, weighing 1,000 lbs., will be sold at a reasonable price, on applying at the Chronicle Office.

LOCAL.

FOURTH OF JULY.—The Programme thus far decided on by the Committee of Arrangements, is:

The bells will be rung and a national salute (33 guns) fired at sunrise, meridian, and sunset. The Portsmouth Cornet Band will play on Market Square in the evening, from 7 to 11 o'clock. Exhibition of Fireworks, also on the Square, commencing about 9 o'clock.

Messrs. J. Wesley Moses, Chas. W. Marden and T. J. Sheldon are appointed as a committee to receive subscriptions to increase the display of Fireworks—the extent of which will depend on the public spirit and liberality of citizens.

Messrs. C. W. Marden and H. Webster will receive proposals for firing the salutes, (99 full 2-lb. cartridges, each salute to occupy half an hour,) till Tuesday.

☞ The corner lot of land opposite the new Custom House in this city, measuring 64 feet on State street and 64 on Pleasant street—belonging to Messrs. Cotton and Wendell—was sold at auction on Wednesday by J. B. Adams, Esq., for $2000, to Mr. James Moses, 3d.

☞ Between Portsmouth and Stratham Diman's Strawberry Picnic and the city Committee of Arrangements—we guess the people will manage to get over the Fourth passably, after all. Read Mr. Diman's advertisement.

☞ The Portsmouth Cornet Band, we learn, are to visit Diman's Highland Cottage, Stratham, on Tuesday evening, by invitation from the proprietor—and we hope they will give our citizens a "touch of *their* quality" before they go, as they also test the quality of Diman's strawberries, at his picturesque little Cottage.

N. H. CENTRAL RAILROAD.—A bond was yesterday executed between Messrs. Corning and Gilmore on one side, and Allen Sawyer, Daniel Page, and other citizens of Weare, on the other side, by the conditions of which it is provided that the rails of the road shall in no event be taken up before the first of July, 1860. An agreement is further made that if the citizens of Weare and other towns adjacent will pay Mr. Corning $70,000, the road shall become their property.—*Manchester American.*

The Legislature will not finally adjourn until Monday next.

NEW YORK, June 25.—In the race on the Eclipse Course, yesterday, between Tar River, and Bill Cheatham, two-mile heats, for $2000, the latter horse was winner. Time 3:45, 3:46 1-4.

THE WALKING FEAT.—*Buffalo, June* 24.—M. Blondin has so far perfected his arrangements for walking across the Niagara River on a tight-rope, that he has designated Thursday, 30th inst., between 4 and 5 P. M. as the time for attempting the feat. The cable is already stretched across the river, and is now being secured in position.

☞ The New York city Sunday School Union is likely to be divided or shaken, by the secession of the Baptists, or a part of them, who consider themselves the sufferers as a denomination, by silence or compromise on baptism, communion, and kindred questions.

THE WEATHER.

BY O. W. HOLMES.

It's far in June—it's late in June—
The months of leaves and roses—
And pleasant sights should meet the eyes,
And pleasant smells the noses;
They say that time is on the wing,
And on the Autumn gaining,
But who would know it when it is
Perpetually raining.

I got my summer pantaloons
A month ago o' Monday,
And I have never had a chance
To sport 'em even one day;
It's time for all the pleasant things,
For walking, riding, training,
But there is nothing in the world,
But raining, raining, raining.

There's Jane has staid at home until
She's white as an albino,
And simple Sue is in a fret
To wear her Navarino;*
"The wash" is soaking in the tub,
The cambric muslin's staining,
And human nature's in the dumps,
With raining, raining, raining.

The weathercock has rusted East,
The blue sky is forgotten,
The earth's a saturated sponge,
And vegetation's rotten.
I hate to see the "darkest side,"
I hate to be complaining,
But hang me if my temper stands
This raining, raining, raining.

and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.

Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is flooded with them

TO THE PUBLIC.

I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world.*

UDOLPHO WOLFE.

CHEMICAL TESTIMONY.

D. Jose Luis Casaseca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, applied to the Mint, of the Royal Conservatorio of Madrid, and of Physics and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M's Director of the Institute of Chemical Investigation, &c., &c.

Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—

Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balnium maria, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 90 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.

From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterward, produces aromatic sensations in the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter and aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice of substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Deeljen (of Bremen), a residuum after evaporation by steam, a substance almost insipid and very trifingly aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior." Messrs. Tracner have furnished me with a very small quantity of a greenish substance, of harsh metalic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.

I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. JOSE LUIS CASASECA.

CRANE'S PATENT

METALLIC BURIAL CASKET.

A newly invented Burial Case, fashioned to accord with the feelings of the bereaved, and yet retaining all the requisites of an appropriate receptacle for the dead. There is no reason why such an article should be made to create, by its appearance, disagreeable sensations. Under such bereavements whatever tends to soften or make less keen the poignancy of our grief, commends itself to our consideration. So much that is repulsive has been discarded in the arrangement and SHAPE of this Case, that its name, the "*Casket Burial Case,*" is an involuntary suggestion.—We, therefore, do not hesitate to aver that there has never been in use anything so entirely chaste, appropriate, and withal, convenient, as this invention.

The Case permits a view of the entire body after it is enclosed, the top being composed of beautiful French plate glass, which is divided into three sections, between two of which is inserted the name-plate. For each of these sections of glass there is an elaborately ornamented cap.

The Subscribers being sole Agents for this vicinity, have always onhand every size of the above, from 2 ft. to 6 ft. 4 inches.

Also, *FISKE'S METALLIC BURIAL CASES*; Walnut, and Imitation Rosewood COFFINS, of superior finish.

LITTELL'S LIVING AGE.

This most valuable periodical commences A NEW VOLUME with the next number (No. 788) making a convenient time for persons to become subscribers. The following extract from an article by Rev. Henry Ward Beecher is but one among a multitude of testimonials to its worth from the highest sources:

"It was a happy thought to select from the wide range of the English and American periodicals the best articles in every department, and by bringing them together in a new work to give for a very moderate sum the cream of a hundred different, inaccessible or expensive magazines and papers. But this Mr Littell has done, and done so well as to have deserved and earned for himself the thanks and esteem of all grateful readers. * * * His LIVING AGE is a series of stereoscopic views of the learned and literary doings of the world. It comes every week with a new set of pictures, reflecting every side of the writing world; scientific, philosophical, historical, didactic, critical, statistical, poetic, narrative, stories—in short, everything except stupid goodness and smart immorality."

Morning Chronicle.

REVIVAL IN IRELAND.—A correspondent of the New York Courier, writing from Dublin, Ireland, May 31, gives the following account of a religious excitement or revival in a portion of the island:

In the centre of county Antrim a movement is in progress which puzzles some and delights others. It began in the parish of Connor, extended to Ahoghill, thence to Ballymena, and now it pervades the whole central part of the county. In many respects it resembles what we read of as taking place in many parts of America, under the name of "revivals." Half a dozen persons are "struck," during the time of public worship; cry out under a deeply distressing conviction of sin; are prostrated in body for a time; are restored and enjoy "peace." This, often without anything unusually exciting in the sermon; often to the interruption of the public worship; and this, in several Protestant denominations. But, without this physical affection, and as the result of prayer meetings held by the laity, the feeling of distress on account of sin, followed by crying for mercy, and then a sense of high spiritual enjoyment, pervades thousands. The churches cannot contain the crowds that flock to worship;—prayer meetings are held in the streets and fields; and a change has come over the morals of the whole county. Sabbath-profanation, card playing, drunkenness, and general irreligion, have given place to family worship, crowded churches, sobriety, and religious decorum.

The medical men are at fault, as to the cause of the physical convulsions,—probably, not taking a right estimate of the effect of mighty mental feeling, however produced, and in reference to whatever objects, upon certain physical temperaments.—and the Roman Catholic priests ascribe it to Satanic agency, as all of their communion who have mingled in these assemblages, and come under this influence, have ceased to attend mass,—but the Protestant clergy of all persuasions, rejoice in it, as a signal work of the spirit of God.

A NARROW ESCAPE.—The editor of the Rochester Union, Isaac Butts, Esq., has sent to his paper a memorandum, or "landsman's log," of his trip out to Europe in the steamer Persia. We copy the following:

May 29.—Wind and sea same as yesterday. Fog still thick and impenetrable to the eye. At 4 P. M. met steamer America, which passed us at a distance of 100 to 200 feet. It was a narrow escape, as she was not seen till her bow lapped upon us. The men on watch shouted "iceberg! helm hard-a-port!" But before the ship's course could be changed, the America had disappeared in the fog.

BEAUMARCHAIS was the son of a watchmaker. The popularity he enjoyed at court on account of wit and other recommendations, excited the envy of the young nobles about the sovereign; and one of them volunteered to put him out of countenance. Addressing him before the whole court, he said, "Ah! M. Beaumarchais, I am charmed to see you; my watch has been for some time out of order, I beg you to look at it." "Certainly; but I must tell you beforehand, that I am the most awkward person about watches in the world." "No matter; I beg you to look at it—I insist." Beaumarchais took the watch, most magnificently set with diamonds and enamel, raised it to his ear, and let it drop on the marble floor—it was of course totally destroyed. "You see, my lord," said the wit coolly, "I knew my awkwardness better than you your man."

DESTRUCTION OF A TALL CHIMNEY. On Saturday afternoon the tall chimney, foot of Division Avenue, E. D., was successfully demolished by Mr. E. G. Bond, contractor. The northerly part of the foundation was taken away and replaced by wooden piles, and when all was ready a fire was built under the chimney, burning out the props, and causing it to fall in forty-six minutes from the time the fire was lighted. It was 12 feet square at the base, 185 feet high, and 6 feet square at the top. The fall was witnessed by a large concourse of people, but no accident occurred. It was estimated that there was one hundred and twenty thousand bricks in the chimney.—*New York Tribune.*

LITTLE CHILDREN.—One of the papers says, a woman said not long ago, that she never succeeded in what she undertook unless she had a baby to care for. Good, good. That is a woman who understands things rightly. Some think they can do nothing if they have children to provide for. What a mistake! Why, children, are the inspiration and pledges of success; the lights of this world, that without them would be dark and gloomy indeed. Welcome them to this stage of being. Welcome their bright eyes, sunny smiles and trusting souls. Welcome, welcome—a thousand welcomes. *News Letter.*

WASHINGTON, June 23.—The opinion among gentlemen connected with the diplomatic corps is, that although the governments of Europe not engaged in the present hostilities are desirous of, and hope for peace, the complications are so great that there is almost an impossibility of preventing a general war. In such an event there is no doubt but that Russia will array herself with France.

☞ Lawrence Murphy, a young carpenter, fell from the steeple of St. Joseph's Church, last Monday, one hundred feet, to the ground, and was of course insensible; he breathed 15 minutes, and expired.

☞ Information has been received of the loss, near Ceylon, April 14th, of a French ship, supposed to be the La Foi, whereby 400 natives of Pondicherry lost their lives.

Few men are driven to desperation, without having had themselves a hand in the driving.

THE

GROVER & BAKER

SEWING MACHINE COMPANY,

No. 18 Summer Street, Boston,

Having greatly increased their facilities for manufacturing their

CELEBRATED FAMILY MACHINES,

with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYE MACHINE,

PRICE FIFTY DOLLARS.

MACHINES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR!

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.

FRANK W. MILLER.

PORTSMOUTH, April 12, 1859

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others.

ALLEN & FAINE.

Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it at every way reliable for the purpose for which it is designed, Family Sewing."

Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."

Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."

The Liver Invigorator.
PREPERED BY DR SANFORD.
COMPOUNDED FROM GUMS,
Is one of the best PURGATIVE and LIVER MEDICINES now before the public.
These vegetable pills are free from all morbid or bad matter from the system, supplying in their place a healthy flow of bile. Invigorating the stomach, causing food to digest well, strengthening the system, giving tone and health to the whole machinery, removing the cause of dissipation, and feeling a radical cure.
BILIOUS ATTACKS are cured, and those that is better, prevented by the occasional use of the Liver Invigorator.
One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.
Only one dose taken before retiring, prevents Nightmare.
Only one dose taken at night, loosens the bowels gently and cures Costiveness.
One dose taken after each meal will cure DYSPEPSIA.
One dose of two teaspoonfuls will always relieve SICK HEADACHE.
Only one dose immediately relieves COLIC.
One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.
Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.
One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.
One bottle taken a short time before eating gives vigor to the appetite and makes the food digest well.
One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.
A few bottles will cure DROPSY by exciting the absorbents.
We take pleasure in recommending this medicine as a preventive for FEVER AND AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE, it operates with certainty, and thousands are willing to testify to its wonderful virtues.

THE ONLY ARTICLE
UNRIVALLED IN THE MARKET,
WITH IMMENSE
HOME AND EUROPEAN DEMAND.
The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves and thus cures all nervous headaches, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:
NEW YORK, Jan. 8, 1858.
MESSRS. O. J. WOOD & CO.,
Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.
The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for full and satisfactory proof, as I am out of the N. Y. Wire Railing establishment every day.
My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking, am, yours respectfully, HENRY JENKINS.
Cor. Columbia and Carroll Sts., Brooklyn.
LIVINGSTON, Ala., Feb. 14, 1858.
PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.
You can publish this if you think proper.
Yours, &c.
PHILADELPHIA, Sept. 9, 1857.
PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,
D. R. THOMAS, M. D.,
No. 464 Vine Street.
The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

DR. J. B. HUGHES,
Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, and to still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who have the money, provided the true description of the disease be sent by letter and directed as above.
Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.
DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.
Patients treated by letter by addressing Dr. Hughes, post paid, and enclosing the sum all over the country, carefully concealed from scrutinizing friends.
Be particular in finding Dr. Hughes. Do not be deceived by the right name, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.
This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.
The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.
All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.
These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.
P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 d1y

Some years ago in the New Hampshire Legislature, a new member somewhat noted for "pumping thunder," made a speech—it was upon a bill for taxing bank dividends—in which he attempted to be very pathetic in favor of widows who owned bank stock. "Yes, Mr. Speaker," he exclaimed with indignant energy, "the gentleman from Dover who introduced this bill, deaf to the cries of her orphan children, would strip the widow; but before he could conclude the sentence he was interrupted by a laugh. Astonished, but not undaunted, he exclaimed with a profound feeling.

"Gentlemen, it is not a subject of decision. I appeal to you, in all candor, to say if it is not stripping. Put on this tax and you will drive the widow to her last *shift!*" Shouts of laughter here petrified him to his place, and he spoke no more during the session.

☞ The following resolution adopted by the Democracy of South Berwick, after all is said and done, and after all the waste of ink and paper upon the subject, is perfectly plain, simple, comprehensive, and refreshingly carries one back to the good old times when the motto, "principles and not men," had a soul and spirit as well as a form.—We commend it to all our readers as an epitome of all that may be said upon the subject:

Resolved, That slavery is a municipal institution, and cannot exist except by positive law, over which those alone have control where slavery exists, giving to the people of the Territories the perfect right to adopt or exclude slavery, as they themselves shall determine.—*Bath Times.*

This is rebellion against Judge Taney, and against President Buchanan, who said, just after the Taney dictum, Kansas is as much a slave State as Carolina.

A LOVING SPOUSE.—A man in New York was recently arrested and brought before a justice for keeping a dog unmuzzled in violation of an ordinance. The magistrate imposed a fine of ten dollars, which was promptly paid by his wife, who informed the justice that she did this to save the dog, but hoped it would not interfere with sending her husband to jail, but this passing fancy was not humored, the law having received its due.

☞ An infant son of Mr. E. C. Downs of Concord, N. H., 18 months old, recently died in consequence of a mistake made by its nurse, who gave the child what she supposed to be a half tea-spoonful of paregoric, but which proved to be laudanum.

MISTAKE IN EDUCATION.—One great mistake in our present school system consists in the number and variety of studies required of the children. A few things thoroughly learned and fixed for life, are much more useful than mass of facts hastily committed to memory, never properly digested and soon so far forgotten as to leave only indistinct impressions.

☞ The Great Republic Monthly for July is filled with a good variety of matter of interest to all classes of readers. It is one of the best magazines which reach our table.

☞ Mr. T. C. Pratt was ordained pastor of the Congregational Church at Hampstead, on Tuesday of last week. Sermon by J. P. Terry, of South Weymouth, Mass.

METHUEN.—We are informed than an infant child of a Mr. Balch was found hanging by the neck between the foot board and the bed rail, having slipped out of the bed unobserved, and remained there until life was extinct.—*Lawrence Courier.*

"I *enjoy* very *poor health*," is a very frequent remark—which strikes the mind very much as a solecism. "Father Ballou," when inquired of by a lady if his *health was good*, replied "yes, very, what little health I have."

A young Tennessee girl recently married a stranger, alleging that she should have plenty of time to become acquainted with him afterwards.

☞ Mr. Bonner, of the New York Ledger, has purchased the trotting horse Lantern and mate for $10,000.

☞ A large quantity of liquors has been seized and condemned in Waterville, Me.

LOTTERIES.
THE LOTTERIES OF
WOOD, EDDY & CO.,
Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of
WOOD, EDDY & CO.,
are authorized by the Legislature of either State.
A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga. All orders received being filled in the drawing next to take place after same comes to hand.
Whole tickets are $10; halves, $5; and quarters, $2.50.
No ticket sent unless the money accompanies the order. Prizes vary from $20 to $50,000.
Every prize is drawn, and the result of drawing forwarded to all purchasers.
☞ A circular showing the plan of receiving it. All communications strictly confidential.

BACK AND CENTRE
SUSPENSION PANTALOONS.
Patented June 29, 1858.
J. E. HAM & CO.,
Have purchased the right to manufacture the above named Pantaloons. The advantages of this invention over the usual method of making Pants are: they may be made snug to the person, and still be as easy as though they were uncommonly large. Pants that are easy to stand in are easy to sit or stoop in.
Also for sale, GREELEY'S BRACE SUSPENDER—a superior Suspender for Skirts or Pants, and far superior to any other BRACE in the market. may25

Oleine Diamond Oil.
GREATEST ILLUMINATOR OF THE AGE.
This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.
It burns in the common oil lamp, with or without a chimney.
The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this Oil:
1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, hence it is portable.
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.
Price $1.25 per gallon.
For sale, wholesale and retail, at
96 Market Street, Portsmouth,
where the public are invited to call and examine for themselves.

TUESDAY, JUNE 28, 1859.

PIKE'S PEAK.

Horace Greeley and two other gentlemen who went out with him, have just made a long report, which begins with favorable statements from 13 different firms or individuals, all of whom have got some gold, and a few of them considerable sums in a *short time*,—all at or near Clear Creek. They then say:

Forty or fifty sluices are not yet in operation, but the owners inform us that their "prospecting" shows from 10 cents to $5 to the pan. Many persons who have come here without provisions or money, are compelled to work as laborers at from $1 to $3 per day and board, until they can procure the means of sustenance for the time necessary to prospecting, building sluices, &c. Others, not finding gold the third day, or disliking the work necessary to obtaining it, leave the mines in disgust, after a very short trial, declaring there is no gold here in paying quantities. It should be remembered that the discoveries made thus far are the result of but *five weeks'* labor.

In nearly every instance the gold is estimated by the miners as worth $20 per ounce, which, for gold collected by quicksilver, is is certainly a high valuation, though this is undoubtedly of very great purity.

It should be borne in mind that, while the miners there now labor under many disadvantages, which must disappear with the growth of their experience and the improvement of their now rude machinery, they at the same time enjoy advantages which cannot be retained indefinitely, nor rendered universal. They are all working near a small mountain stream, which affords them an excellent supply of water for washing at a very cheap rate; and though such streams are very common here, the leads stretch over rugged hills and considerable mountains, down which the vein stone must be carried to water, at a serious cost. It does not seem probable that the thousands of claims already made or being made on these leads can be worked so profitably in the average as those already in operation. We hear already of many who have worked their claims for days (by panning) without having 'raised the color,' as the pirase is—that is, without having found any gold whatever. We presume thousands are destined to encounter lasting and utter disappointment, quartz veins which bear no gold being a prominent feature of the geology of all this region.

We cannot conclude this statement without protesting most earnestly against a renewal of the infatuation which impelled thousands to rush to this region a month or two since, only to turn back before reaching it, or to hurry away immediately after, more hastily than they came. Gold mining is a business which eminently requires of its votaries capital, experience, energy, endurance, and in which the highest qualities do not always command success. There may be hunhreds of ravines in these mountains as rich in gold as that in which we write, and there probably are many; but, up to this honr, we do not know that any have been discovered. There are said to be five thousand people already in this ravine, and hundreds more pouring into it daily. Tens of thousands more have been passed by us on our rapid journey to this place, or heard of as on their way hither by other routes. For all these nearly every pound of provisions and supplies of every kind must be hauled by teams from the Missouri river, some 700 miles distant, over roads that are mere trails, crossing countless unbridged water courses, always steep banked and often miry, and at times so swollen by rains as to be utterly impasable by the wagons.

Part of this distance is a desert, yielding grass, wood and water only at intervals of several miles, and then very scantily. To attempt to cross this desert on foot is madness, suicide, murder. To cross it with teams in midsummer, when the water courses are mainly dry, and the grass eaten up, is possible only to those who know just where to look for grass and water, and where water must be carried along to preserve life.—A few months hence—probably by the middle of October—this whole Alpine region will be snowed under and frozen up, so as to put a stop the working of sluices if not to mining altogether. There then, for a period of at least six months, will be neither employment, food, nor shelter within five hundred miles for the thousands pressing hither under the delusion that gold may be picked up here like pebbles on the seashore, and that when they arrive here, even though without provisions or money, their fortunes are made. Great disappointment, great suffering are inevitable; few can escape the latter who arrive at Denver city after September, without ample means to support them in a very dear country, at least through a long winter.

We charge those who manage the telegraph not to diffuse a part of our statement, without giving substantially the whole; and we beg the press generally to unite with us in warning the whole people against another rush to these gold mines, as ill-advised as that of last spring—a rush sure to be followed like that by a stampede, but one far more destructive of property and life.

A careful reading of the whole document, from which the above extracts are taken, shows:

1. That *some* gold has really been found, that half a dozen men have made a few hundred dollars by washing,—and a few hundred more by selling their claims.

2. That a number of common miners and washers, are making decent day wages! but that the great majority are not.

4. That much suffering, toil, and privation are experienced,—and that more must be expected.

5 and last. That gold mining on the whole, is very poor business, poorer than farming or fishing.

EUROPEAN NEWS.—The steamer Bremen, at New York, from Southampton 14th inst., brings three days later dates from Europe.

The war news is not exciting, but is important and full of interest. The Austrians continue to retreat and are making a series of evacuations of some of their principal and most important places. Garibaldi continues his success. The Austrian prisoners have been taken to France. It is rumored that Napoleon will soon return to Paris, giving up his present command of the Italian army, and that Francis Joseph will take command of the Austrian forces, himself. The enthusiasm continues in Italy. Rome has been illuminated. Gen. Espinasse's remains have been taken to France. The French were in pursuit of the Austrians, and a portion of both armies had crossed the river Adda.

The English ministry had resigned. Lord Palmerston is reinstated, and is again Premier. Lord John Russell is Foreign Secretary. It is thought this will fix, beyond a doubt, the position of England upon the Italian war question, as both Palmerston and Russell are avowed friends of the Italian cause.

Both the movements at the seat of war, and the change of government in Great Britain, have had good effects upon the markets and finance.

The Austrians have evacuated Placenza, Pavia, Lodi, Boloqua, and Ancona. The citadel and fortifications of Placenza were first blown up.

Prince Metternich is dead.

☞ The "Moses Taylor" at New York, from Aspinwall 19th inst., brings California dates of the 6th. The news is not very important. She brings 600 passengers and two millions in specie.

Valparaiso dates are to May 28th. The revolution in Chili was perfectly suppressed. Frequent outrages are reported by bands of robbers throughout the country. The leaders of the revolution are at the north. Senor Gallo was at Lima. Don Bartolome Riobo had been sentenced to death, and two others to ten years' banishment.

The British bark Edward Herbert had received considerable damage at Valparaiso by fire. Nine persons were wounded by the explosion of gunpowder, and part of the cargo destroyed.

The bark Admiral had reached Valparaiso in 305 days from Havre.

☞ Millions upon millions of counterfeit paper money is now in circulation, and is constantly on the increase, notwithstanding the strenuous efforts that have been made to keep it in check by written description of genuine and counterfeit paper money, as set forth in the Bank Note Detectors of the country. On our third page of to-day we refer our readers to the prospectus of Hewitt's Infallible Detector of all classes of fraudulent money, commonly called counterfeit money, containing fac-similes of the genuine paper money now in circulation.—The first number of this publication, now in hand, bears evidence that it will prove, what its name implies, an infallible detector of fraudulent bank notes, and should be subscribed to by every business man who is in receipt of paper money, as his only safeguard against the imposition daily practised, of passing counterfeit money.

☞ The English ship Indian Queen, Brewer, from Melbourne for Liverpool, struck an iceberg April 1st. Capt. B., 1st mate, thirteen men and two passengers, got into the life boat; they came alongside a quarter of an hour afterwards, and finding the ship making no water, attempted to get on board, but losing their oars, went too far off to catch a rope, drifted off, and were never seen after. The ship, in a dismantled condition, but all hands on board well, reached Valparaiso May 10.

☞ John Lucy, before the Newburyport Police Court, for a violation of the Dog law, was fined $10 and costs, amounting to $16.44. Keepers of unlicensed curs will please make a note of this.

☞ Mr. Daniel Dodge, a carpenter about forty years of age, a resident of Salem, fell, Saturday afternoon, from the roof of a house where he was engaged, and was so severely injured that there are no hopes of his recovery.

☞ Albert J. Lansing, Albany, has been detected forging notes to the amount of $1300. He fled West.

☞ James Wheelan, a lad of ten years, was drowned at South Boston Sunday. He was the last of three brothers, all of whom were drowned. A singular fatality, this.

☞ By an arrival at New Orleans, we have later news from Mexico. Gen. Robles had seized a conducts of $5,000,000.

COUNTERFEIT DETECTOR!!

HEWETT'S ENCYCLOPEDIA

—OF—

AMERICAN BANK NOTE CURRENCY,

—BY—

Photo-Lithographic Fac-similes, in miniature, of every genuine note of every solvent bank in the United States and Canada.

AN INFALLIBLE DETECTOR OF ALTERED, SPURIOUS AND COUNTERFEIT MONEY.

WITH A *FAC-SIMILE* OF THE *GENUINE* NOTES BEFORE YOU, HOW CAN YOU TAKE THE *BAD?*

The plan of this work has received the highest encomiums for its great utility and value to the public as a protector against loss by fraudulent paper money, as well as for its beauty as a illustrative of a department of the fine arts in which this country excels all others.

From a great mass of such notices, we mention the following from persons occupying the most important and influential relations to the security of paper money, viz:

CHAS. TOPPAN, Esq., President of American Bank Note Company.

Hon. JAMES COOK, Superintendent Bank Department, State of New York.

Hon. J. C. SQUIRES, Superintendent Bank Department, State of Wisconsin.

METROPOLITAN BANK, New York.

G. D. LYMAN, Esq., New York Clearing House.

Hon. CHARLES WHITE, Superintendent Bank Department, Massachusetts.

H. B. GROVES, Esq., Boston Clearing House.

NEW ENGLAND ASSOCIATION FOR SUPPRESSION OF COUNTERFEITS, &c., &c.

Since the application of the art of Engraving to the commercial use of paper currency, a period of years, it has been the aim and the object of all the parties interested to secure their issues against the liability of alterations of titles, and the raising or substitution of higher denominations of value; but, so far, that desirable object has never been accomplished, for upon the *one hundred and forty-four fac-similes* of genuine Bank Notes contained in the *first of the work* of this Encyclopedia, there are *seventy-eight altered, raised and spurious notes* now in circulation.

No written or printed description of Bank Notes, no matter how carefully compiled, can ever be made an *infallible and perfect protector.*

COUNTERFEITING—that is, the manufacture, for fraudulent purposes, of *fac-similes of genuine Bank Notes*—has never been the source of any aggravated loss to the public, nor is it ever likely to be, because the talent required to engrave *fac-similes* of genuine notes sufficiently well to deceive the public at large, is much more lucrative and honorable employment in the legitimate trade of engraving. But the public has always been an enormous sufferer by *spurious and altered Bank Notes*, which circulate in a ratio of at least several thousand dollars to one of real counterfeits.

These *spurious and altered Notes* are generally the issues of *broken Banks*, which Banks, being originally executed by a regular bank note engraving firm for an originally solvent bank, of course compare, in point of workmanship, etc., with issues of solvent banks generally. The circulation of the exploded banks is very frequently obtained after failure by dishonest parties who at once make it their business to increase the title and location of the broken bank, and either by pasting or reprinting in the title of some bank in good credit, and altering the location to correspond, succeed in foisting these altered Notes upon the public as good money, *because the general character of the work has a genuine appearance.*

Another great source of loss to the public is the facility with which the issues of solvent banks have heretofore been raised in *denomination* for use—One Dollar Notes being raised to Ten Dollar Notes, and so one—by entirely removing the small denominational counters and printing in their place larger ones, or by pasting over the small denomination a larger one on very thin paper, *so as not to visibly affect the average thickness of the genuine note next of the note to be altered.*

As soon as a successful counterfeit is noticed in the weekly Reporters, and, by the hue and cry raised, the public cautioned against it, the counterfeiter changes the title and location on his counterfeit plate to that of some other solvent bank, and perpetrates *another robbery of the public* before they are again warned against it; and this continues *ad infinitum.*

The SECURITY afforded by our DETECTOR lies in the fact that in the circulation of the paper money on this continent *there are no two notes exactly alike*—either the style of letter used in the title is different, the vignettes, details or counters vary, or the denomination, location, &c., are dissimilar. With a *fac-simile* of every genuine note before him, we believe *every person is safe in receiving paper money*, so far as money genuineness of its issue is concerned. We believe the work will add greatly to the circulation of paper money, because it will restore confidence in its genuineness, while heretofore such circulation has been greatly curtailed for very want of such confidence.

PLAN AND TERMS OF THE WORK.

As it is our aim to render this publication as *perfect* as possible, *regardless of expense*, we have secured the co-operation of the AMERICAN BANK NOTE COMPANY, which, composed of all the Bank Note Engraving firms in the country, has guaranteed to furnish us *correct proofs* of every Bank Note which may be issued hereafter to be put in circulation; and has delegated a suitable person as their representative to secure by his signature the entire correctness of our work, as well as the public and themselves against any *improper use* of the *Bank Note proofs.*

The work will be arranged in alphabetical order (the most simple arrangement possible for reference,) commencing with the Bank Notes of the city of Boston Banks and State of Massachusetts; then of the Banks of the New England States; then of the Middle, Western, Southern States, and Canada, in regular succession.

The *new issues of new banks*, as fast as they appear in circulation, and also all alterations of notes of banks now in existence, will be issued in the same style with this work in a weekly or monthly extra, and in this manner the public will always be kept fully advised in regard to the entire circulation of the genuine paper currency of the country.

THE ENGRAVED FAC-SIMILE COUNTERFEITS will be designated in each number; and their distinctive features from the GENUINE notes will be made as plain as possible.

The work will be issued in weekly numbers, each of which will contain 144 *fac-similes* of genuine Notes, and will be comprised in about 36 numbers, and about 11,000 *fac-similes* of genuine Notes, and will be completed within one year from the date of the first number by a more rapid issue near its completion.

THE IMPRESSIONS OF NOTES IN THIS WORK ARE NOT PHOTOGRAPHS, BUT PHOTO-LITHOGRAPHS, PRINTED FROM STONE WITH CARBON INK, AND WILL NOT FADE.

The first number will be issued on Saturday, July 2, and regularly, thereafter, every Saturday, and will be for sale by all the News venders and Periodical Agents.

The price of the weekly numbers will be 25 cts. each. Subscribers, by pre-payment of $15 in current funds, will have the weekly numbers of the work entire mailed to them, postage free. All remittances may be made at our risk. Postage stamps will be received in payment for single numbers only, which will be free of postage.

A liberal discount will be made to AGENTS.—All orders must be accompanied with CASH.

Patent Self-Ventilating Refrigerator.

It is now conceded by physicians that provisions are rendered very unwholesome by being confined in a Refrigerator in which the air is not constantly and effectually changed; and that the health of many families has suffered in consequence. The musty and sour smell common to most ice chests is a sure indication of this poisonous and offensive tendency.

This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Silliman has introduced a description of it in his new work on natural philosophy as the best illustration ever practically tested of perfect ventilation.

SPECIAL NOTICES.

Nature is the Great Physician.

This is now admitted by the medical profession, as a fundamental principle of healing science. It is wisely provided by the human economy, that whenever anything is wrong in the physical system, the natural forces of the body are brought to bear to expel the disease. The great aim, therefore, is to strengthen the natural powers. This has been kept in view by the skillful compounders of Dr. J. HOSTETTER'S BITTERS, which operate to give fresh vitality to all the organs of the body. The effect of this medicine upon the stomach, the liver and the kidneys, are prompt and decisive. The patient who is wise enough to quit drugging, and try the BITTERS, soon feels as he if he had taken a new lease of life, and as he continues the use of the article he is overjoyed to find the stream of health coursing through his frame. Let all those who have lost the bloom has departed, give Dr. J. Hostetter's Celebrated Bitters a trial.

Sold by druggists and dealers generally, everywhere.

Agent for Portsmouth, J. H. THACHER, cor. of State and Pleasant Sts., and No. 12 Market Sq. Weeks & Potter, Boston, General Agents for the New England States.

DIABETES.—By this term is meant that mysterious affection of the kidneys, originating in a perversion of the nutritive powers, in which the strength is gradually drained away by the excessive secretion of urine. Remedies are usually merely palliative, but the PERUVIAN SYRUP has been found to possess the intuitive sagacity and influence into the most secret chambers of nature's laboratory, and presides over the composition of the vital fluids.

SCROFULA CURED IN TWENTY DAYS.

William Miles, aged 27, had been afflicted with Scrofula for 11 years. On the 1st of August, by the advice of Dr. William Root, of Marietta, Ga., he commenced the use of RADWAY'S RESOLVENT. On 6 hours he felt a change for the better; in 12 hours small pustules were seen covering the whole surface of the body; in 24 hours he was covered with discharging sores. He still took the Resolvent freely, but finding his bowels very costive, he took six of RADWAY'S REGULATORS. They operated powerfully and pleasantly. He afterward took one Regulator at night. The sores caused him some irritation, which he always had been troubled with in the Resolvent. The fourth day the sores all healed up. He continued the Resolvent and the Regulators for 20 days. Since the last day, which was on the night of the 20th day, he has not experienced any returning symptoms or uneasiness. His blood is pure, skin clear, and bowels regular.

R. R. R. is sold by Druggists everywhere.

Dr. Wistar's Balsam of Wild Cherry.

The editor of the "Flag of our Union" says in his paper of July 17, 1858:—"The memory of Dr. Wistar is embalmed in the hearts of thousands who have experienced entire cure from *Coughs, Colds, Consumption and Pulmonary Disease* generally by the use of this preparation. The invalid need not fear to give this preparation a careful trial, as we speak from experience. More than ten years since the editor of this paper tested its excellence by individual trial in his family, with the most surprising result, as a curative for pulmonary disease."

CASES OF CONSUMTION AND WHOOPING COUGH CURED.

The following from a highly respectable gentleman, speaks for itself;

KEYPORT, N. J., May 20, 1858.

S. W FOWLE & CO.,—*Gentlemen*:—This certifies that I was for many years afflicted with a disease of the lungs, until I became so weak, that it was with difficulty I could walk. My cough during this was very severe, causing me frequently to raise great quantities of blood, attended with profuse night sweats.

After using various remedies to no purpose, I was advised to try *Wistar's Balsam of Wild Cherry.* I did so, and before using the first bottle I was entirely restored to perfect health and strength.

I would also mention that this Balsam cured a little girl of mine of a severe attack of Whooping Cough, when her life was given over by the physician and all other remedies had failed.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

THIS GIN, the DIURETIC, from sound Barley, under the surveillance of the Inland Revenue Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable aromatic and medicinal vegetables kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious cordial, and a most delightful flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, LIVER AND KIDNEY COMPLAINT, ETC., DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as a tonic for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, traiteurs and confectionaries. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

LOCAL.

☞ There having been much desire expressed by many of our citizens to have a Balloon Ascension from this city, on the Fourth of July, some gentlemen interested in the matter made efforts to procure the services of an aeronaut on that occasion.—But as most of these aerial gentlemen were long since engaged for that day, the attempts have thus far failed—and the time is now so short that probably the matter must be deferred till another year. In this connection, we must return our sincere thanks to our brother editor of the Charlestown Advertiser, for his courteous endeavors to serve us in respect to this affair.

TEMPERANCE IN ROCKINGHAM.—The Conference of congregational and presbyterian churches in Rockingham County at their late meeting in Derry, inserted the following item in their report.

The fearful increase of intemperance throughout the county, has occasioned much anxiety to the churches and ministry, and some are making *renewed efforts* to stay its devastating wave. *New organizations* have been formed, sermons have been preached, and meetings held in the school districts to awaken a new interest on the subject. Considerable engagedness has been manifest, and the old facts and arguments come home with freshness to the minds of men. The necessity of *religious* principle, of decided *action* on the part of *Christians*, is more felt—Unless the *moral* character of the people, and especially moral integrity and religious principle of Christians, lead to an earnest conflict with the time-serving spirit of the day, the law must remain a dead letter, and our young men fall a prey to drink and death. "Bands of Hope" have been formed in some places among the children, and their sympathy enlisted. Some progress, it is hoped, has been made, but serious obstacles impede the effort. In order to permanently advance, there must be more of Christ and his religion to impel and restrain.

The Leavenworth Times of June 18 ciphers up the election of delegates to the Kansas Constitutional Conventson as follows—Republicans 30, Democrats 20, uncertain 2. The Times says:

It will be seen that the Republicans have a majority of ten in the convention. It insures a free constitution for Kansas. It was the maiden fight of the Republicans; they had to contend with fearful odds. The weight of a general government, so strong in a territory, was thrown against us. We met it, and traitors and servilets and what is wore, a dangerous apathy.

NAVAL.—By the last California steamer we learn that:

The U. S. frigates Merrimac and Saranac were at Callao.

The U. S. frigate Roanoke and sloop St. Louis were at Aspinwall; sloops Vandalia and St. Marys were at Panama.

Lieut. Lambert, U. S. N., died on board the Cyane on the 27th ult, at Point Yeason.

RAIN.—While we have been surfeited and saturated with rain and mist, we understand that Northern Vermont has been suffering from drought. Up to Friday morning, the fall of rain at the Cambridge Observatory, in this month, had been 63 inches. In the whole of June, 1858, the fall in Boston was 81 inches, the largest, says the Traveller, in any June of which we have an account.

☞ The prosecution of H. Clay Pate, for stealing a negro named Austin, ended on Saturday night, about 12 o'clock, at Westport, Mo., in his acquittal. The verdict was received with vehement applause.

Charles Hunt, of Coventry, Vermont, was run over by the cars a few days since on the Vermont Central railroad, and killed.

☞ The citizens of Concord intend to purchase the site of the South Church and other buildings recently burnt over, for a public square, at a cost of some $18,000.

NUISANCE—CHARLESTOWN, MASS.—Charles A. Holt, landlord of the City Hotel, on Main street, Charlestown, has been held for trial under the nuisance act, for selling intoxicating liquors.

The Emperor of Austria is said to understand thirteen languages. He will need them all to express his astonishment at the turn things have taken. At the last dates he was "walking Spanish."—*Traveller.*

It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.

TO THE PUBLIC.

I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world*.

UDOLPHO WOLFE.

CHEMICAL TESTIMONY.

D. Jose Luis Casaseca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, and of Physics and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M's Inspector of the Institute of Chemical Investigation, &c., &c.

Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—

Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balanium maris, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 90 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil insuparable from alcohol.

From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Doetjen (of Bremen,) as residuum after evaporation by steam, a substance almost insipid and very trifingly aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior." Messrs. Tracher have furnished me with a very small quantity of a greenish substance, of harsh metallic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.

I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. JOSE LUIS CASASECA.

CRANE'S PATENT
METALLIC BURIAL CASKET.

A newly invented Burial Case, fashioned to accord with the feelings of the bereaved, and yet retaining all the requisites of an appropriate receptacle for the dead. There is no reason why such an article should be made to create, by its appearance, disagreeable sensations. Under such bereavements whatever tends to soften or make less keen the poignancy of our grief, commends itself to our consideration. So much that is repulsive has been discarded in the arrangement and SHAPE of this Case, that its name, the "*Casket Burial Case,*" is an involuntary suggestion.—We, therefore, do not hesitate to aver that there has never been in use anything so entirely chaste, appropriate, and withal, convenient, as this invention.

The Case permits a view of the entire body after it is enclosed, the top being composed of beautiful French plate glass, which is divided into three sections, between two of which is inserted the name-plate. For each of these sections of glass there is an elaborately ornamented cap.

The Subscribers being sole Agents for this vicinity, have always onhand every size of the above, from 2 ft. to 6 ft. 4 inches.

Also, *FISKE'S METALLIC BURIAL CASES*, Walnut, and Imitation Rosewood COFFINS, of superior finish.

All orders will receive our *personal attention*, and may be supplied at one hour's notice at

Popular Sovereignty Re-affirmed by the Vermont Democracy!

Douglas Delegates Elected to the Charleston Convention!

THE "COW BOYS" LAID OUT STARK AND COLD!

In our last we gave the telegraphic announcement of the doings of the Vermont Democratic State Convention, which was received a few minutes before going to press. Since then we have received more complete reports of the proceedings, and we congratulate the Popular Sovereignty Democracy on the signal victory which they have won over the detestable and traitorous "Cow Boys," who would sell the party to the devil, and forswear all pretence to principle, for the sake of securing the Federal offices and the smiles of the Administration. If such a victory as this can be won in a State where the Democracy has but little local encouragement,—where the federal offices afford all the posts of honor and profit within the possible reach of Democratic politicians, how much more certainly can the Popular Sovereignty Democracy of such States as Maine, New Hampshire, and Connecticut, where local successes are even probable, obtain a triumph over the paid partizans of federal power.

It was represented in the telegraphic report that the delegates elected were Douglas men. The Boston Post and one or two other papers that eat government bread, took it upon themselves to deny this. We have unquestionable authority for saying that the gentlemen elected are all of them known to be friendly to the nomination of Douglas, and were nominated and elected delegates with that understanding. Douglas is a native of the Green Mountain State, and the Democracy of that State have done themselves great honor by opening the Presidential Ball with a Popular Sovereignty dance; Maine will follow the lead next week; New Hampshire, in October; and if anybody beside the Boston Custom House folks attend the Massachusetts Convention in September, Douglas delegates from that State are also certain. Indeed, nothing but the most outrageous stifling of the popular sentiment among the Democratic voters, by the individuals who would serve this Administration by giving it the distinction of being the last Democratic Administration known in the history of the country, can prevent the selection of Douglas delegates from every State north of Mason's and Dixon's line, and we are also confident that Douglas will receive, in the onset, considerable support in the Convention from the South. The conviction is forcing itself upon the Democrats everywhere, that Douglas is the only man who can carry any Northern State. By the time the Convention comes off, few Democrats, North or South, will be willing to champion Mr. Buchanan in his personal hostility to Douglas—such a course being certain to result in a black Republican victory.

These are the resolutions, adopted unanimously by the Vermont Convention. They were reported by the Chairman of the Committee, Charles G. Eastman, Esq., Editor of the Vermont Patriot, to whose eloquent advocacy and untiring efforts the friends of Popular Sovereignty are largely indebted for the result of the Convention:

We agree with the N. H. Patriot, that we can see no reason why these resolutions should not receive the cordial approval of all Democrats. The one in relation to the Administration might, however, have been left out without any weakening of the platform, but as it was put there for ornament and in obedience to a time-honored custom, we are not disposed to cavil at it. In the main, the Administration of James Buchanan has answered all reasonable expectations, and as it is now so near its close, with no prospect of duplicating itself, the mantle of charity may be suffered to fall gracefully over its failings and infirmities.

In their candidate for Governor, the Vermont Democrats are very fortunate. John G. Saxe is more extensively known to the people of this country than any other living Vermonter. As an editor, poet and lyceum lecturer, he is without a superior in New England. Those who have the pleasure of his personal acquaintance pronounce him a jolly good fellow. He will poll a large vote, and we wish there was a much more brilliant prospect of his election. At any rate, there is a chance to GAIN, and the Vermont Democrats will take that chance.

☞"Col. *Francis V. R. Mace,*" the great master of *fence,* who hambugged some of the citizens of this city out of time and money, about a year ago, recently set up in his pretended capacity of teacher of the sword exercise at Keene. We learn from the Cheshire Republican that in addition to getting drunk generally, he last Friday stole $60 from Mr. Perry, proprietor of the Union Hotel, and is now locked up in jail. "How are the mighty fallen and the weapons of war perished." We are also pained to learn from the same source that "Professor Murphy," who recently gave a sparring exhibition at the town hall, was likewise put into "durance vile" for practicising his favorite science on a peddler at the Union House. Genius appears to receive poor rewards in that town.

THE
GROVER & BAKER
SEWING MACHINE COMPANY,
No. 18 Summer Street, Boston,

Having greatly increased their facilities for manufacturing their

CELEBRATED FAMILY MACHINES,

with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYE MACHINE,

PRICE FIFTY DOLLARS.

MACHINES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR!

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.

FRANK W. MILLER.

PORTSMOUTH, April 12, 1859

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others.

ALLEN & PAINE.

Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."

Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."

Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."

THE ONLY ARTICLE
UNRIVALLED IN THE MARKET,
WITH IMMENSE
HOME AND EUROPEAN DEMAND.
The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, humors, and heat from the scalp, purifies and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful,* and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:
NEW YORK, Jan. 8, 1858.
MESSRS. O. J. WOOD & CO.,
Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.
The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to call further proof on me in and out of the N. Y. Wire Railing establishment every day.
My hair is now its natural color and much improved in appearance—being glossy, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.
Cor. Columbia and Carroll Sts., Brooklyn.
LIVINGSTON, Ala., Feb. 14, 1858.
PROF. WOOD—Dear Sir: Your Hair Restorative has done much good among my friends in this country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks, and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.
You can publish this if you think proper.
Yours, &c. S. W. MIDDLETON.
PHILADELPHIA, Sept. 9, 1857.
PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Hair Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,
D. R. THOMAS, M. D.,
No. 464 Vine Street.
The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

DR. J. B. HUGHES,
Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his patients who may be afflicted with, or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.
Full and explicit directions will accompany every package, and the most inviolable secresy preserved.
DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.
Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.
In particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of dropping what is the great pillar of life, a healthy constitution.
This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female complaints. Their action is prompt and certain, producing relief in a short space of time. They are acknowledged to be the best in use.
The Dr. would caution the public against the impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely worthless, and are got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.
All who are in pursuit of the genuine article, had better call on the Dr. at his office, whom they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.
These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.
P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 d1y

YOU HAD BETTER TRY
MY MOTHER'S SALVE
MOTHER'S SALVE. A. M. BECK, BOSTON.
This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.
"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered in Germany, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.
"My Mother's Salve" is safe and efficacious, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.
"My Mother's Salve" in a BURN or SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.
"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.
Directions for using **"My Mother's Salve"** are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. BECK.

ALL'S WELL.

The clouds which rise with thunder, slake
Our thirsty soil with rain;
The blow most dreaded falls to break
From off our limbs a chain;
Our very sins and follies make
The love of God more plain;
As through the shadowy lens of even
The eye looks furthest into heaven,
On gleams of stars and depths of blue
The glaring sunshine never knew.

J. G. WHITTIER.

An editor and a young school mistress were engaged in a conversation the other day, when the following passed between them:—

Editor.—Miss ——, when are you going to get married?"

School-mistress.—"Well I don't know—the first chance I get."

Editor.—"Well, as that's my intention, suppose we marry?"

School-mistress.—"Well, I don't know whether that would be a *chance* or not."

The editor acknowledged himself "in below the ford."

The Maine Democratic Convention is reported to stand two to one in favor of Douglas. It would be hazardous to bet on Maine as against Douglas in the popular vote. If that "Little Giant" is nominated he is going to be the hardest man for any party to beat that has been on the course for a long time.—*Newburyport Herald.*

Juarez hasn't sold *us* three Mexican states. Reason, he hadn't 'em to sell. If we *must* steal them, we do not see why we should pay him for the privilege of being thieves.—*Traveller.*

About eight hundred hens have recently been stolen from Dartmouth, Westport, Fall River and vicinity. The rouges deserve to be tarred, and then covered with the feathers of all the hens they have stolen.

Some day it will found that to bring up a man with a genial nature, a good temper and a happy frame of mind, is a greater effort than to perfect him in much knowledge and many accomplishments.

An old lady triumphantly pointed out the Epistle to the Romans and asked where one could be found addressed to the Protestants.

CONSUMPTION IS CURABLE!
BY THE USE OF
Winchester's Genuine Preparation of Dr. J. F Churchill's Compound of the
HYPOPHOSPHITES
OF LIME, SODA AND POTASH,
Originally discovered and prescribed by him as a Specific Remedy for
CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENCY VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SURE PREVENTATIVE, and a
SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In most instances the benefit derived from it has FAR EXCEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * * Out of twenty-two cases in the third or last stage, treated at my Dispensary during the past year, about HAVE completely recovered, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

BE SURE TO PURCHASE WINCHESTER'S GENUINE PREPARATION,
which is certified by Dr. James R. Chilton to be "PROPERLY made and *chemically pure.* My *fac simile* signature is upon every bottle.

☞ Price $2 per bottle, or three bottles for $5, with full directions for use. Write for Circulars, which will give RELIABLE INFORMATION, and save from all possibility of deception. Sold wholesale, at the lowest discount for cash, at the Sole General Depot in the United States, by J. WINCHESTER, American and Foreign Agency, 49 John street, New York.

LOTTERIES.
THE LOTTERIES OF
WOOD, EDDY & CO.,

Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of
WOOD, EDDY & CO.,
are authorized by the Legislature of either State.

A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga. All orders received being filled in the drawing next to take place after same comes to hand.

Whole tickets are $10; halves, $5; and quarters, $2.50.

No ticket sent unless the money accompanies the order. Prizes vary from $20 to $50,000.

Every prize is drawn, and the result of drawing forwarded to all purchasers.

☞ A circular showing the plan of receiving it. All communications strictly confidential.

Write your address plainly, and direct to
WOOD, EDDY & CO.,
Or to Wilmington, Delaware.
WOOD, EDDY & CO.,
Augusta, Georgia.

☞ All letters to our address will be promptly acknowledged—and prizes cashed without delay.

NOTICE TO CORRESPONDENTS.

Those who prefer not sending money by mail, can use the "ADAMS EXPRESS COMPANY," whereby money for tickets, in sums of ten dollars, and upwards, can be sent us

AT OUR RISK AND EXPENSE,

from any city or town where they have an office. The money and order must be enclosed in a "GOVERNMENT POST OFFICE STAMPED ENVELOPE," or the Express Company cannot receive them.

Oleine Diamond Oil.
GREATEST ILLUMINATOR OF THE AGE.

This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.

It burns in the common oil lamp, with or without a chimney.

The light is far more pleasant than gas, as it is free from the disagreeable flickering always attending a gas light, and is cheaper. We claim for this Oil:

1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, because it is permanent.
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.

Price $1.25 per gallon.

For sale, wholesale and retail, at
96 Market Street, Portsmouth,
where the public are invited to call and examine for themselves.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, JUNE 29, 1859.

☞ From Europe we have news a day later, viz., Liverpool, June 18.

A despatch says after the retreat of the Austrians from Bologna, the Cardinal Legate departed, and the municipality proclaimed Victor Emmanuel dictator.

The King of Sardinia issued an order of the day, extolling Garibaldi's deeds, and awarding him a gold medal of military order.

Weimer Zeitung had announced that the Emperor of Austria will forthwith assume command-in-chief, and had ordered a new position for the army, which is to be taken up in the best manner.

The Austrians have evacuated Modena, and are in full retreat towards the river Oglio.

Large reinforcements were about to leave France for the seat of war.

An order has been issued for the mobilization of the Prussian army.

Napoleon on the 12th moved his headquarters to Gorgozola.

☞ The Iron Crown of Charlemagne has been placed by Austria for safe keeping in the strongest citadel of Lombardy. It is a circle, two and a half inches in width, incrusted with large uncut precious stones, of different colors. But inside is the veritable Iron Crown of history; that is to say, a metal ring, which tradition declares to be one of the nails which served in the crucifixion of our Saviour. In the year 774, this extraordinary crown was placed upon the head of Charlemagne by Pope Adrian 1st. This is positive, and matter of history. In 1452, it was used in the coronation of Frederick IV., and in 1530, it was again employed in the coronation of the Emperor Charles V. Finally, in 1805, the Great Napoleon himself placed it upon his brow, repeating the exclamation attributed to Agilulphus, twelve centuries previously: "*God gives it to me, let not man touch it!*"

☞ John How, Esq., assistant accountant of the Grand Trunk Railway, in Portland, and Treasurer of the Maine Missionary Society, was attacked with paralysis on Saturday morning. Mr. How had opened the morning prayer meeting, at the vestry of the 3d Parish Church, by reading the Scriptures and making the prayer. He then sat down, and it was noticed that he did not rise again. While the singing of the doxology, to close the meeting, was going on, his pastor, Dr. Dwight, observed something peculiar in Mr. How's appearance, and approached him. He was found to be senseless. Medical aid was immediately procured, and he was removed to his residence, but he died on Sunday evening.

☞ A Washington correspondent of the Philadelphia Press says;—"I am told that Gov. Robert J. Walker has lately become an object of affectionate interest at the White House. Whether the Governor is aware of this or not, I cannot say; but it is believed that if the President could induce his former colleague in the Cabinet of Mr. Polk, to return to him a certain letter, under date of July 12, 1857, in which the President writes himself down strongly in favor of the Douglas doctrine of popular sovereignty, on fine blue paper, he will be his 'most obedient, humble servant.'"

☞ Judge Douglas is reported to have stated to a very prominent Southern politician in Washington that he intends to support the nominee of the Charleston Convention; but what was meant by his letter to Mr. Dorr of Iowa was, that he will not himself consent to run upon a platform he cannot endorse. In any event, it is said, he will adhere to his party against the opposition.

☞ A newly-married pair in Worthington were serenaded with tin pans, horns and every other imaginable instrument of discord and confusion, for two nights in succession. Their patience giving out on the second night, the husband threatened the disturbers with prosecution, but they stuck not leaving, he fired a charge of shot among them. Seventeen of the shot took effect in the legs of the serenaders, and without doing them any permanent injury, probably worried them enough to teach them a salutary lesson.

☞ Dr. Morrison, of Henderson county, Ky., was prosecuted for forgery, and to revenge himself on the prosecuting attorney, Mr. Arnold, attempted to procure his death by poison. He employed a negro waiter at the hotel where Arnold boarded, and twice gave the negro poison to mix with food and hand it to Mr. Arnold. The negro informed Mr. A. of the conspiracy that was formed against his life. Morrison was put in jail and committed suicide by cutting his throat.

"SOME FISHING."—The Newburyport Herald states that a sturgeon, weighing nearly four hundred pounds, was taken recently in a seine belonging to Capt. John Janvrin.

N. H. LEGISLATURE.

This body adjourned on Tuesday.

On Monday evening, after debate, the House passed a series of strong anti-slavery resolutions, in which they take occasion to denounce the present administration as corrupt and extravagant. The resolves also touch on the tariff question, and recommend a protective policy.

An act relating to hawkers and pedlars, passed. The bill allows all articles lawfully raised or made in this State to be peddled by citizens free of license; all persons incapacitated from manual labor may peddle free; outside peddlers from other States shall pay $15 to each county in which they sell. Peddlers of this State shall pay an annual license fee of $15 to sell all over the State: fruits, vegetables, provisions, fuel, carriages, farming utensils, brooms, newspapers, books, pamphlets, agricultural products of the United States, all Britannia ware, brass, earthen, tin, iron, wooden, glass, or stone ware, are placed on the free list.

The appropriation for the House of Reformation was cut down to $3000, and passed.

☞ The News Letter informs us that after July 1st, the mail from Exeter to Chester, which has been carried three times a week, will be reduced to twice a week.

From Exeter to Newburyport, Mass., reduced from a daily mail to three times a week—Congress having failed to make the necessary appropriation for the Postal Service.

Congress did exactly that; the Senate were determined no appropriation should be made unless the House would raise letter postage to 5 cents. The House very properly refused—and here we are.

☞ We are indebted to Messrs. L. Johnson & Co., of Philadelphia, for a superbly filled and richly bound Book of "Specimens of Printing Types, Cuts, Borders, &c.," from their long established and celebrated Foundry—which is unrivalled for the taste of designs and skill of construction of every article needed by the printing profession. The book, with its embossed covers, red back and gilt lettering, resembles a centre-table volume, and the contents might well be taken for the catalogue of a gallery of art—which indeed it is. When we want anything in the Printer's furnishing line, commend us to the Johnson Foundry, Philadelphia, for fair dealing and complete satisfaction every way.

☞ The Washington Constitution, says the Boston Post, in alluding to the gross manner in which the President has been calnumniated, refers to the recent result of the municipal election there as evidence of a returning sense of justice. It says:

"*Here*, where he is best known—the focus of intimate knowledge and intelligent appreciation of his character and conduct, and the radiating centre of his action—what do we see? Only one short year ago the charter election was sharply contested upon strict party grounds, and the Democracy succeeded by only a trifling majority.—*Now*, in the election just closed, out of the seven wards in the city only one was formally contested. There may be said to have been not a show of opposition. The friends of James Buchanan have had it all their own way. What can it be called but the verdict of a *jury of the vicinage* to the purity of his motives and the integrity of his action? What is it but the 'breaking of light?'"

☞ We are indebted to Messrs. Russell & Tolman, the extensive and enterprising music publishers and dealers, Boston, for copies of some of their new pieces, vocal and instrumental. Among others, are:—"On the sea shore"—a nocturne for the piano, by Jules Egghard; "Honeysuckle Glen," one of Geo. F. Root's sweet and pleasing songs and choruses; and "The Fireman's Schottische," graphically illustrated—for the piano. C. C. Harvey is agent for this house.

☞ We have received No. 1 of "Hewett's Encyclopedia of American Bank Note Currency," advertised in our columns yesterday. It is elaborately gotten up and well printed, and appears to be an unusually complete and valuable work to all who handle bank bills.

THE MONUMENT AT PLYMOUTH.—The Plymouth Rock reports that the workmen are making good progress in laying the foundation for the Pilgrim monument. The foundation consists of three tiers of stone all laid in hydraulic cement, and about 600 tons of Quincy granite have already been used. The corner-stone, which is the gift of some gentlemen in Quincy and is already wrought, will be laid with appropriate ceremonies on the first of August. The Grand Lodge of Masons will assist, and it is said that Gov. Banks will deliver the address on the occasion.

Is it possible that our cute friend of the Portsmouth Chronicle was "sold" by our squib about the "intelligent" (!) official who couldn't tell what all the talk was about "popular sovereignty and principles" amounted to?—*Bath Times.*

No: we knew it was meant for irony;—and yet it involved a truth: so we appended a note to it, which every reader could understand.

INCENDIARY FIRE.—At half-past twelve o'clock on Monday morning, the barn situate upon the Parkinson estate in Brighton, Ms., was discovered to be on fire, and was totally destroyed with its contents. Undoubtedly the work of an incendiary.

This is the estate from which the widow Parkinson, holding by donation from Admiral Coffin to her husband, was ejected some months since. She was afterwards again put into possession by a number of her townsmen, and has since occupied the premises without molestation.

WINSHIP'S
Patent Self-Ventilating Refrigerator.

It is now conceded by physicians that provisions are rendered very unwholesome by being confined in a Refrigerator in which the air is not constantly and effectually changed; and that the health of many families has suffered in consequence. The musty and sour smell common to most ice chests is a sure indication of this poisonous and offensive tendency.

This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Silliman has introduced a description of it in his new work on natural philosophy as the best illustration ever practically tested of perfect ventilation.

All sizes of these celebrated Refrigerators for sale at the Stove and Furnishing Warehouse of the subscriber, No. 46 Market street.

SPECIAL NOTICES.

Nature is the Great Physician.

This is now admitted by the medical profession as a fundamental principle of healing science. It is wisely provided by the human economy, that whenever anything is wrong in the physical system, the natural forces of the body are brought to bear to expel the disease. The great aim, therefore, is to strengthen the natural power. There has been kept in view by the skillful compounders of Dr. J. HOSTETTER'S BITTERS, which operate to give fresh vitality to all the organs of the body. The effects of this medicine upon the stomach, the liver and the kidneys, are prompt and decisive. The patient who is wise enough to quit drugging, and try the BITTERS, soon feels as if he had taken a new lease of life, and as he continues the use of the article he is overjoyed to find the stream of health coursing through his frame. Let all from whose cheek the bloom has departed, give Dr. J. Hostetter's Celebrated Bitters a trial.

Sold by druggists and dealers generally, everywhere.

Agent for Portsmouth, J. H. THACHER, cor. of State and Pleasant Sts., and No. 12 Market Sq. Weeks & Potter, Boston, General Agents for the New England States.

DIABETES.—By this term is meant that mysterious affection of the kidneys, originating in a perversion of the nutritive powers, in which the strength is gradually drained away by the excessive secretion of urine. Remedies are usually merely palliative, but the PERUVIAN SYRUP by its iron element, introduces a vitalizing influence into the most secret chambers of nature's laboratory, and presides over the composition of the vital fluids.

SCROFULA CURED IN TWENTY DAYS.

William Miles, aged 37, had been afflicted with Scrofula for 11 years. On the 1st of August, by the advice of Dr. William Root, of Marietta, Ga., he commenced the use of RADWAY'S RENOVATING RESOLVENT. In 6 hours he felt a change for the better; in 12 hours small pustules were seen coming to the whole surface of the body; in 24 hours he was covered with discharging sores. He still took the Resolvent freely, but finding his bowels very costive, he took six of RADWAY'S REGULATORS. They operated powerfully and pleasantly. He afterward took one Regulator at night. The sores caused him some irritation, which he allayed by bathing them with the Resolvent. The fourth day the sores all healed up. He continued the Resolvent and the Regulators for 20 days. Since the last day, which was on the night of the 20th day, he has not experienced any returning symptoms or uneasiness. His blood is pure, skin clear, and bowels regular.

R. R. R. is sold by Druggists everywhere.

Dr. Wistar's Balsam of Wild Cherry.

The editor of the "Flag of our Union" says in his paper of July 17, 1858:—"The memory of Dr. Wistar is embalmed in the hearts of thousands who have experienced entire cure from *Coughs, Colds, Consumption and Pulmonary Disease* generally by the use of his *Balsam*. The invalid need not fear to give this preparation a careful trial, as we speak from experience. More than ten years since the editor of this paper tested its excellence by individual trial in his family, with the most surprising result, as a curative for pulmonary disease."

CASES OF CONSUMPTION AND WHOOPING COUGH CURED.

The following from a highly respectable gentleman, speaks for itself:

REYPORT, N. J., May 20, 1858.

S. W FOWLE & CO.,—*Gentlemen:*—This certifies that I was for many years afflicted with a disease of the lungs, until I became so weak, that it was with difficulty I could walk. My cough during this was very severe, causing me frequently to raise great quantities of blood, attended with profuse night sweats.

After using various remedies to no purpose, I was advised by *Wistar's Balsam of Wild Cherry.* I did so, and before using the first bottle I was entirely restored to perfect health and strength.

I would also mention that this Balsam cured a little girl of mine of a severe attack of Whooping Cough, when her life was given over by the physician and all other remedies had failed.

Prepared by S. W. FOWLE & CO., Boston, and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Chickering, Portsmouth; J. F. Packer, Greenland; and dealers everywhere. spnot 4wd&w

"BUY ME AND I'LL DO YOU GOOD."

Now is the time to use the great Spring and Summer Medicine.

Dr. Langley's Root and Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Elecampane, Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., so compounded as to act in concert with Nature, and their effect is truly *wonderful.* They absolutely cure

LIVER COMPLAINT, DYSPEPSIA, INDIGESTION,
CONSTIVENESS, DIZZINESS, HEARTBURN,
HEADACHE, PAIN IN THE LIVER,
PILES, FLATULENCY,
WEAKNESS, LOSS OF APPETITE.

All kinds of Humors, and every disease arising from a disordered Stomach, or bad Blood. If taken in large doses, Fever and Ague may be broken up and cured at once.

This has become a standard Medicine, and is decidedly *the best in the World.* Try it once, and you will be sure to do so again. The price is cheap—only 25 cents for a pint, and 37½ cents for a large Bottle. You can't get a bottle too quick for the time is fast approaching when you will have all sorts of bad feelings if you don't take the Root and Herbs and drive them away. Sold by all Medicine Dealers everywhere.

Orders addressed to J. O. LANGLEY, or to GEO. C. GOODWIN & CO., 11 & 12 Marshall St., Boston, wholesale Dealers in Family Medicines of every description. They invite Apothecaries and Merchants generally to examine their stock. m12

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from round Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, GALL, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing complaints which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. SUPREME JUDICIAL COURT.

At the law term of this Court, held at Exeter, by the full bench, the following actions were disposed of on the Rockingham docket:—

2. Chase v. Brown—"Neither party."
3. Haven & als. v. Emery & als.—"Neither party."
5. Locke v. Vennard & als.—Bill abated.
10. Moore v. Moore & als.—Bill dismissed—opinion by Eastman, J.
12 & 14. Palmer v. Palmer.—Decree of Judge of Probate reversed, as per Auditor's report, and mem. on file—costs for Guardian—Opinion by Sawyer, J.
17. Bartlett v. Prescot.—"Neither party."
19. Ladd & als. v. P. & C. R. R.—"Neither party"
21. Pickering v. Pickering.—Bill dismissed with costs—Opinion by Fowler, J.
22. Watriss v. Peirce & als.—"Neither party."
23. Peaslee v. Kelly—Demurrer overruled.—Opinion by Bell, J.
27. Petition of John N. Handy, for Review, &c.—Petition dismissed.—Opinion by Sawyer, J.
29. Mary E. Adams v. Sampson Adams. Libel for divorce—divorce decreed—for extreme cruelty.
30. Clifford & als. v. Jenness & als.—"Neither party."
31. Norris v. Norris & als.—Judgement for Partition.—W. B. Small, William Conner, and W. P. Moulton, Comm'rs, to make partition.
32. Burnham, Adm'r of N. White v. S. S. Chase.—Judgement on verdict for Daft.—opinion by Perley, C. J.
33. Goodrich & als. v. Eastern Railroad in N. H.—Judgment on verdict for Plf.—Opinion by Eastman, J.
36. Petition of B. S. Clifford for new trial.—Dismissed.
37.—Lizzie A. Fredson v. Maurice E. Fredson,—Libel for divorce—Divorce decreed for abandonment.
39. Ebenezer C. Osgood v. Lucinda A. Osgood,—Libel for divorce—divorce decred for adultery.
41. Bunning v. Odiorn—"Neither party."
53. George G. Taylor v. Melinda H. Taylor,—Libel for divorce—divorce decreed for adultery.
57. Petition of Stacy L. Nudd & als. for Partition. Issue sent to Trial Term.
58. Bridge v. Bridge—Libel dismissed.
60. Haverhill M. F. Ins. Co. v. Prescott & al.—Exceptions overruled—Judgment for Plff. affirmed—Opinion by Fowler, J.

At this term, Mr. Richard Folsom of Derry, and Mr. Augustus B. Clay of Newmarket, were admitted under the statute to practice as Attorneys in all the Courts of this State.

☞ Many thanks to Mrs. Lowell Jenness for the beautiful flowers so tastefully arranged, from her garden at the foot of Pleasant street. In the centre of a flat boquet, is a superb Dahlia—of the veritable dahlia color, too—very large and full; a host of smaller flowers, some of them exquisitely fragrant, with green relief, neatly bordering it—each enhancing the loveliness of the others.

We are also indebted to another lady for a vaseful of lovely and fragrant white peonies—almost as charming as white roses, and much larger, delicately tinted with pink on the inner leaves. Surrounded by such lovely specimens of nature's handiworks, the appreciative soul can almost forget there *are* any thorns in life.

☞ Gentlemen, ladies, or families, wishing their clothes washed and ironed in the best manner, and at the shortest notice, cannot do better than send them to the "Domestic Laundry" in Vaughan Street,—advertised, with reasonable prices, in another column. It is not every good general ironer, who knows how to do up white pants—but they do them at the place above-named, almost equal to the tailor with his goose.—We ourselves thought our pants and vest looked like a bridegroom's; and when we had consulted with others competent to judge, we were sure we were right, and so donned them on the occasion of our first anniversary.

☞ "Out of sight, out of mind." Not exactly. Messrs. George and Albert Fernald of this city, have an extensive lumber and flour mill at Boston, Kentucky: and have just sent us a bag of new Flour, ground and bolted at their mill, from fine Kentucky white wheat. The quality we have never seen surpassed, and it is rendered doubly sweet and nutricious, as a token of regard and rememberance from an old and valued friend. Success to all the Portsmouth boys, and girls too—abroad or at home.

☞ Persons desiring the services of a land surveyor, will do well to notice the advertisement of Mr. Simon R. Marston. He has had considerable experience in the U. S. Government land service about Lake Superior; and is without doubt competent to perform any business in his line.

☞ Wanted, at this office, a copy of the Weekly Chronicle of Saturday, June 11th. Will some friend accommodate us.

☞ Rev. A. J. Patterson of this city will preach at Rye, (Chesley's Hall,) on the second Sunday in July.

☞ A lettter from Rumney, N. H., says that corn and potatoes in that region are now growing finely, with the promise of a fine harvest, and the hay crop will be abundant.

DAN RICE'S GREAT SHOW.—This afternoon and evening our citizens may anticipate a rich treat in witnessing the performances of Dan Rice's great equestrian and zoological exhibition. And it will not be making an exaggerated statement to say that never in the world has just such an exhibition been presented to the people, as he offers the present season. A colossal Rhinoceros trained to act in the ring; an Elephant which actually performs on the tight rope and stands on his head; those most mirth-provoking of all created animals, the educated mules, "Barney and Pete;" a performing Syrian Goat, and horses trained to do all manner of extraordinary things form only a few of the more prominent features of the "Great Show." In addition is presented a diversified array of acts of horsemanship, gymnastic feats, &c., &c., introducing a circus troupe comprising some of the most widely celebrated performers living,—not forgetting the irresistible drolleries of Dan Rice, himself, who will appear during every performance. It will be seen that the entertainments are unlike those of any other company travelling. The little folks should visit the afternoon performance, to be sure of getting good seats.

MURDER AT SHARON, N. H.—The dead body of Amos J. Blake, a cooper, of Sharon, was found in a horse shed on the 27th inst., with the skull broken. His wallet and watch were missing, and the indications are that he was murdered, and then robbed.—Blake was a man of intemperate habit, and was last seen in the evening, in company with two suspicious looking fellows from Jaffrey. Being a man of very ill temper while intoxicated, and being in liquor when last seen, it is supposed that he in some way provoked his companions to this awful act. The suspected murderers have not since been seen. The deceased was in comfortable circumstances, and leaves a wife and three children.

☞ Chief Justice Taney was so unwell at Richmond on Friday last that he was unable to hold Court.

TO MARRIED LADIES.

The "*Indian Emmenagogue*" is a new and elegant medicine, designed *expressly for females*. It is prepared from an Indian plant, which from time immemorial has rendered *parturition* among the natives so easy, and is now for the first time offered to the public. The name and virtues of this wonderous plant was recently obtained from *Sken-an-do-ah*, an Oneida Chief, now residing at Syracuse, N. Y. It is neatly put up in two ounce bottles, with full directions for using, and is warranted to cure any case of female obstruction' in *twenty-four hours*. This may seem incredible, but if it fails in any case, the price will be refunded.—Purely vegetable and perfectly safe at all times.

☞ *Remember! This is the only medicine of the kind that is warranted in all cases; none other is worthy of confidence.* Sent by express to all parts of the country. Sold only at the *Remedial Institute*, No. 12 Suffolk Place, Boston.

Circulars and references with pamphlet on diseases of women and private maladies generally.—Sent free on receipt of stamp—addressed to Remedial Institute, No. 12 Suffolk Place, Boston, Mass.

and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.

Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is flooded with them

TO THE PUBLIC.

I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific men of London, Paris, Madrid, Cuba and America* to be the first Chemist in the *world*.

UDOLPHO WOLFE.

CHEMICAL TESTIMONY.

D. Jose Luis Casaseca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in the Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, and of Physical and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of the Island, as present H. M's. Director of the Institute of Chemical Investigation, &c., &c.

Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—

Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balneum maria, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 90 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water by mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.

From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consisting of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perfumes, is medicinal, and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Deetjen (of Bremen,) as residum after evaporation by steam, a substance almost insipid and very trifingly aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior." Messrs. Tracner have furnished me with a very small quantity of a greenish substance, of harsh metallic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.

I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. CRANE'S PATENT

METALLIC BURIAL CASKET.

A newly invented Burial Case, fashioned to accord with the feelings of the bereaved, and yet retaining all the requisites of an appropriate receptacle for the dead. There is no reason why such an article should be made to create, by its appearance, disagreeable sensations. Under such bereavements whatever tends to soften or make less keen the poignancy of our grief, commends itself to our consideration. So much that is repulsive has been discarded in the arrangement and SHAPE of this Case, that its name, the "*Casket Burial Case*," is an involuntary suggestion.—We, therefore, do not hesitate to aver that there has never been in use anything so entirely chaste, appropriate, and withal, convenient, as this invention.

The Case permits a view of the entire body after it is enclosed, the top being composed of beautiful French plate glass, which is divided into three sections, between two of which is inserted the name-plate. For each of these sections of glass there is an elaborately ornamented cap.

The Subscribers being sole Agents for this vicinity, have always onhand every size of the above, from 2 ft. to 6 ft. 4 inches.

Also, *FISKE'S METALLIC BURIAL CASES*; Walnut, and Imitation Rosewood COFFINS, of superior finish.

All orders will receive our *personal attention*, and may be supplied at one hour's notice at

Morning Chronicle.

☞ The Patriot intimates that Rufus Choate may not come before the public again, because Uncle Toby characterised his Adams speech as a piece of eloquent weakness. Well; no matter, the world would get on without him—exactly as they would if Uncle Toby's inkstand should dry up in consequence of the Patriot's politeness. It is probable, however, that Mr. Choate will talk and Uncle Toby will make items, for some time to come, if they live—and if they die somebody else will fill their places. But while they both live, if Mr. Choate continues to sport eloquent nonsense, weak theology and home-made scripture, there is no good reason why Uncle Toby should not say so, and show up the errors of a talker who is very great at getting rogues clear of the halter, but very small in the region of ethics, conscience or common sense.

☞ Crimes, Folly and Loss often go together. In Boston, John W. Russell, the defaulting clerk of Dunklee & Co., has lost over $1700 of the amount taken from his employers, at the gaming table, during the past few months. He was employed on a salary of $800 per annum, and spent three times that sum.

A Mr. Wm. B. Bennett reports that he had stolen from his pocket, in cash, the sum of $7600, while on Boston Common, Sunday evening. The report may be taken with a little allowance for reduced figures.

Mr. W. S. Libbey, of Great Falls, N. H., reports that he was robbed of $1200 in Boston on Thursday night. He had been to the National Theatre, and was robbed in the street by a pickpocket of whom he inquired the way to his hotel. He was out at an unsafe hour of the night, in an exposed condition.

Peter York, one of the worst men in Charleston State Prison, was found dead in his cell on Saturday morning, to the great relief of all the officers and servants in the prison. He was a murderer, and his sentence of death was commuted to imprisonment for life.

STRANGLED TO DEATH BY A SNAKE.—The Hingham Journal records the recent death of Mr. Daniel Cortheil of that town, who had for some time past been troubled by a living snake in his stomach. Several attempts were made to eject the reptile by different methods, which proved unavailing, until at last boiled milk was resorted, the steam of which, as it entered the mouth of Mr. C., started the snake up in his throat, where it stuck fast, and before it could be removed, Mr. Corthell choked to death. It is supposed that Mr. C. swallowed the snake when it was quite small, while drinking.

☞ An Irishman in the employ of Peter Ryan of Danbury, who was going to shoot a cat, loaded an old fashioned gun, first putting in a charge of shot, which he covered with a wad; and then a charge of powder, finishing up with a handful of corn. He then brought the old fuzee to bear upon the cat, but notwithstanding his repeated snapping it was no go. Heating his ramrod, he wormed it down through the corn till it reached the powder, when up went the ramrod through his fingers and thumb, planting the corn in his hand. Both cat and Pat survived, after having the corn "hoed out" by a doctor.

☞ The Atlas says, a death from hydrophobia—the first of the season—took place at the hospital in Boston on Sunday. The victim was an Irish lad named Patrick Murphy. he was bitten about five weeks since, but the fearful disease did not exhibit itself till ten days ago. On Saturday he was taken to the hospital, where he died in twenty-four hours, having been attacked by spasms, which were much increased by the sight of water.

While no condition of man proves either the right or wrong of an abstract proposition, it is nevertheless the fact, plain as the sun, indisputable as the noonday, that since the earliest records were made up, no portion of the black African race has been so far advanced, socially, morally or religiously, as in our Southern States to-day.—*Bath Times.*

This is a very strong and broad assertion—but a comparison of the condition of the British West Indies and the Northern States, with those above mentioned, does not quite sustain its truth. The social condition of a chattel is rather sad.

☞ Peter Todd, a little Newburyport boy, was sent to the State Reform School at Westboro. A wealthy couple of aged persons, on a visit to the School, favorably struck by the boy's appearance, adopted him, gave him their name, and announced their intention of making him heir to an estate of some $60,000.

☞ The late Elijah Corey, of Brookfield, Mass., in addition to former liberal gifts, bequeathed the sum of $5000 to Newton Theological Institution; also $2000 to the Baptist Missionary Union, $2000 to the American Tract Society, and $1000 to indigent Baptist ministers.

THE

GROVER & BAKER

SEWING MACHINE COMPANY,

No. 18 Summer Street, Boston,

Having greatly increased their facilities for manufacturing their

CELEBRATED FAMILY MACHINES,

with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYE MACHINE,

PRICE FIFTY DOLLARS.

MACHINES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR!

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.

FRANK W. MILLER.

PORTSMOUTH, April 12, 1859

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAYNE.

Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."

Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."

Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch—The Machine is easily kept in order, and easily used."

Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."

The Liver Invigorator.
PREPERED BY DR. SANFORD,
COMPOUNDED ENTIRELY FROM GUMS.

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove the dose often repeated all morbid or bad matter from the system, supplying a healthy flow of bile, invigorating the stomach, causing food to digest, PURIFYING THE BLOOD, giving tone and health to the whole machinery of the system. One dose is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to drive out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, will eradicate DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DYSPEPSIA by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all cases of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll sts., Brooklyn.

LIVINGSTON, Ala., Feb. 15, 1858.

PROF. WOOD—DEAR SIR: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—DEAR SIR: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 404 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empirics have come under his care, and more than three-fourths of this number are incurables upon his hands in perfect cases.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE REGULATING PILLS. These pills are justly renowned in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some pretending or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

Those who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jd dly

AMERICAN & FOREIGN PATENTS.
R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington, under date of 1836.
76 STATE, OPPOSITE KILBY ST., BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.
BOSTON, February 8, 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on twelve rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in its favor, by the Commissioner of Patents.
Boston, Jan. 1, 1859. R. H. EDDY.

AYER'S SARSAPARILLA,
A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to the large class of our afflicted citizens. How nearly we completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—
SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.
This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the encurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it whenever you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.
Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, and more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.
During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Acres bitter and painful disappointment has followed these and the various extracts of Sarsaparilla which flood the market, until the name itself is justly decpised, and has become a synonymous with impudence and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the infamy of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to obtain the full benefit of its medication from the system, the remedy should be judiciously taken according to directions on the bottle.
PREPARED BY
DR. J. C. AYER & CO.,
LOWELL, MASS.
PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

Ayer's Cherry Pectoral
Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more team assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills,
FOR THE CURE OF
Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Gout, Dyspepsia, Asthma, Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.
They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.
Price, 25 cents per box; five boxes for $1.

Great numbers of Clergymen, Physicians, Statesmen and eminent personages have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our American Almanac, in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.
Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand AYER'S, and take no other. The sick want the best aid there is for them, and they should have it.
All our remedies are for sale by W. E. Preston, Portsmouth, and by all druggists and merchants in the civilized world. 6m—je14

NEW STYLE!!
GREELEY'S PATENT ELASTIC BACK AND CENTRE SUSPENSION PANTALOONS.
Patented June 29, 1858.
J. E. HAM & CO.,
Have purchased the right to manufacture the above named Pantaloons. The advantages of this invention over the usual method of making Pants is: they may be made snug to the person, and still be as easy as though they were uncommonly large. Pants that are easy to stand in are easy to sit or stoop in.
Also for sale, GREELEY'S BRACE SUSPENDER—a superior Suspender for Skirts or Pants, and far superior to any other BRACE in the market. may25

Olcine Diamond Oil.
GREATEST ILLUMINATOR OF THE AGE.
This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.
It burns in the common oil lamp, with or without a chimney.
The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending gas light, and is cheaper. We claim for this Oil:
1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, being free from sediment.
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article, heretofore or now being offered to the public for illuminating purposes.

THURSDAY, JUNE 30, 1859.

POLITICAL CHIPS FROM MAINE.—The Democracy of Topsham passed a series of resolutions—1, endorsing the domestic policy of the administration of James Buchanan; 2, laying down the *duty* of Congress to place means in the President's hands to get Cuba; and 3—

Resolved, That the course pursued by certain disappointed *office seekers* and *factious newspapers* opposing and calumniating the national administration, and falsely claiming to speak as organs of the democratic party, while they distract its harmony, inevitable tends to promote the selfish ends of the vilest abolition traitors, and to destroy the integrity of the Union.

A democratic caucus recently kicked at a *judiciary* slave code in the passage of the following resolution:

Resolved, That we are equally opposed to that new, monstrous and alarming doctrine proclaimed at Washington and repeated by democratic presses in this State, that slavery in the territories must be protected by the judiciary.

To this the Norway Advertiser responds as follows:

The above resolve was recently passed at a caucus in the town of Appleton. We know of no paper in this State, or in Washington, that contends that "slavery in the territories must be protected by the Judiciary."

The Augusta Age justly remarks—"this only shows that the democrats of Appleton are better posted than the Norway Advertiser.—That paper has probably omitted to read the debate in the U. S. Senate, on the 23d of Feb. last; and the editorials of the Washington 'Constitution,' of which the following is an extract:"

The principles emblazoned on its [the democratic] banner are, non-intervention by Congress or by territorial legislature, to establish or prohibit slavery within the territories, and the protection of slave property therein, as long as the territorial condition shall remain, *by the judiciary*, under the Constitution of the United States.

HARVEST.—The ingathering of the wheat crop has already begun in several States, and the yield is reported to be good if not unusually large, and the quality excellent. In Kentucky it is said the harvest will be a splendid one—the yield extremely large and very fine. Good accounts are received from Tennessee. In Maryland and Virginia, according to the Baltimore American, the prospect for all the crops was never better. Alabama papers speak very flatteringly of the harvest in that State. The same is true of North Carolina. In Texas the yield of wheat is remarkably good. The wheat harvest is in progress in Southern Indiana.—The yield is reported "more than ordinary," and "grain good." In Southern Illinois, too, the wheat is being gathered, and a heavy yield reported. In Northern Illinois the reports are not so favorable. Both fall and spring wheat are unpromising. In Ohio wheat promises well; the damage by frost turns out to be comparatively trifling. Corn growing finely, and an unusually large crop is anticipated. This crop also looks well in Illinois and Indiana.

☞ A terrible accident occurred Monday night on the Michigan Southern Railroad. Thirty lives were lost and fifty or sixty are reported wounded. The accident was caused by the washing away of a culvert and the consequent throwing of the train from the track. The scene is spoken of as intensely horrible. Among the names reported we find of New England people the name of Chas. Scberman of Boston, wounded; E. A. Gurley of Addison, Vt., not injured. We notice only these two names from New England; if there were more they will be reported to-day. The train was running at the rate of twenty miles an hour.

☞ On Monday forenoon Miss Anna Hartwell of North Providence, was riding on horseback. She was thrown from her saddle, while her foot remained in the stirrup, and thus she was dragged about ten rods. She received severe injuries from the horse's hoofs, but she will probably soon recover.

☞ A woman who kept a tavern on Staten Island was burned to death on Sunday night. The whole affair is at present in obscurity, as the first intimation of the occurrence received by the other inmates of the house was the discovery of her body in the morning. It was greatly disfigured, and the furniture in the bed-room had been much burned also. An inquest was commenced.

☞ The trial of Judge Jackson before the Missouri Senate terminated with a verdict of not guilty on every article of the impeachment. The prosecution is thus shown to have been malicious, and the accusations unfounded. The cost of the prosecution is estimated at $30,000 to $50,000.

☞ The Vienese clergy, dissatisfied by the ill success of the Austrian arms thus far, have addressed themselves to the Virgin Mary, and humbly requested her, as "Generalissima," to take charge of the forces.

THE LEGISLATURE of this State visited the House of Reformation, Monday afternoon. They all seemed much pleased with their visit, and found the institution one worthy of State pride and liberal support. Remarks were made by Sawyer of Dover, Senator Lyman of Farmington, Moulon of Weare, Johnson of Bridgewater, Holbrook of Bedford, and others, complimentary to what they saw. The boys and girls went through with their regular school exercises and afterwards a subscription was taken to buy each a Testament for his own property. We feel sure, says the Mirror, that a visit to the institution will disarm any one of opposition to it.

☞ The Concord Statesman in speaking of the Legislature, says:—

The Legislature has voted next to nothing for the Prison, and the House of Reformation, and if there be any Democratic paper that shall henceforth, this year, accuse the Republicans of lavishly voting away the public money, there will be exhibited an instance of what a man is left to do when bereft of reason. How the Reform School can get along as it has been left, now a matter of doubt. Some small appropriations are made for the Prison; but the report of the Committee, asking for an appropriation to build a spacious and substantial work-shop, although it passed the House, was rejected in the Senate. The effect of the closing proceedings of the session upon the Prison and the Reform School remains to be seen.

The members parted in the kindest feelings towards one another. It was one of the most amicable sessions ever held.

The reason is quite obvious; the majority were men who are disposed by habit, education, and otherwise, to treat other people like gentleman.

Last year, the Committee on Elections was so much pressed that a second committee was appointed, to aid in the investigation of disputed titles to seats, or to unseat men who had no title. The law of 1858 essentially improved matters—so that men whose claims are very doutful will not be apt to come to Concord hereafter. The law of 1858 so well provided for contested election cases, that the Democrat said to have been chosen in Surry (whose name was printed in our Legislative Manual) did not come to the capital, and the Committee on Elections decided that Horace B. Shaw was the legally chosen representative.

The most essential measure of the session, the law for reorganizing the Judiciary, is understood to be the joint work of several able legal gentlemen who are presumed to know what should satisfy the public desire; and if it fail to to produce a chance for the better, the fault will not rest upon the rank and file in the Legislature; who said all along to the lawyers, "Make up such a bill as is wanted, and nothing remains for us but to carry it through." The new Judiciary Law abolishes the Court of Common Pleas, and makes a bench of six instead of eight Judges.

LEGISLATURE.—On the last day of the Session, the Pedlar Law reported, passed with exception of License fees, which were cut down to ten dollars. The Bill dividing the town of Gilmanton also passed, although it met with strong opposition in the Senate.

"DUTY," A NOVEL.

Among the new books in press by the enterprising Boston publishers, Messrs. J. E. Tilton & Co., 161 Washington St., one of the most attractive to a large circle of readers is "Duty," an Episcopal religious novel, written by a lady well known in our literary circles as being eminently qualified to produce a brilliant and popular work: and all who have seen the MS., have been enthusiastic in their praise, predicting for her volume a most undoubted success.

An eminent Episcopal clergyman who has read the work, and who is an excellent judge of such works, says that it is second to no book of the kind which has come under his notice.

In the hands of these publishers, the work will be neatly and handsomely executed, and so be commended to good taste in the mechanical as well as the literary aspect.

☞ Full dispatches of the Arabia's news indicate that the Austrians are preparing to defend Tyrol, and levying more troops for that defence; that Garibaldi is growing more formidable, and seems about to make a descent on Lower Tyrol; and that Louis Napoleon is getting ready to attack the Austrians by sea and land. Also that the Prussians are making great war preparations—and (as we have heard before) a decisive movement is expected.

FOREIGN NEWS.—By the arrival of the Arabia at Halifax, from Liverpool, June 18, we have three days later intelligence from Europe. There have been no more battles; the Austrians are still on the retreat, while the Allies are following up, and concentrating their forces for a decisive battle, which it is thought will take place in the course of a week. Lord Palmerston has succeeded in forming a strong Cabinet. The full dispatch was not received, owing to the refusal of the Halifax line to forward it.

☞ Mr. Henry W. Fuller, of Concord, son of Mr. D. G. Fuller, secured the first prize on Thursday, last week in the Law School at Cambridge. It was for an Essay, and was $60. Other prizes were awarded to other students. The gentlemen awarding these testimonials were Wm. M. Evarts, Esq., of New York, Judge Sharswood, of Philadelphia, and Henry W. Paine, of Boston.

☞ The Universalist Society in Salem are preparing for a suitable commemoration of the fiftieth anniversary of the dedication of their church, and of the installation of the first pastor, Rev. Edward Turner.

☞ On Sunday evening a party of New York police officers arrested a German Theatrical Company who were acting the play of Richard III. Richard himself came near escaping, but was caught while climbing a fence.

☞ On Sunday a woman in Philadelphia, while suffering from extreme despondency, brought on by destitution, flung herself from a window in third story of the house where she was living. She was instantly killed.

One of the broadest hints to pop the question which is possible for a young lady to give a young gentleman, is to declare to him her intention of never marrying.—*Ledger.*

☞ Five sisters of the Washburn family of Strafford, Ct., met a short time since to celebrate the natal day of one of the family, and their united ages were 322 years.

☞ Last week a boy thirteen years old, by the name of Perry, was instantly killed at Hall & Whittemore's paper mill, Bennington, N. H., by being caught in a belt and wound round a shaft.

☞ The mail service in Vermont is being reduced in many places from a daily to a tri-weekly.

WINSHIP'S

Patent Self-Ventilating Refrigerator.

It is now conceded by physicians that provisions are rendered very unwholesome by being confined in a Refrigerator in which the air is not constantly and effectually changed; and that the health of many families has suffered in consequence. The musty and sour smell common to most ice chests is a sure indication of this poisonous and offensive tendency.

This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Silliman has introduced a description of it in his new work on natural philosophy as the best illustration ever practically tested of perfect ventilation.

All sizes of those celebrated Refrigerators for sale at the Stove and Furnishing Warehouse of the subscriber, No. 46 Market street.

SPECIAL NOTICES.

Nature is the Great Physician.

This is now admitted by the medical profession as a fundamental principle of healing science. It is wisely provided by the human economy, that whenever anything is wrong in the physical system, the natural forces of the body are brought to bear to expel the disease. The great aim, therefore, is to strengthen the natural powers. The has been kept in view by the skillful compounder of Dr. J. HOSTETTER'S BITTERS, which operate to give fresh vitality to all the organs of the body. The effects of this medicine upon the stomach, the liver and the kidneys, are prompt and decisive. The patient who is wise enough to quit drugging, and try the BITTERS, soon feels as if he had taken a new lease of life, and as he continues the use of the article he is overjoyed to find the stream of health coursing through his frame. Let all from whose cheek the bloom has departed, give Dr. J. Hostetter's Celebrated Bitters a trial.

Sold by druggists and dealers generally, everywhere.

Agent for Portsmouth, J. H. THACHER, cor. of State and Pleasant Sts., and No. 12 Market St. Weeks & Potter, Boston, General Agents for the New England States.

DIABETES.—By this term is meant that mysterious affection of the kidneys, originating in a perversion of the nutritive powers, in which the strength is gradually drained away by the excessive secretion of urine. Remedies are usually merely palliative, but the PERUVIAN SYRUP by its iron element, introduces a vitalizing influence into the most secret chambers of nature's laboratory, and presides over the composition of the vital fluids.

SCROFULA CURED IN TWENTY DAYS.

William Miles, aged 37, had been afflicted with Scrofula for 11 years. On the 1st of August, by the advice of Dr. William Koot, of Marietta, Ga., he commenced the use of RADWAY'S REGULATING RESOLVENT. In 6 hours he felt a change for the better; in 12 hours small pustules were seen covering the whole surface of the body; in 24 hours he was covered with discharging sores. He still took the Resolvent freely, but finding his bowels very costive, he took six of RADWAY'S REGULATORS. They operated powerfully and pleasantly. He afterward took one Regulator at night. The sores caused him some irritation, which he allayed by bathing them with the Resolvent. The fourth day the sores all healed up. He continued the Resolvent and the Regulators for 20 days. Since the last day, which was on the night of the 20th day, he has not experienced any returning symptoms or uneasiness. His blood is pure, skin clear, and bowels regular.

R. R. R. is sold by Druggists everywhere.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

Dr. Wistar's Balsam of Wild Cherry.

The editor of the "Flag of our Union" says in his paper of July 17, 1858:—"The memory of Dr. Wistar is embalmed in the hearts of thousands who have experienced entire cure from *Coughs, Colds, Consumption and Pulmonary Disease* generally by the use of his *Balsam*. The invalid need not speak from experience. More than ten years since the editor of this paper tested its excellence by individual trial in his family, with the most surprising result, as a curative for pulmonary disease."

CASES OF CONSUMPTION AND WHOOPING COUGH CURED.

KEYPORT, N. J., May 20, 1858.

S. W FOWLE & CO.,—*Gentlemen*:—This certifies that I was troubled for many years afflicted with a disease of the lungs, until I became so weak, that it was with difficulty I could walk. My cough during this was very severe, causing me frequently to raise great quantities of blood, attended with profuse night sweats.

After using various remedies to no purpose, I was advised to try *Wistar's Balsam of Wild Cherry*. I did so, and before using the first bottle I was entirely restored to perfect health and strength.

I would also mention that this Balsam cured a little girl of mine of a severe attack of Whooping Cough, when her life was given over by the physician and all other remedies had failed.

(Signed) JONAH HOFF.

None genuine unless signed "I. BUTTS" on the outer wrapper.

Prepared by S. W. FOWLE & CO., Boston, and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchins, Portsmouth; J. F. Packer, Greenland; and dealers everywhere. 4wd&w

"BUY ME AND I'LL DO YOU GOOD."

Now is the time to use the great Spring and Summer Medicine.

Dr. Langley's Root and Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all so compounded as to act in concert with Nature, and their effect is truly *wonderful*. They absolutely cure

LIVER COMPLAINT, INDIGESTION,
COSTIVENESS, DIZZINESS,
HEADACHE, HEARTBURN,
PILES, FLATULENCY,
WEAKNESS, LOSS OF APPETITE.

All kinds of Humors, and every disease arising from a disordered Stomach, or bad Blood. If taken in large doses, Fever and Ague may be broken up and cured at once.

This has become a standard Medicine, and is decidedly *the best in the world*. Try it once, and you will be sure to do so again. The price is cheap—only 25 cents for a pint, and 37½ cents for a large bottle. You can't get a better one quick for the time is fast approaching when you will have all sorts of bad feelings if you don't take the Root and Herbs and drive them away. Sold by all Medicine Dealers everywhere.

Orders addressed to J. O. LANGLEY, or to GEO. C. GOODWIN & CO., 11 & 12 Marshall St., Boston, wholesale Druggists, Family Medicines of every description. They invite Apothecaries and Merchants generally to examine their stock. m12

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and most stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, FEMALE DISEASES, URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find in its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles's London Cordial Gin "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st.; J. Moran, 136 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. LOCAL.

From the Ballot.

Printing Office Removal.

The printing office of the Ballot is to be removed at once from Portsmouth to Exeter where the next number will be issued in a fortnight from to-day. The job of removal and the celebration of Independence the coming week will render it inconvenient for us to publish the paper next week, and as we have toiled unceasingly for nearly five years, we think our patrons will not be now unwilling to grant us a few days vacation.

The movement now decided upon has been under consideration for about a year past, and having carefully considered it in all its bearings, we have come to the conclusion that we can better serve the Republican cause, as well as advance our own interests, by the removal.

The Ballot will be published simultaneously in Exeter and Portsmouth, and distributed by carriers every Thursday morning. We shall endeavor, by frequent visits to old Portsmouth, to make it as acceptable as ever to our Portsmouth friends, whose patronage we hope to retain, while by a more central location of our printing office we hope to become better acquainted with the people of the county, and make our paper more emphatically what its title imports, a ROCKINGHAM COUNTY INTELLIGENCER.

There have been reports and rumors of this removal, on the street, for months: but we have preferred to leave the editor of the Ballot to announce his own movements at his own time. We have no doubt that the change will be materially advantageous to that paper—and we certainly wish the editor the fullest success he can expect or desire in his new location. However we editors of the city may differ politically or otherwise, in matters of opinion; our mutual personal and business relations have almost always been of the most friendly and fraternal character—more so than we ever knew them among different offices in any other place. We shall miss the mutual co-operation and assistance we have often exchanged with our neighbor of the Ballot, to the advantage of both.

There have been, for years, at least since the Chronicle was started, more newspapers printed in Portsmouth than in most other places of its size; and while the Ballot is not to be materially changed as a Portsmouth paper at present, yet it is no doubt will ultimately draw a large part of its patronage from Exeter and vicinity, should it become permanently established there.

The editor of the Ballot, Gen. Whittem, is well known in Exeter and all through the county; but still we wish to commend him to our Exeter friends, as a spicy editor, an excellent printer, and a most worthy gentleman. No doubt he has his failings, like *most* other mortals—chief among which we set down his lack of humor, which is hardly counterbalanced by an extra supply of sarcasm—though this is mainly visible in his writings, and rarely to be seen in personal intercourse with him.

No matter what the Chronicle and Ballot have thought and said of each other—Whittem is a good fellow, and we shall be sorry to lose him even partially. We don't think much of parties, or sects, anyhow; or of printing papers for them; and the case of the Ballot is a special instance of the thanklessness of such service. Had the Republican party encouraged and patronized the Ballot in proportion to its devotion and effectiveness in their favor, the editor need not now remove at all, unless to enjoy his well earned competency.

☞ We hear strange reports of the thermometer on Wednesday; some 90, 95, 102. At Great Falls, 96, at 2 P. M.

FIREWORKS.—Citizens of Portsmouth and adjoining towns who are disposed to make a display of fireworks on the evening of the glorious Fourth will see by our advertising columns that they may obtain any thing they want in that line at the stores of Wm. R. Preston or B. Hutchings in this city.

NORTH AMERICAN FIRE INS. CO.—The annual statement of the directors of this Hartford Company, for which Mr. John Sise is the agent in Portsmouth, shows the institution in a very flourishing condition.

RYE BEACH.—As will be seen by our advertising columns, the Ocean and Surf Houses at Rye Beach have opened for the season, with increased facilities for the accommodation of visitors. Both houses are well conducted, as all are aware who have visited them, and are well worthy the liberal patronage of the public.

☞ Wanted, at this office, a copy of the Weekly Chronicle of Saturday, June 11th. Will some friend accommodate us.

Messrs. Editors:—We wish to speak in season, as a word to the wise is sufficient. Should the Methodists hold their camp-meeting at the South New Market Junction, the present season, we most earnestly hope that active measures will be previously taken to suppress the sale of intoxicating liquors which was the sole cause of so much disturbance and rowdyism at their last meeting.

TEMPERANCE AND GOOD ORDER.

The liquor was not sold on the camp ground, but elsewhere, and the drunken rowdies came to the camp and made disturbance.

POE'S POEMS.—Mr. J. S. Redfield, 34 Beekman street, New York, has just issued a little gem of a volume, in blue and gold, viz., The Poetical Works of Edgar Allan Poe, with original memoir, highly interesting, portrait of the author, and his own preface. The volume begins with The Raven, and contains forty-six poems, and a lecture or essay on poetry, itself highly poetical. The book is fitted for a beautiful present, and an ornament and delight among parlor table literature.

Mr. Foster has the book for sale in this city.

☞ Adams Twichell, Esq., of Milan, the Road Commissioner elect, declines to accept the office on account of private business.—The nomination was unexpected to him, and would have been declined immediately had not a different course seemed advisable. The vacancy will be filled by the Governor and Council.

ADVICE TO GIRLS.—Girls, do you want to get married, and get good husbands?—If so, cease to act like fools. Don't take pride in saying you never do housework, never cooked a pair of chickens, never made a bed, and so on. Don't turn up your pretty noses at honest industry; never tell your friends that you are not obliged to work. When you go shopping, never take your mother with you to carry the bundle.—*N. Y. Ledger.*

AN INNOCENT MAN IN PRISON.—*New York, June* 28.—It is now ascertained beyond a doubt that Edward Griffiths, who a year ago was sentenced to prison for shooting and wounding a policeman, is entirely innocent. The two burglars, Kelly and Gordon, arrested last week, confess to having committed that crime, and say that Griffiths is a stranger to them.

DR. SWETT'S
CORDIAL OF DANDELION,
SPIKENARD & BONESET,

A remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and Pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.

Hundreds of testimonials might be added, proving the many cures by this pleasant and effectual medicine, especially of people advanced in life, whose debilitated constitutions have been greatly recruited by it. A trial of it is warranted to well pay the aged and dyspeptic. Price 75 cents.

[From Mrs. Ira Burnham, Exeter, N. H.]

I have suffered many years from the liver and bowel complaint. My disease, distressing disease I was reduced so low, some two years since, that I could not sit up more than ten or fifteen minutes at a time, when I began to take Dr. Swett's Cordial of Dandelion, Spikenard and Boneset, which has so fully restored my health that I now daily labor and attend to the business of my large boarding house. ELIZABETH BURNHAM.

Exeter, June 1, 1859.

This testimony of my wife is correct.

IRA BURNHAM.

[From Mrs. Ebenezer Blazo.]

GREENLAND, Nov. 20, 1858.

DR. SWETT—Dear Sir:—The distressing disease called the heart complaint, which has so long afflicted me, and which has baffled the skill of many of my former physicians, has been fully cured by the two bottles of your Cordial which I had of you last spring. Yours with respect,

SALLY BLAZO.

This unequalled medicine, together with others carefully prepared by Dr. SIMEON SWETT, from innocent but effectual vegetables, are for sale by him at No. 12 CABOT ST., Portsmouth, N. H.

and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.

Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is flooded with them

TO THE PUBLIC.

I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world*.

UDOLPHO WOLFE.

CHEMICAL TESTIMONY.

D. Jose Luis Casaseca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, and of Physics and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M.'s Director of the Institute of Chemical Investigation, &c., &c.

Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—

Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 62 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balnium maris, with an apparatus consisting of a glass retort and a receiver surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 60 degrees in Cartier's alcohol weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.

From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of gradation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any substance injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Deetjen (of Bremen,) as residuum after evaporation by steam, a substance almost insipid and very trifingly aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Schiedam," "Extra Superior." Messrs. Tracher have furnished me with a very small quantity of a greenish substance, of harsh metallic taste and very disagreeable, which extractive organic matter was treated with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.

I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. JOSE LUIS CASASECA.

CRANE'S PATENT
METALLIC BURIAL CASKET.

A newly invented Burial Case, fashioned to accord with the feelings of the bereaved, and yet retaining all the requisites of an appropriate receptacle for the dead. There is no reason why such an article should be made to create, by its appearance, disagreeable sensations. Under such bereavement whatever tends to soften or make less keen the poignancy of our grief, commends itself to our consideration. So much that is repulsive has been discarded in the arrangement and shape of this Case, that its name, the "*Casket Burial Case*," is an involuntary suggestion.—We, therefore, do not hesitate to aver that there has never been in use anything so entirely chaste, appropriate, and withal, convenient, as this invention.

The Case permits a view of the entire body after it is enclosed, the top being composed of beautiful French plate glass, which is divided into three sections, between two of which is inserted the name-plate. For each of these sections of glass there is an elaborately ornamented casp.

The Subscribers being sole Agents for this vicinity, have always on hand every size of the above, from 2 ft. to 6 ft. 4 inches.

Also, *FISKE'S METALLIC BURIAL CASES*: Walnut, and Imitation Rosewood COFFINS, of superior finish.

☞ The Portland Argus of Tuesday says:

Mr. Sinclair exhibited to a private audience, yesterday afternoon, at Lancaster Hall, "Andrieu's Great Paintings of the Drunkard's Progress." Those present, so far as we heard an expression, were pleased with the moral effect, and also with the superiority of the paintings as works of art. The exhibition ought to have a successful run in this city. The impressions made upon the youth by it may well be vivid and lasting.

The same paintings are coming to this city next week; they deserve success, and we hope they will be well encouraged here.

OUR LOST SCISSORS.—Br. Gilman says he found a dull, rickety pair of scissors, and ridiculously suggests that such a pair belongs to us! This is cool. Probably he is intending to palm off his own on us. He reminds us of a certain lawyer who took the hat of another and wrote "rascal" in it.—The owner of the hat appealed to the Judge, saying, "The fellow has not only stolen my hat but has written his own name in it."

P. S.—The scissors are returned, but they *do* seem a little dull. They have evidently been used lately!—*Banner.*

Used! We couldn't use them. They were sure to go the wrong way; to cut out where they should not, and to go in a circle where we wanted to cut straight. They may do very well for a theologian, but with so much indirectness, circumlocution, and evasion of a straight-forward course, will never answer for an honest political editor. —*Bath Times.*

☞ Gov. Douglas of British Columbia is behind the age. He has issued a proclamation, affording facilities for the naturalization of foreigners; but with an illiberality worthy of a bigot, has excluded members of the Jewish persuasion from its benefits. He has prescribed a form of oath which it is well known Jews cannot and will not take, viz.: "upon the true faith of a Christian."

ACCIDENT AT NIAGARA.—On Friday a man named Ferguson, from New Hampshire, who was walking along the banks of the Niagara river, from the Falls to the Suspension bridge, was startled by the sudden whistle of an approaching locomotive, and fell over the bank, landing eighty feet below. He remained insensible for some time, but when consciousness returned, he was able by his cries to arrest the attention of persons on the opposite side of the river, who rescued him from his position. No bones were broken, although he is badly bruised about his head and shoulders. Hopes are entertained of his recovery.—*Boston Journal.*

SCHOOL COMMISSIONERS.—The Governor has appointed the following gentlemen School Commissioners for the years 1859-60:

Rockingham County, Henry L. Boltwood, Derry; Strafford County, Daniel Hall, Dover; Carroll County, S. D. Quarles, Ossipee; Belknap County, William N. Blair, Laconia; Merrimac County, G. W. Gardner, New London; Hillsboro' County, Harvey Brickett, Hillsboro'; Cheshire County, S. H. McCollister, Westmoreland; Sullivan County, Adams Ayer, Charlestown; Grafton County, James W. Patterson, Hanover; Coos County, Francis L. Towle, Lancaster.

☞ Wm. T. Wentworth, Esq., of Salmon Falls has a cow which the Great Falls Advertiser says gives fifty and one-half pounds of milk *per diem*; more than twenty-three quarts a day. The cow girths over six and a half feet.

☞ The Bangor Jeffersonian amiably recommends people in pursuit of *brass*, to the Bath Times Office. The Times reciprocates by recommending those who wish for brass without the *br* to the Jeffersonian editor.

☞ The New York Herald Washington correspondent states upon the authority of "a leading Southern politician," that a formidable movement is afoot in the South and combinations forming, to nominate Gen. Pierce for the Presidency.

☞ William Story, (brother of the late Judge Story,) now living in Salem, was possessed of remarkable strength in his earlier years. He has been known to raise, with ease, eight fifty-sixes by each hand, and could lift an anchor weighing 941 pounds.

☞ Phillip Steinmertz, in New York, petitions for a divorce from his wife, on the ground, among others, that she beats him with a stick, and being "a very weak and sickly man" he cannot stand the discipline.

☞ A train on the Michigan Southern Railroad was thrown from the track on Monday night by the washing away of a culvert, and twenty or thirty persons are reported to have been killed.

Two young Cincinnatians ran away with a couple of vessels from that city last week. The vessels were of that kind that St. Paul calls the weaker vessels.—*Louisville Jour.*

GROVER & BAKER

SEWING MACHINE COMPANY,

No. 18 Summer Street, Boston,

Having greatly increased their facilities for manufacturing their

CELEBRATED FAMILY MACHINES,

with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYE MACHINE,

PRICE FIFTY DOLLARS.

MACHINES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER, AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made,—that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn how to use them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR!

Is there a husband, father, or brother in the United States, who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously and cheaper than can possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

We have seen one of Grover & Baker's $100 Sewing Machines used to do the Sewing of two families, for the past year or more, to the perfect satisfaction of all concerned—without once getting out of order, or requiring the least repair.—We would as soon try to dispense with a Cooking Stove in a family, as to attempt to get along without a Sewing Machine. Money invested in a good Machine pays much more than legal dividend, in actual cash savings—to say nothing of the higher consideration, of comfort and convenience, nay, even luxury, it affords to the ladies of a household. Whatever may be the experience with other Machines, we never knew a Grover & Baker to be discarded or found wanting.

FRANK W. MILLER.

PORTSMOUTH, April 12, 1859

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others.

ALLEN & PAIRE.

Mrs. Joshua Leavitt, wife of Rev. Dr. Leavitt, Editor of N. Y. Independent, says: "Having had one of Grover & Baker's Machines in my family for nearly a year and half, I take pleasure in commending it as every way reliable for the purpose for which it is designed, Family Sewing."

Mrs. Elizabeth Strickland, wife of Rev. Dr. Strickland, Editor of N. Y. Christian Advocate, says: "I confess myself highly delighted with your Sewing Machine, which has been in my family for many months. It has always been ready for duty, requiring no adjustment, and is easily adapted to every variety of family sewing, by simply changing the spools of thread."

Mrs. A. B. Whipple, wife of Rev. Geo. Whipple, New York, says: "I have used a Grover & Baker Sewing Machine for two years, and find it adapted to all kinds of family sewing, from Cambric to Broadcloth. Garments have been worn out without the giving way of a stitch.—The Machine is easily kept in order, and easily used."

Mrs. E. B. Spooner, wife of the Editor of the Brooklyn Star, says: "After trying several different good machines, I preferred yours, on account of its simplicity, and the perfect ease with which it is managed, as well as the strength and durability of the seam. After long experience, I feel competent to speak in this manner, and to confidently recommend it for every variety of family sewing."

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headaches, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fail or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds about 40 per cent. more in proportion, and retails for $3 a bottle.

LOTTERIES.

THE LOTTERIES OF

WOOD, EDDY & CO.,

Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of

WOOD, EDDY & CO.,

are authorized by the Legislature of either State.

A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga. All orders received before the time of drawing next to take place after same comes to hand.

Whole tickets are $10; halves, $5; and quarters, $2.50.

No ticket sent unless the money accompanies the order. Prizes vary from $20 to $50,000.

Every prize is drawn, and the result of drawing forwarded to all purchasers.

☞ A circular showing the plan of receiving it. All communications strictly confidential.

Write your address plainly, and direct to

WOOD, EDDY & CO.,
Wilmington, Delaware.

Or to WOOD, EDDY & CO.,
Augusta, Georgia.

☞ All letters to our address will be promptly acknowledged—and prizes cashed without delay.

NOTICE TO CORRESPONDENTS.

Those who prefer not sending money by mail, can use the "ADAMS EXPRESS COMPANY," whereby money for tickets, in sums of ten dollars, and upwards, can be sent as

AT OUR RISK AND EXPENSE,

from any city or town where they have an office. The money and order must be enclosed in a "GOVERNMENT POST OFFICE STAMPED ENVELOPE," or the Express Company cannot receive them.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the baleful influence of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may call on him, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics, were under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. They act with energy and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 diy

YOU HAD BETTER TRY

MY MOTHER'S SALVE

This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for healing BURNS, SCALDS, CUTS, BRUISES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, perfectly free from Mineral, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.

"My Mother's Salve" is safe and efficacious, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in many cases a permanent Cure.

"My Mother's Salve" is a BURN OR SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other preparation.

"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.

Directions for using **"My Mother's Salve"** are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportion, renewed at times, as good judgment may direct. For Rheumatism and Chronic pains, rub the part freely with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. Beck.

Oleine Diamond Oil.
GREATEST ILLUMINATOR OF THE AGE.
This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.
It burns in the common oil lamp, with or without a chimney.
The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this Oil:
1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, hence it is portable.
5. That it will afford a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.
Price $1.25 per gallon.

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, JULY 1, 1859.

If Mr. Douglas wishes to have slavery left to the action of a people of a territory, only so far as they may constitutionally act, and the constitution to be interpreted by the power which that instrument itself has invested with the power of interpretation, to wit, the federal judiciary, then there is no difference between him, President Buchanan and the great body of the democratic party. Does he mean anything more? It is to be hoped, and we trust, not.—*Lowell Adv.*

That is to say—if Mr. Douglas believes slavery to be *supreme*, and to be sustained everywhere by the Constitution and the Supreme Court—he may also believe in a popular humbug called *popular sovereignty*, which consists in doing just what the slave power will let them do, and no more.

If Mr. D. means no more than this, as the Lowell Advertiser hopes and trusts *he does not—then*, quoth the Advertiser, there is *no difference* between him, President Buchanan and the great body of the Democratic party!

Here is a platform with two planks: 1st, slavery supreme; 2d, popular sovereignty chained up by the supreme power.

It is rather doubtful whether "the great body of the Democratic party" in New Hampshire will stand on such a platform.—We think about ten thousand of them would jump off.

MOUNT VERNON.—A Washington letter in the New York Commercial Advertiser states that the proprietor of Mount Vernon is making investments in lands in the West, preparatory to removal, and that he will be ready to give up Mount Vernon this fall. The ladies need, according to an accurate and economical estimate, about twenty-five thousand dollars, to enable them to put the mansion and other buildings in repair, and to improve the grounds. The front portion of the mansion is falling down. It is slightly propped by posts. The house will soon be a mass of ruins if it be longer neglected.

☞ A gentleman walking along the streets of Philadelphia, in the vicinity of a large fire, was very much startled by the effect of a large coal, which, alighting on the top of his hat, burnt through and warmed his head intensely. His surprise was momentary, but terrific.

☞ The last Maine legislature passed an act of some importance to capitalists. It exempts cotton and woolen manufacturing establishments hereafter started—buildings, machinery and capital—from taxation for ten years, in all towns voting their assent to the act. The town of Brunswick, which has very superior manufacturing privileges, has given her assent by a vote of 254 to 17.

☞ A letter-bag for the United States Squadron on the coast of Brazil is now opened at the rooms of the Naval Library and Institute at Charlestown, Mass., and will be closed on Monday, July 4th. A letter-bag for the African Squadron is also opened at the same place.

LARGE PURCHASE IN CHICAGO.—John A. Washington, the seller of Mount Vernon, in company with a gentleman from Virginia, has just made purchases of real estate in Chicago and vicinity amounting to $154,000. This is about three-fourths of the price asked for Mount Vernon.

☞ The London Times proprietary have settled upon Mr. William Russell, their special correspondent in the Crimea and India, an annuity of £200 for life, this being entirely for past services, and independent of any work to be done by him in future.

☞ On Sunday several Irishmen in Providence desired strawberries, and began to levy contributions on the vines of Mr. Swan. He requested them to desist, and for reply they beat him severely. Two of them have been arrested, and will receive their proper desert.

☞ The Hon. Chauncey L. Knapp, formerly Secretary of State of Vermont, and late member of Congress from the Eighth District of Massachusetts is to take editorial charge of the Lowell Citizen and News.

☞ The Philadelphia Ledger says that since the last act of the Delaware Legislature, renewing the lottery grants, the business has revived with redoubled activity, and lottery tickets and lottery policies are sold in New York and Philadelphia by the thousands.

☞ Mrs. Hoffman (a sister of Epes Sargent) and Franklin Haven, Jr., both of Boston, who were passengers on the train which met with such a terrible accident on the Michigan Southern Railroad, both escaped without injury.

☞ There is to be a grand celebration of the Fourth of July, at Great Falls. A procession is to be formed at 9 A. M. escorted by the Great Falls Light Infantry, with music by the Great Falls Cornet Band,—and will proceed to a Grove, where an Address will be given by John P. Hale.

There are to be fire-works in the evening, and various other attractions.

"DUFFING" THE LADY'S LAP-DOG.—*Expense of Supporting the Cats and Dogs of London.*—It is stated that some twenty men in London earn their livelihood by "duffing"—viz.: painting common birds to represent some rare and foreign sort, or who invent non-existing breeds. The more outlandish a bird is made to look, the more chance there is of selling it. A vulgar rat was once transformed into an elegant microscopic dog for a lady's pet. For a few weeks the little quadruped enjoyed the cares and caresses of the admiring mistress, till the growth of its claws enabled it to take a promenade by means of the curtains to the ceiling, and so the workmanship of the "duffer" stood confessed. It is calculated that in London there are 200,000 cats, and it is estimated that to support them and the dogs, 52,000 horses are annually boiled down and served out by 1000 men, at the cost of £100,000 per annum to the city.

☞ The Bath Times says, "the Democratic party may win in the coming contest by sustaining the doctrines of Judge Douglas, which are true Democratic doctrines, in regard to the Territories, while if they ignore these principles they are as sure to be beaten as the sun rises on election day, if the Republicans should put in nomination a popular candidate. N. P. Banks, for instance, would sweep the North against any candidate of the anti-Douglas clique, should be found in existence when the campaign comes off. Mr. Douglas is the only man who can save the Democratic party in the coming campaign, probably. He is the only man who can carry New York, Pennsylvania, Ohio, and other Northern and Western States. Will the Democrats take him and the doctrines he advocates, or will they take defeat—a long defeat—a defeat only to be retrieved by their children, or perhaps, their children's children."

☞ One of the editors of the Atlas says:

We have attended every Democratic National Convention since 1844, and we have seen how the buying and selling has been done. The South generally stands firm.—They are not in the market. They are buyers, and they never fail to effect their end. They know the venal character of the free State Democracy—and how to affect it to suit their purposes. Although there is a large proportion of the Democratic party in the free States favorable to the nomination and election of Judge Douglas, and a large majority of delegates will be elected to represent the free States in the Charleston Convention, professedly in his favor, yet they will sell him and themselves out, as soon as opportunity occurs after reaching Charleston. We ask that these statements may be borne in mind, and see if the result does not prove their entire correctness.

VISIT TO THE SHAKERS.—Gov. Goodwin, the Secretary of State, the State Treasurer, the President and about half the Senate, the Speaker, Clerk, Assistant Clerk and many members of the House, with their ladies, and numerous residents of Concord, the crowd numbering about fifty or sixty persons, witnessed the Shaker service Sunday, at their meeting-house in Canterbury, and mostly dined at the family dwelling-house presided over by David Parker and Mary Whitcher. The bountiful repast, prefaced by Mary's excellent blackberry wine, the air of perfect neatness pervading the house and grounds, and the great new barn, built by the Shakers at an expense of $10,000, were all subjects of admiration—as also was the decorous manner in which the peculiar services of the Shakers were conducted. Shaker Village is about twelve miles from Concord, and the ride, when, as now, "hill and dale, forest and meadow," are clothed in their greenest, richest robes of summer, is extremely pleasant.—*Patriot.*

FREEWILL BAPTISTS.

At the New Hampshire Yearly meeting, with the Freewill Baptist Church at Great Falls, there were 125 ministers in attendance, the largest number that ever attended any Yearly Meeting.

The number of church members is 9696; and of ministers in connection 133.

☞ The Bath Times says:

In the absence of the editor from his post a few days to attend the Convention in Bangor, he has installed a "sub" who will do the honors in an exceptable manner.

This ex-option reminds Uncle Toby of scores and hundreds of droll blunders made by *subs* of all sorts, especially sub-proof-readers—at which the readers have wondered, and the writers—"spoke unadvisedly with their lips."

☞ The wife of John Warner, of Stafford Springs, Ct., disappeared about three weeks since, and her dead body has just been found in the adjoining town of Ellington. The circumstances are such as to lead to the belief that Warner murdered her, but the body was so much decayed that no evidence of wounds could be discovered.

☞ The Lebanon (Tenn.) Herald says: "During a thunder storm on Wednesday night of last week, sixteen mules belonging to E. D. Mottly, of this vicinity, were killed by one stroke of lightning. They were all huddled together under a tree. They were young mules, and were worth $3500."

☞ In Hardwick, Vt., last season, 320,000 lbs. of maple sugar were made,

☞ U. S. ship Portsmouth was spoken 5th inst., lat. 38 05 N. lon. 30 06 W.

AT THE MINES.—Horace Greeley writes to the Tribune from Gregory's Diggings, in the Rocky Mountains, June 9th, a description of the appearance of things. Flour there is $44 a barrel; other things in proportion. Mr. Greeley says "less than half the four or five thousand people now in this ravine have been here a week; he who has been here three weeks is regarded as quite an old settler. The influx cannot fall short of five hundred per day, balanced by an efflux of about one hundred. Many of the the latter go away convinced that Rocky Mountain gold-mining is one grand humbug. Some of them have prospected two or three weeks, eating up their provisions, wearing out their boots—and finding nothing. Others have worked for the more fortunate for $1 per day and their board and lodging—certainly not high wages when the quality of the living is considered.

"And I feel certain that, while some—perhaps many—will realize their dreams of wealth here, a far greater number will expend their scanty means, tax their powers of endurance, and then leave, soured, heartsick, spirit-broken. Twenty thousand people will have rushed into this ravine by the first of September, while I do not see how half of them are to find profitable employment here. Unless, therefore, the area of the diggings shall meantime be greatly enlarged—of which there is no assurance—I cannot imagine how half the number are to subsist here, even up to that early setting in of winter which must cause a general paralysis of mining, and consequently of all other Rocky Mountain industry. With the gold just wrested from the earth still glittering in my eyes—and one company has taken out to-day, at a cost of less than $25, a lump (condensed by the use of quicksilver) which looks like a steel-yard poise, and is estimated as worth $510—I adhere to my long settled conviction that, next to outright and indisputable gambling, the hardest (though sometimes the quickest) way to obtain gold is to mine for it."

☞ Last Sunday night, about midnight, some villain set fire to an old house in Topsfield, Mass., near the house of a Mr. Hale. As he expected, Mr. Hale and family went out to see the fire—and then the thief went in and stole Mr. Hale's watch.

Mr. Hale sent a letter to the conductor of the Newburyport train, when it stopped at Topsfield, Monday, addressed to Mr. Palmer, of the firm of Palmer & Batchelder of Boston, describing the watch, in case it should be offered for sale. Mr. Palmer, on reading the letter, placed it in the hands of the chief of the watch department, and within five minutes a man came in with the watch for sale.

The watch, which was originally sold by Mr. Palmer to Mr. Hale, was fully identified. The person who offered it said that he obtained it in the way of trade, and the matter was given in charge to a police officer for further investigation.

☞ Mr. Alfred Jansen, of Le Claire, Illinois, died a few days ago from the sting of a bee. He was a wealthy and cultivated young Englishman, and was stung in the neck by a common honey bee. When stung, he said it was a serious matter for him, as he had once, after being stung, swooned away and remained insensible for several hours. Saleratus was applied to the wound, but he was soon violently ill, became insensible, and in a few minutes had convulsions, and three-quarters of an hour from the time he was stung was dead.

We are indebted to the lady Principal of the celebrated Mystic Hall Seminary, at Medford, Mass., for a polite invitation to attend "the Reunion" at the Hall, on Wednesday afternoon, June 29th. But unfortunately our invite did not reach us till Thursday morning—"a day after the fair" pupils had "exhibited" themselves, no doubt to their own delight, the credit of the school and the satisfaction of a crowd of admiring friends.

☞ A Proclamation to the Jews of New York, concludes as follows: "Is it not, then, most important for every one of us to ask himself this question: 'Has the Messiah come, or do we still look for another?' Rabis, answer! Teachers in Israel, to the rescue! The faithful ones in Israel demand it.'"

☞ Another strong man has turned up. His name is William Brooks of Kennebunkport, Me. He weighs 172 pounds, and can lift a barrel of pork with his teeth. We suppose also, that he can chew it all—in small quantities.

☞ There was, in New York City, on Wednesday evening, a heavy gale of wind from the South West, accompanied by much thunder and lightning, which seriously interfered with the working of the Telegraph Lines.

SUICIDE.—A despatch dated Salem, 28th, says:—Mr. Jonathan Kemp of Marblehead, while under the influence of ardent spirits, cut his throat this morning, and died. Aged 39 years.

Dr. C. P. Bronson's New Cures

—FOR—

Consumption, Liver Complaints, Dyspepsia, and all other Chronic Diseases arising from over-use, General Debility, or Nervous Prostration.

These new and successful preparations of Food for the Blood (based upon the analysis in HEALTH, which gives the true standard, and in different DISEASES, when we ascertain the deficiencies in each case, to supply them with the proper materials for making pure and healthy Blood,) are among the most important discoveries of the age. They are destined to produce a revolution in the treatment and cure of CHRONIC DISEASES. Having a perfect scientific foundation, they are far removed from the sphere of all Nostrums and Patent Medicines. Physicians of all schools are using these PREPARATIONS (not *Medicines*) with the most satisfactory results. They are taken by drops, not spoonfuls.

THEIR RANGE OF CURE:

CONSUMPTION, THROAT DISEASES, BRONCHITIS, COUGHS, COLDS, DYSPEPSIA, LIVER COMPLAINTS, HEADACHES, PALPITATION OF THE HEART, NEURALGIA, LOSS OF APPETITE, INABILITY TO SLEEP, DEPRESSION OF SPIRITS, IRREGULARITIES, and MALE AND FEMALE WEAKNESS, &c. In all cases of Chronic Complaints peculiar to FEMALES, these Preparations will be found invaluable.

THEIR PARTICULAR SPHERE.

It is not claimed that they will cure all diseases; but in those specified above, (as thousands can testify,) they are the most efficacious of any now known.

Be particular, in ordering, to mention which of the three Preparations are required. If for Consumption, &c., the first and third alternately, are best; if for Liver Complaints, &c., the 2d; or Dyspepsia, (when inveterate) the 2d and 3d in alternation, are more successful. In moderate cases, *one* will suffice.

There are three preparations, one for Consumption in all its various forms; one for Liver Complaints and their attendants; (to which particular attention is called,) and one for Dyspepsia. Our of nearly two thousand strongly marked cases there have not been 20 failures.

From numerous testimonials we select the following:

A VERY INTERESTING CASE.

Mr. D. L. ELDER, (of this city,) is well known as one of the most hopeless cases of Consumption. Messrs. Horace Greeley and W. C. Bryant, (of the *Tribune* and *Post*,) are familiar with the following facts and circumstances:

Mr. ELDER was actively engaged in the last Presidential campaign, and his intense labors, day and night, broke down his health, which had not been good for many years; this was followed by a severe cough and bleeding from the lungs, which continued down to last December, when he commenced using one of these Preparations—For the previous two months he bled every day, sometimes quite profusely, and his cough was terrible. In a month's time he was able to be about through the city during all weathers, and in less than two months after beginning to use the remedy, he was engaged in canvassing the city, and was on his feet nearly all the time from 9 o'clock in the morning till four in the afternoon, conversing with hundreds of persons, and transacting a large amount of business. He is now as hearty a looking man as one in a thousand. His present residence is at 562 Hudson-street, New York.

Dr. Bronson can be consulted either by letter, addressed to Box 3398, P. O., or at the office of the General Agents from 9 to 12.

These Preparations can be obtained through any respectable Druggist in the United States or Canadas. Price $1 per Bottle, with full directions. All orders must be addressed to

SPECIAL NOTICES.

Nature is the Great Physician.

This is now admitted by the medical profession, as a fundamental principle of healing science. It is wisely provided by the human economy, that whenever anything is wrong in the physical system, the natural forces of the body are brought to bear to expel the disease. The great aim, therefore, is to strengthen the natural powers. This has been kept in view by the skillful compounders of Dr. J. HOSTETTER'S BITTERS, which operate to give fresh vitality to all the organs of the body. The effects of the medicine upon the stomach, the liver and the kidneys, are prompt and decisive. The patient who is wise enough to quit drugging, and try the BITTERS, soon feels as he feels had taken a very large dose of bad medicine. We continues the use of the article he is overjoyed to find the stream of health coursing through his frame. Let all from whom the check the blooph has departed, give Dr. J. Hostetter's Celebrated Bitters a trial.

Sold by druggists and dealers generally, everywhere.

Agent for Portsmouth, J. H. THACHER, cor. of State and Pleasant Sts., and No. 12 Market Sq; Weeks & Potter, Boston, General Agents for the New England States.

DIABETES.—By this term is meant that mysterious affection of the kidneys, originating in a perversion of the nutritive powers, in which the strength is gradually drained away by the excessive secretion of urine. Remedies are usually merely palliative, but the PERUVIAN SYRUP by its iron element, introduces a vitalizing influence into the most secret chambers of nature's laboratory, and presides over the composition of the vital fluids.

SCROFULA CURED IN TWENTY DAYS.

William Miles, aged 37, had been afflicted with Scrofula for nine years. On the 1st of August, by the advice of Dr. William Root, of Marietta, Ga., he commenced the use of RADWAY'S RENOVATING RESOLVENT. In 6 hours he felt a change for the better; in 12 hours small pustules were seen covering the whole surface of the body; in 24 hours he was covered with discharging sores. He still took the Resolvent; finding his bowels very costive, he took six of RADWAY'S REGULATORS. They operated powerfully and pleasantly. He afterward took one Regulator at night. The sores commenced him some irritation, which he allayed by bathing them with the Resolvent. The fourth day the sores all healed up. He continued the Resolvent and the Regulators for 20 days. Since the last day, which was on the night of the 20th day, he has not experienced any returning symptoms or uneasiness. His blood is pure, skin clear, and bowels regular.

R. R. R. is sold by Druggists everywhere.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

Dr. Wistar's Balsam of Wild Cherry.

The editor of the "Flag of our Union" says in his paper of July 17, 1858:—"The memory of Dr. Wistar is embalmed in the hearts of thousands who have experienced entire cure from *Coughs, Colds, Consumption and Pulmonary Disease* generally by the use of his *Balsam*. The invalid need not fear to give this preperation a careful trial, as we speak from experience. More than ten years since the editor of this paper tested its excellence by individual trial in his family, with the most surprising result, as a curative for pulmonary disease."

CASES OF CONSUMPTION AND WHOOPING COUGH CURED.

The following from a highly respectable gentleman, speaks for itself:

KEYPORT, N. J., May 20, 1858.

S. W FOWLE & Co.,—*Gentlemen*:—This certifies that I was for many years afflicted with a disease of the lungs, until I became so weak I could walk with difficulty I could walk. My cough during this was very severe, causing me frequently to raise great quantities of blood, attended with profuse night sweats.

After using various remedies to no purpose, I was advised to try *Wistar's Balsam of Wild Cherry.* I did so, and before using the first bottle I was entirely restored to perfect health and strength.

I would also mention that this Balsam cured a little girl of mine of a severe attack of Whooping Cough, when her life was given up by the physician and all other remedies had failed.

TO THE CITIZENS OF NEW HAMPSHIRE:

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London from pure malt barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the Vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally, in cases of DYSPEPSIA, LIVER COMPLAINT, GRAVEL, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, and the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin "not only superior to any other, but the best article of the kind he has ever met with."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travelers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. LOCAL.

FOURTH OF JULY.— The Programme decided on by the Committee of Arrangements in this city, is :

The bells will be rung and a national salute (38 guns) fired at sunrise, meridian, and sunset. The Portsmouth Cornet Band will play on Market Square in the evening, from 7 to 11 o'clock.

The following is the list of Fireworks to be exhibited on Market Square :

Signal Rockets will be fired from sunset till half past 8 o'clock, when the exhibition will commence with

GRAND ILLUMINATOR ; lighting up the area with the brilliancy of noonday, and producing a most beautiful and startling effect.

ROCKETS AND SERPENTS.

PYRAMID OF THE NILE ; composed of brilliant silver and colored lance, with a blazing wheel at the base which mutates to batteries of candles, discharging stars of every color and gerniture.

ROCKETS AND COLORED STARS.

MOTTO : In letters of brilliant fire appears the words: "CITY OF PORTSMOUTH, 1859," flanked with batteries, discharging stars of every hue and color, and ending with a grand explosion of stars.

ROCKETS AND STREAMERS.

VULCAN'S DELIGHT ; composed of scrolls of variegated fires; mutates to a circle of brilliant lance colored pots and crimson fires, ending with radiating fires and suns.

ROCKETS AND GOLD RAIN.

LIBERTY TREE ; composed of Roman Candles tinged with green and discharging stars. At the base is a vertical revolving wheel of brilliant colored fires. The whole is surmounted by a gorgeous representation in brilliant lance of the Liberty cap, the whole forming a grand piece in honor of "the birthright of every American."

ROCKETS AND SILVER STARS.

SATURN AND HIS SATELLITES ; a cluster of stars in silvered and colored lance, forming a grand constellation, and ending with a brilliant display of magic fires.

ÆRIAL SHELLS AND BOQUETS ; a cluster of Roman Candles ; mutates to a mortar with a heavy report, throwing a shell several hundred feet into the air, where with a second report it explodes into brilliant colored stars and boquets.

ROCKETS AND SERPENTS.

STAR OF INDEPENDENCE ; a revolving centre of crimson silver and blue fires extended to points of variegated lance and jets of sun-fire forming an immense star of fire. A battery in the rear is constantly discharging stars, and the whole ends with a grand flight of rockets in honor of the day.

MINES AND CANDLES.

DIAMOND BRILLIANTS ; a gorgeous representation in silver and colored lance of the celebrated Kooh-i-noor diamond surrounded by radiating fires and suns.

ROCKETS AND STREAMERS.

CASCADE ; a contra revolving centre of saxons, brilliants and colored fires, mutates to revolving jets of spur fire, ending with explosions.

ROCKETS AND GOLD RAIN.

PRIDE OF AURORA ; a revolving wheel of blue and green fire; changes to brilliant crimson; mutates to extensive suns and stationary fire, with heavy maroon reports.

ROCKETS AND COLORED STARS.

FLAG OF AMERICA ; the star spangled banner in brilliant crimson silver and blue, wrought with variegated lance, is seen and saluted with a grand flight of rockets, in honor of the "National Colors."

TORBILLONS.

L'ORIENT ; a combination of wheels of white and jessamine fires, with crimson, green and purple changes and marooned jets.

ROCKETS AND SERPENTS.

FIREMAN AND MILITARY ; a piece in silver and colored lance, representing the emblems of and dedicated to the Firemen and Military of Portsmouth.

ROCKETS AND SILVER STARS.

SPANISH POLKA ; a piece formed of contra revolving wheels and flyers constantly changing form and color, flitting before the eyes of the beholder, and producing a brilliant and fantastic effect.

TORBILLONS AND CANDLES.

OLD '76 ; the motto "76" is seen formed of brilliant colored lance and flanked by batteries of mines and candles, ending with a grand explosion.

ROCKETS AND GOLD RAIN.

FINALE ; a grand National Tableaux formed of an immense foliated Column of July, having upon the front the Escutcheon of the United States surmounted by the Eagle of America; between the two columns, in letters of brilliant fire appears the motto "JULY 4, 1776, —birth of Freedom;" from this central structure extend wings of brilliant cross fire and batteries of mines, shells and candles, which with flights of rockets forms a grand and imposing National Tableaux, and Boquet de Fue.

PRIME SOAP WITHOUT MAGIC.—Adams & Curtis, at their Soap Works in Washington street, are manufacturing a superior article of soap for all the purposes for which the magic soap is used—and without magic or miracle it performs the wonderful work of "bringing a clean thing out of an unclean," without destroying the clothing or injuring the hands. This soap is not only better but cheaper than the old fashioned ordinary soap—so the makers say, and you can try it and see.

It is sold by the grocers and by the manufacturers.

☞ Rev. George W. Kilton, formerly pastor of the Pleasant street Christian Church in this city, died at Providence, R. I., 23d June, in the 58th year of his age. Mr. K. had been called to part with his son, who died about a week before him.—From that time he rapidly sunk away being probably hastened, by grief at the loss of his son, till death closed the scene and reunited those so recently separated.

Mr. Kilton was a man of delicate organization, keenly alive to all joys and sorrows in domestic and social life. He was, moreover, a studious, devout and faithful minister, of sterling worth and of real modesty, who claimed no more of the public attention than he was willing to earn.

He has left many friends here, among those who could appreciate his worth, and who with us regret his departure—but for him to die was gain. T.

☞ Two boys while fishing on our river on Thursday, caught a sturgeon about six feet in length, and weighing—we should judge—about one hundred and seventy-five pounds. He was chasing a school of mackerel, and ran ashore above tide-water, where he was captured by the boys. He probably wouldn't "eat" very well; although they are eatable, yet we should prefer something more delicate.

FOURTH OF JULY TO BE CELEBRATED! Ketchum's Patent Improved One-Horse Mowing Machine, to be exhibited on the farm of Charles Hayes, Greenland Road, at 9 o'clock, on the morning of the 4th.

This Machine was exhibited about a week since in the presence of several gentlemen, who have seen other Machines work ; and they are unanimously agreed that this Machine did the best execution, and was the easiest draught machine in use. Persons contemplating purchasing machines would do well to attend the above exhibition, and see the machine in operation.

C. H. HAYES,
Agent for the sale of the machine.

☞ We understand that Mr. Albert Trefethen, of New Castle, who was engaged in bringing a vessel up the harbor on Thursday, was accidentally knocked overboard.

LOSS OF THE SHIP FLEETWOOD.—The ship Fleetwood, Captain Dale, of and from Boston Feb. 9, for the Society Islands, was lost May 4th, in lat. 60 S., lon. 71 W., by coming in collision with an iceberge at night, which stove in her bows, causing her to leak, and the pumps not being able to to keep her free, the crew were obliged to abandon her in the boats, at three A. M. of the 5th. They remained in sight until daylight, and when they left her, her decks were under water. The first mate's boat (Mr. Babson's) was picked up on the 10th, by a British barque from Valparaiso for Liverpool, which landed them at Pernambuco, about the 3d of June. There were four seamen in the boat, one of whom had his feet frozen off. Capt. Dale informed Mr. B. of his intention to steer for Faulkland Island. He had with him his wife and child and sixteen men. The Fleetwood was built by the late Capt. Samuel Badger, in 1852, at his ship yard in Kittery, was 663 tons register, rated "A 1," and was owned by F. Dale and others of Boston.

☞ We understand that the Sunday School at Kittery, Navy Yard Village, is to hold a Social Fair at the Sons of Temperance Hall, on Monday Evening next, July 4th.

☞ There is to be a great trial of Mowing Machines, on the 4th of July, at 11 o'clock, near the Greenland House.

SALMON FALLS MANF. CO.—The annual meeting of this Corporation was held at the Counting Room of the Company at Salmon Falls, Rollinsford, N. H., Wednesday, at 11 o'clock, A. M. Twenty-five stockholders were present. In the absence of the President, Ignatius Sargent, Esq., J. M. Tredick, Esq., of this city, was called to the chair. The meeting proceeded to the choice of officers, and the following gentlemen were elected :—

Clerk—Joshua Converse; Directors—Ignatius Sargent, William Appleton, George W. Lyman, Robert M. Mason, John Aiken, and J. M. Tredick.

The Treasurer's report made the following exhibition of the financial condition and business operations of the company :—

Raw material consumed, 4,671,706 lbs., 10,000 bales; sheetings manufactured, 3,484,709 yards; drillings, 5,732,803, yards: wide drills, 635,909 yards; cotton flannels, 903,251 yards; on hand 630,000 yards of different materials.

Expenditures, $765,772.45 ; to which add $87,375.49, estimated value of stock on hand at the beginning of the year.

Sales account, $933,428.31 ; with $50,878.17, present valuation of stock unsold.

Capital stock $1,000,000 ; real estate, $880,698.54 ; cash or quick capital, including reserved profits and deducting suspense account, &c., $213,000 ; net gain in the account during the year, $69,714.83.

The Treasurer's exposition met with unqualified approbation among the stockholders, and tended to inspire new confidence in the business of the corporation. After the meeting dissolved, the business of the day closed with the usual dinner of the corporation.

The Salmon Falls Co., and the Cocheco Co., have agreed to put into the New England Trade Sale next month goods to the amount of $20,000 each, as a proof of their interest and the means of encouraging that excellent and well timed business enterprise.

STEAMER ARGO ASHORE.—*St. Johns, N. F., June* 29.—The steamship Argo, from New York 23d inst., for Galway, via St. John's N. F., went ashore last night in Trepassey Bay. It is feared that she will prove a total wreck. Passengers saved. We have no particulars.

NEW YORK, June 30.—The greater portion of the luggage and cargo of the luggage and cargo of the wrecked steamship Argo is inevitably lost. There were 200 passengers on board, nearly 100 women, and about 30 infants-in-arms. A great many will be left destitute. Four lunatic women were put on board in New York, about whom no one knew anything. Miss Heywood, the vocalist, has lost everything, including a large amount of valuable baggage.

BEETHOVEN.—A letter from an American in Europe says: "I have made a pilgrimage to the grave of Beethoven, who was buried in a cemetery in the village of Wahring just outside the city limits. A plain obelisk marks the spot, on which is the figure of a harp and the simple word 'Beethoven."

☞ Dr. C. P. Bronson's Blood-Food, for the cure of Consumption and other Chronic diseases, is advertised in this day's paper, and we cheerfully call attention to what seem to be Discoveries in the Healing Art. Prof. B. has long been known as a teacher of Elocution in our Colleges, and lecturer on Physiology, &c., and he here presents his three Preparations, which purport to be remarkably successful. It appears that by analysing (*Chemically and Microscopically*) the Blood of healthy persons, he ascertained the true standard, (for as is the *Blood*, such must be the *body*, of course,) and then by analysis of the Blood of different patients suffering from Consumption, Liver Complaints, Dyspepsia, &c., he finds out its deficiencies in each case respectively, and supplies them with the appropriate elements.

MARRIED.

In Danville, Mr. Andrew J. Davis of Kingston, to Miss Sarah M. Manu, of Lowell, Mass.

DIED.

In this city, on Thursday morning, June 30th, Col. JOHN N. SHERBURNE, aged 65 years and 9 months.

He was a hardware merchant, for a number of years a member of the firms of Pickering & Sherburne and Sherburne & Blunt,—and was extensively known and much esteemed. At a much later period he was Collector of Customs of the Port of Portsmouth; and has filled other offices to general satisfaction.

☞ Funeral on Saturday afternoon at 4 o'cl'k, from St. John's Church.

In Boston, June 30, Mr. AVERY PLUMER of this city, aged 72. He died suddenly, while on a visit at the house of his son, Avery Plumer, Jr.

Funeral on Saturday, at 12 o'clock M ; from No. 4 Church Street;—Members of the Masonic Lodges, and of the Mechanic Association are invited to attend ;—as the deceased was a worthy member of both fraternities.

In Newburyport, Mrs. Mary Ann Raynes, wife of Capt. Edmund S. Raynes, formerly of Deer Isle, aged 47 years.

GOOD FOR RHEUMATISM.
GOOD FOR DYSPEPSIA.
GOOD FOR GRAVEL.
GOOD FOR GOUT.
GOOD FOR FEVER & AGUE.
GOOD FOR KIDNEY AND BLADDER COMPLAINTS,
and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether more transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.
Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is flooded with them

TO THE PUBLIC.
I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world*.
UDOLPHO WOLFE.

CHEMICAL TESTIMONY.
D. Jose Luis Casaseca, Corresponding Member of the Royal Academies of Madrid and Barcelona, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, and of Physics and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M.'s Director of the Institute of Chemical Investigation, &c., &c.
Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—
Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a bainum maria, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 60 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.
From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Deetjen (of Bremen,) as residum after evaporation by steam, a substance almost insipid and very strongly aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior." Messrs. Tranner have furnished me with a very small quantity of a greenish substance, of harsh metallic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.
I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. JOSE LUIS CASASECA.

DR. SWETT'S
CORDIAL OF DANDELION,
SPIKENARD & BONESET,
A remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and Pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.
Hundreds of testimonials might be added, proving the many cures by this pleasant and effectual medicine, especially of people advanced in life, whose debilitated constitutions have been greatly recruited by it. A trial of it is warranted to well pay the aged and dyspeptic. Price 75 cents.
[From Mrs. Ira Burnham, Exeter, N. H.]
I have suffered many years from the liver and heart complaint. By these distressing diseases I was reduced so low, some two years since, that I could not sit up more than ten or fifteen minutes at a time, when I began to take Dr. Swett's Cordial of Dandelion, Spikenard and Boneset, which has so fully restored my health that I now daily labor and attend to the business of my large boarding house. ELIZABETH BURNHAM.
Exeter, Junction 1, 1859.
This testimony of my wife is correct.
IRA BURNHAM.
[From Mrs. Ebenezer Blazo.]
CAMBRIDGE, NOV. 20, 1858.
DR. SWETT—Dear Sir:—The distressing disease called the heart complaint, which has so long afflicted me, and which has baffled the skill of all my former physicians, has been fully cured by the two bottles of your Cordial which I had of you last spring. Yours with respect,
SALLY BLAZO.
This unequalled medicine, together with others carefully prepared by Dr. SIMEON SWETT, from innocent but effectual vegetables, are for sale by him at No. 12 CABOT ST., Portsmouth, N. H.

WINSHIP'S
Patent Self-Ventilating Refrigerator.

It is now conceded by physicians that provisions are rendered very unwholesome by being confined in a Refrigerator in which the air is not constantly and effectually changed; and that the health of many families has suffered in consequence. The musty and sour smell common to most ice chests is a sure indication of this poisonous and offensive tendency.

This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Silliman has introduced a description of it in his new work on natural philosophy as the best illustration ever practically tested of perfect ventilation.

All sizes of these celebrated Refrigerators for sale at the Stove and Furnishing Warehouse of the subscriber, No. 46 Market street.

CRANE'S PATENT
METALLIC BURIAL CASKET.

A newly invented Burial Case, fashioned to accord with the feelings of the bereaved, and yet retaining all the requisites of an appropriate receptacle for the dead. There is no reason why such an article should be made to create, by its appearance, disagreeable sensations. Under such bereavements whatever tends to soften or make less harsh the polaverty of grief, commends itself to our consideration. So much that is repulsive has been discarded in the arrangement and shape of this Case, that its name, the "*Casket Burial Case*," is involuntary suggestion.—We, therefore, do not hesitate to aver that there has never been an use anything so entirely chaste, appropriate, and withal, convenient, as this invention.

The Case permits a view of the entire body after it is enclosed, the top being composed of beautiful French plate glass, which is divided into three sections, between two of which is inserted the name-plate. For each of these sections of glass there is an elegantly ornamented cap.

The Subscribers being sole Agents for this vicinity, have always onhand every size of the above, from 2 ft. to 5 ft. 4 inches.

Also, *FISKE'S METALLIC BURIAL CASES*; Walnut, and Imitation Rosewood COFFINS, of superior finish.

All orders will receive our *personal attention*, and may be supplied at one hour's notice at

The Liver Invigorator.
PREPARED BY DR. SANFORD,
COMPOUNDED ENTIRELY FROM GUMS,

is one of the best FURGATIVE and LIVER MEDICINES now before the public.

THEY REMOVE The Bile effectually, and the BLOOD, giving tone and health to the whole machinery of life.

One dose often repeated will do much bad mat-ter from the system, supplying the place of a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery of life.

One dose often repeated will be a sure cure for cause of the disease—effecting a radical cure.

CHOLERA MORBUS is cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures CONTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two tea-spoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose taken after medicine as a preventive CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and causes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will care DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

THE ONLY ARTICLE
UNRIVALLED IN THE MARKET,
WITH IMMENSE
HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*; and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reason for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to you for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes: the large, medium and small; the large holds a half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

LOTTERIES.

THE LOTTERIES OF
WOOD, EDDY & CO.,

Are chartered by the States of Delaware and Georgia, and have sworn commissions as appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of

WOOD, EDDY & CO.,

are authorized by the Legislature of either State.

A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga. All orders received being filled in the drawing next to take place after same comes to hand.

Whole tickets are $10; halves, $5; and quarters, $2.50.

No ticket sent unless the money accompanies the order. Prizes vary from $20 to $50,000.

Every prize is drawn, and the result of drawing forwarded to all purchasers.

☞ A circular showing the plan of receiving it. All communications strictly confidential.

Write your address plainly, and direct to

WOOD, EDDY & CO.,
Wilmington, Delaware.
Or to WOOD, EDDY & CO.,
Augusta, Georgia.

☞ All letters to our address will be promptly acknowledged—and prizes cashed without delay.

NOTICE TO CORRESPONDENTS.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the fatal influence of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and to all such persons he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy, and superior virtue in curing all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely worthless, and get up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S. Ladies will find accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 dly

CURRANTS AND DATES.
3000 LBS. for sale low by the package or pound, by HENRY F. GERRISH,
j2 15 Daniel Street.

Oleine Diamond Oil.
GREATEST ILLUMINATOR OF THE AGE.
This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.
It burns in the common oil lamp, with or without a chimney.
The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this oil:
1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, hence it is portable.
5. That it will stand a lower degree of temperature than any other oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.
Price $1.25 per gallon.
For sale, wholesale and retail, at
96 Market Street, Portsmouth,
where the public are invited to call and examine for themselves.

Dr. B. S. Goodwin, Indian Physician,
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. would respectfully invite all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN.
Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Palsey, Fits, Gravel, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters!
Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858.

FRENCH
Steam Scouring and Fancy Dyeing,
IN BOSTON
A. LEWANDO pledges himself, from long study and practical experience in his native country and throughout Europe, in the art of Chemistry and coloring, that he can produce superior work, done, and his mode of preparing goods for coloring is such that the fabric will retain its former strength and lively virtue, and in no instance assume that dull, decayed look, unavoidably produced by dyers in this country.
Particular attention given to Dyeing and Refinishing, in a NEW and VERY SUPERIOR STYLE Silks, Satin, Velvet, Merino, Thibets and Cashmere Shawls, Canton and Italian Crapes, Gimps, Fringes, Curtains, Piano and Table Covers, Hosiery, &c. Feathers colored and curled—by a newly discovered process, far surpassing anything yet offered to the public. He is prepared to dye and cleanse every kind of Ladies' and Children's Dresses, Silk, Velvet or Wool, plain or embroidered, without removing the trimmings, or taking to pieces—Spots taken out without injuring or changing color. Silks, Silk Dresses and Ribbons watered.

SATURDAY, JULY 2, 1859.

THE COLORADO.

The following account from a Jaffna paper, is contained in a letter to that paper, from Point Pedro, giving some details of the gale wherein the Colorado was lost.

The Ship Colorado, 1200 tons, Captain M. D. Ricker, appeared in sight on the evening the 22nd, about 4 o'clock, off Devil's Point. As the wind was blowing due North, every effort to put out to sea proved null; and the Captain *ex necessitate rei*, entered our roadstead, and dropped anchor in eight fathoms just opposite the Wesleyan Mission House. The same night the wind shifted from North to Northwest, and continued to blow in this direction all through Saturday and Sunday. The vessel rode safely, secured by two strong cables and large anchors till Sunday morning, when by the violence of the surf and the wind—which had now risen to a perfect gale—she began drifting towards land, dragging her anchors without parting the cables. It is my deep conviction that if one single cable and one anchor could have been sent to her assistance, the Colorado might have rode out the gale.—But as it was, the vessel was slowly yet surely nearing the fatal rocks, that line the whole of the Point Pedro coast. The captain and the crew knew full well the danger that threatened them, and set about preparing to meet the worst. The carpenter—a Dane—was ordered to cut away the main-mast; and the sailors flocked to the head of vessel, quitting the stern on account of the "pooping" that was now dreadful. The Captain's wife was in the cabin but was soon brought out, since a collision with the reef seemed every moment inevitable. While Mrs. Ricker was being led out towards the place where the sailors stood, a wave washed her overboard. On seeing his wife fall, the captain jumped into the foaming sea to save her, and so did a young English sailor and a Malay Lascar. But all four sank to rise no more. Their bodies have not up to this been discovered. A few seconds after this painful accident, about 5:30 A. M., the ship struck against the coral reef near Mr. Davidson's estate. The first shock produced little or no injury whatever; but the second completely wrecked her. The parts gave way, and if not for the timely assistance of the Sub-Collector, not one single man would have reached the shore. Rafts were sent to the scene of the wreck, and the mate, and young Ricker, (the captain's son, quite a boy,) together with the remaining seamen, came safe to land.

The captain's son was hospitably entertained by Mr. Braybrooke till the 27th, when he left in the government steamer Pearl, which passed Point Pedro *en route* to Galle. The Pearl took in addition to this boy thirteen men belonging to the wrecked vessel. Those left behind are located in the Rest House.

Besides the Colorado there were eight native crafts anchored here before the gale. Out of these, only two escaped; but not they without serious damage to masts and rigging. The other six were stranded—nine lives lost.

May 2, 1859.—The wreck of the Colorado was sold last week by Mr. Dunlop to one of the Point Pedro merchants for £500.

THE ONION CROP this year, as for several years past, is to prove a failure. That is the report from Danvers, and the same from Newbury; the maggot has done its work; and in the towns of this county, acres have been plowed up and devoted to other crops. In many instances tobacco has been substituted, and for that the onion lands are peculiarly adapted.—*Newburyport Herald.*

What a pity "the maggot" wouldn't eat up the tobacco plants, too; and thus rid the world of *two* vile crops. But unfortunately there are few creatures except man, dirty enough to eat tobacco—so we suppose "the maggot" above-named will leave it undisturbed for mankind to enjoy.

☞ Henry Ward Beecher says, "where any scheme of doctrine, any church organization, any Christian denomination, succeeds in making man less free in conscience, less free in hope, and less joyful, you may be sure that that is not a right system; for the characteristic effect of Christian faith is to give to the soul of man, in all its range of affections, moral sentiments, and reason, a greater development and a greater liberty, than it could attain through any other instrumentality."

☞ The Richmond Whig states that Mr. Douglas will be obliged "to co-operate with the conservative Opposition of the country in the next Presidential election. He has nothing to expect either from the so called National Democracy, or from the Black Republicans. He is distrusted, hated and feared by both, and his only sure hope for the future is for him and his friends to support the candidate of the conservative Opposition party, which will be the successful party in the next Presidential contest, and which is likely to hold the reins of government for years to come."

PARISIAN SERVANTS.—An American lady, long resident in Paris, and perfectly acquainted with its customs, gives the following item in relation to Parisian servants: You are aware of the petty taxes which our domestics are in the habit of imposing upon everything purchased by them for the use of the household. First in order is the "sou per pound" paid them by grocers, butchers, bakers, &c., for their custom.—This, however, is but a trifle in comparison. On a rabbit, bought at two francs and fifteen sous, the cook pockets the fifteen sous. For each dish ordered from a restaurant, the servant gets a premium of five sous. So with butter and every other article of food. I have calculated that, over and above her wages, my cook's profits amount to fifty cents a day. Nor is she satisfied with this. She has made a nice little bargain with my butcher, to the effect that when she buys six pounds of mutton or veal *for me*, the butcher is to add a pound of sirloin steak *for her*. There is no use in changing servant or butcher. They are all thieves alike, and I might only make bad worse if I interfered.

On this the Traveller remarks, "after reading this, we apprehend some of our people will be better contented with their servants. It seems we in the United States are not the only sufferers."

So it seems, says Uncle Toby,—and how much better those families are served, who *serve themselves*, than those are who live in miserable bondage to *thievish domestics*, dirty housemaids, and unclean, unskilful cooks. The working man, who has a help meet for him, eats a really better dinner the year round, than any nobleman or gentleman whose kitchen or servants' hall is thronged with mercenaries.

☞ Latest news from Utah indicates a continuance of the troubles in the territory. It was reported that a company of armed Mormons was encamped at some distance from Salt Lake City, bidding defiance to the federal officers. Kirk Anderson had been removed from the editorship of the Valley Tan, the anti-Mormon organ, the tone of the paper being offensive to Gov. Cumming and John Hartnell, to whom belonged the property of the office. Judge Cradlebaugh had made a personal visit to the mountains for the purpose of collecting testimony against the rebellious Mormons. A fraudulent flour contract had been reported at the camp of the army, by which it was said the sum of $400,000 was to be made by speculators at the expense of the government.

☞ In South Boston, as we learn from the Traveller, on Thursday afternoon, Mr. William Little, pattern maker, together with his whole family of nine persons, were taken seriously ill from the effects of poisoned milk eaten at dinner, and which was purchased at a small store in the vicinity.—They were in a critical condition till doctors were called, when proper remedies were administered, and all recovered speedily and were shortly out of danger, with the exception of one little child four years old, who is still dangerously sick. Three other persons who partook of milk for dinner, purchased at the same store, were also made ill by it, but not seriously so. The milk has not yet been examined, but it will probably be chemically analyzed, and the mystery of its poisonous effects explained.

☞ James Boston, a landshark in New York, who made a living by robbing sailors, was killed by one of his victims, named Richard A. Eddy, on Tuesday. He got Eddy drunk and shipped him six months ago, pocketing Eddy's advance pay of $30. They met again on Tuesday, when Boston, in an insulting manner, accosted him with, "Eddy, I Shanghaied you once, and will do it again." Eddy cautioned him not to touch him, but he gave no need to the caution and struck him. Eddy then plunged his knife into Boston's body, and the latter fell and died.

RASCAL ARRESTED.—According to the Buffalo Express, a man named Cooley was lately arrested at Cleveland, in consequence of a design to blow up and destroy the beautiful steamer City of Buffalo. It appears that Cooley, who is by profession a diver, proposed to Mr. E. B. Ward, owner on the opposition steamer line between Cleveland and Buffalo, to blow up the steamer City of Buffalo, and thus to break up the line. Mr. Ward pretended to agree with his plans, and advanced money for the powder, but afterwards called in the police and had Cooley, with his confederate, named Ray, arrested. On the premises of Ray was found the "infernal machine" with which the destruction of the vessel was to be consummated. Such is the story of the Express.

MAINE DEMOCRATIC CONVENTION.—By the Maine State Democratic Convention, held at Bangor, Hon. Manasseh H. Smith, (administration,) of Portland, was nominated for Governor. Two of the delegates to the National Convention are Douglas men, and two administration men.—Strong popular sovereignty resolutions were adopted.

☞ P. T. Barnum delivers a Fourth of July oration at East Bridgeport, Conn., this year, and Rev. E. H. Chapin, one at Stamford, Conn.

☞ The Navy Department has made a discovery of the manner in which liquor is smuggled by ships' crews on board ships.—Bread is made into regular ship loaves, inside of which are tin cans, holding about a pint, filled with liquor. The last Pacific mail brought one of these boxes filled with bread, inside of which is a can filled with whiskey.

☞ A shocking accident occurred at Jones' Woods, near New York on Thursday, on the occasion of the excursion of the St. Mary's Catholic Church. An Irish woman had one of feet torn completely off on Thursday, while riding on a "flying horse." It appears that her foot caught between the horse and the platform as she was being whirled around with great velocity, and was wrenched off at the ankle.

CONTRACT.—A letter from Camp Floyd, Utah, in the Missouri Democrat, states that the contract for flour for the army was given by Secretary Floyd to Col. Martin and John Holliday at $28 60 per 100 pounds, although others offered to supply it as low as $7 50 per hundred. The contractors buy Utah flour at from $5 to $8 per hundred, and as the daily average consumption is not less than 5900 pounds, the contractors will realize the handsome sum of $412,000 profit.

☞ The police of Philadelphia have recovered $2000 worth of zephyr worsteds pawned at various places by a colored porter in the employ of James R. Devine, who placed full confidence in his porter, and did not know that he had been robbed till the police, who had been watching the porter, made known the fact.

☞ When an express wagon arrived at at a station on the Lower Trinity, in California, with a blooming widow in charge, a justice court, then in session, was adjourned for ten minutes, to give the attorneys and jury a sight at crinoline!

FIRE INSURANCE IN NEW YORK.—In the city of New York there are eighty-four fire insurance companies, with aggregate capitals of $16,696,010. The losses paid last year amounted to $1,904,014: the dividends were $2,434,976. The losses, expenses, taxes &c., of 1858 were upwards of six millions of dollars.

A CHILD FALLING INTO A WOMAN'S LAP.—On Saturday afternoon a child in Hartford fell from a third story window, but instead of immediately striking the ground, it fell into the lap of a woman sitting upon the sidewalk. Though seriously injured, it may recover.

☞ The Manchester Mirror reports the failure of John Gass, the noted hotel keeper at Concord N. H. His liabilities are $35,000. On Tuesday, ninety writs were served on him.

☞ The Louisville Courier declares that Senator Douglas can carry "no Southern State, district, county or precinct, while he entertains the doctrines" of the letter just published.

☞ The Philadelphians are agitating the question of taxing the Insurance Companies for the water used in the extinguishment of fires.

A pickerel was caught the other day with a squirrel in his stomach. Query—Did the squirrel go into the water after the pickerel, or the pickerel go up the tree after the squirrel?

☞ The emigration of free colored people from the United States to Hayti is rapidly increasing. As many as five hundred of these persons have already left Louisiana alone, and it is probable that this number will receive large accessions during the year, pricipally from those Southern States which have passed laws requiring their removal within a specified time, or the alternative of being reduced to slavery. On the 24th inst. another vessel cleared from New Orleans with 200 emigrants for Port au Prince.

HISTORY OF THE TEMPERANCE REFORM.—Prof. Amasa McCoy, of Albany, Corresponding Secretary of the World's Temperance Committee, and late editor of the Prohibitionist, has long been collecting materials for a full and authentic history of the Temperance reform, from its origin to the present time, tracing its influence upon the habits, the social usages, the politics and the legislation of this and other countries. He will be grateful for any information that will be serviceable to him in his interesting and important labor.—*N. Y. Tribune.*

☞ The thunder storm of Wednesday evening caused great consternation among the Springfield ladies. In one parlor says the Republican, we saw five or six whose usually well rounded proportions had been suddenly and mysteriously exchanged a few moments previous for those of more primitive times. Bigelow's seventeen springs are supposed to be conductors of the electric fluid.

"PATRIOTIC."—Mrs. Oliver Frost, 50 years old, had an eye torn out and a cheek bone broken at Cambridge by a "serpent" on Saturday night, during the display of fireworks that had been postponed since the 17th of June. A forerunner of the "patriotism" of the Fourth.

PRINTING IN FRANCE.—From official returns it appears that the number of printing offices in France is but 1037. These employ 9500 compositors, 3000 pressmen, and 900 correctors and overseers. The produce of the whole is estimated at five millions of dollars.

SPECIAL NOTICES.

Nature is the Great Physician.

This is now admitted by the medical profession, as a fundamental principle of healing science. It is wisely provided by the human economy, that whenever anything is wrong in the physical system, the natural forces of the body are brought to bear to expel the disease. The great aim, therefore, is to strengthen the natural powers. This has been kept in view by the distinguished compounder of Dr. J. HOSTETTER'S BITTERS, which operate to give fresh vitality to all the organs of the body. The effects of this medicine upon the stomach, the liver and the kidneys, are prompt and decisive. The patient who is wise enough to quit drugging, and try the BITTERS, soon feels as he if he had taken a new lease of life, and he continues the use of the curative he is overjoyed to find the stream of health coursing through his frame. Let all from whose cheek the bloom has departed, give Dr. J. Hostetter's Celebrated Bitters a trial.

Sold by druggists and dealers generally, everywhere.

Agent for Portsmouth, J. H. THACHER, cor. of State and Pleasant Sts., and No. 12 Market Sq. Weeks & Potter, Boston, General Agents for the New England States.

DIABETES.—By this term is meant that mysterious affection of the kidneys, originating in a perversion of the nutritive powers, in which the strength is gradually drained away by the excessive secretion of urine. Remedies are usually merely palliative, but the PERUVIAN SYRUP by its iron element, introduces a vitalizing influence into the most secret chambers of nature's laboratory, and presides over the composition of the vital fluids.

SCROFULA CURED IN TWENTY DAYS.

William Miles, aged 37, had been afflicted with Scrofula for years. On the 8th of June, 1858, by the advice of Dr. William Root, of Marietta, Ga., he commenced the use of RADWAY'S RENOVATING RESOLVENT. In 6 hours he felt a change for the better; in 12 hours small pustules were seen covering the whole surface of the body; in 24 hours he was covered with discharging sores. He still took the Resolvent freely, but finding his bowels very costive, he took six of RADWAY'S REGULATORS. They operated powerfully and pleasantly. He afterward took one Regulator at night. The sores caused him some irritation, which he allayed by bathing them with the Resolvent. The fourth day the sores all healed up. He continued the Resolvent and Regulators for 20 days. Since the last day, which was on the night of the 20th day, he has not experienced any returning symptoms or uneasiness. His blood is pure, skin clear, and bowels regular.

Dr. Wistar's Balsam of Wild Cherry.

The editor of the "Flag of our Union" says in his paper of July 17, 1858:—"The memory of Dr. Wistar is embalmed in the hearts of thousands who have experienced entire cure from *Coughs, Colds, Consumption and Pulmonary Disease* generally by the use of his *Balsam*. The invalid need not fear to give this preparation a careful trial, as we speak from experience. More than ten years since the editor of this paper tested its excellence by individual trial in his family, with the most surprising result, as a curative for pulmonary disease."

CASES OF CONSUMPTION AND WHOOPING COUGH CURED.

The following from a highly respectable gentleman, speaks for itself;

KEYPORT, N. J., May 20, 1858.

S. W. FOWLE & Co.,—*Gentlemen:*—This certifies that I was for many years afflicted with a disease of the lungs, until I became so weak, that it was with difficulty I could walk. My cough during this was very severe, causing me frequently to raise great quantities of blood, attended with profuse night sweats.

After using various remedies to no purpose, I was advised to try *Wistar's Balsam of Wild Cherry.* I did so, and before using the first bottle I was entirely restored to perfect health and strength.

I would also mention that this Balsam cured a little girl of mine of a severe attack of Whooping Cough, when her life was given over by the physician and all other remedies had failed.

Prepared by S. W. FOWLE & CO., BOSTON, and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchings, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spnot 4wd&w

"BUY ME AND I'LL DO YOU GOOD."

Now is the time to use the great Spring and Summer Medicine.

Dr. Langley's Root and Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Rhubarb, Mandrake, Dandelion, &c., all so compounded as to act in concert with Nature, and their effect is truly *wonderful.* They absolutely cure

LIVER COMPLAINT,	INDIGESTION,
COSTIVENESS,	DIZZINESS,
HEADACHE,	HEARTBURN,
PILES,	FLATULENCY,
WEAKNESS,	LOSS OF APPETITE.

All kinds of Humors, and every disease arising from a disordered Stomach, or bad Blood. If taken in large doses, Fever and Ague may be broken up and cured at once.

This has become a standard Medicine, and is decidedly *the Best in the World.* Try it once, and you will be sure to do so again. The price is cheap—only 25 cents for a pint, and 37½ cents for a large Bottle. You can't get a bottle too quick for the time is fast approaching when you will have all sorts of bad feelings if you don't take the Root and Herbs and drive them away. Sold by all Medicine Dealers everywhere.

Orders addressed to J. O. LANGLEY, or to GEO. C. GOODWIN & CO., 11 & 12 Marshall St., Boston, wholesale Dealers in Family Medicines of every description. They invite Apothecaries and Merchants generally to examine their stock. m13

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from pure Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restorative of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin "just as only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of weather.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, liquor dealers, and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Burr & Co., 1 Cornhill; S. E. Pecker, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; H. Smith & Co., 20 Exchange st.; Gilbert, Abbott & Co., 78 Brons st.; Deland & Snow, 34 Elm st. and others.

PRIME SOAP WITHOUT MAGIC.—Adams & Curtis, at their Soap Works in Washington street, are manufacturing a superior article of soap for all the purposes for which the magic soap is used—and without magic or miracle it performs the wonderful work of "bringing a clean thing out of an unclean," without destroying the clothing or injuring the hands. This soap is not only better but cheaper than the old fashioned ordinary soap—so the makers say, and you can try it and see.

It is sold by the grocers and by the manufacturers.

WASHINGTON, June 30.—The Ex-Minister to Spain, Mr. Dodge, has published a card in which he says that the prospect of acquiring Cuba by purchase, under the present circumstances, is inauspicious: he has never even intimated that the proposition in any way involved the honor of Spain, or that the purchase might not, at a future period, be effected. He believes that the course recommended by the President will lead to the consummation of that object, by an honorable negotiation.

EFFECT OF WAR ON HUMAN STATURE. Dr. Bell says that if the curse of war be long entailed on a nation, the physical energies of the people may suffer by the loss of its population to such a degree that the succeeding generation will fall short of its standard stature, as was the case with the French youth drafted for the army after the general peace. Thus, in 1826, out of 1,023,422 young men drafted to serve in the army, 380,213 were sent back because they fell short of even the diminutive stature of four feet ten inches French.

and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.

Put up in quart and pint bottles, in Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is flooded with them

TO THE PUBLIC.

I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world.*

UDOLPHO WOLFE.

CHEMICAL TESTIMONY.

D. Jose Luis Casaseca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, as applied to the Arts, of the Royal Conservatorio of Madrid, and of Physics and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M.'s Director of the Institute of Chemical Investigation, &c., &c.

Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—

Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balaium maria, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 90 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil inseparable from alcohol.

From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves the mouth perfumed with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is medicinal; and, on account of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this Island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Deetjen (of Bremen,) as residum after evaporation by steam, a substance almost insipid and very trifingly aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior." Messrs. Traener have furnished me with a very small quantity of a greenish substance, of harsh metalic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.

I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so.

CORDIAL OF DANDELION,
SPIKENARD & BONESET,

A remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and Pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.

Hundreds of testimonials might be added, proving the many cures by this pleasant and effectual medicine, especially of people advanced in life, whose debilitated constitutions have been greatly recruited by it. A trial of it is warranted to well pay the aged and dyspeptic. Price 75 cents.

[From Mrs. Ira Burnham, Exeter, N. H.]

I have suffered many years from the liver and heart complaint. By these distressing diseases I was reduced so low, some two years since, that I could not sit up more than ten or fifteen minutes at a time, when I began to take Dr. Swett's Cordial of Dandelion, Spikenard and Boneset, which has so fully restored my health that I now daily labor and attend to the business of my large boarding house. From the Journal.

EASTERN RAILROAD COMPANY. The twenty-fourth annual report of the Directors of the Eastern Railroad Company is quite full and generally satisfactory, and shows good financial management, under the administration of the new President, Geo. M. Browne.

For the year ending May 31st, 1859, the earnings of the Road have been:

From passengers,	$493,092 54
" freight,	130,553 63
" parcel post and cars,	12,998 29
" United States mail,	9,624 00
" miscellaneous,	627 63
" property accounts, rents, etc.	7,611 18
" territorial accounts,	3,788 02
Total receipts,	$668,135 29

The expenditures have been:

For 12,248 cords of wood,	$58,444 39
" 381 tons of coal,	2,190 51
" machine shop,	2,462 37
" maintenance of way,	77,869 32
" locomotive power,	41,146 77
" train expenses,	98,003 02
" office establishment,	22,592 55
" mail expenses,	1,286 04
" station expenses,	44,900 07
Rent of Grand Junction Road,	11,000 00
Insurance and taxes,	9,714 91
Total expenses,	$343,609 95
Net,	$319,525 34
Interest paid and accrued,	124,150 21
Net interest off.	195,375 13
Net earnings last year, interest off, were	138,041 92
Showing a gain the present year of	$57,333 21

The gain has been increasing during the last six months.

The aggregate receipts of the main road and branches for the year ending May 31, 1858, were $616,156 47; and for the year ending May 31, 1859, $663,135 29. Increase $46,978 72.

The expenses last year were $322,353 88; and this year $322,895 04. Increase $541 16.

The interest account last year was $134,436 63; this year $124,150 21. Decrease $10,286 42.

The liabilities of the road have been reduced in three years nearly $700,000, namely, from $5,816,159, in 1856, to $5,128,719. This last amount includes the capital stock, $2,853,400, and $2,105,500 funded debt.

Three engines have been changed from wood to coal burners, and are running regularly and satisfactorily, and at a large saving of expense. It is proposed to go on changing the engines into coal burners as fast as conveniently practicable, in the hope and expectation of reducing thereby the annual cost of fuel at least one third.

The business of the road is profitable, and if the funded debts were reduced to stock, it would be paying good dividends. If no head flaw occurs, hereafter, the prospects of the road are certainly highly encouraging to the stockholders.

NIXON & CO'S MAMMOTH CIRCUS is coming next Friday. The Boston Daily Advertiser says of this establishment:—

The company is certainly one of the best which we have ever seen, and the performances were marked by an agreeable variety which relieved them from monotony. The supply of clowns is unusually large, and their jokes are comparatively new and good. We neither heard nor saw anything vulgar or obscene, and this we could never say of any circus company or clowns before. The manager is certainly deserving of great credit for his careful attention to the moral side of his exhibition.

GREAT HEAT, AND SUDDEN CHANGE.—Wednesday last, June 29, was the warmest day of the season—thermometer at 94 in the shade. In some positions rising higher. The temperature remained at 75 during Wednesday night. On Thursday morning after sunrise it became cooler, descending to 67 at noon, and to 57 in the evening. On Friday morning the mercury had descended to 50. A depression of 44 degrees in 36 hours.

Mr. John E. Todd has declined the invitation extended to him to become the pastor of the North Church in this city.

From the N. H. Gazette.

A STRAWBERRY FESTIVAL ON THE FOURTH.—Where shall we go on the glorious Fourth? is a question anxiously pondered in the minds of many of our citizens. Everybody is going somewhere. Turkeys and chickens may be shot at in Congress street without endangering anybody that day, for all will be out of town. Some will go to the Shoals, some to Rye Beach, some to Sagamore, some will sail on the river, some will catch canners, and a few will not celebrate at all. But the great attraction will be in the direction of Diman's Highland Cottage, where a dinner will be served up, and in the afternoon a Strawberry Festival will come off in the Oak Grove. The Portsmouth Cornet Band will enliven the occasion with their music. Trains run on the C. P. Railroad at low fare, and no effort will be spared to render this a delightful way of spending the Fourth.

Among the attractions at Diman's on the Fourth, will be the services of the Portsmouth Cornet Band, which have been engaged for the day.

Several extra trains of cars will be run between Portsmouth and Portland on the Fourth. The last train will leave Portland after the evening display of Fireworks is closed. There is no reduction in the fare.

SAGAMORE HOUSE. We are pleased to learn that Stephen J. Fitts, Esq., has taken the Sagamore House for a term of years, and will open the same for the reception of company immediately. Mr. Fitts was for several years landlord of the City Hotel, Newark, N. J., and thoroughly understands the business. He will make the Sagamore House as popular a watering place as will be found in this vicinity. No place on the coast possesses better natural facilities, and we are confident Fitts is the man to develope them.

NAVAL.—The U. S. steam gun-boat Mohican, recently launched at the Portsmouth Navy Yard, which has been in the Floating Dock for a few weeks past, was floated out on Tuesday. While in dock the ship has been coppered, and the main shaft, bed-pieces for the engine, and the hoisting gear for the propeller, put in. The ship will be fitted for sea with all possible expedition. The work has been delayed somewhat by the non-reception of the machinery.

The sloop-of-war Dale, just returned from the coast of Africa, was taken into dock, after the steamer was hauled out. A survey has been ordered upon the ship, with a view to thorough repairs.

CONSUMPTION IS CURABLE!

BY THE USE OF

Winchester's Genuine Preparation of Dr. J. F Churchill's Compound of the

HYPOPHOSPHITES

OF LIME, SODA AND POTASH,

Originally discovered and prescribed by him as a Specific Remedy for

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENCY VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America, and established the claim of the discoverer, that they are a SURE PREVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In most instances the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * * Out of twenty-two cases *in the third or last stage*, treated at my Dispensary during the past year, MORE HAVE completely recovered, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, UNCLASSIFIED 1857.

75 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and if SUCCESS IS THE MEASURE OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that a no other office of the kind can have claims for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

Commissioner of Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them a early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents.

BOSTON, FEBRUARY 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great skill and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, has on behalf of rejected APPLICATIONS, SIXTEEN APPEALS, EVERY ONE of which was decided in his FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1859. R. H. EDDY.

MY MOTHER'S SALVE

This celebrated preparation has obtained an enviable and WORLD-WIDE reputation for CURING VARIOUS CUTANEOUS DIFFICULTIES, and has been the agent of relieving so many sufferers, restoring them to health and soundness, that the proprietor feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.

"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forest, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.

"My Mother's Salve" is safe and effectual, and all those troubled with RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in it a great relief, and in most cases a Permanent Cure.

"My Mother's Salve" in a BURN or SCALD, takes out the fire, soothes the troubled nerve, heals the wound more speedily and effectually than any other preparation.

"My Mother's Salve" is worthy of confidence, seeing thousands have used it and recommended it to their friends is a test of its worth.

Directions for using **"My Mother's Salve"** are simple. Every mother and nurse knows how to spread a plaster and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. Where Rheumatism and other pains show for the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In cases of Piles, a good result follows the use of the Salve. Prepared by A. M. BECK.

WINSHIP'S

Patent Self-Ventilating Refrigerator.

It is now conceded by physicians that provisions are rendered very unwholesome by being confined in a Refrigerator in which the air is not constantly and effectually changed; and that the health of many families has suffered in consequence. The musty and sour smell common to most ice chests is a sure indication of this poisonous and offensive tendency.

This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Silliman has introduced a description of it in his new work on natural philosophy as the best illustration ever practically tested of perfect ventilation.

CRANE'S PATENT

METALLIC BURIAL CASKET.

A newly invented Burial Case, fashioned to accord with the feelings of the bereaved, and yet retaining all the requisites of an appropriate receptacle for the dead. There is no reason why such an article should be made to create, by its appearance, disagreeable associations, that the bereavements whatever tends to soften or make less keen the poignancy of our grief, commends itself to our consideration. So much this is repulsive has been discarded in the arrangement and SHAPE of this Case, that its name, the "*Casket Burial Case*," is an involuntary suggestion.—We, therefore, do not hesitate to say that this case has never been in use anything so entirely chaste, appropriate, and withal, convenient, as this invention.

The Case permits a view of the entire body after it is enclosed, the top being composed of beautiful French plate glass, which is divided into three sections, between two of which is inserted the name-plate. For each of these sections of glass there is an elaborately ornamented cap.

The Subscribers being sole Agents for this vicinity, have always onhand every size of the above, from 2 ft. 10 6 ft. 4 inches.

Also, *FISHER'S METALLIC BURIAL CASES*: Walnut, and Imitation Rosewood COFFINS, of superior finish.

All orders will receive our *personal attention*, and may be supplied at one hour's notice at

The Liver Invigorator.

PREPARED BY DR. SANFORD,

COMPOUNDED ENTIRELY FROM GUMS,

is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove the offending matter from the system, supplying in their place a healthy flow of bile, relieving the stomach, causing food to digest well, PURIFYING THE BLOOD, and producing a healthy flow of the whole machinery, removing the cause, and effecting a radical cure.

BILIOUS ATTACKS are cured, and what is better, prevented by the occasional use of the Liver Invigorator.

One bottle, after eating, is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents heartburn.

Only one dose taken at night, loosens the bowels gently and cures CONSTIPATION.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS type, as it is a positive certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE ONE DOLLAR PER BOTTLE.

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald places; removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headaches, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young too or three times a week it will never fall or become gray; then, render, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and to make the trial of it, conquered using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and feel bound to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being ocular demonstration, I write you this letter, which you may show to any such, and also direct them to call for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now as much darker and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY GERRISH,

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done more good than any article put on the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles and your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,

No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in this country and Europe, surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and that a physician can only be world state in many of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three thousand of persons afflicted with diseases, generally treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments. Life is too short and uncertain at the expense of destroying what is the great pillar of life, a healthy constitution.

Consultation rooms can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE REGULATING PILLS are now published and tried in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are at Stock Bonds and Mortgages, and transact any other commission business. All persons wishing to sell or purchase Real Estate or Stocks, are solicited to call.

THE SUGAR MARKET.—The buoyancy of the sugar market noticed a few days since has given place to extreme dullness. The circulars by the Empire City are not so favorable for sugar. The rains in December and January induced many of the Cuban dealers to believe a very short crop probable upon which the large speculations of those months in Cuba were predicated. Since February 1st the weather throughout the island has been unprecedentedly favorable for the production of sugar, and the crop having drawn to a close, it is now generally conceded that it fully equals, if not exceeds, that of last year. We copy the following from the Cardenas Price Current:—

"On reference to annexed list of exports, our readers will observe that the number of hogsheads of Muscovado sugar, shipped hence to date equals, within a small quantity, that shipped during the whole of last year. We have still to go forward, in store and uncompleted cargoes in the bay, say ten thousand hogsheads, and at least an equal quantity on the estates, which will swell our exports this year to an increase of about 40 to 45 per cent. over those of 1858. So much for the short crop so vehemently predicted by speculators at the commencement of the season, and as perseveringly contradicted by ourselves. Were we to extend our statistics to clayed sugars, our predictions would be still more amply verified."

We are also advised that a somewhat similar state of things exists at Cienfuegos, these two being the principal shipping ports for Muscovadoes. The stocks of clayed sugar are largely accumulating at Havana and Matanzas, being at both places 430,000 boxes.—*N. Y. Evening Post.*

"A GENTLEMAN OF THE OLD SCHOOL." A New York correspondent of the Charleston Mercury says of a well-known physician who walks Broadway in knee-breeches:

"The only surviving eccentric worth mentioning is Dr. Boyle, who dresses in the knee-breeches, buckled shoes, shad-bellied coat, huge lappelled vest, cocked hat, ruffles, and the flowing wig of last century. It is a mere whim of the M. D., who is a very sensible person otherwise. When he was a boy he had a strange hankering for that costume, and determined to indulge in it when he was rich enough, for the suit is about ten times as expensive as an ordinary civilian's. An increasing medical practice enabled him to gratify his cherished wish eight or ten years ago, and since then he has played the antique very creditably. He is about fifty-five, and jovial by nature; but as he stalks through Broadway, his cast-iron face reveals not the least consciousness that he is stared, pointed and laughed at by all the passers by. Unruffled, (except in his shirt bosom and wristlets,) he strides on with a majesty worthy of General Washington."

HORSE THIEF ARRESTED.—A man calling himself Samuel Evans, hailing from Newmarket, went to the stable of Ezra Harthan, in Great Falls, about 5 weeks since, and hired a horse and buggy to go to Porter, Me., to be gone four days. Not returning at the time agreed upon, Mr. H. began to be a little suspicious, and went to Porter to learn what he could of him; but he could find nothing of his property or the man. Mr. H. thinking he had been "taken in and done for," immediately proceeded to action. He issued a large number of handbills and travelled himself, nearly a thousand miles. After several days search he found his horse at Gardiner, Me., and his wagon and harness in the woods at Waterboro', and the man at Dorchester, Mass., where he was at work. The real name of the man is Elias S. Stone.—He has a wife and family residing in Parsonsfield, Me.—*Great Falls Adv.*

Oleine Diamond Oil.
GREATEST ILLUMINATOR OF THE AGE.
This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.
It burns in the common oil lamp, with or without a chimney.
The light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this Oil:
1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, hence it is portable.
5. That it will stand a lower degree of temperature than any other Oil.
6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.
Price $1.25 per gallon.

MONDAY, JULY 4, 1859.

DECLARATION OF INDEPENDENCE.

We regret that this "glittering" paper is not to be publicly read in our city to-day. We publish below the material portions:

THE DECLARATION OF INDEPENDENCE.

A Declaration, by the Representatives of the United States of America, in Congress Assembled.

When, in the course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume, among the powers of the earth, the separate and equal station to which the laws of nature and of nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident: that all men are created equal; that they are endowed with certain inalienable rights; that among these are life, liberty, and the pursuit of happiness. That to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed; that whenever any form of government becomes destructive of these ends, it is the right of the people to alter or to abolish it, and to institute new government, laying its foundation on such principles, and organizing its powers in such form as to them shall seem most likely to effect their safety and happiness. Prudence, indeed, will dictate, that governments long established should not be changed for light and transient causes; and accordingly all experience hath shown, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves, by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same object, evinces a design to reduce them under absolute despotism, it is their right, it is their duty, to throw off such government, and to provide new guards for their future security.

☞ The two Tract Societies, North and South, are extensively misunderstood and belied. For example, we find this choice item in a political paper, which has never done much in the tract cause hitherto:

The cause which produced this result was as follows: its constitution required the American Tract Society to publish tracts upon those subjects in reference to which all "evangelical" Christians are agreed. The Boston Society, after the abolitionists got possession of it, demanded that slavery should be included in the list of subjects.

No part of this is strictly—the latter part of it is sheer nonsense. The abolitionists never got possession of the Boston Society at all, and probably never will.

To show how wide these political "tractarians" are of the mark, we make a single extract of three lines from the report of the Massachusetts General Association of Congregational (orthodox) ministers, just closed at Pittsfield, Mass.:

"The Committee of Arrangements reported a resolution of approval of the Tract Society at Boston, which was unanimously adopted."

The reader will please to observe that this is the very body of men among whom the American Tract Society had its origin—and they *unanimously approve* the North American Society at Boston. Surely they are not all abolitionists. Nor can that Society have departed very far from the old paths, to have this association thus unanimous.

We perceive that Holliston was selected as the place of meeting next year, and Rev. I. W. Putnam, D. D., was appointed primary Home Missionary preacher. The appointments of the association show its settled and conservative character; and the unanimous resolution respecting the tract society nullifies at once all the windy talk of these newspapers who know nothing about the matter.

☞ On Friday last a strange suicide was committed in the town of Lyons Farms, N. J. A man of thirty years, a hard worker, having a wife, two children, and about ten thousand dollars worth of property, thought he had been over-reached by a neighbor in a certain bargain. Being worried by this thought, he cut his throat with a razor.

☞ The next Electoral College, chosen in November, 1860, to meet in February, 1861, will—if Kansas should be admitted at the approaching session of Congress—consist of 306 votes, 154 of which will be necessary for a choice of President. The non-slaveholding States will have 186 electors, and the slaveholding States 120.

☞ The Charleston Mercury says that Mr. Antonio Canale, a well known fruiterer of Charleston, who recently sent 300 bales of cotton to Genoa by the bark Hollander, has been impressed into the Sardinian army, while in Genoa, on business connected with his shipment.

☞ The Civil Tribune of the Seine has just decided in the case of "Madame X——vs. the Mayor of the 10th arondissement," that a foreign woman legally divorced in her own country, cannot during her husband's lifetime—although he is also a foreigner—contract a second marriage in France, where, since 1816, the law does not permit a divorce under any circumstances whatever.

DEFINITION OF POPULAR SOVEREIGNTY.—The Bath Times in an editorial on "The Schism in the Democratic Party," says:

Democracy is tolerant. If a man believes in the doctrine of Popular Sovereignty as expounded by *one* section of the country, *another* section has no right to proscribe him for expressing his belief, nor does it pretend to that right.

There is no reason to apprehend serious trouble arising from the question of Popular Sovereignty. It will always be *differently* interpreted, according to the influences of *local* causes; where *interest* demands that Douglas's exposition should be received, it will be received, and where interest insists upon another doctrine that doctrine must prevail.

This is very convenient, certainly, to have Popular Sovereignty mean this thing or that thing, or nothing. On this plan everybody believes it. But read again.

The Democratic party in one section demands a protective tariff—another section advocates free trade; a portion of the party favors Internal Improvements—another opposes them; but no one anticipates danger from these clashing interests. There is a more potent consideration—the common concern for our aggregated interests—which subordinates these minor questions and ensures the joint action of Democrats upon all emergencies.

Let us see what these minor questions are: popular sovereignty, free trade, and internal improvements. What then is the great emergency? Is it power? office? or what? Read again.

We do not mean to be understood as excluding the subject of Popular Sovereignty from the list of subjects involving principles vital to the interests of the Democratic party. On the contrary we regard it as the basis of Democracy—as, in fact, *synonymous* with it.

Stop here a moment, and think. Popular Sovereignty is the *basis* of democracy; yea, it is democracy itself;—and yet, as per the first extract, above cited, it is always differently interpreted, and every man interprets his own way.

Rather a slippery dangerous basis, this, reminding one of the house built on the sand, when the floods came.

☞ A novel but effective temperance movement is going forward in California. It originated with five boon companions who were on a drunk together from Christmas to New Years' day, and then made a pledge to abstain altogether for six months. They afterwards made the pledge permanent, and admitted other members. The society took the name of Dashaways, and is rapidly extending through the state. The pledge is confined to the single point of abstaining from intoxicating drinks. The organization has 600 members in San Francisco, and the work proceeds very much like the old Washingtonian movement. The drunkards are picked up from the street, carried to the rooms of the society, sobered and persuaded to sign the pledge. If they cannot come up to the permanent pledge, they are allowed to take it for six months on trial. The San Francisco papers say the movement is producing a marked effect upon public order, and that at least $5000 per day is saved in that city alone, which was formerly wasted in liquor.

☞ Two of the passengers who survived the accident on the Michigan Southern Railroad, June 17, have reached their home at Watertown, Mass.

In regard to the dead, they state that one of the passengers killed belonged in Weare, N. H. His name we do not learn, but he is stated to be a brother-in-law of Dr. Richardson of that place.

Our last advices from Chicago state the number of dead at thirty-eight, while other bodies were supposed to be covered up in ruins.

☞ An Abington man is now in the House of Correction, serving out a sentence of three months for *keeping* an unlicensed dog, though the dog never was allowed to leave his master's premises, being constantly tied as a guard to the poultry house. Said dog weighed *three and a half pounds*, and must have been a terrible fellow in a flock of sheep had he been allowed to run at large *without a license;* so as soon as his owner was comfortably lodged in jail, some valiant constable seized said dog, and got fifty cents for his head. Some "mighty mean men get office out *there*," as well as out West.

☞ A California paper says that a quartz boulder was picked up in the Jenny Lind Tunnel, weighing about thirty pounds, and containing upwards of one hundred ounces of pure gold. The gold was sold after assay for $900. In the same week the company washed out over two thousand dollars in fine gold.

☞ M. Blondin performed the remarkable feat of crossing the Niagara river at the Falls, on a tight rope, on Thursday. He first crossed from the American side in seventeen and a half minutes, and returned in twelve minutes. This remarkable achievement was witnessed by nearly 10,000 people.

☞ Heenan, the pugilist, was assaulted near the National Theatre, Boston, Friday evening, and very severely bruised, on account of his not appearing at a performance as advertised.

LEGISLATION.—The Manchester American, speaking of the legislature says:

The Candia branch railroad was passed without opposition. The real gist of the matter is to *build* it. This we cannot venture to hope for at present.

In point of economy, the legislature, especially the Senate, has been scrupulous to a fault. The State Reform School deserves the same liberal encouragement which has been shown the Asylum for the Insane.—Under similar circumstances, we remember that the latter received an appropriation of $20,000. Now, hardly one-seventh of that sum is given the Reform School, and that grudgingly.

The law consolidating the Courts by abolishing the Court of Common Pleas is a popular measure with the people, but met with considerable opposition from the bar. It is an improvement on the present system, yet so strongly are the community impressed in favor of a district or town system, that we do not expect an entire acquiescence in the system now about to be inaugurated, till it shall be commended by its practical workings.

Fewer set speeches and useless debates have been made than is usual. If little has been done that is advantageous to the State—little has been done prejudicial to the public welfare.

NARROW ESCAPE OF SLOOP-OF-WAR GERMANTOWN FROM WRECK ON THE LOO CHOO ISLANDS.—The Germantown left Hong Kong on the 2d of March, with despatches from the government to Consul Harris, and orders from the Commodore to Captain Nicholson to hold on and not proceed to take on board the Japanese Minister, to go home, but to remain where we were until his arrival, or further orders.—She had a tolerable decent passage until eleven A. M. March 27th, when all hands were startled by the ship's thumping. Attempts were made to get her about, without effect, for she was hard and fast on a coral reef, known as Kikai Sima, not laid down on any chart, at the eastward of the Loo Choo Islands and nearly four miles from the land.

The ship was running along the land, and had but a few moments before gone about and stood off, for the purpose of burrying a man that had died suddenly in a fit the night previous, and was going at the rate of six knots per hour when she brought up on the reef. Her officers stated that she lay on the same over three hours, and all hopes of saving her were abandoned; the money, clothes, &c., were all got up on deck, ready to take to the boats, in case of any signs of her beginning to break up; the tide was sweeping around her at six knots per hour, and on some parts of the reef there were only nine feet of water; the guns were got ready to be thrown overboard; the shot and shell (nearly all that was in the ship, were thrown overboad, which lightened her some, and she began to roll with the swell, when all at once to the great joy of all her gallant hands, she rolled off into deep water, unshipping her rudder and starting her deck planks, &c.—She immediately anchored near the Loo Choo Islands, which caused a general turnout of all the natives of the same, who mustered down to beach by thousands, with flags and spears.

The Germantown will proceed to Shanghai, or, if safe, to Hong Kong, for the purpose of going into dock to look at her bottom, which is thought to be badly injured. The officers and men consider it as a miracle that they are now afloat in their beautiful ship. Fortunately, it was not blowing heavy at the time; if it had been, in all probability she would have been knocked to atoms in a few hours. The ship has been rather unfortunate, having lost two officers; the first Mr. Stremble, the sailmaker; also Lieut. Place, who lost his life through accident; and five men, two of whom died with the cholera; and as a wind up she went ashore, and narrowly escaped total destruction.—*Japan Correspondent N. Y. Herald.*

FATAL ACCIDENT AND SUDDEN DEATH AT BENNINGTON, N. H.—A correspondent at Bennington, N. H., writes to the Boston Journal that on the 23d ult., a boy 13 years of age, who worked in Mr. G. P. Hall's paper mill, got entangled in the belt that carries the "duster" or "thrasher," and was almost instantly killed. His neck and nearly every bone in his body were broken.

On Saturday last, Col. Edwin Foster, who has been in feeble health four or five years, while sitting on the piazza of the hotel at Bennington, commenced spitting blood and died on the spot in less than thirty minutes.

☞ The Grand Jury have found five bills of indictment against W. Mahoney, the former agent of Adams' Express, who is charged with the embezzlement of $50,000 belonging to that concern. Mahoney, however failed to appear, and his bonds are forfeited.

☞ The N. Y. Journal of Commerce laments over the extravagance in that city in relation to buildings. Good edifices are demolished to make way for those which are quite too good.

☞ Francis McMahan, the proprietor of a liquor store on the corner of Liverpool and Maverick streets, East Boston, was held in $800 for trial, for an outrageous assault on Benjamin Kirby, by which the latter's jaw was broken.

☞ A lineal descendant of the Indian King Philip was drowned at Middleboro' last week, while bathing. His name was Thomas C. Mitchell. He was not quite twenty-one years old, and intended to be a missionary to the Indians.

A negro Baptist of the South said to his Methodist minister: "you see dere's Baptist in de Bible, but dere ain't no Mefodist—so de bible am on my side."

☞ Sir Walter Scott admits that the battle of Waterloo created in the British empire *fifteen thousand* widows. It is probable that the recent battle of Magenta has created *twenty thousand* widows and *sixty thousand* orphans.

MARRIED.

SPECIAL NOTICES.

Nature is the Great Physician.

This is now admitted by the medical profession as a fundamental principle of healing science. It is wisely provided by the human economy, that whenever anything is wrong in the physical system, the natural forces of the body are brought to bear to expel the disease. The great aim, therefore, is to strengthen the natural powers. This has been kept in view by the skillful compounder of Dr. J. HOSTETTER'S BITTERS, which operate to give fresh vitality to all the organs of the body. The effects of this medicine upon the stomach, the liver, and the kidneys, are prompt and decisive. The patient who is wise enough to quit drugging, and try the BITTERS, soon feels as he if he had taken a new lease of life, and as he continues the use of the medicine he is overjoyed to find the stream of health coursing through his frame. Let all from whose cheek the bloom has departed, give Dr. J. Hostetter's Celebrated Bitters a trial.

Sold by druggists and dealers generally, everywhere.

Agent for Portsmouth, J. H. THACHER, cor. of State and Pleasant Sts., and No. 12 Market Sq.; Weeks & Potter, Boston, General Agents for the New England States.

DIABETES.—By this term is meant that mysterious affection of the kidneys, originating in a perversion of the nutritive powers, in which the strength is gradually drained away by the excessive secretion of urine. Remedies are usually merely palliative, but the PERUVIAN SYRUP by its iron element, introduces a vitalizing influence into the most secret chambers of nature's laboratory, and presides over the composition of the vital fluids.

SCROFULA CURED IN TWENTY DAYS.

William Miles, aged 37, had been afflicted with Scrofula for 17 years. On the 1st of August, by the advice of Dr. William Root, of Marietta, Ga., he commenced the use of RADWAY'S RENOVATING RESOLVENT. In 6 hours he felt a change for the better; in 12 hours small pustules were seen covering the whole surface of the body; in 24 hours he was covered with discharging sores. He still took the Resolvent freely, but finding his bowels very costive, he took six of RADWAY'S REGULATORS. They operated powerfully and pleasantly. He afterward took one Regulator at night. The sores caused him some irritation, which he allayed by bathing them with the Resolvent. The fourth day the sores all healed up. He continued the Resolvent and the Regulators for 20 days. Since the last day, which was on the night of the 20th day, he has not experienced any returning symptoms or uneasiness. His blood is pure, skin clear, and bowels regular.

R. R. R. is sold by Druggists everywhere.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

Dr. Wistar's Balsam of Wild Cherry.

The editor of the "Flag of our Union" says in his paper of July 17, 1858:—"The memory of Dr. Wistar is embalmed in the hearts of thousands who have experienced entire cure from *Coughs, Colds, Consumption and Pulmonary Disease* generally by the use of his *Balsam.* The invalid need not fear to give this preparation a careful trial, as we speak from experience. More than ten years since the editor of this paper tested its excellence by individual trial in his family; with the most surprising result, as a curative for pulmonary disease."

CASES OF CONSUMPTION AND WHOOPING COUGH CURED.

The following from a highly respectable gentleman, speaks for itself:

KEYPORT, N. J., May 20, 1858.

S. W FOWLE & CO.,—*Gentlemen:*—This certifies that I was for many years afflicted with a disease of the lungs, until I became so weak, that it was with difficulty I could walk. My cough during this was very severe, causing me frequently to raise great quantities of blood, attended with profuse night sweats.

After using various remedies to no purpose, I was advised to try *Wistar's Balsam of Wild Cherry.* I did so, and before using the first bottle I was entirely restored to perfect health and strength.

I would also mention that this Balsam cured a little girl of mine of a severe attack of Whooping Cough, when her life was given over by the physician and all other remedies had failed.

(Signed) JOSIAH HOFF.

None genuine unless signed "I. BUTTS" on the outer wrapper.

Prepared by S. W. FOWLE & CO., BOSTON. and *for sale* by Wm. R. Preston, Dover, Wm. Cate, Nathan P. Thacher, J. H. Thacher, and B. Hutchins, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. epnot 4wd&w

"BUY ME AND I'LL DO YOU GOOD."

Now is the time to use the great Spring and Summer Medicine.

Dr. Langley's Root and Herb Bitters.

Composed of Sarsaparilla, Wild Cherry, Yellow Dock, Prickly Ash, Thoroughwort, Burdock, Mandrake, Dandelion, &c., all so compounded as to act in concert with Nature, and their effect is truly *wonderful.* They absolutely cure

LIVER COMPLAINT, INDIGESTION,
COSTIVENESS, DIZZINESS,
HEADACHE, HEARTBURN,
PILES, FLATULENCY,
WEAKNESS, LOSS OF APPETITE.

All kinds of Humors, and every disease arising from a disordered Stomach, or bad Blood. If taken in large doses, Fever and Ague may be broken up and cured at once.

This has become a standard Medicine, and is decidedly *the Best in the World.* Try it once, and you will be sure to do so again. The price is cheap—only 25 cents for a pint, and 37½ cents for a large Bottle. You can't get a bottle too quick, for the time is fast approaching when you will have all sorts of bad feelings if you don't take the Bitters and Herb and drive them away. Sold by all Medicine Dealers everywhere.

Orders addressed to J. O. LANGLEY, or to GEO. C. GODWIN & CO., No. 138 Fulton St., Boston, wholesale Dealers in Family Medicines of every description. They invite Apothecaries and Merchants generally to examine their stock. m13

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent men, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and the mild of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER AND AGUE, STRICTURE, DISEASES OF THE URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., while the weakest will find the adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at seventy-five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—None genuine is IMPORTED.

May be had in Boston of G. C. Goodwin & Co., 11 Marshall st.; M. S. Bury & Co., 1 Cornhill; S. E. Packer, 20 Elm st.; J. Moran, 116 Blackstone st.; M. Davis & Co., 57 Blackstone st.; R. NATIONAL INDEPENDENCE.

☞This day being the glorious Fourth of July, and we Chroniclers having altogether too much regard for the American eagle, to work when he is to soar—we can consequently issue no Daily on Tuesday morning.

As to the best manner of spending the day—many of our citizens are glad of a chance for a few quiet social hours at home or with friends abroad—hosts will go to Diman's Grand Strawberry Pic Nic, to the music of our capital Cornet Band—numbers will make excursions to the Shoals—and many doubtless will visit the Portland celebration. In the evening, our citizens are well provided for at home.

FOURTH OF JULY.— The Programme decided on by the Committee of Arrangements in this city, is :

The bells will be rung and a national salute (33 guns) fired at sunrise, meridian, and sunset. The Portsmouth Cornet Band will play on Market Square in the evening, from 7 to 11 o'clock.

The following is the list of Fireworks to be exhibited on Market Square :

Signal Rockets will be fired from sunset till half past 8 o'clock, when the exhibition will commence with

GRAND ILLUMINATOR ; lighting up the area with the brilliancy of noonday, and producing a most beautiful and startling effect.

ROCKETS AND SERPENTS.

PYRAMID OF THE NILE ; composed of brilliant silver and colored lance, with a lightning wheel at the base which mutates to batteries of candles, discharging stars of every color and garniture.

ROCKETS AND COLORED STARS.

MOTTO ; In letters of brilliant fire appears the words: "CITY OF PORTSMOUTH, 1859," flanked with batteries, discharging stars of every hue and color, and ending with a grand explosion of stars.

ROCKETS AND STREAMERS.

VULCAN'S DELIGHT ; composed of scrolls of variegated fires; mutates to a circle of brilliant lance colored pots and crimson fires, ending with radiating fires and suns.

ROCKETS AND GOLD RAIN.

LIBERTY TREE ; composed of Roman Candles tinged with green and discharging stars, which has a vertical revolving wheel of brilliant colored fires. The whole is surmounted by a gorgeous representation in brilliant lance of the Liberty cap, the whole forming a grand piece in honor of "the birthright of every American."

ROCKETS AND SILVER STARS.

SATURN AND HIS SATELLITES; a cluster of stars in diversified and colored lance, forming a grand constellation, and ending with a brilliant display of magic fires.

AERIAL SHELLS AND BOQUETS ; a cluster of Roman Candles; mutates to a mortar with a heavy report, throwing a shell several hundred feet into the air, where with a second report it explodes into brilliant colored stars and boquets.

ROCKETS AND SERPENTS.

STAR OF INDEPENDENCE ; a revolving centre of crimson silver and blue fires extended to points of variegated lance and jets of sun-fire forming an immense star of fire. A battery in the rear is constantly discharging stars, and the whole ends with a grand flight of rockets in honor of the day.

MINES AND CANDLES.

DIAMOND BRILLIANTS ; a gorgeous representation in silver and colored lance of the celebrated Koh-i-noor diamond surrounded by radiating fires and suns.

ROCKETS AND STREAMERS.

CASCADE ; a contra revolving centre of saxons, brilliants and colored fires, mutates to revolving jets of spur fire, ending with explosions.

ROCKETS AND GOLD RAIN.

PRIDE OF AURORA ; a revolving wheel of blue and green fire; changes to brilliant crimson; mutates to extensive suns and stationary fire, with heavy maroon reports.

ROCKETS AND COLORED STARS.

FLAG OF AMERICA ; the star spangled banner in brilliant crimson silver and blue, wrought with variegated lance, is seen and hailed with a grand flight of rockets, in honor of the "National Colors."

TORBILLONS.

L'ORIENT ; a combination of wheels of white and jessamine fire, with crimson, green and purple changes and marooned jets.

ROCKETS AND SERPENTS.

FIREMAN AND MILITARY ; a piece in silver and colored lance, representing the emblems of and dedicated to the Firemen and Military of Portsmouth.

ROCKETS AND SILVER STARS.

SPANISH POLKA ; a piece formed of contra revolving wheels and flyers constantly changing form and color, flitting before the eyes of the beholder, and producing a brilliant and fantastic effect.

TORBILLONS AND CANDLES.

OLD '76 ; the motto "76" is seen formed of brilliant colored lance and flanked by batteries of mines and candles, ending with a grand explosion.

ROCKETS AND GOLD RAIN.

FINALE ; a grand National Tableaux formed of an immense foliated Column of July, having upon the front the Escutcheon of the United States surmounted by the Eagle of America; between the two columns in letters of brilliant fire appears the motto "JULY 4, 1776, —birth of Freedom;" from this central structure extend wings of brilliant cross fire and batteries of mines, shells and candles, which with flights of rockets forms a grand and imposing National Tableaux, and Boquet de Fuc.

☞The fare on the C. & P. Railroad, to Stratham (Diman's Pic-Nic) and back, is only 30 cents to-day. Cars leave Portsmo. 10 minutes before 11, and 20 minutes past 4 —leave Stratham 15 minutes before 6.

The tickets to the Strawberry Supper are only 50 cents, we believe.

FOURTH OF JULY TO BE CELEBRATED! Ketchum's Patent Improved One-Horse Mowing Machine, to be exhibited on the farm of Charles Hayes, Greenland Road, at 9 o'clock, on the morning of the 4th.

This Machine was exhibited about a week since in the presence of several gentlemen, who have seen other Machines work ; and they are unanimously agreed that this Machine did the best execution, and was the easiest draught machine in use. Persons contemplating purchasing machines would do well to attend the above exhibition, and see the machine in operation.

C. H. HAYES,
Agent for the sale of the machine.

☞We understand that the Sunday School at Kittery, Navy Yard Village, is to hold a Social Fair at the Sons of Temperance Hall, on this Monday Evening, July 4th.

☞There is to be a great trial of Mowing Machines, on the 4th of July, at 11 o'clock, near the Greenland House.

SAD SUICIDE.—Mr. Hiram Jones, a young and well-to-do farmer in Rye, formerly an extensive trader in this city, terminated his life by cutting his throat with a razor, in the privy at his house, on Saturday morning. He was about 31 years old, and leaves a wife and one child. This sad event has excited so much surprise in our community, and elicited so much inquiry as to the cause—especially when considered in connection with the fact that an elder brother at Barrington also committed suicide by hanging a few months since—that we deem it but justice to the connexions to make public some facts which we think go far to explain the whole unfortunate matter.

Mr. Peletiah Jones, of Barrington, several years ago fell from a building and struck his head—and ever after complained much of his head, and at times conducted himself as a man might whose brain was injured—and in one of these spells, having been recently much interested and excited in extensive business matters, he committed suicide by hanging. He was a bachelor, and lived with his mother at Barrington.

Mr. Hiram Jones, just deceased, was appointed to administer on his brother's estate, which was large, and comprised much unsettled timber business, &c. While in the country, attending to this duty, last winter, some logs rolled over him, and besides twice breaking a leg and badly injuring his arm and his whole body—bruised the back of his head very severely, and he was delirious for several days. He was soon brought to his home in Rye, and had but just recovered sufficiently to visit Barrington again, in the vicinity of which he spent last week—engaged in attending auctions, &c., to close up the estate of his brother.

He returned to Rye on Thursday last, and on that afternoon went to Hampton to settle some business, and also settled an account with a Rye neighbor, and took some cattle from his pasture. He was cheerful, as usual, and nothing singular in his appearance was observed by any one, that we can learn—though his wife states that he got little if any sleep on Thursday and Friday nights—and he complained of great heat and pain in his head. On Saturday he rose early, and spoke as usual with his mother-in-law as he was passing out of the house—and being missed in half an hour or more, was found dead, as above mentioned.

It seems but reasonable to suppose that both these men were led to this act by temporary delirium, caused by the blows on their heads. No other cause can be assigned; both were men of property, able, business men, surrounded by the comforts of home.

RAILROAD COMMISSIONER.—The Manchester American says ;—

Among the recent appointments made by the Governor and Council is that of Merrill C. Forrest, Esq., of Berlin, who is made Railroad Commissioner in place of Mr. Twitchell, resigned. Mr. Forrest is a high-minded, intelligent man, and well qualified for the office. We first knew him when a Democratic member of the Legislature in 1855.

☞On Wednesday last, two young ladies walked from Concord to West Cambridge in four hours. The distance is 14 miles. Wednesday was the fiery hot day.

PRIME SOAP WITHOUT MAGIC.—Adams & Curtis, at their Soap Works in Washington street, are manufacturing a superior article of soap for all the purposes for which the magic soap is used—and without magic or miracle it performs the wonderful work of "bringing a clean thing out of an unclean," without destroying the clothing or injuring the hands. This soap is not only better but cheaper than the old fashioned ordinary soap—so the makers say, and you can try it and see.

It is sold by the grocers and by the manufacturers.

and as a Beverage it has no superior in the world. It is manufactured by the proprietor, at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture of the Italian Juniper Berry, whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, Bladder and Kidney Complaints, &c. &c.
Put up in quart and pint bottles. In Cases of one dozen quarts, and two dozen pints, with the proprietor's name on the bottle, cork and label. For sale by all the respectable Country Merchants and Druggists. Look out for counterfeits and imitations, as the whole country is flooded with them

TO THE PUBLIC.
I beg leave to call the attention of the American Public to the following Certificate from the Government Chemist for the Island of Cuba and the Spanish West Indies, and who is known to the *Scientific* men of *London, Paris, Madrid, Cuba* and *America* to be the first Chemist in the *world*.
UDOLPHO WOLFE.
CHEMICAL TESTIMONY.
D. Jose Luis Casaseca, Corresponding Member of the Royal Academies of Madrid and Munich, a Graduate in Sciences of the Faculty of Paris, formerly Professor of Chemistry, ex-applied to the Arts, of the Royal Conservatorio of Madrid, and of Physics and Chemistry, as applied to the Industry and Agriculture of the country, in the Royal University of this Island, at present H. M's Director of the Institute of Chemical Investigation, &c., &c.
Do hereby certify, that at the request of the house of Gottig & Will, of this place, I have made an analytical examination of U. Wolfe's Aromatic Schiedam Schnapps, with the object of ascertaining if it contained any substance noxious to health, and to inform them as to its true composition and relative quality with the other gins that are offered in the market, and the results of my observations and experiments are as follows:—
Udolpho Wolfe's Aromatic Schiedam Schnapps is a spirituous liquid, of a very agreeable aromatic odor, completely transparent and almost colorless, having only a very slight tint of yellowish gray; its flavor is strong and very agreeable to the palate. It marks 20 degrees in Cartier's alcohol weigher or 52 degrees 5 hundredth in Gay Lussac's alcohometre. By the distillation in a balnium maris, with an apparatus consisting of a glass retort and a recipient surrounded with ice, I have collected in this recipient an alcoholic liquid with a very agreeable aroma completely colorless and transparent, which marked 90 degrees in Cartier's alcoholic weigher, or 70 degrees 5 hundredth on Gay Lussac's alcohometre; and which represented as a whole 57 per cent. of aromatic Schiedam schnapps subject to distillation in the retort. This liquid did not soil the transparency of the distilled water in mixing it with the same, and its agreeable aroma is doubtless due to a very trifling amount of an essential oil insuparable from alcohol.
From the remainder of the distillation which was left in the retort, I have obtained, through evaporation in a vapor bath, a substance of a yellowish brown color, clear, and having a bitter taste, which is not disagreeable, and which afterwards becomes aromatic and leaves in the mouth perfectly with that fragrance peculiar to the vanilla. I am inclined to believe that to this bitter and aromatic extractive substance, soluble in water and alcohol, the medicinal properties which are attributed to this gin are due. I have not found in Udolpho Wolfe's aromatic Schiedam schnapps any mineral or organic substance other than the extractive one already named and the aromatic one obtained by distillation. Finally, Udolpho Wolfe's aromatic Schiedam schnapps consists simply of an aromatic alcohol of 20 degrees of graduation in Cartier's alcoholic weigher, and of an extractive bitter aromatic substance, which perhaps, is modified and developed in part of its not containing any matter injurious to the health, as well as for its odor and good flavor—a fact which no doubt arises from the choice substances employed in its manufacture, and from the peculiar manner of its distillation, it should, in my opinion, be preferred to all the Holland, Belgic and German gins which are found in this island which it has been my business to examine. These gins as I have often proved it, exhale a disagreeable odor, and have a more or less disagreeable flavor, some of them having left as was the case with the superior gin from the distillery of Mr. Henry Deetjen (of Bremen), an residuum after evaporation by steam, a substance almost insipid and very trifingly aromatic, with flavor of vanilla, but in no wise with the delicious bitter and aromatic flavor of that of Udolpho Wolfe; and others, such as that labelled "Genuine Samaritan," "Extra Superior." Messrs. Traener have furnished me with a very small quantity of a greenish substance, of harsh metallic taste and very disagreeable, which extractive organic matter was mixed with a salt of copper, with signs of iron, owing perhaps, to a bad system of distillation.
I certify that all that is here stated is the truth and agrees with the experiments I have made with the greatest care, and I authorize the house of Gottig & Will, of this city, to give publicity to this certificate, in Spanish and in foreign languages, in all countries where it may suit their interest to do so. JOSE LUIS CASASECA.

DR. SWETT'S
CORDIAL OF DANDELION,
SPIKENARD & BONESET,
A remedy unsurpassed for Liver Complaints, such as Costiveness, Dizziness and Pain in the Head, Stomach and Side, Universal Debility, and the whole family of Consumptive Complaints.
Hundreds of testimonials might be added, proving the many cures by this pleasant and effectual medicine, especially of people advanced in life, whose debilitated constitutions have been greatly recruited by it. A trial of it is warranted to well pay the aged and dyspeptic. Price 75 cents.
[From Mrs. Ira Burnham, Exeter, N. H.]
I have suffered many years from the liver and heart complaint. By these distressing diseases I was reduced so low, some two years since, that I could not sit up more than ten or fifteen minutes at a time, when I began to take Dr. Swett's Cordial of Dandelion, Spikenard and Boneset, which has so fully restored my health that I now daily labor and attend to the business of my large boarding house. From the N. H. Gazette.

THE BALLOT announces its intention to leave Portsmouth and take up its residence in Exeter, from which town its next number will be issued.—Politically speaking, the Ballot is jet black, but it is in other respects a good newspaper. Gen. Whittem knows how to make up a good family newspaper, is an industrious man, a clear and sharp writer, and an excellent printer. He has no business to be a black Republican, and the sooner he discovers his mistake in politics, the sooner will he be better satisfied with himself, "all the world and the rest of mankind."

Our business and personal relations with the editor of the Ballot have always been pleasant, and if it does not add to the strength of the horrid party to which he belongs, we wish him great pecuniary gain by this change of location. He will make a *lion* paper, and will not sail under false colors. If the Democrats of this County must take a black Republican paper and neglect their own, as it is evident they do, the Ballot should be taken in preference to the News Letter, for it is spicier, more enterprising, more sensible, and displays a larger tincture of political honesty.

If the editor of the Ballot can make Exeter much worse politically than it now is and has been since the days of Jefferson, he can do wonders.—We'll risk him.

ONE MORE AND PROPERLY THE LAST CIRCUS OF THE SEASON.—Our readers will notice the advertisement of Nixon & Co.'s Circus which fills one of our columns. This Circus is to perform here on the eighth of the month, and is undoubtedly the last and in many respects the best Circus of the season. Nixon & Co. have the reputation of having the largest and best Equestrian exhibition in the country. It is now performing in Boston where it will remain till after the Fourth, and we notice that the staid old Boston Advertiser, which is not wont to speak flatteringly of anything except itself, gives this Circus Company a very complimentary notice, pronouncing it superior to anything of the kind its editor ever attended. Both the Circuses which have been here this year have given entire satisfaction, and there is such a rivalry among the different Companies, that we are assured that none of them will attempt the imposition of an inferior performance upon the public, but each one puts the best foot forward, and concentrates and introduces its whole force in every town to which it travels.—Therefore, we have no hesitation in saying a good word for the coming Circus. If they don't play a quarter's worth we shall be very much disappointed.

Maine Democratic State Convention.

Adoption of Popular Sovereignty Resolutions. Strong Douglas Feeling in the Convention.

(Condensed from the Boston Herald.)

Bangor, June 30.—The Convention is composed of 674 delegates, representing 313 towns and plantations.

The Committee on Resolutions submitted the following unanimous report. It will be seen that the resolutions are strongly affirmative of the doctrine of popular sovereignty. They were reported by Bion Bradbury of Eastport.

(We have only room for a portion of them this week.)

Resolved, That all political power is inherent in the people; that all free governments are founded in their authority and instituted for their benefit; that the right of self government is the fundamental idea of our republican institutions; and the doctrine of the sovereignty of the people to govern themselves, the corner stone of our political fabric applicable alike to the States and Territories of our Union

Resolved, That the Democracy of Maine reassert the great principle of self government or Popular Sovereignty as the basis of their policy in reference to the organized territories of the United States.

Resolved, That resting upon the principles of "absolute non-intervention by Congress with slavery in the States and Territories," which we recognize as eminently just and wise, we are opposed to any intervention by Congress to establish, abolish, regulate or protect slavery in the Territories.

Resolved, That we hold it to be the duty of the Democratic party steadfastly to adhere to the principles embodied in the compromise measures of 1850, and ratified by the people in the Presidential election of 1852, and reaffirmed in the Kansas-Nebraska act of 1854, which is founded upon principles as ancient as free government itself, and in accordance with them has simply declared that the people of a Territory, like those of a State, shall decide for themselves whether slavery shall or shall not exist within their limits, and incorporated into the Cincinnati platform of 1856, and to resist all attempts to interpose into the creed of the party any new tests or pledges or resolves to assail any attempt to re open the African slave trade, or a Congressional slave code for the territories, or the doctrine that the Constitution of the United States of itself establishes or prohibits slavery in the territories beyond the power of the people to control it

The resolutions referring to popular sovereignty, were received with most lively marks of approbation.

W. B. S. Moore of Waterville, took the floor to offer as an amendment;

Resolved, That we find a full and satisfactory solution of the question of Slavery in the Cincinnati Platform.

The chair declared the amendment out of order.

The resolutions were then put upon their passage and were passed by a nearly unanimous vote amidst tremendous enthusiasm. After the passage of the resolutions the Convention gave rousing cheers for the Resolutions and for Popular Sovereignty. The scene was animated and inspiring. On motion a committee of one from each county was appointed to receive votes for Governor. The committee subsequently reported the whole number of votes 673, of which Manasseh H. Smith had 304 and E. K. Smart 284, and there being no choice a second ballot was ordered.

The vote on the second ballot for Governor was 637. Necessary to a choice 320. E. K. Smart had 274; Manasseh H. Smith of Portland, 363, and he was declared the nominee of the Convention.

The nomination was afterwards made unanimous.

Mr. Smith accepted the nomination in a neat and graceful speech.

The Committee on the Election of Delegates at Large to the Charleston Convention reported: whole number of votes 640. Necessary to a choice 321. Hon. Bion Bradbury, Douglas, 353; A. M. Roberts, Douglas, 352; George F. Shepley, Administration, 328; and they were elected, leaving one vacancy. The vote for the other candidates was as follows:

E. R. Wiggin, Douglas, had 316; Richard D. Rice, Douglas, 313; E. W. Farley, Administration, 291; G. L. Boynton, Administration, 283; Arno Wiswell, Administration, 314. The Convention proceeded to ballot for a delegate to fill the vacancy, amidst the wildest confusion ever seen in a political Convention, which culminated in a personal quarrel between several members, during which riot prevailed unchecked, until an old farmer from Somerville took the platform and made a hard shell speech, which restored good humor to the Convention.

Hon. Geo. F. Shepley of Portland, then took the the platform and proceeded to make a set speech of great power and eloquence.

The fourth delegate elected was E. W. Farley, Administration, so that the delegates stand two Douglas men and two (nominally) Administration men. Mr. Shepley resumed his speech, at the conclusion of which the Convention adjourned *sine die*.

WINSHIP'S
Patent Self-Ventilating Refrigerator.
It is now conceded by physicians that provisions are rendered very unwholesome by being confined in a Refrigerator in which the air is not constantly and effectually changed; and that the health of many families has suffered in consequence. The musty and sour smell common to most ice chests is a sure indication of this poisonous and offensive tendency.
This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Silliman has introduced a description of it in his new work on natural philosophy as the best illustration ever practically tested of perfect ventilation.

CRANE'S PATENT
METALLIC BURIAL CASKET.
A newly invented Burial Case, fashioned to accord with the feelings of the bereaved, and yet retaining all the requisites of a suitable and appropriate receptacle for the dead. There is no reason why such an article should be made to crete, by its appearance, disagreeable associations. Under such bereavements whatever tends to soften or make less keen the poignancy of our grief, commends itself to our consideration. So much that is repulsive has been discarded in the arrangement and SHAPE of this Case, that its name, the "*Casket Burial Case*," is an involuntary suggestion.—We, therefore, have no hesitancy in saying that there has never been in use anything so entirely chaste appropriate, and withal, convenient, as this invention.
The Case permits a view of the entire body after it is enclosed, the top being composed of beautiful French plate glass, which is divided into three sections, between two of which is inserted the name-plate. For each of these sections of glass there is an elaborately ornamented cap.
The Subscribers being sole Agents for this vicinity, have always onhand every size of the above, from 2 ft. to 6 ft. 4 inches.
Also, *FINKE'S METALLIC BURIAL CASES*; Walnut, and Imitation Rosewood COFFINS, of superior finish.
All orders will receive our *personal attention*, and may be supplied at one hour's notice at

The Liver Invigorator.
PREPARED BY DR. SANFORD,
COMPOUNDED ENTIRELY FROM GUMS.
Is one of the best PURGATIVE and LIVER MEDICINES now before the public.
These GUMS remove all morbid or bad matter from the system, supplying a healthy flow of bile, invigorating the stomach, and bringing the whole machinery, removing the cause of the disease—effecting a radical cure.
BILIOUS DISEASES are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.
One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.
Only one dose taken before retiring, prevents NIGHTMARE.
One dose taken at night, loosens the bowels gently and cures COSTIVENESS.
One dose taken after each meal will cure DYSPEPSIA.
One dose of two teaspoonfuls will always relieve SICK HEADACHE.
Only one dose immediately relieves COLIC.
All who use it are giving their unanimous testimony in its favor.
Mix water in the mouth with the Invigorator, and swallow both together.
PRICE, ONE DOLLAR PER BOTTLE.

THE ONLY ARTICLE
UNRIVALLED IN THE MARKET,
WITH IMMENSE
HOME AND EUROPEAN DEMAND.
The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headaches, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week will never fall or become gray; then, reader, read the following and judge for yourselves:
NEW YORK, Jan. 8, 1858.
MESSRS. O. J. WOOD & CO.,
Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.
The result has been so very satisfactory that I am very glad I did so, and believe to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.
My hair is now its natural color and much improved in appearance every way, being glossy and thicker and much more healthy looking. I am, very respectfully, HENRY JENKINS.
Cor. Columbia and Carroll Sts., Brooklyn.
LIVINGSTON, Ala., Feb. 14, 1858.
PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having tried all other remedies known, to no effect. I think it the most valuable thing now extant, and advise all who are afflicted that way to use your remedy.
You can publish this if you think proper.
Yours, &c. S. W. MIDDLETON.
PHILADELPHIA, Sept. 9, 1857.
PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—now is in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,
D. R. THOMAS, M. D.,
No. 464 Vine Street.
The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

LOTTERIES.
THE LOTTERIES OF
WOOD, EDDY & CO.,
Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They therefore offer public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of
WOOD, EDDY & CO.,
are authorized by the Legislature of either State.
A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga. All orders received being filled in the drawing next to take place after same comes to hand.
Whole tickets are $10; halves, $5; and quarters, $2.50.
No ticket sent unless the money accompanies the order. Prizes varying from $20 to $50,000.
Every prize is drawn, and the result of drawing forwarded to all purchasers.
☞ A circular showing the plan of receiving it. All communications strictly confidential.
Write your address plainly, and direct to
WOOD, EDDY & CO.,
Wilmington, Delaware.
Or to WOOD, EDDY & CO.,
Augusta, Georgia.
☞ All letters to our address will be promptly acknowledged—and prizes cashed without delay.
NOTICE TO CORRESPONDENTS.
Those who prefer not sending money by mail, can use the "ADAMS EXPRESS COMPANY," whereby money for tickets, in sums of ten dollars, and upwards, can be sent us
AT OUR RISK AND EXPENSE,
from any city or town where they have an office. The money and order must be enclosed in a "GOVERNMENT POST OFFICE STAMPED ENVELOPE," or the Express Company cannot receive them.

DR. J. B. HUGHES,
Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be forwarded to any other place, wise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.
Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.
DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empirics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.
Patients treated by letter by addressing Dr. Hughes, post paid, and medicine sent all over the country, carefully concealed from scrutinizing friends.
Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of health, when that is the great pillar of life, a healthy constitution.
This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in cases of the most superior virtue in regulating all female irregularities. They are perfectly safe in all certain, producing relief in a short space of time. They are acknowledged to be the best in use.
The Dr. continues the Genuine Pills, and impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely worthless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.
All who are in pursuit of the genuine article, had better call on Mrs. Dr. Hughes, office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.
These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.
☞ Rooms and accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jl dly

YOU HAD BETTER TRY
MY MOTHER'S SALVE
This celebrated preparation has obtained a world wide reputation for its GREAT CURATIVE PROPERTIES, and has been the agent of relieving so many sufferers, restoring them to health and usefulness, that the proprietors feel it a duty they owe to the public for their generous patronage bestowed upon this Salve, to make it accessible to rich and poor, that all afflicted may avail themselves of its healing qualities.
"My Mother's Salve" is a Perfect Chemical Compound, prepared from Roots, Herbs and Gums, gathered from the forests, and possesses Healing, Soothing and Pain-Relieving Virtues never before combined in a Salve or Ointment.
"My Mother's Salve" is safe and effectual, and all those who have suffered from RHEUMATISM, SALT RHEUM, ERYSIPELAS, GOUT, PILES, and such like diseases, will find in its use great relief, and in most cases a Permanent Cure.
"My Mother's Salve" in a BURN OF SCALD, takes out the fire, soothes the irritating pain, and heals the wound more speedily and effectually than any other known application.
"My Mother's Salve" is worthy of confidence, and thousands having used it and recommended it to their friends is a test of its worth.
Directions for using **"My Mother's Salve"** are simple. Every mother and nurse knows how to spread a plaster, and dress a sore, and all who use the Salve will apply it in proportions, renewed at times, as good judgment may direct. For Rheumatism and other pains, rub the parts smartly with Salve. In cases of Cough, Tightness of the Lungs, Sore Throat, and such like ails, rub as in rheumatism. In any case of pain a good result follows the use of this Salve. Prepared by A. M. BOCK, BURRILL & HUNTING, SOLE PROPRIETORS,
No. 6 Tremont Street,
(Two doors north of Court st.,) BOSTON.

AYER'S SARSAPARILLA,

A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from the usual method of making Pants is: they may be made snug to the person, and still be as easy as though they were uncomfortably large. Pants that are easy to stand in are easy to sit or stoop in.

Also for sale, GREELEY'S BRACE SUSPENDER—a superior Suspender for Skirts or Pants, and far superior to any other BRACE in the market. may25

Here's Health for the Million!!
CLARKE'S SHERRY WINE BITTERS
Composed of Rock Rose, Wintergreen, Yellow Dock Root, Sarsaparilla, Wild Cherry, Prickly Ash, Poplar Bark, Mandrake, &c.
They operate on the three main organs of the system, the Blood, Liver and the Kidneys, curing Jaundice, Loss of Appetite, Dyspepsia, Asthma, &c., &c. For Asthma it is particularly successful. Annexed are extracts from a few of the many certificates of astonishing cures, now in the hands of the proprietor.
Mechanics, Farmers, Clergymen and Public Men, all feel at some seasons of the year, the need of a gentle Tonic, and no medicine can be better adapted for their purpose.
Buy this, and try it, if you wish to live to a good old age, and enjoy all the comforts of a life of perfect health.
Try them! all ye lovers of good Bitters and good health and you will find them a cheap, effectual and pleasant remedy. The largest Bottle, the lowest price, and the best medicine in the world; and sold everywhere for the low price of 25 Cents for a Pint Bottle. 42 cts. 1 qt; 75 cents 2 qts; and only $1,25 for 4 qts.

NEW STYLE!!
GREELEY'S PATENT ELASTIC
BACK AND CENTRE
SUSPENSION PANTALOONS.
Patented June 29, 1858.
J. E. HAM & CO.,
Have purchased the right to manufacture the above named Pantaloons. The advantages of this invention over the usual method of making Pants is: they may be made snug to the person, and still be as easy as though they were uncomfortably large. Pants that are easy to stand in are easy to sit or stoop in.
Also for sale, GREELEY'S BRACE SUSPENDER—a superior Suspender for Skirts or Pants, and far superior to any other BRACE in the market. may25

Oleine Diamond Oil.
GREATEST ILLUMINATOR OF THE AGE.

This Oil is entirely free from treachery, so that a lamp may be left burning any length of time desired, without filling a room with lamp-black or soot.

It burns in the common oil lamp, with or without a chimney.

Its light is far more pleasant than gas, as it is free from the disagreeable flickerings always attending a gas light, and is cheaper. We claim for this Oil:

1. That it is cheaper than any other artificial light.
2. That it has no odor.
3. That it will not smoke
4. That it will burn with or without a chimney, hence it is portable.
5. That it will stand a lower degree of temperature than any other Oil.

6. That it is free from each of the objections that are brought against every other article heretofore or now being offered to the public for illuminating purposes.

Price $1.25 per gallon.
For sale, wholesale and retail, at
96 Market Street, Portsmouth,
where the public are invited to call and examine for themselves.

Dr. B. S. Goodwin, Indian Physician,
Would respectfully inform the friends of the Indian Practice of Medicine and the public generally, that he has permanently located in Portsmouth, where he may be consulted on all the Diseases that man is subject to, at his residence and office, No. 9 Market street. Dr. G. will be found at home ready to give all in need of Medical advice to call on him.
ADVICE FREE.
Dr. Goodwin would assure all that his Medicines are purely Vegetable, and prepared by himself, and are calculated to purify the blood, and eradicate all diseases from the system.
THE FOLLOWING ARE SOME OF THE DISEASES SUCCESSFULLY TREATED BY DR. GOODWIN. Consumption in the first stages, Coughs, Asthma, Bronchitis, Erysipelas, Diseases of the Liver, Jaundice, Dyspepsia, Fevers, Fever and Ague, Diarrhœa, Cholera Morbus, Cancers, Dropsey, Worms, all Diseases peculiar to Females, Humors of all descriptions, Inflammations of all kinds, Rheumatism and all kindred Diseases.
No Mercury! No Bleeding! No Blisters!
Our philosophy of practice is founded on the laws of Nature; our theory of Disease the theory of experience and evidence; our Materia Medica, the boundless Forest. Portsmouth, Oct. 14, 1858.

FRENCH
Steam Scouring and Fancy Dyeing,
IN BOSTON
A. LEWANDO pledges himself, from long study and practical experience in his native country and throughout Europe, in the art of Chemistry and coloring, that he can produce superior satisfaction, and his manner of preparing goods for coloring is such that the fabric will retain its former strength and lively virtue, and in no instance assume that dull, decayed look, unavoidably produced by dyers in this country.
Particular attention given to Dyeing and Refinishing, in a new and very superior style, Silks, Satin, Velvet, Merino, Thibets and Cashmere Shawls, Canton and Italian Crapes, Gimps, Fringes, Curtains, Piano and Table Covers, Hosiery, &c. Feathers colored and curled—by a newly discovered process, far surpassing anything yet offered to the public. He is prepared to dye and cleanse every kind of Ladies' and Children's Dresses, Silk, Velvet or Wool, plain or embroidered, without removing the trimmings, or taking to pieces.—Spots taken out without fading or changing color.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, JULY 6, 1859.

PLUMER THE MUTINEER.—The New Bedford Mercury states that Capt. Howland, of the whaleship Golconda, which arrived at that port on Thursday last, related to the editors the following facts relating to Plumer, which go far to show that the persevering efforts that have been made in Boston and elsewhere to enlist sympathy in his behalf are wholly misplaced. Plumer was shipped as seaman on board of Capt. Howland's ship on the voyage preceding the last, and although apparently willing to perform the duty required of him, evinced a restless and uneasy temper, and at length deserted. After Plumer's desertion, a seaman while aloft with Capt. Howland disclosed to him that Plumer, while on board the vessel, had devised a plan to obtain command of the ship, and to seize Capt. Howland while asleep in his berth and throw him overboard. Capt. Howland states it as his unqualified belief that this atrocious proposition, made by Plumer to certain of the crew, was prevented from being carried into execution only by his failure in procuring assurance of the requisite assistance for its accomplishment. Capt. Howland had heard nothing concerning Plumer's subsequent career until his arrival.

DO NOT EARN THEIR DINNERS.—The Journal of Commerce reports that the sales at the stock board in New York, upon commission for outside parties, have been smaller for several weeks than at any time for a long period, and the membership of the Board, independent of opportunities for personal speculation, is hardly worth the fee. The daily average of veritable commissions can hardly exceed $100; and this divided among the whole list of members would give to each a little less than seventy-five cents per day—not enough for a comfortable dinner.

The Savannah Republican says gold has been found in small quantities in South Charlestown, N. H., on the land of Roswell Robertson.

Some one remarks that he found it in very small quantities, viz., a gold dollar, being all he could find in his pocket. A great many of the people at South Charlestown are probably in the same predicament. But it is strange to hear such news from New Hampshire *via* Savannah.

☞ Isabella Thompson of Washington county, Ohio, although not quite six years of age, weighs over 200 pounds. She is three feet ten inches high, and her arm between the elbow and shoulder measures seventeen and one-quarter inches in circumference. She is a woman in appearance, and is as intelligent as ordinary children of her age.

"GARIBALDI, THE HERO OF ITALY."—A new startling story with this attractive title is to commence in the New York Weekly for July 23d, to be published July 9th.—A. J. H. Duganne is the writer, and he is amply qualified for the task by acquaintance with Italian history, and with the eminent patriot himself.

☞ A man calling his name Griffin, who professes to belong in Gloucester, has been buying goods of various houses in Boston, in amounts from one to three hundred dollars, giving in payment therefor forged checks on G. Beck, auctioneer. Several firms have been victimized by him.

☞ A correspondent of the Philadelphia Press says that Mr. Wendell, the public printer, has in his possession a letter, in which Mr. Buchanan, over his own signature, does not hesitate to recommend the disbursement of a large amount of public money to certain favorites connected with newspapers in different part of the country.

☞ The late Prince de Metternich was proprietor of the château and vineyards of Johannisberg. This fine estate was given him in 1816 by the Emperor Francis II., on condition that he should every year send a tenth part of the produce of the vines to the imperial cellars.

☞ In the Supreme Judicial Court at Boston on Saturday, in the case of Sarah E. Shaw *v.* the Boston and Worcester Railroad Corporation, the motion for a new trial was overruled, and judgment for $22,246 ordered to be entered for Mrs. Shaw.

Rev. Mr.——, an eccentric preacher in Michigan, was holding forth not long since in Detroit. A young man arose to go out, when the preacher said:—"Young man, if you had rather go to hell than hear me preach, you may go!" The sinner stopped, and reflected a moment, and saying, respectfully, "Well, I believe I would," went on.

PITTSFIELD, Mass., July 3.—The most violent storm of lightning and rain ever known here occured on Saturday evening. A large number of bridges, dams and culverts have been swept away.

The 11 o'clock train from New York on the Housatonic Railroad ran into a washed culvert three miles below Pittsfield, and the train was broken up. No one was hurt.

AN ITEM.—The Tribune's Washington correspondent says:—

"The administration is daily receiving leaders from all parts of the country, representing that its recent manifesto, denying protection to adopted citizens abroad, has produced the most disastrous effects on the party. All through the West this feeling is strongly expressed, and is believed that thousands of votes will be lost from this cause in the August elections. Leading Democrats write that this declaration has not only extinguished all hopes of gain by the Massachusetts Amendment, but driven away numbers of the truest party men, who consider they have been misled and deceived."

THE FREE NEGROES OF MARYLAND.—The fact brought to notice by the recent Slaveholders' Convention, that the free blacks constitutes more than one-eighth of the entire population in Maayland, excites no little surprise. Few at the North were prepared to hear that they were so numerous, though an examination of that much neglected volume, the census returns of 1850, would have revealed the state of the case. The Albany Evening Journal, sharing the general misapprehension, speaks of the free negres of Maryland as a "few hundred" Mr. Pearce, on the other hand, states their present number at 80,000. In the State of New York, by the census of 1850, we had 49,069 colored people. If they were proportionally as numerous here as in Maryland, we should have to-day 400,000, or ten times the actual number.—A Baltimore journal says more than half the free blacks reside in that city, where the returns of the Savings Banks, as well as the condition of the churches and societies supported by them, evince their perfect ability to take care of themselves when they have an opportunity for employment and improve it. Slavery in Maryland exists mainly in the country on large farms. The towns, including the large and commercial city of Baltimore, are favorable to freedom.—*New York Times.*

SLAVERY IN MASSACAUSETTS.—In olden times, when slavery was sanctioned in Massachusetts, a wealthy lady residing in Gloucester was in the habit of giving away the infants of her female slaves, a few days after they were born, as people are accustomed to dispose of a litter of kittens.—One of the neighbors begged an infant, which, in those days of comparative simplicity, she nourished with her own milk, and reared among her own children. The woman had an earnest desire for a brocade gown, and her husband not feeling able to purchase one, she sent her little nurseling to Virginia, and sold her when she was about seven years old.—*Mrs. Child's History of Women.*

KANSAS CONSTITUTIONAL CONVENTION, *Leavenworth, July* 2.—The Constitutional Convention assembles at Wyandotte on Tuesday next. The Republicans claim a majority of 12, but as the certificates will not be issued until the day of the Convention, its absolute political character cannot be stated. It is understood that in any event a Constitution will be framed prohibiting slavery, and that an effort will be made to engraft a provision to exclude negroes from the State; also one prohibiting the incorporation of banks of issue; and that action will be taken in reference to the claims of sufferers during the past troubles in the territory. The proposition to annex Southern Nebraska to the State is to be considered, and delegates from Nebraska will be present. The project is thus far favorably received.

A BEAR ATTACKS HIS KEEPER.—The bear which recently bit a little boy who approached him while the animal was being exhibited on the City Hall lot, yesterday seized Cyril Randall, his keeper, by the right leg, and inflicted several dangerous wounds. The proprietor was intending to have an exhibition in a neighboring city, and had brain taken in the yard for the purpose of rendering the cage more respectable. Mr. Randall kept close to him; but turning round for a moment, the animal sprang at his leg, tore the pants, and bit clear to the bone, giving at the same time a most savage growl, well calculated to inspire terror. Mr. Randall, notwithstanding the pain of the wound, seized the bear in turn with the courage of an old hunter, and held him so that he could inflict no further injuries. It was a bold struggle and well contested until assistance was procured and the bear driven to his cage. The wounded limb was dressed by Dr. Miller, who thought no dangerous consequence would be the result. Bruin last night enjoyed his final supper of cold lead and powder.—*Providence Journal.*

On Tuesday, the 14th inst., a respectable farmer of West Boylston went to Boylston to see the working of a mowing machine. His wife accompanied him part of the way, and the children, including one girl of fifteen, and her younger brothers and sisters, were left at home. An Irishman, who had been hired the day before for the summer, was told to clear out the cellar, and go to hoeing corn. When he began to work he began to drink cider from a barrel in one corner of the cellar. He proceeded with equal rapidity to clear the cellar and drink the cider, and when he went into the field, he carried a pail of cider with him. After drinking half a dozen quarts of cider during the afternoon, he returned to the house half maddened by what he had drank, turned the little children out of doors and attacked the girl. She bravely defended herself as long as her strength lasted, but was finally overpowered, and the villain succeeded in his vile purpose. He has been arrested and committed.—*Worcester Transcript.*

GOOD ADVICE.—"If you marry," said a Roman Consul to his son, "let it be a woman who has judgment and industry enough to cook a meal for you, taste enough to dress neatly, pride enough to wash before breakfast, and sense enough to hold her tongue."

Men are intolerant in regard to all subjects. Every one has his own theory, and looks upon those who do not agree with him as either foolish or wicked.—*Exch.*

WITLINGS.—It is a mistaken notion (a fundamental error?) that the "seat of war" and the "seat of honor" are synonymous terms.

The readers of the Courier may expect to hear occasionally from Mr. Hillard, through the columns of this paper.—*Boston Courier.*

☞ Orders have been given for introducing athletic games and gymnastic exercises in the British army. The idea is derived from the French. The Zouaves are trained gymnasts, and are as agile as so many Ravels. Their exploits in scaling ramparts are almost incredible. They climb over each other's backs, making a ladder of their bodies against a wall. The exercises are promotive of health, as well as of efficiency in the hour of action.

☞ A disaster occurred on the steamer Bay State (Fall River Line) Monday night. She left New York at 5 P. M., and had proceeded about four miles, when one of her boilers exploded, carrying all before it. The entire deck and sides were blown through. Mr. Lawrence, 2d Engineer, had a severe scalding, but it is hoped not fatal, one passenger hurt quite badly, two or three others more or less injured.

THE VERDICT OF A CANADIAN JURY. The St. Catharines Post states that a man fell down an embankment in that city, a few nights since, and was killed. The coroner's jury which sat upon the body returned a verdict of wilful murder against the Street Committee and other members of the Corporation, for leaving the place unguarded.

SPECIAL NOTICES.

DYSENTERY.—For Dysentery and similar complaints of the Summer season, the PERUVIAN SYRUP has proved a remarkable preventive and cure. By imparting tone to the intestinal mucous membrane, it places this surface in the best possible condition to resist the irritation of crude and indigestible articles of food.

Dyspepsia.

Considering the various forms in which this disease developes itself, it may well be called hydra-headed. In its train follow *Indigestion, Pain in the Stomach, Heartburn, Water Brash, Costiveness, Piles, Acidity, Oppression after Eating, Jaundice, Flatulency, Torpor of the Liver, Dizziness, Debility, Female Complaints, &c.* Some of the first men in our land have given their written certificates relative to the cures effected in their own persons by the OXYGENATED BITTERS, while testimonials from other sources, editorial opinions and voluntary expressions from persons averse to see their names in print, are perfectly overwhelming.

Read the following from a highly respectable Clergyman:

EAST TAUNTON, Mass., Feb. 9, '58.

To the Editor of the Portland Mirror,—Sir:—OXYGENATED BITTERS.—For more than twenty five years I have been a sufferer from the dyspepsia. Besides trying the patience of my family physicians in the almost useless trial of their various prescriptions, I have tried a great variety of patent medicines with a similar result. But through the kindness of my physician, I received last March, half a dozen bottles of the OXYGENATED BITTERS. I began to use them without any hope of deriving help from them. Being determined to give them a fair trial, I continued their use, but without any perceptible benefit.... June.

Since then I have gradually improved in health till I am entirely free from acidity of the stomach, and from the consequent flatulency, and the awful and almost distracting sick headache, which often, for days together, has wholly unfitted me for study and for all other ministerial duties, and rendered like a burden.

I feel that I owe it, as an expression of gratitude to Messrs. Fowle & Co., and also a duty to the public, to recommend their Oxygenated Bitters, as, in my estimation, a sure remedy for that most trying, most vexing, and cruel of all diseases, to which poor human flesh is heir, the dyspepsia. Having suffered so long, and tried so many different remedies with no good result, I can recommend the Oxygenated Bitters with a confidence to others on it. If any of my readers of the Mirror are suffering, I beg of them to make trial of these Bitters without delay.

Nature is the Great Physician.

This is now admitted by the medical profession as a fundamental principle of healing science. It is wisely provided by the human economy, that whenever anything is wrong in the physical system, the natural forces of the body are brought to bear to expel the disease. The great aim, therefore, is to strengthen the natural powers. This has been kept in view by the skillful compounders of Dr. J. HOSTETTER'S BITTERS, which operate to give fresh vitality to all the organs of the body. The effects of this medicine upon the stomach, the liver and the kidneys, are very prompt and decisive. The patient who is wise enough to quit drugging, and try the BITTERS, soon feels as he if he had taken a new lease of life, and as he continues the use of the article he is overjoyed to find the stream of health coursing through his frame. Let all those whose cheek the bloom has departed, give Dr. J. Hostetter's Celebrated Bitters a trial.

Sold by druggists and dealers generally, everywhere.

SCROFULA CURED IN TWENTY DAYS.

William Miles, aged 37, had been afflicted with Scrofula for 11 years. On the 1st of August, by the advice of Dr. William Root, of Marietta, Ga., he commenced the use of RADWAY'S RENOVATING RESOLVENT. In 6 hours he felt a change for the better; in 12 hours small pustules were seen covering the whole surface of his body; in 24 hours he was covered with discharging sores. He still took the Resolvent freely, but finding his bowels very costive, he took six of RADWAY'S REGULATORS. They operated powerfully and pleasantly. He afterward took one Regulator at night. The sores caused him some irritation, which he allayed by bathing them with the Resolvent. The fourth day the sores all healed up. He continued the Resolvent and the Regulators for 20 days, when on the last day, which was on the night of the 20th day, he has not experienced any returning symptoms or uneasiness. His blood is pure, skin clear, and bowels regular.

R. R. R. is sold by Druggists everywhere.

R. R. R. Office, 162 Fulton street, New York.

N. B.—For Scrofula, Syphilis, Female Complaints, use R. R. Resolvent. For Irregularity, use Radway's Regulators.

TO THE CITIZENS OF NEW HAMPSHIRE.

Charles's London Cordial Gin.

THE ORIGINAL AND ONLY LONDON GIN IMPORTED.

This Gin, distilled in London, from sound Barley, under the surveillance of the British Excise Laws, is delicately flavored with a tincture of the Italian Juniper Berry, and some of the most valuable restoratives of the vegetable kingdom, rendering it in the opinion of the most eminent medical authorities, the purest and safest stimulant or diuretic thing in use.

It is a delicious tonic, of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as Holland Gin or Schnapps so objectionable.

Though not intended solely as a medicine, it is recommended by physicians generally in cases of DYSPEPSIA, GOUT, RHEUMATISM, COLIC, DROPSY, GRAVEL, CHOLERA, FEVER and AGUE, STRICTURE, DISEASES of the URINARY ORGANS, the KIDNEYS and the BOWELS, NERVOUS DEBILITY, &c., whilst the weaker sex will find by its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

Dr. Valentine Mott, of New York, the highest medical authority, pronounces Charles' London Cordial Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Northern and Eastern States, as well as for travellers exposed to changes of water and air.

For sale in quarts at a security five cents, and in pints thirty-eight cents, by all druggists, grocers, fruiterers and country merchants. Beware of imitations. Buy only CHARLES'.—NONE OTHER IS IMPORTED.

LOCAL.

☞ The glorious Fourth was celebrated after the John Adams pattern to some extent, and to a greater extent after the Portsmouth pattern, in this city.

The day was ushered in the night before, by the boys, after their usual fashion, only a little more so. They began with pop—whizz—bang—crash—somewhat before midnight on Sunday night, and kept it up till sunrise, with variations, when they were relieved by the city employees, who rang the bells and fired the guns to order.

Besides the noise and confusion whereby the boys made the night hideous to the healthy and distressing to the sick, they did no little mischief by pulling down fences, stealing blinds and gates, dragging off old carriages, and every movable thing that would burn, out of which they made bonfires on Market Square and near Spring Market, to the terror of the timid, and the loss of the owners.

We understand there were a large number of police (26) stationed at different points to prevent mischief, exactly as was done last year; but the boys (many of them not small) were so numerous and so well organized for mischief, as to render even that large number of police of no great avail in preventing evil.

It is our opinion, however, that a few arrests, fines, and imprisonments, might prevent the recurrence of such wanton injuries, many of them inflicted on people not well able to lose their property.

The peals of bells and salvoes of artillery at sunrise, noon and sunset, were well played out according to the programme.

A large number of Portsmouth people went over the Concord Railroad to Stratham, where Diman's Strawberry Celebration Festival was attended by a numerous and lively assembly, and where five hundred boxes of strawberries on the tables, with lots of other things, formed a happy union of the *utile cum dulcis*; the Portsmouth Cornet Band enlivened the scene by their fine playing, and everybody was gratified.

The same band played here finely in the evening, to a highly gratified audience.

The fireworks exhibited were of a superior order, well discharged, prompt and satisfactory, fired without accident, and closed in good season, finishing up the day with a good effect.

☞ Rev. Mr. Gower, of Philadelphia, who has been much connected with Sabbath Schools and Bands of Hope, and who is to be here with Mr. Sinclair this week,—invites youth and children of Sabbath and other Schools, to meet him at the Temple, this (Wednesday) afternoon, at half past 2 o'clock, to practice temperance Songs and tunes, which may be sung on Saturday afternoon at the exibition of the Paintings by Mr. Sinclair.

☞ We are much indebted to Master Horace N. Berry, of Greenland, formerly our carrier and now our agent in that beautiful town—for an immense and tastefully arranged Bouquet, left at our Counting-room on the Fourth of July. It was sufficiently large for a shield, and contained flowers enough to deck the floral procession, we didn't have on that day. Our thanks for flowers, always.

☞ A blade of grass pulled from the yard of B. Cheever, on Hanover street, measures 6 feet 6 inches. Where is Jack of the bean stalk?

☞ Mr. Sinclair visits this place on Thursday, and opens his Panorama in the evening, at the Temple. Go and see it, and hear him.

REPUBLICAN VOTE FOR GOVERNOR FOR FIVE YEARS!—

1855	Ralph Metcalf,	32,769
1856	" "	32,031
1857	William Haile,	34,216
1858	" "	36,215
1859	Ichabod Goodwin,	36,326

In Mr. Goodwin's vote (1859) might properly be included the poll of the town of Sanbornton, which failed to ballot for state officers. The Republican vote of that town was 361, which added to Mr. Goodwin's vote gives that gentleman 37,687; an increase over the year previous of 472.—So the vote cast for Ichabod Goodwin is the largest ever given any of our candidates for Governor.—*Concord Statesman.*

REPUBLICAN VOTE FOR CONGRESS.—Congressional vote in the several Districts of this State for the years 1855, 1857, '59:

	1st District.	2d District.	3d District.
'55.	Pike, 13,011.	Tappan 12,129.	Cragin, 12,126.
'57.	" 12,242.	" 16,635.	10,992.
'59.	M'ston 12,539	" 11,988.	Edw'ds, 11,717.

CLEVELAND, July 4.—The barque Sunshine capsized on Saturday afternoon, off Fairport, and the captain, first mate, four seamen and three children were all lost.—The captain's wife, second mate and six seamen were picked up yesterday morning.

Barque B. A. Stannard, from Buffalo for Chicago, was also capsized, Saturday, on the north shore. The two mates were drowned.

LARGE FAILURE.—The failure of Messrs. Wiggin, Morse & Co., wholesale grocers, State street, was reported in Boston, on Thursday. The firm had been speculating considerably in sugar lately, and caught a Tartar in the article called cream-of-tartar, by which they lost heavily.—*Argus.*
